

Yuanhua Yang

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/2134252/yuanhua-yang-publications-by-year.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
61	Associations of residential greenness with lung function and chronic obstructive pulmonary disease in China.. <i>Environmental Research</i> , 2022 , 209, 112877	7.9	1
60	Characteristics, goal-oriented treatments and survival of pulmonary arterial hypertension in China: Insights from a national multicentre prospective registry.. <i>Respirology</i> , 2022 ,	3.6	2
59	Comparison of fibrosing mediastinitis patients with vs. without markedly increased systolic pulmonary arterial pressure: a single-center retrospective study.. <i>BMC Cardiovascular Disorders</i> , 2022 , 22, 134	2.3	
58	Development and Validation of a Screening Questionnaire of COPD from a Large Epidemiological Study in China.. <i>COPD: Journal of Chronic Obstructive Pulmonary Disease</i> , 2022 , 19, 118-124	2	
57	Clinical Phenotypes With Prognostic Implications in Pulmonary Embolism Patients With Syncope.. <i>Frontiers in Cardiovascular Medicine</i> , 2022 , 9, 836850	5.4	0
56	Diagnostic value of miRNA expression and right ventricular echocardiographic functional parameters for chronic thromboembolic pulmonary hypertension with right ventricular dysfunction and injury.. <i>BMC Pulmonary Medicine</i> , 2022 , 22, 171	3.5	1
55	LMWHs dosage and outcomes in acute pulmonary embolism with renal insufficiency, an analysis from a large real-world study.. <i>Thrombosis Journal</i> , 2022 , 20, 26	5.6	
54	Examining the Development of Chronic Thromboembolic Pulmonary Hypertension at the Single-Cell Level.. <i>Hypertension</i> , 2021 , HYPERTENSIONAHA12118105	8.5	1
53	Extracellular matrix collagen biomarkers levels in patients with chronic thromboembolic pulmonary hypertension. <i>Journal of Thrombosis and Thrombolysis</i> , 2021 , 52, 48-58	5.1	7
52	Expression of miR-93-5p as a Potential Predictor of the Severity of Chronic Thromboembolic Pulmonary Hypertension. <i>BioMed Research International</i> , 2021 , 2021, 6634417	3	1
51	Risk prediction in medically treated chronic thromboembolic pulmonary hypertension. <i>BMC Pulmonary Medicine</i> , 2021 , 21, 128	3.5	1
50	Refractory pleural effusion as a rare complication of pulmonary vascular stenosis induced by fibrosing mediastinitis: a case report and literature review. <i>Journal of International Medical Research</i> , 2021 , 49, 3000605211010073	1.4	2
49	Trends in risk stratification, in-hospital management and mortality of patients with acute pulmonary embolism: an analysis from the China pUlmonary thromboembolism REgistry Study (CURES). <i>European Respiratory Journal</i> , 2021 , 58,	13.6	4
48	Cell landscape atlas for patients with chronic thromboembolic pulmonary hypertension after pulmonary endarterectomy constructed using single-cell RNA sequencing. <i>Aging</i> , 2021 , 13, 16485-16499	5.6	1
47	Haemodynamic effects of riociguat in CTEPH and PAH: a 10-year observational study. <i>ERJ Open Research</i> , 2021 , 7,	3.5	2
46	Possible immune regulation mechanisms for the progression of chronic thromboembolic pulmonary hypertension. <i>Thrombosis Research</i> , 2021 , 198, 122-131	8.2	3
45	Characteristics and long-term survival of patients with chronic thromboembolic pulmonary hypertension in China. <i>Respirology</i> , 2021 , 26, 196-203	3.6	8

44	Right Ventricular Function and Its Coupling With Pulmonary Circulation in Precapillary Pulmonary Hypertension: A Three-Dimensional Echocardiographic Study. <i>Frontiers in Cardiovascular Medicine</i> , 2021 , 8, 690606	5.4	1
43	Right Ventricular Function Predicts Adverse Clinical Outcomes in Patients With Chronic Thromboembolic Pulmonary Hypertension: A Three-Dimensional Echocardiographic Study. <i>Frontiers in Medicine</i> , 2021 , 8, 697396	4.9	0
42	Association of fine particulate matter air pollution and its constituents with lung function: The China Pulmonary Health study. <i>Environment International</i> , 2021 , 156, 106707	12.9	4
41	Rational and design of the China Pulmonary Thromboembolism Registry Study (CURES): A prospective multicenter registry. <i>International Journal of Cardiology</i> , 2020 , 316, 242-248	3.2	4
40	Speckle tracking for predicting outcomes of balloon pulmonary angioplasty in patients with chronic thromboembolic pulmonary hypertension. <i>Echocardiography</i> , 2020 , 37, 841-849	1.5	3
39	Anxiety and depression in patients with pulmonary arterial hypertension and chronic thromboembolic pulmonary hypertension: Results from a Chinese survey. <i>Experimental and Therapeutic Medicine</i> , 2020 , 19, 3124-3132	2.1	10
38	hsa-miR-106b-5p participates in the development of chronic thromboembolic pulmonary hypertension via targeting matrix metalloproteinase 2. <i>Pulmonary Circulation</i> , 2020 , 10, 2045894020928300	2.7	4
37	Prevalence and risk factors of small airway dysfunction, and association with smoking, in China: findings from a national cross-sectional study. <i>Lancet Respiratory Medicine</i> , 2020 , 8, 1081-1093	35.1	66
36	Comparison of prediction value of four bleeding risk scores for pulmonary embolism with anticoagulation: A real-world study in Chinese patients. <i>Clinical Respiratory Journal</i> , 2019 , 13, 139-147	1.7	3
35	miRNA-PDGFRB/HIF1A-lncRNA CTEPHA1 Network Plays Important Roles in the Mechanism of Chronic Thromboembolic Pulmonary Hypertension. <i>International Heart Journal</i> , 2019 , 60, 924-937	1.8	9
34	Prevalence, risk factors, and management of asthma in China: a national cross-sectional study. <i>Lancet, The</i> , 2019 , 394, 407-418	40	180
33	Occurrence of acute pulmonary embolism induced by recombinant erythropoietin during treatment of pure red cell aplasia associated with thymoma: A case report. <i>Medicine (United States)</i> , 2019 , 98, e14789	1.8	2
32	Efficacy and Safety of Bronchial Artery Embolization on Hemoptysis in Chronic Thromboembolic Pulmonary Hypertension: A Pilot Prospective Cohort Study. <i>Critical Care Medicine</i> , 2019 , 47, e182-e189	1.4	6
31	Clinical and imaging manifestations of Takayasu's arteritis with pulmonary hypertension: A retrospective cohort study in China. <i>International Journal of Cardiology</i> , 2019 , 276, 224-229	3.2	12
30	Trends in Hospitalization and In-Hospital Mortality From VTE, 2007 to 2016, in China. <i>Chest</i> , 2019 , 155, 342-353	5.3	29
29	Prevalence and risk factors of chronic obstructive pulmonary disease in China (the China Pulmonary Health [CPH] study): a national cross-sectional study. <i>Lancet, The</i> , 2018 , 391, 1706-1717	40	525
28	Fibrosing mediastinitis with pulmonary hypertension as a complication of pulmonary vein stenosis: A case report and review of the literature. <i>Medicine (United States)</i> , 2018 , 97, e9694	1.8	8
27	Identification of a low frequency missense mutation in MUC6 contributing to pulmonary artery hypertension by whole-exome sequencing. <i>Pulmonary Circulation</i> , 2018 , 8, 2045894018794374	2.7	1

26	Incidence and risk factors of chronic thromboembolic pulmonary hypertension after acute pulmonary embolism: a systematic review and meta-analysis of cohort studies. <i>Journal of Thoracic Disease</i> , 2018 , 10, 4751-4763	2.6	17
25	The prevalence and risk factors of venous thromboembolism in hospitalized patients with acute exacerbation of chronic obstructive pulmonary disease. <i>Clinical Respiratory Journal</i> , 2018 , 12, 2573-2580 ¹⁻⁷	1.7	11
24	The Society for Translational Medicine: the assessment and prevention of venous thromboembolism after lung cancer surgery. <i>Journal of Thoracic Disease</i> , 2018 , 10, 3039-3053	2.6	10
23	Successful thrombolytic therapy of post-operative massive pulmonary embolism after ultralong cardiopulmonary resuscitation: a case report and review of literature. <i>Clinical Respiratory Journal</i> , 2017 , 11, 383-390	1.7	1
22	Diabetes mellitus is associated with increased bleeding in pulmonary embolism receiving conventional anticoagulant therapy: findings from a "real-world" study. <i>Journal of Thrombosis and Thrombolysis</i> , 2017 , 43, 540-549	5.1	13
21	Echocardiographic characteristics of pulmonary artery involvement in Takayasu arteritis. <i>Echocardiography</i> , 2017 , 34, 340-347	1.5	13
20	Microarray Analysis and Detection of MicroRNAs Associated with Chronic Thromboembolic Pulmonary Hypertension. <i>BioMed Research International</i> , 2017 , 2017, 8529796	3	13
19	Pulmonary embolism risk stratification by European Society of Cardiology is associated with recurrent venous thromboembolism: Findings from a long-term follow-up study. <i>International Journal of Cardiology</i> , 2016 , 202, 275-81	3.2	10
18	Close concordance between pulmonary angiography and pathology in a canine model with chronic pulmonary thromboembolism and pathological mechanisms after lung ischemia reperfusion injury. <i>Journal of Thrombosis and Thrombolysis</i> , 2016 , 41, 581-91	5.1	4
17	Inverse relationship of bleeding risk with clot burden during pulmonary embolism treatment with LMW heparin. <i>Clinical Respiratory Journal</i> , 2016 , 10, 596-605	1.7	2
16	Hypertension associated with venous thromboembolism in patients with newly diagnosed lung cancer. <i>Scientific Reports</i> , 2016 , 6, 19603	4.9	10
15	Pleural effusions as a predictive parameter for poor prognosis for patients with acute pulmonary thromboembolism. <i>Journal of Thrombosis and Thrombolysis</i> , 2016 , 42, 432-40	5.1	6
14	Prognostic significance of arterial and venous thrombosis in resected specimens for non-small cell lung cancer. <i>Thrombosis Research</i> , 2015 , 136, 451-5	8.2	15
13	The sGC activator inhibits the proliferation and migration, promotes the apoptosis of human pulmonary arterial smooth muscle cells via the up regulation of plasminogen activator inhibitor-2. <i>Experimental Cell Research</i> , 2015 , 332, 278-87	4.2	11
12	Long-term treatment with low-molecular-weight heparin prolonged the survival time for acute pulmonary embolism patients concurrent with malignancy: an observational analysis from a long-term follow-up study. <i>Thrombosis Research</i> , 2015 , 135, 582-7	8.2	6
11	Oxidative stress and nitric oxide signaling related biomarkers in patients with pulmonary hypertension: a case control study. <i>BMC Pulmonary Medicine</i> , 2015 , 15, 50	3.5	35
10	Pulmonary involvement in patients with Behçet's disease: report of 15 cases. <i>Clinical Respiratory Journal</i> , 2015 , 9, 414-22	1.7	9
9	Real-Time Three-Dimensional Echocardiography to Assess Right Ventricle Function in Patients with Pulmonary Hypertension. <i>PLoS ONE</i> , 2015 , 10, e0129557	3.7	10

8	Efficacy and safety of chemotherapy for newly diagnosed advanced non-small cell lung cancer with venous thromboembolism. <i>Thoracic Cancer</i> , 2015 , 6, 772-7	3.2	1
7	A Survey of the Knowledge of Venous Thromboembolism Prophylaxis among the Medical Staff of Intensive Care Units in North China. <i>PLoS ONE</i> , 2015 , 10, e0139162	3.7	14
6	Initial thrombolysis treatment compared with anticoagulation for acute intermediate-risk pulmonary embolism: a meta-analysis. <i>Journal of Thoracic Disease</i> , 2015 , 7, 810-21	2.6	19
5	Incidence and risk factors of chronic thromboembolic pulmonary hypertension in patients after acute pulmonary embolism. <i>Journal of Thoracic Disease</i> , 2015 , 7, 1927-38	2.6	37
4	A systematic review of the diagnostic accuracy of cardiovascular magnetic resonance for pulmonary hypertension. <i>Canadian Journal of Cardiology</i> , 2014 , 30, 455-63	3.8	17
3	Differentially expressed plasma microRNAs and the potential regulatory function of Let-7b in chronic thromboembolic pulmonary hypertension. <i>PLoS ONE</i> , 2014 , 9, e101055	3.7	41
2	Prevalence and associations of VTE in patients with newly diagnosed lung cancer. <i>Chest</i> , 2014 , 146, 650-658	3.5	46
1	Pulmonary embolism incidence and fatality trends in chinese hospitals from 1997 to 2008: a multicenter registration study. <i>PLoS ONE</i> , 2011 , 6, e26861	3.7	62
