#	ARTICLE	IF	CITATIONS
1	Relative food abundance predicts greater binge-eating symptoms in subsequent hours among young adults experiencing food insecurity: Support for the "feast-or-famine" cycle hypothesis from an ecological momentary assessment study. <i>Appetite</i> , 2023, 180, 106316.	4.0	10
2	Following Insufficiently Active Adolescents: What Predicts Whether They Meet Adult Activity Guidelines When They Grow Up?. <i>Journal of Physical Activity and Health</i> , 2023, 20, 1-9.	2.1	0
3	To meat or not to meat: disordered eating and vegetarian status in university students. <i>Eating and Weight Disorders</i> , 2022, 27, 831-837.	2.6	2
4	Social Isolation in a Population-Based Sample of Emerging Adults: Who Is on Their Own?. <i>Emerging Adulthood</i> , 2022, 10, 1247-1255.	2.3	4
5	Kitchen Adequacy and Child Diet Quality in a Racially/Ethnically Diverse Sample. <i>Ecology of Food and Nutrition</i> , 2022, 61, 81-89.	1.6	3
6	Adverse experiences as predictors of maladaptive and adaptive eating: Findings from EAT 2018. <i>Appetite</i> , 2022, 168, 105737.	4.0	5
7	Associations between severe food insecurity and disordered eating behaviors from adolescence to young adulthood: Findings from a 10-year longitudinal study. <i>Preventive Medicine</i> , 2022, 154, 106895.	3.6	33
8	Ethnic/racial and gender differences in disordered eating behavior prevalence trajectories among women and men from adolescence into adulthood. <i>Social Science and Medicine</i> , 2022, 294, 114720.	4.1	25
9	Everyday discrimination as a predictor of maladaptive and adaptive eating: Findings from EAT 2018. <i>Appetite</i> , 2022, 170, 105878.	4.0	4
10	Experiencing Household Food Insecurity During Adolescence Predicts Disordered Eating and Elevated Body Mass Index 8 Years Later. <i>Journal of Adolescent Health</i> , 2022, 70, 788-795.	2.5	17
11	Addressing eating disorders through legislation: The Israeli "Models' Law" process, enactment, and dilemmas. <i>Dialogues in Health</i> , 2022, 1, 100001.	0.6	1
12	Correlates of weight-related self-monitoring application use during emerging adulthood in a population-based sample. <i>Eating and Weight Disorders</i> , 2022, 27, 2107-2119.	2.6	7
13	Intuitive Eating among Parents: Associations with the Home Food and Meal Environment. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2022, 122, 1336-1344.	0.8	1
14	Using apps to self-monitor diet and physical activity is linked to greater use of disordered eating behaviors among emerging adults. <i>Preventive Medicine</i> , 2022, 155, 106967.	3.6	12
15	The Association of Residential Mobility With Weight-Related Health Behaviors. <i>Journal of Nutrition Education and Behavior</i> , 2022, 54, 135-142.	0.7	1
16	Experiences with public health recommendations for COVID-19: a qualitative study of diverse mothers with young children in the United States. <i>Journal of Communication in Healthcare</i> , 2022, 15, 64-73.	1.6	1
17	Does Weight-Motivation for Exercise Predict Physical Activity Levels Across the Life Course From Adolescence to Adulthood?. <i>Journal of Adolescent Health</i> , 2022, 71, 112-118.	2.5	3
18	Muscle-building behaviors from adolescence to emerging adulthood: A prospective cohort study. <i>Preventive Medicine Reports</i> , 2022, 27, 101778.	1.9	12

#	ARTICLE	IF	CITATIONS
19	Digital technology use and muscle-building behaviors in young adults. <i>International Journal of Eating Disorders</i> , 2022, 55, 207-214.	4.6	6
20	What Brings Young Adults to the Yoga Mat? Cross-Sectional Associations Between Motivational Profiles and Physical and Psychological Health Among Participants in the Project EAT-IV Survey. <i>Journal of Integrative and Complementary Medicine</i> , 2022, 28, 664-673.	1.0	1
21	How is weight teasing cross-sectionally and longitudinally associated with health behaviors and weight status among ethnically/racially and socioeconomically diverse young people?. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2022, 19, .	4.7	8
22	Lifestyle health behavior correlates of intuitive eating in a population-based sample of men and women. <i>Eating Behaviors</i> , 2022, 46, 101644.	2.2	1
23	Like parent, like child? Intuitive eating among emerging adults and their parents. <i>Appetite</i> , 2022, 176, 106132.	4.0	3
24	Exploring the intersection of multiple social determinants of health and disordered eating behaviors in a population-based sample in the United States. <i>International Journal of Eating Disorders</i> , 2022, 55, 1589-1602.	4.6	8
25	Parental Contributors to the Prevalence and Long-term Health Risks of Family Weight Teasing in Adolescence. <i>Journal of Adolescent Health</i> , 2021, 69, 74-81.	2.5	15
26	Concordance of children's intake of selected food groups as reported by parents via 24-h dietary recall and ecological momentary assessment. <i>Public Health Nutrition</i> , 2021, 24, 22-33.	2.3	3
27	Shared and non-shared risk and protective factors of binge eating and binge drinking from adolescence to young adulthood. <i>Journal of Health Psychology</i> , 2021, 26, 805-817.	2.5	5
28	Emerging adults' intersecting experiences of food insecurity, unsafe neighbourhoods and discrimination during the coronavirus disease 2019 (COVID-19) outbreak. <i>Public Health Nutrition</i> , 2021, 24, 519-530.	2.3	36
29	Associations between weight talk exposure and unhealthy weight control behaviors among young adults: A person-centered approach to examining how much the source and type of weight talk matters. <i>Body Image</i> , 2021, 36, 5-15.	4.6	12
30	Yoga practice among ethnically/racially diverse emerging adults: Associations with body image, mindful and disordered eating, and muscle-enhancing behaviors. <i>International Journal of Eating Disorders</i> , 2021, 54, 376-387.	4.6	17
31	Acculturation and ethnic group differences in well-being among Somali, Latino, and Hmong adolescents.. <i>American Journal of Orthopsychiatry</i> , 2021, 91, 109-119.	1.5	6
32	The longitudinal relationship between family and peer teasing in young adulthood and later unhealthy weight control behaviors: The mediating role of body image. <i>International Journal of Eating Disorders</i> , 2021, 54, 831-840.	4.6	19
33	81. How is Weight Teasing Associated With Physical Activity, Eating Behaviors, and Weight Status During Adolescence and Young Adulthood?. <i>Journal of Adolescent Health</i> , 2021, 68, S43-S44.	2.5	1
34	Intuitive Eating is Associated With Higher Fruit and Vegetable Intake Among Adults. <i>Journal of Nutrition Education and Behavior</i> , 2021, 53, 240-245.	0.7	18
35	Self-weighing among young adults: who weighs themselves and for whom does weighing affect mood? A cross-sectional study of a population-based sample. <i>Journal of Eating Disorders</i> , 2021, 9, 37.	2.8	6
36	Effect of School-Based Body Mass Index Reporting in California Public Schools. <i>JAMA Pediatrics</i> , 2021, 175, 251.	6.4	36

#	ARTICLE	IF	CITATIONS
37	Disordered eating in a population-based sample of young adults during the COVID-19 outbreak. <i>International Journal of Eating Disorders</i> , 2021, 54, 1189-1201.	4.6	61
38	Changes to Physical Activity during a Global Pandemic: A Mixed Methods Analysis among a Diverse Population-Based Sample of Emerging Adults in the U.S.. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 3674.	2.8	23
39	Recreational Screen Time Behaviors during the COVID-19 Pandemic in the U.S.: A Mixed-Methods Study among a Diverse Population-Based Sample of Emerging Adults. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 4613.	2.8	38
40	Longitudinal associations between intuitive eating and weight-related behaviors in a population-based sample of young adults. <i>Appetite</i> , 2021, 160, 105093.	4.0	36
41	Weight teasing experienced during adolescence and young adulthood: Cross-sectional and longitudinal associations with disordered eating behaviors in an ethnically/racially and socioeconomically diverse sample. <i>International Journal of Eating Disorders</i> , 2021, 54, 1449-1462.	4.6	22
42	Diet pill and laxative use for weight control predicts first-time receipt of an eating disorder diagnosis within the next 5 years among female adolescents and young adults. <i>International Journal of Eating Disorders</i> , 2021, 54, 1289-1294.	4.6	14
43	Understanding the impact of the COVID-19 pandemic on stress, mood, and substance use among young adults in the greater Minneapolis-St. Paul area: Findings from project EAT. <i>Social Science and Medicine</i> , 2021, 276, 113826.	4.1	40
44	Childhood maltreatment and disordered eating attitudes and behaviors in adult men and women: Findings from project EAT. <i>Appetite</i> , 2021, 163, 105224.	4.0	18
45	Body dissatisfaction and disordered eating are prevalent problems among U.S. young people from diverse socioeconomic backgrounds: Findings from the EAT 2010-2018 study. <i>Eating Behaviors</i> , 2021, 42, 101535.	2.2	26
46	Are there protective associations between family/shared meal routines during COVID-19 and dietary health and emotional well-being in diverse young adults?. <i>Preventive Medicine Reports</i> , 2021, 24, 101575.	1.9	17
47	Do emerging adults know what their friends are doing and does it really matter? Methodologic challenges and associations of perceived and actual friend behaviors with emerging adults' disordered eating and muscle building behaviors. <i>Social Science and Medicine</i> , 2021, 284, 114224.	4.1	0
48	Barriers to Accessing Healthy Food and Food Assistance During the COVID-19 Pandemic and Racial Justice Uprisings: A Mixed-Methods Investigation of Emerging Adults' Experiences. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2021, 121, 1679-1694.	0.8	31
49	Adverse childhood experiences in relation to mood-, weight-, and eating-related outcomes in emerging adulthood: Does self-compassion play a buffering role?. <i>Child Abuse and Neglect</i> , 2021, 122, 105307.	2.8	11
50	First, Do No Harm: Understanding Primary Care Providers' Perception of Risks Associated With Discussing Weight With Pediatric Patients. <i>Global Pediatric Health</i> , 2021, 8, 2333794X21110409.	0.8	7
51	Intuitive eating longitudinally predicts better psychological health and lower use of disordered eating behaviors: findings from EAT 2010-2018. <i>Eating and Weight Disorders</i> , 2021, 26, 287-294.	2.6	89
52	Emerging Adults and Social Distancing During COVID-19: Who Was More Likely to Follow Guidelines and What Were the Correlates With Well-Being and Weight-Related Behaviors?. <i>Emerging Adulthood</i> , 2021, 9, 670-678.	2.3	4
53	Sexual and physical abuse and identity of the perpetrator: Associations with binge eating and overeating in Project EAT 2018. <i>Eating Behaviors</i> , 2021, 43, 101577.	2.2	7
54	Changes in Physical Activity and Sedentary Behaviors During COVID-19: Associations with Psychological Distress Among Mothers. <i>International Journal of Women's Health</i> , 2021, Volume 13, 1115-1122.	2.6	6

#	ARTICLE	IF	CITATIONS
55	Stay-at-Home Orders during COVID-19: The Influence on Physical Activity and Recreational Screen Time Change among Diverse Emerging Adults and Future Implications for Health Promotion and the Prevention of Widening Health Disparities. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 13228.	2.8	20
56	Ecological momentary assessment of the snacking environments of children from racially/ethnically diverse households. <i>Appetite</i> , 2020, 145, 104497.	4.0	13
57	Disordered Eating Behaviors and 15-year Trajectories in Body Mass Index: Findings From Project Eating and Activity in Teens and Young Adults (EAT). <i>Journal of Adolescent Health</i> , 2020, 66, 181-188.	2.5	40
58	The Contribution of Snacking to Overall Diet Intake among an Ethnically and Racially Diverse Population of Boys and Girls. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2020, 120, 270-279.	0.8	14
59	Young adult nutrition and weight correlates of picky eating during childhood. <i>Public Health Nutrition</i> , 2020, 23, 987-995.	2.3	16
60	Community-level obesity prevention is not associated with dieting behaviours and weight dissatisfaction in children: The Healthy Communities Study. <i>Pediatric Obesity</i> , 2020, 15, e12594.	2.9	3
61	Associations of early adulthood life transitions with changes in fast food intake: a latent trajectory analysis. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020, 17, 130.	4.7	15
62	Introduction to the special issue on yoga and positive embodiment: a note from the editors on how we got here. <i>Eating Disorders</i> , 2020, 28, 309-314.	3.4	6
63	Food Insecurity, Diet Quality, Home Food Availability, and Health Risk Behaviors Among Emerging Adults: Findings From the EAT 2010-2018 Study. <i>American Journal of Public Health</i> , 2020, 110, 1422-1428.	3.4	115
64	Associations between parental stress, parent feeding practices, and child eating behaviors within the context of food insecurity. <i>Preventive Medicine Reports</i> , 2020, 19, 101146.	1.9	41
65	Future directions for research on yoga and positive embodiment. <i>Eating Disorders</i> , 2020, 28, 542-547.	3.4	12
66	Yoga Practice Among Veterans With and Without Chronic Pain. <i>Medical Care</i> , 2020, 58, S133-S141.	2.4	5
67	A single summative global scale of disordered eating attitudes and behaviors: Findings from Project EAT, a 15-year longitudinal population-based study. <i>Eating Behaviors</i> , 2020, 39, 101418.	2.2	5
68	Does exposure to controlling parental feeding practices during adolescence predict disordered eating behaviors 8 years later in emerging adulthood?. <i>Pediatric Obesity</i> , 2020, 15, e12709.	2.9	14
69	Exposure to Adverse Events and Associations with Stress Levels and the Practice of Yoga: Survey Findings from a Population-Based Study of Diverse Emerging Young Adults. <i>Journal of Alternative and Complementary Medicine</i> , 2020, 26, 482-490.	2.2	17
70	Household food insecurity: associations with disordered eating behaviours and overweight in a population-based sample of adolescents. <i>Public Health Nutrition</i> , 2020, 23, 3126-3135.	2.3	35
71	Examining the effects of mindfulness-based yoga instruction on positive embodiment and affective responses. <i>Eating Disorders</i> , 2020, 28, 458-475.	3.4	19
72	Constrained choices: Combined influences of work, social circumstances, and social location on time-dependent health behaviors. <i>SSM - Population Health</i> , 2020, 11, 100562.	2.9	5

#	ARTICLE	IF	CITATIONS
73	Yoga and the experience of embodiment: a discussion of possible links. <i>Eating Disorders</i> , 2020, 28, 330-348.	3.4	41
74	Do Parents Perceive That Organized Activities Interfere with Family Meals? Associations between Parent Perceptions and Aspects of the Household Eating Environment. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2020, 120, 414-423.	0.8	4
75	50. Household Food Insecurity During Adolescence: Associations With Disordered Eating Behaviors and Overweight at Baseline and 8-Year Follow-Up. <i>Journal of Adolescent Health</i> , 2020, 66, S27.	2.5	0
76	A yoga-based therapy program designed to improve body image among an outpatient eating disordered population: program description and results from a mixed-methods pilot study. <i>Eating Disorders</i> , 2020, 28, 476-493.	3.4	16
77	A healthful home food environment: Is it possible amidst household chaos and parental stress?. <i>Appetite</i> , 2019, 142, 104391.	4.0	35
78	Fifteen-Year Prevalence, Trajectories, and Predictors of Body Dissatisfaction From Adolescence to Middle Adulthood. <i>Clinical Psychological Science</i> , 2019, 7, 1403-1415.	4.1	93
79	Cumulative Encouragement to Diet From Adolescence to Adulthood: Longitudinal Associations With Health, Psychosocial Well-Being, and Romantic Relationships. <i>Journal of Adolescent Health</i> , 2019, 65, 690-697.	2.5	12
80	Childhood psychosocial challenges and risk for obesity in U.S. men and women. <i>Translational Psychiatry</i> , 2019, 9, 16.	5.0	10
81	Do young adults value sustainable diet practices? Continuity in values from adolescence to adulthood and linkages to dietary behaviour. <i>Public Health Nutrition</i> , 2019, 22, 2598-2608.	2.3	19
82	Unhealthy weight control behaviors and substance use among adolescent girls: The harms of weight stigma. <i>Social Science and Medicine</i> , 2019, 233, 64-70.	4.1	17
83	Watching Television while Eating: Associations with Dietary Intake and Weight Status among a Diverse Sample of Young Children. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2019, 119, 1462-1469.	0.8	32
84	Family weight teasing, ethnicity and acculturation: Associations with well-being among Latinx, Hmong, and Somali Adolescents. <i>Journal of Psychosomatic Research</i> , 2019, 122, 88-93.	2.9	33
85	Factor Analysis Test of an Ecological Model of Physical Activity Correlates. <i>American Journal of Health Behavior</i> , 2019, 43, 57-75.	1.5	7
86	Longitudinal trajectories and prevalence of meeting dietary guidelines during the transition from adolescence to young adulthood. <i>American Journal of Clinical Nutrition</i> , 2019, 109, 656-664.	4.7	42
87	Differences in risk factors for binge eating by socioeconomic status in a community-based sample of adolescents: Findings from Project EAT. <i>International Journal of Eating Disorders</i> , 2019, 52, 659-668.	4.6	54
88	Compared to Pre-prepared Meals, Fully and Partly Home-Cooked Meals in Diverse Families with Young Children Are More Likely to Include Nutritious Ingredients. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2019, 119, 818-830.	0.8	40
89	The intergenerational transmission of family meal practices: a mixed-methods study of parents of young children. <i>Public Health Nutrition</i> , 2019, 22, 1-12.	2.3	3
90	Life Events and Longitudinal Effects on Physical Activity: Adolescence to Adulthood. <i>Medicine and Science in Sports and Exercise</i> , 2019, 51, 663-670.	0.4	24

#	ARTICLE	IF	CITATIONS
91	Problematic eating behaviors and attitudes predict long-term incident metabolic syndrome and diabetes: The Coronary Artery Risk Development in Young Adults Study. <i>International Journal of Eating Disorders</i> , 2019, 52, 304-308.	4.6	16
92	Description of the home food environment in Black, White, Hmong, Latino, Native American and Somali homes with 5-7-year-old children. <i>Public Health Nutrition</i> , 2019, 22, 882-893.	2.3	13
93	Are Correlates of Physical Activity in Adolescents Similar Across Ethnicity/Race and Sex: Implications for Interventions. <i>Journal of Physical Activity and Health</i> , 2019, 16, 1163-1174.	2.1	12
94	Intergenerational Transmission of Parent Encouragement to Diet From Adolescence Into Adulthood. <i>Pediatrics</i> , 2018, 141, .	2.3	35
95	A Qualitative Exploration Into the Parent-Child Feeding Relationship: How Parents of Preschoolers Divide the Responsibilities of Feeding With Their Children. <i>Journal of Nutrition Education and Behavior</i> , 2018, 50, 655-667.	0.7	26
96	Nutrition Facts Panels: Who Uses Them, What Do They Use, and How Does Use Relate to Dietary Intake?. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2018, 118, 217-228.	0.8	64
97	Calorie Labels on the Restaurant Menu: Is the Use of Weight-Control Behaviors Related to Ordering Decisions?. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2018, 118, 399-408.	0.8	31
98	Does non-standard work mean non-standard health? Exploring links between non-standard work schedules, health behavior, and well-being. <i>SSM - Population Health</i> , 2018, 4, 135-143.	2.9	34
99	Nutrition Facts Use in Relation to Eating Behaviors and Healthy and Unhealthy Weight Control Behaviors. <i>Journal of Nutrition Education and Behavior</i> , 2018, 50, 267-274.e1.	0.7	22
100	Questionnaire-based problematic relationship to eating and food is associated with 25 year body mass index trajectories during midlife: The Coronary Artery Risk Development In Young Adults (CARDIA) Study. <i>International Journal of Eating Disorders</i> , 2018, 51, 10-17.	4.6	10
101	Yoga and body image: Findings from a large population-based study of young adults. <i>Body Image</i> , 2018, 24, 69-75.	4.6	73
102	Multicontextual correlates of adolescent sugar-sweetened beverage intake. <i>Eating Behaviors</i> , 2018, 30, 42-48.	2.2	50
103	Physical Activity and Sociodemographic Correlates of Adolescent Exergamers. <i>Journal of Adolescent Health</i> , 2018, 62, 630-632.	2.5	2
104	Parent-child health- and weight-focused conversations: Who is saying what and to whom?. <i>Appetite</i> , 2018, 126, 114-120.	4.0	17
105	Self-Perceived Cooking Skills in Emerging Adulthood Predict Better Dietary Behaviors and Intake 10 Years Later: A Longitudinal Study. <i>Journal of Nutrition Education and Behavior</i> , 2018, 50, 494-500.	0.7	73
106	Family Home Food Environment and Nutrition-Related Parent and Child Personal and Behavioral Outcomes of the Healthy Home Offerings via the Mealtime Environment (HOME) Plus Program: A Randomized Controlled Trial. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2018, 118, 240-251.	0.8	86
107	The Transmission of Family Food and Mealtime Practices From Adolescence to Adulthood: Longitudinal Findings From Project EAT-IV. <i>Journal of Nutrition Education and Behavior</i> , 2018, 50, 141-147.e1.	0.7	26
108	Intergenerational transmission of family meal patterns from adolescence to parenthood: longitudinal associations with parents' dietary intake, weight-related behaviours and psychosocial well-being. <i>Public Health Nutrition</i> , 2018, 21, 299-308.	2.3	35

#	ARTICLE	IF	CITATIONS
109	Sleep indices and eating behaviours in young adults: findings from Project EAT. <i>Public Health Nutrition</i> , 2018, 21, 689-701.	2.3	38
110	Bidirectional associations between body dissatisfaction and depressive symptoms from adolescence through early adulthood. <i>Development and Psychopathology</i> , 2018, 30, 1447-1458.	2.6	63
111	Fifteen-year Weight and Disordered Eating Patterns Among Community-based Adolescents. <i>American Journal of Preventive Medicine</i> , 2018, 54, e21-e29.	3.2	24
112	Yoga and body image: How do young adults practicing yoga describe its impact on their body image?. <i>Body Image</i> , 2018, 27, 156-168.	4.6	67
113	Patterns of weight control behavior persisting beyond young adulthood: Results from a 15-year longitudinal study. <i>International Journal of Eating Disorders</i> , 2018, 51, 1090-1097.	4.6	31
114	The relative importance of dissatisfaction, overvaluation and preoccupation with weight and shape for predicting onset of disordered eating behaviors and depressive symptoms over 15 years. <i>International Journal of Eating Disorders</i> , 2018, 51, 1168-1175.	4.6	88
115	Obesity in Adolescence Predicts Lower Educational Attainment and Income in Adulthood: The Project EAT Longitudinal Study. <i>Obesity</i> , 2018, 26, 1467-1473.	3.2	22
116	Personal, behavioral, and environmental predictors of healthy weight maintenance during the transition to adulthood. <i>Preventive Medicine</i> , 2018, 113, 80-90.	3.6	28
117	Eating, Activity, and Weight-related Problems From Adolescence to Adulthood. <i>American Journal of Preventive Medicine</i> , 2018, 55, 133-141.	3.2	79
118	A qualitative exploration into momentary impacts on food parenting practices among parents of pre-school aged children. <i>Appetite</i> , 2018, 130, 35-44.	4.0	34
119	Examining within- and across-day relationships between transient and chronic stress and parent food-related parenting practices in a racially/ethnically diverse and immigrant population. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2018, 15, 7.	4.7	48
120	Developmental Trends and Determinants of Physical Activity From Adolescence to Adulthood Differ by Ethnicity/Race and Sex. <i>Journal of Physical Activity and Health</i> , 2018, 15, 345-354.	2.1	16
121	Yoga's potential for promoting healthy eating and physical activity behaviors among young adults: a mixed-methods study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2018, 15, 42.	4.7	44
122	Family meals among parents: Associations with nutritional, social and emotional wellbeing. <i>Preventive Medicine</i> , 2018, 113, 7-12.	3.6	65
123	Examining variability in parent feeding practices within a low-income, racially/ethnically diverse, and immigrant population using ecological momentary assessment. <i>Appetite</i> , 2018, 127, 110-118.	4.0	30
