#	Article	IF	Citations
1	Interaction recognition and intervention based on context feature fusion of learning behaviors in interactive learning environments. Interactive Learning Environments, 2023, 31, 2033-2050.	6.4	17
2	A Trust Evaluation Method for Cloud Service with Fluctuant QoS and Flexible SLA. , 2014, , .		14
3	Learning behavior mining and decision recommendation based on association rules in interactive learning environment. Interactive Learning Environments, 2023, 31, 593-608.	6.4	13
4	Random field design and collaborative inference strategies for learning interaction activities. Interactive Learning Environments, 2023, 31, 1933-1957.	6.4	12
5	Decision application mechanism of regression analysis of multi-category learning behaviors in interactive learning environment. Interactive Learning Environments, 2023, 31, 3042-3054.	6.4	10
6	Sparse learning strategy and key feature selection in interactive learning environment. Interactive Learning Environments, 2023, 31, 5141-5158.	6.4	9
7	Early warning mechanism of interactive learning process based on temporal memory enhancement model. Education and Information Technologies, 2023, 28, 1019-1040.	5.7	9
8	Temporal tracking and early warning of multi semantic features of learning behavior. Computers and Education Artificial Intelligence, 2022, 3, 100045.	10.8	8
9	Diversion inference model of learning effectiveness supported by differential evolution strategy. Computers and Education Artificial Intelligence, 2022, 3, 100071.	10.8	6
10	Application Technology on Collaborative Training of Interactive Learning Activities and Tendency Preference Diversion. SAGE Open, 2022, 12, 215824402210933.	1.7	6
11	Trusted Service Scheduling and Optimization Strategy Design of Service Recommendation. Security and Communication Networks, 2017, 2017, 1-9.	1.5	3
12	The Design and Definition of Architecture-Centric Agent Self-Adaption Model. , 2008, , .		2
13	The Self-Adaptive Design Model of Architecture-Centric Granularity Service Cluster. , 2008, , .		2
14	A Evaluation Method for Web Service with Large Numbers of Historical Records. , 2014, , .		2
15	A Multi-dimensional Weighting Method for Historical Records in Cloud Service Evaluation. , 2014, , .		2
16	The Mapping Definition and Realization Process About Architecture-Centric Agent Model. , 2008, , .		0
17	The Research about Individual Internetware Granularity's Division and Flexible Architecture Integration of "Software Engineering" Curriculum Design. , 2009, , .		0
18	The Trust Measurement Algorithm of Agent Internetware for Architecture-Centric Evolution Model. , 2009, , .		0

#	Article	IF	Citations
19	Architecture-Centric Eagent Division and Self-Adaptive Process Design Driven by “D-Role”. , 2009, , .		0
20	Architecture-Centric Self-Adaptation Flow's Definition and Rules' Realization Driven by Decision-Making Factor. , 2009, , .		0
21	The barycenter's design and service sequence's evolution about service-driven self-adaptive architecture-centric system. , 2010, , .		0
22	Improved Probabilistic Frequent Itemset Analysis Strategy of Learning Behaviors Based on Eclat Framework. , 0, , .		0
