#	ARTICLE	IF	CITATIONS
1	The Role of Exercise in a Weight-Loss Program on Clinical Control in Obese Adults with Asthma. A Randomized Controlled Trial. American Journal of Respiratory and Critical Care Medicine, 2017, 195, 32-42.	5.6	176
2	Exercise Improves Physical Activity and Comorbidities in Obese Adults with Asthma. Medicine and Science in Sports and Exercise, 2018, 50, 1367-1376.	0.4	64
3	A Behavior Change Intervention Aimed at Increasing Physical Activity Improves Clinical Control in Adults With Asthma. Chest, 2021, 159, 46-57.	0.8	28
4	Identification of asthma phenotypes based on extrapulmonary treatable traits. European Respiratory Journal, 2021, 57, 2000240.	6.7	27
5	The effects of exercise training in a weight loss lifestyle intervention on asthma control, quality of life and psychosocial symptoms in adult obese asthmatics: protocol of a randomized controlled trial. BMC Pulmonary Medicine, 2015, 15, 124.	2.0	25
6	Effects of a behaviour change intervention aimed at increasing physical activity on clinical control of adults with asthma: study protocol for a randomised controlled trial. BMC Sports Science, Medicine and Rehabilitation, 2019, 11, 16.	1.7	15
7	Dynamic hyperinflation and exercise limitations in obese asthmatic women. Journal of Applied Physiology, 2017, 123, 585-593.	2.5	14
8	Effects of weight loss on dynamic hyperinflation in obese women asthmatics. Journal of Applied Physiology, 2019, 126, 413-421.	2.5	8
9	Exercise training is a determinant of weight-loss and improvement on asthma control, airway inflammation and psychosocial morbidity in obese asthmatics: A RCT. , 2015, , .		1
10	The role of exercise training in a weight loss program on psychosocial morbidity, sleep quality and physical activity in obese asthmatics: A RCT. , 2016, , .		0
11	Dynamic hyperinflation is not the main limiting factor during exercise in obese asthmatics. , 2016, , .		0
12	Association between illness perception and clinical control, quality of life, physical activity, and psychosocial status in subjects with moderate to severe asthma: a cluster analysis. Journal of Asthma, 2022, , 1-8.	1.7	0
