#	ARTICLE	IF	CITATIONS
1	Association between illness perception and clinical control, quality of life, physical activity, and psychosocial status in subjects with moderate to severe asthma: a cluster analysis. <i>Journal of Asthma</i> , 2022, , 1-8.	1.7	0
2	Identification of asthma phenotypes based on extrapulmonary treatable traits. <i>European Respiratory Journal</i> , 2021, 57, 2000240.	6.7	27
3	A Behavior Change Intervention Aimed at Increasing Physical Activity Improves Clinical Control in Adults With Asthma. <i>Chest</i> , 2021, 159, 46-57.	0.8	28
4	Effects of a behaviour change intervention aimed at increasing physical activity on clinical control of adults with asthma: study protocol for a randomised controlled trial. <i>BMC Sports Science, Medicine and Rehabilitation</i> , 2019, 11, 16.	1.7	15
5	Effects of weight loss on dynamic hyperinflation in obese women asthmatics. <i>Journal of Applied Physiology</i> , 2019, 126, 413-421.	2.5	8
6	Exercise Improves Physical Activity and Comorbidities in Obese Adults with Asthma. <i>Medicine and Science in Sports and Exercise</i> , 2018, 50, 1367-1376.	0.4	64
7	Dynamic hyperinflation and exercise limitations in obese asthmatic women. <i>Journal of Applied Physiology</i> , 2017, 123, 585-593.	2.5	14
8	The Role of Exercise in a Weight-Loss Program on Clinical Control in Obese Adults with Asthma. A Randomized Controlled Trial. <i>American Journal of Respiratory and Critical Care Medicine</i> , 2017, 195, 32-42.	5.6	176
9	The role of exercise training in a weight loss program on psychosocial morbidity, sleep quality and physical activity in obese asthmatics: A RCT. , 2016, , .		0
10	Dynamic hyperinflation is not the main limiting factor during exercise in obese asthmatics. , 2016, , .		0
11	The effects of exercise training in a weight loss lifestyle intervention on asthma control, quality of life and psychosocial symptoms in adult obese asthmatics: protocol of a randomized controlled trial. <i>BMC Pulmonary Medicine</i> , 2015, 15, 124.	2.0	25
12	Exercise training is a determinant of weight-loss and improvement on asthma control, airway inflammation and psychosocial morbidity in obese asthmatics: A RCT. , 2015, , .		1
