## List of Publications by Year in Descending Order

**Source:** <https://exaly.com/author-pdf/2082995/nikolaos-kosmas-publications-by-year.pdf>  
**Version:** 2024-04-10

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.  
The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

10 papers	35 citations	4 h-index	5 g-index
12 ext. papers	53 ext. citations	2.2 avg, IF	1.98 L-index

#	Paper	IF	Citations
10	Rising trends in Takotsubo syndrome during the COVID-19 pandemic: a single center experience.. <i>Hellenic Journal of Cardiology</i> , <b>2022</b> ,	2.1	
9	Differential prognostic value of resistin for cardiac death in patients with coronary artery disease according to the presence of metabolic syndrome. <i>Heart and Vessels</i> , <b>2021</b> , 1	2.1	
8	Homozygosity of the TT methylenetetrahydrofolate reductase C677T genotype is an independent long-term predictor of cardiac death in patients with premature myocardial infarction. <i>Current Medical Research and Opinion</i> , <b>2021</b> , 37, 1079-1084	2.5	1
7	Hyperhomocysteinemia as the only risk factor in a young man presenting with ST-elevation myocardial infarction. <i>Journal of Cardiology Cases</i> , <b>2021</b> , 23, 112-114	0.6	1
6	Prognostic value of adiponectin in patients with stable coronary artery disease in the era of statins. <i>European Journal of Internal Medicine</i> , <b>2020</b> , 79, 118-119	3.9	
5	Homocysteine is an independent predictor of long-term cardiac mortality in patients with stable coronary artery disease in the era of statins. <i>Coronary Artery Disease</i> , <b>2020</b> , 31, 152-156	1.4	9
4	PCSK9 inhibitors in clinical practice: Novel directions and new experiences. <i>Hellenic Journal of Cardiology</i> , <b>2020</b> , 61, 241-245	2.1	7
3	Myocardial infarction or acute coronary syndrome with non-obstructive coronary arteries and sudden cardiac death: a missing connection. <i>Europace</i> , <b>2020</b> , 22, 1303-1310	3.9	8
2	Prevalence of heterozygous familial hypercholesterolemia and combined hyperlipidemia phenotype in very young survivors of myocardial infarction and their association with the severity of atheromatous burden. <i>Journal of Clinical Lipidology</i> , <b>2019</b> , 13, 502-508	4.9	8
1	Reply to: "Bridging the treatment gap in patients at extreme cardiovascular risk: Evidence from a lipid clinic". <i>Atherosclerosis</i> , <b>2019</b> , 281, 219-220	3.1
