#	ARTICLE	IF	CITATIONS
1	Participation in Citizen Science: Insights from the CONECT-e Case Study. <i>Science Technology and Human Values</i> , 2021, 46, 755-788.	1.7	7
2	The Persistence of Flavor: Past and Present Use of Wild Food Plants in Sierra Norte de Madrid, Spain. <i>Frontiers in Sustainable Food Systems</i> , 2021, 4, .	1.8	11
3	Maximum levels of global phylogenetic diversity efficiently capture plant services for humankind. <i>Nature Ecology and Evolution</i> , 2021, 5, 583-588.	3.4	50
4	Conocimiento ecológico tradicional en la Sierra de Andía (Navarra, España) y su aplicabilidad para la conservación de la naturaleza. <i>Boletín De La Sociedad Argentina De Botánica</i> , 2021, 56, .	0.1	0
5	Gender Differences in Knowledge, Use, and Collection of Wild Edible Plants in Three Spanish Areas. <i>Sustainability</i> , 2021, 13, 2639.	1.6	6
6	A global database of plant services for humankind. <i>PLoS ONE</i> , 2021, 16, e0253069.	1.1	11
7	Documenting and protecting traditional knowledge in the era of open science: Insights from two Spanish initiatives. <i>Journal of Ethnopharmacology</i> , 2021, 278, 114295.	2.0	6
8	Taming the pandemic? The importance of homemade plant-based foods and beverages as community responses to COVID-19. <i>Journal of Ethnobiology and Ethnomedicine</i> , 2020, 16, 75.	1.1	36
9	Seeds of change: reversing the erosion of traditional agroecological knowledge through a citizen science school program in Catalonia, Spain. <i>Ecology and Society</i> , 2020, 25, .	1.0	8
10	Forest commons, traditional community ownership and ecological consequences: Insights from Spain. <i>Forest Policy and Economics</i> , 2020, 112, 102107.	1.5	17
11	The Use of Plants for Animal Health Care in the Spanish Inventory of Traditional Knowledge. , 2020, , 391-426.		3
12	The role of traditional management practices in shaping a diverse habitat mosaic in a mountain region of Northern Spain. <i>Land Use Policy</i> , 2019, 89, 104235.	2.5	20
13	Biodiversity conservation effectiveness provided by a protection status in temperate forest commons of north Spain. <i>Forest Ecology and Management</i> , 2019, 433, 656-666.	1.4	8
14	The Contribution of Traditional Agroecological Knowledge as a Digital Commons to Agroecological Transitions: The Case of the CONECT-e Platform. <i>Sustainability</i> , 2018, 10, 3214.	1.6	21
15	Governing landraces and associated knowledge as a commons. , 2018, , 195-209.		1
16	Trends in wild food plants uses in Gorbeialdea (Basque Country). <i>Appetite</i> , 2017, 112, 9-16.	1.8	29
17	Ethnobotanical Analysis of Wild Fruits and Vegetables Traditionally Consumed in Spain. , 2016, , 57-79.		7
18	Natural Production and Cultivation of Mediterranean Wild Edibles. , 2016, , 81-107.		7

#	ARTICLE	IF	CITATIONS
19	Ethnobotanical and Food Composition Monographs of Selected Mediterranean Wild Edible Plants. , 2016, , 273-470.		18
20	Medicinal plants sold at traditional markets in southern Ecuador. Journal of Ethnobiology and Ethnomedicine, 2016, 12, 29.	1.1	45
21	The importance of cultural factors in the distribution of medicinal plant knowledge: A case study in four Basque regions. Journal of Ethnopharmacology, 2015, 161, 116-127.	2.0	51
22	The benefits of traditional knowledge. Nature, 2015, 518, 487-488.	13.7	51
23	Management of medicinally useful plants by European migrants in South America. Journal of Ethnopharmacology, 2015, 172, 347-355.	2.0	21
24	Medicinal and local food plants in the south of Alava (Basque Country, Spain). Journal of Ethnopharmacology, 2015, 176, 207-224.	2.0	85
25	From famine foods to delicatessen: Interpreting trends in the use of wild edible plants through cultural ecosystem services. Ecological Economics, 2015, 120, 303-311.	2.9	109
26	Mediterranean non-cultivated vegetables as dietary sources of compounds with antioxidant and biological activity. LWT - Food Science and Technology, 2014, 55, 389-396.	2.5	117
27	Medicinal plants traditionally used in the northwest of the Basque Country (Biscay and Alava), Iberian Peninsula. Journal of Ethnopharmacology, 2014, 152, 113-134.	2.0	74
28	Resilience of traditional knowledge systems: The case of agricultural knowledge in home gardens of the Iberian Peninsula. Global Environmental Change, 2014, 24, 223-231.	3.6	89
29	Weeds and Food Diversity: Natural Yield Assessment and Future Alternatives for Traditionally Consumed Wild Vegetables. Journal of Ethnobiology, 2014, 34, 44-67.	0.8	34
30	Nutrients, phytochemicals and antioxidant activity in wild populations of <i>Allium ampeloprasum</i> L., a valuable underutilized vegetable. Food Research International, 2014, 62, 272-279.	2.9	53
31	“Tertius gaudens” germplasm exchange networks and agroecological knowledge among home gardeners in the Iberian Peninsula. Journal of Ethnobiology and Ethnomedicine, 2013, 9, 53.	1.1	22
32	Does Crop Diversification Pay Off? An Empirical Study in Home Gardens of the Iberian Peninsula. Society and Natural Resources, 2013, 26, 44-59.	0.9	4
33	Plants used for making recreational tea in Europe: a review based on specific research sites. Journal of Ethnobiology and Ethnomedicine, 2013, 9, 58.	1.1	78
34	The European Heritage of Folk Medicines and Medicinal Foods: Its Contribution to the CAMs of Tomorrow. Evidence-based Complementary and Alternative Medicine, 2013, 2013, 1-2.	0.5	6
35	Medical Ethnobotany in Europe: From Field Ethnography to a More Culturally Sensitive Evidence-Based CAM?. Evidence-based Complementary and Alternative Medicine, 2012, 2012, 1-17.	0.5	52
36	Wild food plant use in 21st century Europe: the disappearance of old traditions and the search for new cuisines involving wild edibles. Acta Societatis Botanicorum Poloniae, 2012, 81, 359-370.	0.8	261

#	ARTICLE	IF	CITATIONS
37	Wild edible plants traditionally gathered in Gorbeialdea (Biscay, Basque Country). <i>Genetic Resources and Crop Evolution</i> , 2012, 59, 1329-1347.	0.8	98
38	Home Gardens in Three Mountain Regions of the Iberian Peninsula: Description, Motivation for Gardening, and Gross Financial Benefits. <i>Agroecology and Sustainable Food Systems</i> , 2012, 36, 249-270.	0.9	40
39	Comparative Study of the in vitro Bioactivities of <i>Bupleurum rigidum</i> and <i>B. fruticosum</i> . <i>Natural Product Communications</i> , 2012, 7, 1934578X1200700.	0.2	6
40	Plant Remedies against Witches and the Evil Eye in a Spanish "Witches" Village. <i>Economic Botany</i> , 2012, 66, 35-45.	0.8	7
41	Wild vegetables of the Mediterranean area as valuable sources of bioactive compounds. <i>Genetic Resources and Crop Evolution</i> , 2012, 59, 431-443.	0.8	146
42	Exploring the potential of wild food resources in the Mediterranean region: natural yield and gathering pressure of the wild asparagus (<i>Asparagus acutifolius</i> L.). <i>Spanish Journal of Agricultural Research</i> , 2012, 10, 1090.	0.3	23
43	"Plantas con madre" Plants that teach and guide in the shamanic initiation process in the East-Central Peruvian Amazon. <i>Journal of Ethnopharmacology</i> , 2011, 134, 739-752.	2.0	58
44	Valorization of wild strawberry-tree fruits (<i>Arbutus unedo</i> L.) through nutritional assessment and natural production data. <i>Food Research International</i> , 2011, 44, 1244-1253.	2.9	147
45	<i>Montia fontana</i> L. (Portulacaceae), an interesting wild vegetable traditionally consumed in the Iberian Peninsula. <i>Genetic Resources and Crop Evolution</i> , 2011, 58, 1105-1118.	0.8	17
46	Palm Uses in Northwestern South America: A Quantitative Review. <i>Botanical Review</i> , The, 2011, 77, 462-570.	1.7	100
47	Fruit production of strawberry tree (<i>Arbutus unedo</i> L.) in two Spanish forests. <i>Forestry</i> , 2011, 84, 419-429.	1.2	43
48	Gendered Homegardens: A Study in Three Mountain Areas of the Iberian Peninsula. <i>Economic Botany</i> , 2010, 64, 235-247.	0.8	69
49	Interactions of <i>Valeriana officinalis</i> L. and <i>Passiflora incarnata</i> L. in a patient treated with lorazepam. <i>Phytotherapy Research</i> , 2009, 23, 1795-1796.	2.8	51
50	Knowledge, use and ecology of golden thistle (<i>Scolymus hispanicus</i> L.) in Central Spain. <i>Journal of Ethnobiology and Ethnomedicine</i> , 2009, 5, 42.	1.1	25
51	<i>Atractylis gummifera</i> and <i>Centaurea ornata</i> in the Province of Badajoz (Extremadura,) <i>Tj ETQq1 1 0.784314 rgBT /Overlock 10 Tf 50 187</i> 2009, 126, 366-370.	2.0	23
52	Local Knowledge and Management of the Royal Fern (<i>Osmunda regalis</i> L.) in Northern Spain: Implications for Biodiversity Conservation. <i>American Fern Journal</i> , 2009, 99, 45-55.	0.2	22
53	Cultural Importance Indices: A Comparative Analysis Based on the Useful Wild Plants of Southern Cantabria (Northern Spain)1. <i>Economic Botany</i> , 2008, 62, 24-39.	0.8	567
54	Traditional knowledge of wild edible plants used in the northwest of the Iberian Peninsula (Spain and) <i>Tj ETQq0 0 0 rgBT /Overlock 10 Tf</i> 1.9 216	1.9	216
