

Mostafa Ghanei

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/2094196/mostafa-ghanei-publications-by-year.pdf>

Version: 2024-04-26

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

257
papers

5,149
citations

#	Paper	IF	Citations
257	Simultaneous determination of BoNT/A and /E using an electrochemical sandwich immunoassay based on the nanomagnetic immunosensing platform.. <i>Chemosphere</i> , 2022 , 298, 134358	8.4	2
256	A ratiometric electrochemical DNA-biosensor for detection of miR-141.. <i>Mikrochimica Acta</i> , 2022 , 189, 213	5.8	1
255	It is time to consider an anti-inflammatory therapy based on the pathophysiology of COVID-19 infection during the right time window?. <i>Archives of Medical Science</i> , 2021 , 17, 546-550	2.9	
254	Effect of COPD on Health-Related Quality of Life; Results from the BOLD Study in Iran. <i>Tanaffos</i> , 2021 , 20, 51-58	0.5	
253	Dual-template rectangular nanotube molecularly imprinted polypyrrole for label-free impedimetric sensing of AFP and CEA as lung cancer biomarkers.. <i>Talanta</i> , 2021 , 239, 123146	6.2	8
252	Advice on assistance and protection provided by the Scientific Advisory Board of the Organisation for the Prohibition of Chemical Weapons: Part 3. On medical care and treatment of injuries from sulfur mustard. <i>Toxicology</i> , 2021 , 463, 152967	4.4	0
251	Indicators of Sensory and Intellectual Thinking Based on Clinical Psychology and Islamic Perspective and their Role in Psychotherapy and Spiritual Health: Introducing a New Model of Thinking. <i>Journal of Religion and Health</i> , 2021 , 1	2.6	
250	PI3K signalling in chronic obstructive pulmonary disease and opportunities for therapy. <i>Journal of Pathology</i> , 2021 , 254, 505-518	9.4	3
249	Blood microbiota composition in Iranian pre-diabetic and type 2 diabetic patients. <i>Human Antibodies</i> , 2021 , 29, 243-248	1.3	2
248	Safety and efficacy of Favipiravir in moderate to severe SARS-CoV-2 pneumonia. <i>International Immunopharmacology</i> , 2021 , 95, 107522	5.8	22
247	Isolation and characterization of a novel nanobody for detection of GRP78 expressing cancer cells. <i>Biotechnology and Applied Biochemistry</i> , 2021 , 68, 239-246	2.8	4
246	Oral and nasal probiotic administration for the prevention and alleviation of allergic diseases, asthma and chronic obstructive pulmonary disease. <i>Nutrition Research Reviews</i> , 2021 , 34, 1-16	7	5
245	Multiple potential targets of opioids in the treatment of acute respiratory distress syndrome from COVID-19. <i>Journal of Cellular and Molecular Medicine</i> , 2021 , 25, 591-595	5.6	3
244	Bactericidal fully human single-chain fragment variable antibodies protect mice against methicillin-resistant bacteraemia. <i>Clinical and Translational Immunology</i> , 2021 , 10, e1302	6.8	0
243	COVID-19 in Chemical Lung Injury Cases. <i>Disaster Medicine and Public Health Preparedness</i> , 2021 , 1-2	2.8	
242	The risk factors and related hospitalizations for cases with positive and negative COVID-19 tests: A case-control study. <i>International Immunopharmacology</i> , 2021 , 98, 107894	5.8	1
241	The efficacy of corticosteroids therapy in patients with moderate to severe SARS-CoV-2 infection: a multicenter, randomized, open-label trial. <i>Respiratory Research</i> , 2021 , 22, 245	7.3	4

240	From Radiological Manifestations to Pulmonary Pathogenesis of COVID-19: A Bench to Bedside Review. <i>Radiology Research and Practice</i> , 2020 , 2020, 8825761	2.3	5
239	Are Iranian Sulfur Mustard Gas-Exposed Survivors More Vulnerable to SARS-CoV-2? Some Similarity in Their Pathogenesis. <i>Disaster Medicine and Public Health Preparedness</i> , 2020 , 14, 826-832	2.8	8
238	The clinical value of two combination regimens in the Management of Patients Suffering from Covid-19 pneumonia: a single centered, retrospective, observational study. <i>DARU, Journal of Pharmaceutical Sciences</i> , 2020 , 28, 507-516	3.9	7
237	Main gut bacterial composition differs between patients with type 1 and type 2 diabetes and non-diabetic adults. <i>Journal of Diabetes and Metabolic Disorders</i> , 2020 , 19, 265-271	2.5	19
236	Delayed effects of sulfur mustard on autophagy suppression in chemically-injured lung tissue. <i>International Immunopharmacology</i> , 2020 , 80, 105896	5.8	9
235	It is time to consider an anti-inflammatory therapy based on the pathophysiology of COVID-19 infection during the right time window?. <i>Archives of Medical Science</i> , 2020 , 17, 546-550	2.9	0
234	Free Radical Scavenging Principles of Boiss. Aerial Parts. <i>Iranian Journal of Pharmaceutical Research</i> , 2020 , 19, 283-290	1.1	1
233	Real Clinical Practice and Therapeutic Management Following COVID-19 Crisis in two Hospitals in Iran: A Statistical and Conceptual View. <i>Tanaffos</i> , 2020 , 19, 112-121	0.5	
232	Burden of Obstructive Lung Disease in Iran: Prevalence and Risk Factors for COPD in North of Iran. <i>International Journal of Preventive Medicine</i> , 2020 , 11, 78	1.6	2
231	Long-term Health Outcomes Among Survivors Exposed to Sulfur Mustard in Iran. <i>JAMA Network Open</i> , 2020 , 3, e2028894	10.4	5
230	Adipose-derived mesenchymal stem cells ameliorate lung epithelial injury through mitigating of oxidative stress in mustard lung. <i>Regenerative Medicine</i> , 2020 ,	2.5	4
229	Intestinal Microbiota Composition in Iranian Diabetic, Pre-diabetic and Healthy Individuals. <i>Journal of Diabetes and Metabolic Disorders</i> , 2020 , 19, 1199-1203	2.5	4
228	Proactive agenda setting in creation and approval of national action plan for prevention and control of non-communicable diseases in Iran: The use of multiple streams model. <i>Journal of Diabetes and Metabolic Disorders</i> , 2020 , 1	2.5	4
227	Roles of matrix metalloproteinases (MMPs) in SM-induced pathologies. <i>Toxin Reviews</i> , 2020 , 39, 24-33	2.3	1
226	Electrochemical biosensors for the detection of lung cancer biomarkers: A review. <i>Talanta</i> , 2020 , 206, 120251	6.2	122
225	A review on proteomics analysis to reveal biological pathways and predictive proteins in sulfur mustard exposed patients: roles of inflammation and oxidative stress. <i>Inhalation Toxicology</i> , 2019 , 31, 3-11	2.7	7
224	Association between chronic obstructive pulmonary disease and interleukins gene variants: A systematic review and meta-analysis. <i>Cytokine</i> , 2019 , 117, 65-71	4	3
223	Pulmonary rehabilitation in patients with mustard gas lung disease: a study protocol for a randomized controlled trial. <i>Trials</i> , 2019 , 20, 132	2.8	

222	TNF- β 308 G/A variant and susceptibility to chronic obstructive pulmonary disease: A systematic review and meta-analysis. <i>Cytokine</i> , 2019 , 123, 154763	4	4
221	Prevalence of Asthma and Asthma-like Symptoms: a Study in Five Provinces of Iran. <i>Tanaffos</i> , 2019 , 18, 321-328	0.5	
220	Effects of a Novel Barley-Based Formulation on Allergic Rhinitis: A Randomized Controlled Trial. <i>Endocrine, Metabolic and Immune Disorders - Drug Targets</i> , 2019 , 19, 1224-1231	2.2	4
219	Burden of obstructive lung disease study in Iran: First report of the prevalence and risk factors of copd in five provinces. <i>Lung India</i> , 2019 , 36, 14-19	1.1	16
218	Knowledge, attitude and practice of e-cigarettes among healthcare professionals and smoking cessation volunteers. <i>Minerva Pneumologica</i> , 2019 , 58,	0.8	1
217	Altered expression of cyclooxygenase-2, 12-lipoxygenase, inducible nitric oxide synthase-2 and surfactant protein D in lungs of patients with pulmonary injury caused by sulfur mustard. <i>Drug and Chemical Toxicology</i> , 2019 , 42, 257-263	2.3	5
216	Noninvasive Real-Time Assessment of Cell Viability in a Three-Dimensional Tissue. <i>Tissue Engineering - Part C: Methods</i> , 2018 , 24, 197-204	2.9	10
215	Development of a molecularly imprinted polymer tailored on disposable screen-printed electrodes for dual detection of EGFR and VEGF using nano-liposomal amplification strategy. <i>Biosensors and Bioelectronics</i> , 2018 , 107, 26-33	11.8	54
214	Free Radical Production and Oxidative Stress in Lung Tissue of Patients Exposed to Sulfur Mustard: An Overview of Cellular and Molecular Mechanisms. <i>Chemical Research in Toxicology</i> , 2018 , 31, 211-222	4	14
213	TGF- β and Th17 cells related injuries in patients with sulfur mustard exposure. <i>Journal of Cellular Physiology</i> , 2018 , 233, 3037-3047	7	2
212	The Lancet Countdown on health and climate change: from 25 years of inaction to a global transformation for public health. <i>Lancet, The</i> , 2018 , 391, 581-630	40	521
211	Long-term right ventricular changes in mustard-exposed patients: A historical cohort. <i>Journal of Clinical Ultrasound</i> , 2018 , 46, 160-164	1	1
210	Scientometric Study on Non-communicable Diseases in Iran: A Review Article. <i>Iranian Journal of Public Health</i> , 2018 , 47, 936-943	0.7	3
209	Investigation of the efficacy of generic and brand-name salmeterol/fluticasone combination in the management of asthma: a randomized comparative trial. <i>Acta Biomedica</i> , 2018 , 89, 186-192	3.2	16
208	Evaluation of mRNA Expression Levels of TNF- β TNFR1 and IL1 β in Lung Tissue 20 Years after Sulfur-mustard Exposure. <i>Iranian Journal of Allergy, Asthma and Immunology</i> , 2018 , 17, 379-387	1.1	4
207	Stem cells therapy: a review on approaches that can be used for treatment of respiratory failures in sulfur mustard-injured patients. <i>Immunopharmacology and Immunotoxicology</i> , 2018 , 40, 359-367	3.2	4
206	Setting research priorities to achieve long-term health targets in Iran. <i>Journal of Global Health</i> , 2018 , 8, 020702	4.3	11
205	Efficacy of probiotic supplementation on quality of life and pulmonary symptoms due to sulfur mustard exposure: a randomized double-blind placebo-controlled trial. <i>Drug and Chemical Toxicology</i> , 2017 , 40, 24-29	2.3	9

204	Structure prediction, expression, and antigenicity of c-terminal of GRP78. <i>Biotechnology and Applied Biochemistry</i> , 2017 , 64, 117-125	2.8	7
203	miR-199a-5p and miR-495 target GRP78 within UPR pathway of lung cancer. <i>Gene</i> , 2017 , 620, 15-22	3.8	40
202	Adapting the ICRP model to predict regional deposition of the pharmaceutical aerosols inhaled through DPIs and nebulizers. <i>Journal of Drug Delivery Science and Technology</i> , 2017 , 37, 81-87	4.5	1
201	Comparative Network Analysis of Patients with Non-Small Cell Lung Cancer and Smokers for Representing Potential Therapeutic Targets. <i>Scientific Reports</i> , 2017 , 7, 13812	4.9	15
200	Proteomic analysis of drug-resistant Mycobacterium tuberculosis by one-dimensional gel electrophoresis and charge chromatography. <i>Archives of Microbiology</i> , 2017 , 199, 9-15	3	4
199	Investigating Prevalence and Pattern of Long-term Cardiovascular Disorders in Sulphur Mustard-exposed Victims and Determining Proper Biomarkers for Early Defining, Monitoring and Analysis of Patients' Feedback on Therapy. <i>Basic and Clinical Pharmacology and Toxicology</i> , 2017 , 120, 120-130	3.1	2
198	The systemic nature of mustard lung: Comparison with COPD patients. <i>Interdisciplinary Toxicology</i> , 2017 , 10, 114-127	2.3	9
197	Low Levels of Extensively Drug-resistant Tuberculosis among Multidrug Resistant Tuberculosis Isolates and Their Relationship to Risk Factors: Surveillance in Tehran, Iran; 2006 to 2014. <i>Osong Public Health and Research Perspectives</i> , 2017 , 8, 116-123	6.1	4
196	Prevalence of tobacco use and associated factors in Tehran: Burden of Obstructive Lung Disease study. <i>Lung India</i> , 2017 , 34, 225	1.1	7
195	A systems medicine approach for finding target proteins affecting treatment outcomes in patients with non-Hodgkin lymphoma. <i>PLoS ONE</i> , 2017 , 12, e0183969	3.7	9
194	Potential Utility of N-acetylcysteine for Treating Mustard Lung. <i>Critical Reviews in Eukaryotic Gene Expression</i> , 2017 , 27, 247-266	1.3	6
193	Prevalence of tobacco use and associated factors in Tehran: Burden of Obstructive Lung Disease study. <i>Lung India</i> , 2017 , 34, 225-231	1.1	4
192	The Quality of Life of Mustard Gas Victims: A Systematic Review. <i>Tanaffos</i> , 2017 , 16, 115-126	0.5	2
191	Two Lung Cancer Development-Related Genes, Forkhead Box M1 () and Apolipoprotein E (), are overexpressed in Bronchial of Patients after Long-Term Exposure to Sulfur Mustard. <i>Iranian Journal of Pharmaceutical Research</i> , 2017 , 16, 1487-1494	1.1	2
190	Sulfur Mustard-Induced Ocular Injuries: Update on Mechanisms and Management. <i>Current Pharmaceutical Design</i> , 2017 , 23, 1589-1597	3.3	10
189	Adipose-Derived Mesenchymal Stem Cells for Treatment of Airway Injuries in A Patient after Long-Term Exposure to Sulfur Mustard. <i>Cell Journal</i> , 2017 , 19, 117-126	2.4	13
188	Promising role for Gc-MAF in cancer immunotherapy: from bench to bedside. <i>Caspian Journal of Internal Medicine</i> , 2017 , 8, 228-238	1	5
187	The Role of Oxidative Stress in Severity of Obstructive Pulmonary Complications in Sputum of Sulfur Mustard-Injured Patients. <i>Iranian Journal of Toxicology</i> , 2017 , 11, 5-11	1.1	1

186	Enhancement of Hepatitis E Virus DNA Vaccine Immunity by Beclin-1- Mediated Autophagy. <i>Jundishapur Journal of Microbiology</i> , 2017 , 10,	1.2	1
185	Protective Effect of Ozone against Hemiscorpius lepturus Envenomation in Mice. <i>Biomedical and Environmental Sciences</i> , 2017 , 30, 581-590	1.1	1
184	Effects of Curcuminoids-Piperine Combination on Systemic Oxidative Stress, Clinical Symptoms and Quality of Life in Subjects with Chronic Pulmonary Complications Due to Sulfur Mustard: A Randomized Controlled Trial. <i>Journal of Dietary Supplements</i> , 2016 , 13, 93-105	2.3	116
183	Signs and Symptoms of Exposure to Mustard Gas 2016 , 55-75		
182	Diagnostic Methods in Chemical Patients 2016 , 87-106		
181	Treatment of Pulmonary Complications in Chemical Patients 2016 , 107-138		
180	Classification of Chemical Warfare Agents and Properties of Sulfur Mustard 2016 , 5-13		
179	A novel dendritic cell-targeted lentiviral vector, encoding Ag85A-ESAT6 fusion gene of Mycobacterium tuberculosis, could elicit potent cell-mediated immune responses in mice. <i>Molecular Immunology</i> , 2016 , 75, 101-11	4.3	5
178	Sulfur mustard causes oxidants/antioxidants imbalance through the overexpression of free radical producing-related genes in human mustard lungs. <i>Environmental Toxicology and Pharmacology</i> , 2016 , 45, 187-92	5.8	15
177	Th17/Treg-related cytokine imbalance in sulfur mustard exposed and stable chronic obstructive pulmonary (COPD) patients: correlation with disease activity. <i>Immunopharmacology and Immunotoxicology</i> , 2016 , 38, 270-80	3.2	20
176	Oxidative stress and altered expression of peroxiredoxin genes family (PRDXS) and sulfiredoxin-1 (SRXN1) in human lung tissue following exposure to sulfur mustard. <i>Experimental Lung Research</i> , 2016 , 42, 217-26	2.3	21
175	Proteomic analysis of sensitive and multi drug resistant Mycobacterium tuberculosis strains. <i>Microbiology</i> , 2016 , 85, 350-358	1.4	3
174	The effects of various chemicals on lung, skin and eye: a review. <i>Toxin Reviews</i> , 2016 , 35, 187-195	2.3	6
173	Relationship of oxidative stress with male infertility in sulfur mustard-exposed injuries. <i>Asian Pacific Journal of Reproduction</i> , 2016 , 5, 1-9	1.1	17
172	Investigation of the efficacy of generic and brand-name tiotropium bromide in the management of chronic obstructive pulmonary disease: A randomized comparative trial. <i>Saudi Pharmaceutical Journal</i> , 2016 , 24, 147-52	4.4	1
171	Two lung development-related microRNAs, miR-134 and miR-187, are differentially expressed in lung tumors. <i>Gene</i> , 2016 , 577, 221-6	3.8	18
170	Assessment of Treg/Th17 axis role in immunopathogenesis of chronic injuries of mustard lung disease. <i>Journal of Receptor and Signal Transduction Research</i> , 2016 , 36, 531-41	2.6	11
169	Overexpression of the non-coding SOX2OT variants 4 and 7 in lung tumors suggests an oncogenic role in lung cancer. <i>Tumor Biology</i> , 2016 , 37, 10329-38	2.9	30

168	Gene expression profile of oxidative stress and antioxidant defense in lung tissue of patients exposed to sulfur mustard. <i>Mutation Research - Genetic Toxicology and Environmental Mutagenesis</i> , 2016 , 800-801, 12-21	3	37
167	Molecular mechanisms of curcumins suppressing effects on tumorigenesis, angiogenesis and metastasis, focusing on NF- κ B pathway. <i>Cytokine and Growth Factor Reviews</i> , 2016 , 28, 21-9	17.9	41
166	Identification of new SOX2OT transcript variants highly expressed in human cancer cell lines and down regulated in stem cell differentiation. <i>Molecular Biology Reports</i> , 2016 , 43, 65-72	2.8	23
165	Determination of Characteristics of Erythromycin Resistant Streptococcus pneumoniae with Preferred PCV Usage in Iran. <i>PLoS ONE</i> , 2016 , 11, e0167803	3.7	16
164	Effect of Aloe Vera and Pantoprazole on Gastroesophageal Reflux Symptoms in Mustard Gas Victims: A Randomized Controlled Trial 2016 , 22, 190-194		2
163	Efficacy and safety of conventional long acting β_2 -agonists: systematic review and meta-analysis. <i>Caspian Journal of Internal Medicine</i> , 2016 , 7, 64-70	1	
162	Health Research Governance: Introduction of a New Web-based Research Evaluation Model in Iran: One-decade Experience. <i>Iranian Journal of Public Health</i> , 2016 , 45, 1309-1314	0.7	2
161	Prevalence and Geographic Distribution Pattern of Asthma in Tehran by ECRHS. <i>Tanaffos</i> , 2016 , 15, 236-242		1
160	Knowledge of healthy lifestyle in Iran: a systematic review. <i>Electronic Physician</i> , 2016 , 8, 2199-207	1.8	6
159	Immunology of Chronic Obstructive Pulmonary Disease and Sulfur Mustard Induced Airway Injuries: Implications for Immunotherapeutic Interventions. <i>Current Pharmaceutical Design</i> , 2016 , 22, 2975-96	3.3	7
158	A Proposed Strategy for Research Misconduct Policy: A Review on Misconduct Management in Health Research System. <i>International Journal of Preventive Medicine</i> , 2016 , 7, 92	1.6	3
157	Sulfur Mustard Exposure and Cardiovascular Effects: A Review. <i>Trauma Monthly</i> , 2016 , 22,	1	1
156	Gastroesophageal Reflux in Chemical Patients 2016 , 77-85		
155	Biochemical and Cellular Molecular Mechanisms of Injury From Mustard Gas 2016 , 15-34		
154	Mustard Gas and Cancer in Chemical Patients 2016 , 139-145		
153	The Effects of Mustard Gas on Pulmonary Function and Structure 2016 , 35-53		
152	History of Chemical Weapons Use 2016 , 1-4		
151	Evaluation of the pharmacoeconomics of drugs used for the treatment of long-term complications of sulfur mustard. <i>Italian Journal of Medicine</i> , 2016 , 10,	0.5	1

150	Modified TB rapid test by proteinase K for rapid diagnosis of pleural tuberculosis. <i>Apmis</i> , 2016 , 124, 201-34	3.4	1
149	Airway remodeling: Systems biology approach, from bench to bedside. <i>Technology and Health Care</i> , 2016 , 24, 811-819	1.1	0
148	T cell cytokine responses in peripheral blood mononuclear cells from patients with multidrug-resistant tuberculosis following stimulation with proteins purified from Mycobacterium tuberculosis MDR clinical isolates. <i>International Journal of Mycobacteriology</i> , 2016 , 5 Suppl 1, S132-S133	0.9	0
147	Proteome-scale MDR-TB-antibody responses for identification of putative biomarkers for the diagnosis of drug-resistant Mycobacterium tuberculosis. <i>International Journal of Mycobacteriology</i> , 2016 , 5 Suppl 1, S134-S135	0.9	2
146	Immunomodulatory Properties of Mesenchymal Stem Cells Can Mitigate Oxidative Stress and Inflammation Process in Human Mustard Lung. <i>Biochemical Genetics</i> , 2016 , 54, 769-783	2.4	18
145	Serum Metabolomic Profiling of Sulphur Mustard-Exposed Individuals Using (1)H Nuclear Magnetic Resonance Spectroscopy. <i>Basic and Clinical Pharmacology and Toxicology</i> , 2016 , 118, 77-82	3.1	1
144	Mindfulness-based Stress Reduction (MBSR) and Its Effects on Psychoimmunological Factors of Chemically Pulmonary Injured Veterans. <i>Iranian Journal of Allergy, Asthma and Immunology</i> , 2016 , 15, 476-486	1.1	5
143	Simultaneous and sensitive determination of melatonin and dopamine with Fe ₃ O ₄ nanoparticle-decorated reduced graphene oxide modified electrode. <i>RSC Advances</i> , 2015 , 5, 21659-21669	3.7	70
142	Mustard lung and COPD: common features and treatment?. <i>Lancet Respiratory Medicine</i> , 2015 , 3, 747-8	35.1	7
141	Role of oxidative stress in sulfur mustard-induced pulmonary injury and antioxidant protection. <i>Inhalation Toxicology</i> , 2015 , 27, 659-72	2.7	32
140	MDR-TB Antibody Response (Western Blot) to Fractions of Isoniazid and Rifampicin Resistant Antigens of Mycobacterium tuberculosis. <i>Current Microbiology</i> , 2015 , 71, 638-42	2.4	0
139	Short-term Curcuminoid Supplementation for Chronic Pulmonary Complications due to Sulfur Mustard Intoxication: Positive Results of a Randomized Double-blind Placebo-controlled Trial. <i>Drug Research</i> , 2015 , 65, 567-73	1.8	93
138	Comparative proteome analysis of peripheral neutrophils from sulfur mustard-exposed and COPD patients. <i>Journal of Immunotoxicology</i> , 2015 , 12, 132-9	3.1	17
137	The Social Determinants of Health in Military Forces of Iran: A Qualitative Study. <i>Journal of Environmental and Public Health</i> , 2015 , 2015, 524341	2.6	6
136	Efficacy of Tiotropium Bromide and Rehabilitation Treatment on Pulmonary Function of Patients With Sulfur Mustard Lung Injury. <i>Iranian Red Crescent Medical Journal</i> , 2015 , 17, e20026	1.3	2
135	Development of a Fuzzy Decision Support System to Determine the Severity of Obstructive Pulmonary in Chemical Injured Victims. <i>Acta Informatica Medica</i> , 2015 , 23, 138-41	1.9	6
134	Noninvasive Ventilation in Mustard Airway Diseases. <i>Respiratory Care</i> , 2015 , 60, 1324-9	2.1	2
133	Lower Airway Complications of Sulfur Mustard Exposure		1

132	Characterization of Lung Fibroblasts More than Two Decades after Mustard Gas Exposure. <i>PLoS ONE</i> , 2015 , 10, e0145148	3.7	1
131	The Social Determinants of Health (SDH) in Iran: A Systematic Review Article. <i>Iranian Journal of Public Health</i> , 2015 , 44, 728-41	0.7	9
130	Epigenetic: A missing paradigm in cellular and molecular pathways of sulfur mustard lung: a prospective and comparative study. <i>Iranian Journal of Basic Medical Sciences</i> , 2015 , 18, 723-36	1.8	22
129	Burden of obstructive lung disease study in Tehran: Prevalence and risk factors of chronic obstructive pulmonary disease. <i>Lung India</i> , 2015 , 32, 572-7	1.1	13
128	Comparison of the effectiveness and safety of formoterol versus salmeterol in the treatment of patients with asthma: A systematic review and meta-analysis. <i>Journal of Research in Medical Sciences</i> , 2015 , 20, 483-90	1.6	2
127	Frequency distribution of gastro esophageal reflux disease in inhalation injury: A historical cohort study. <i>Journal of Research in Medical Sciences</i> , 2015 , 20, 636-9	1.6	5
126	How well establishment of research plans can improve scientific ranking of medical universities. <i>Iranian Red Crescent Medical Journal</i> , 2015 , 17, e18269	1.3	2
125	Efficacy and safety of aluminum chloride in controlling external hemorrhage: an animal model study. <i>Iranian Red Crescent Medical Journal</i> , 2015 , 17, e19714	1.3	7
124	A Triage Model for Chemical Warfare Casualties. <i>Trauma Monthly</i> , 2015 , 20, e16211	1	3
123	Exertional-induced bronchoconstriction: comparison between cardiopulmonary exercise test and methacholine challenging test. <i>Annals of Cardiac Anaesthesia</i> , 2015 , 18, 479-85	1.3	
122	Therapeutic Potential of Mesenchymal Stem Cells for the Treatment of Airway Remodeling in Pulmonary Diseases. <i>Iranian Journal of Allergy, Asthma and Immunology</i> , 2015 , 14, 552-68	1.1	11
121	Evaluation of antigen detection test (chromatographic immunoassay): potential to replace the antibody assay using purified 45-kDa protein for rapid diagnosis of tuberculosis. <i>Journal of Clinical Laboratory Analysis</i> , 2014 , 28, 70-6	3	7
120	The role of N-acetylcysteine in the management of acute and chronic pulmonary complications of sulfur mustard: a literature review. <i>Inhalation Toxicology</i> , 2014 , 26, 507-23	2.7	33
119	Microarray gene expression analysis of the human airway in patients exposed to sulfur mustard. <i>Journal of Receptor and Signal Transduction Research</i> , 2014 , 34, 283-9	2.6	16
