1	Micronutrient deficiencies in pregnancy worldwide: health effects and prevention. Nature Reviews Endocrinology, 2016, 12, 274-289.	4.3	413
2	Double blind, cluster randomised trial of low dose supplementation with vitamin A or beta Âcarotene on mortality related to pregnancy in Nepal. BMJ: British Medical Journal, 1999, 318, 570-575.	2.4	410
3	Extent of Vitamin A Deficiency among Preschool Children and Women of Reproductive Age. Journal of Nutrition, 2002, 132, 2857S-2866S.	1.3	381
4	Effects of alternative maternal micronutrient supplements on low birth weight in rural Nepal: double blind randomised community trial. BMJ: British Medical Journal, 2003, 326, 571-571.	2.4	311
5	The role of vitamins in the prevention and control of anaemia. Public Health Nutrition, 2000, 3, 125-150.	1.1	247
6	Effect of vitamin A supplementation on morbidity due to Plasmodium falciparum in young children in Papua New Guinea: a randomised trial. Lancet, The, 1999, 354, 203-209.	6.3	243
7	Impact of neonatal vitamin A supplementation on infant morbidity and mortality. Journal of Pediatrics, 1996, 128, 489-496.	0.9	218
8	Effects of maternal micronutrient supplementation on fetal loss and infant mortality: a cluster-randomized trial in Nepal. American Journal of Clinical Nutrition, 2003, 78, 1194-1202.	2.2	173
9	Modifiers of the effect of maternal multiple micronutrient supplementation on stillbirth, birth outcomes, and infant mortality: a meta-analysis of individual patient data from 17 randomised trials in low-income and middle-income countries. The Lancet Global Health, 2017, 5, e1090-e1100.	2.9	162
10	Micronutrient Deficiencies in Early Pregnancy Are Common, Concurrent, and Vary by Season among Rural Nepali Pregnant Women. Journal of Nutrition, 2005, 135, 1106-1112.	1.3	159
11	Night blindness of pregnancy in rural Nepalnutritional and health risks. International Journal of Epidemiology, 1998, 27, 231-237.	0.9	153
12	Statistical Inference from Multiple iTRAQ Experiments without Using Common Reference Standards. Journal of Proteome Research, 2013, 12, 594-604.	1.8	130
13	Effects of Vitamin A or Beta Carotene Supplementation on Pregnancy-Related Mortality and Infant Mortality in Rural Bangladesh. JAMA - Journal of the American Medical Association, 2011, 305, 1986-95.	3.8	122
14	Newborn Vitamin A Supplementation Reduced Infant Mortality in Rural Bangladesh. Pediatrics, 2008, 122, e242-e250.	1.0	121
15	Effect of Maternal Multiple Micronutrient vs Iron–Folic Acid Supplementation on Infant Mortality and Adverse Birth Outcomes in Rural Bangladesh. JAMA - Journal of the American Medical Association, 2014, 312, 2649.	3.8	115
16	Maternal low-dose vitamin A or \hat{l}^2 -carotene supplementation has no effect on fetal loss and early infant mortality: a randomized cluster trial in Nepal. American Journal of Clinical Nutrition, 2000, 71, 1570-1576.	2.2	113
17	Effect of fortified complementary food supplementation on child growth in rural Bangladesh: a cluster-randomized trial. International Journal of Epidemiology, 2015, 44, 1862-1876.	0.9	112
18	Antenatal Micronutrient Supplementation Reduces Metabolic Syndrome in 6- to 8-Year-Old Children in Rural Nepal,. Journal of Nutrition, 2009, 139, 1575-1581.	1.3	109

#	Article	IF	Citations
19	Hepatitis E, a Vaccine-Preventable Cause of Maternal Deaths. Emerging Infectious Diseases, 2012, 18, 1401-1404.	2.0	102
20	Low Maternal Vitamin B-12 Status Is Associated with Offspring Insulin Resistance Regardless of Antenatal Micronutrient Supplementation in Rural Nepal,. Journal of Nutrition, 2011, 141, 1912-1917.	1.3	100
21	Vitamin A Deficiency Disorders in Children and Women. Food and Nutrition Bulletin, 2003, 24, S78-S90.	0.5	97
22	Aflatoxin exposure during the first 1000 days of life in rural South Asia assessed by aflatoxin B1-lysine albumin biomarkers. Food and Chemical Toxicology, 2014, 74, 184-189.	1.8	97
23	Night Blindness Is Prevalent during Pregnancy and Lactation in Rural Nepal. Journal of Nutrition, 1995, 125, 2122-2127.	1.3	94
24	Vitamin A Deficiency., 2008,, 377-433.		93
25	Antenatal supplementation with folic acid + iron + zinc improves linear growth and reduces peripheral adiposity in school-age children in rural Nepal. American Journal of Clinical Nutrition, 2009, 90, 132-140.	2.2	86
26	Antenatal and Postnatal Iron Supplementation and Childhood Mortality in Rural Nepal: A Prospective Follow-up in a Randomized, Controlled Community Trial. American Journal of Epidemiology, 2009, 170, 1127-1136.	1.6	82
27	Maternal Night Blindness Increases Risk of Mortality in the First 6 Months of Life among Infants in Nepal. Journal of Nutrition, 2001, 131, 1510-1512.	1.3	79
28	Iron Status of Women Is Associated with the Iron Concentration of Potable Groundwater in Rural Bangladesh1–3. Journal of Nutrition, 2011, 141, 944-949.	1.3	72
29	Vitamin A or \hat{I}^2 -Carotene Supplementation Reduces but Does Not Eliminate Maternal Night Blindness in Nepal. Journal of Nutrition, 1998, 128, 1458-1463.	1.3	70
30	Vitamin A supplementation selectively improves the linear growth of Indonesian preschool children: results from a randomized controlled trial. American Journal of Clinical Nutrition, 2000, 71, 507-513.	2.2	69
31	Vitamin A or \hat{I}^2 -Carotene Supplementation Reduces Symptoms of Illness in Pregnant and Lactating Nepali Women. Journal of Nutrition, 2000, 130, 2675-2682.	1.3	68
32	A cluster-randomized, placebo-controlled, maternal vitamin a or beta-carotene supplementation trial in bangladesh: design and methods. Trials, 2011, 12, 102.	0.7	67
33	The use and interpretation of serum retinol distributions in evaluating the public health impact of vitamin A programmes. Public Health Nutrition, 2012, 15, 1201-1215.	1.1	67
34	Antenatal micronutrient supplements in Nepal. Lancet, The, 2005, 366, 711-712.	6.3	66
35	Constructing Indices of Rural Living Standards in Northwestern Bangladesh. Journal of Health, Population and Nutrition, 2010, 28, 509-19.	0.7	66
36	Effects of Vitamin A on Growth of Vitamin A-Deficient Children: Field Studies in Nepal, ,. Journal of Nutrition, 1997, 127, 1957-1965.	1.3	64

#	Article	IF	Citations
37	Efficacy of a vitamin A–fortified wheat-flour bun on the vitamin A status of Filipino schoolchildren. American Journal of Clinical Nutrition, 2000, 72, 738-744.	2.2	64
38	Vitamin A Intake and Status in Populations Facing Economic Stress. Journal of Nutrition, 2010, 140, 2015-207S.	1.3	64
39	Maternal Dietary Diversity Decreases with Household Food Insecurity in Rural Bangladesh: A Longitudinal Analysis. Journal of Nutrition, 2016, 146, 2109-2116.	1.3	63
40	Vitamin A Deficiency Disorders in Children and Women. Food and Nutrition Bulletin, 2003, 24, S78-S90.	0.5	59
41	PREVALENCE AND SEVERITY OF XEROPHTHALMIA IN SOUTHERN MALAWI. American Journal of Epidemiology, 1986, 124, 561-568.	1.6	55
42	Risk factors for pregnancy-related mortality: A prospective study in rural Nepal. Public Health, 2008, 122, 161-172.	1.4	52
43	Micronutrient Deficiencies Are Common in 6- to 8-Year-Old Children of Rural Nepal, with Prevalence Estimates Modestly Affected by Inflammation. Journal of Nutrition, 2014, 144, 979-987.	1.3	52
44	Provitamin A–biofortified maize increases serum β-carotene, but not retinol, in marginally nourished children: a cluster-randomized trial in rural Zambia. American Journal of Clinical Nutrition, 2016, 104, 181-190.	2.2	52
45	Retinol Analysis in Dried Blood Spots by HPLC. Journal of Nutrition, 2000, 130, 882-885.	1.3	51
46	Biomarkers of Environmental Enteric Dysfunction Among Children in Rural Bangladesh. Journal of Pediatric Gastroenterology and Nutrition, 2017, 65, 40-46.	0.9	50
47	Analyzing the Mobile "Digital Divide― Changing Determinants of Household Phone Ownership Over Time in Rural Bangladesh. JMIR MHealth and UHealth, 2015, 3, e24.	1.8	50
48	Provitamin A Carotenoid–Biofortified Maize Consumption Increases Pupillary Responsiveness among Zambian Children in a Randomized Controlled Trial. Journal of Nutrition, 2016, 146, 2551-2558.	1.3	45
49	Responsiveness of dark-adaptation threshold to vitamin A and \hat{I}^2 -carotene supplementation in pregnant and lactating women in Nepal. American Journal of Clinical Nutrition, 2000, 72, 1004-1009.	2.2	44
50	The Plasma Proteome Identifies Expected and Novel Proteins Correlated with Micronutrient Status in Undernourished Nepalese Children. Journal of Nutrition, 2013, 143, 1540-1548.	1.3	44
51	High prevalence of anemia with lack of iron deficiency among women in rural Bangladesh: a role for thalassemia and iron in groundwater. Asia Pacific Journal of Clinical Nutrition, 2012, 21, 416-24.	0.3	44
52	First-trimester plasma tocopherols are associated with risk of miscarriage in rural Bangladesh. American Journal of Clinical Nutrition, 2015, 101, 294-301.	2.2	43
53	Clustering of Xerophthalmia within Households and Villages. International Journal of Epidemiology, 1993, 22, 709-715.	0.9	42
54	Individual, household, and community level risk factors of stunting in children younger than 5Âyears: Findings from a national surveillance system in Nepal. Maternal and Child Nutrition, 2018, 14, .	1.4	42

#	Article	IF	CITATIONS
55	A 10-Food Group Dietary Diversity Score Outperforms a 7-Food Group Score in Characterizing Seasonal Variability and Micronutrient Adequacy in Rural Zambian Children. Journal of Nutrition, 2018, 148, 131-139.	1.3	40
56	Impact of Vitamin A Supplementation on the Incidence of Infection in Elderly Nursing-home Residents: A Randomized Controlled Trial. Age and Ageing, 1992, 21, 435-439.	0.7	39
57	Risk factors for reported obstetric complications and near misses in rural northwest Bangladesh: analysis from a prospective cohort study. BMC Pregnancy and Childbirth, 2014, 14, 347.	0.9	39
58	A Systematic Review Investigating the Relation Between Animal-Source Food Consumption and Stunting in Children Aged 6–60 Months in Low and Middle-Income Countries. Advances in Nutrition, 2019, 10, 827-847.	2.9	39
59	Association between stunting and early childhood development among children aged 36–59Âmonths in <scp>South Asia</scp> . Maternal and Child Nutrition, 2018, 14, e12684.	1.4	38
60	Plasma zinc, vitamin B ₁₂ and α-tocopherol are positively and plasma \hat{I}^3 -tocopherol is negatively associated with Hb concentration in early pregnancy in north-west Bangladesh. Public Health Nutrition, 2013, 16, 1354-1361.	1.1	36
61	Educating and Training a Workforce for Nutrition in a Post-2015 World. Advances in Nutrition, 2015, 6, 639-647.	2.9	36
62	Vitamin A supplementation in preschool children and risk of hearing loss as adolescents and young adults in rural Nepal: randomised trial cohort follow-up study. BMJ: British Medical Journal, 2012, 344, d7962-d7962.	2.4	35
63	Development and acceptability testing of ready-to-use supplementary food made from locally available food ingredients in Bangladesh. BMC Pediatrics, 2014, 14, 164.	0.7	35
64	Seasonal dietary intakes and socioeconomic status among women in the Terai of Nepal. Journal of Health, Population and Nutrition, 2014, 32, 198-216.	0.7	35
65	The Role of Universal Distribution of Vitamin A Capsules in Combatting Vitamin A Deficiency in Bangladesh. American Journal of Epidemiology, 1995, 142, 843-855.	1.6	34
66	Effects of vitamin A and \hat{l}^2 -carotene supplementation on birth size and length of gestation in rural Bangladesh: a cluster-randomized trial. American Journal of Clinical Nutrition, 2013, 97, 188-194.	2.2	34
67	Patterns and determinants of care seeking for obstetric complications in rural northwest Bangladesh: analysis from a prospective cohort study. BMC Health Services Research, 2015, 15, 166.	0.9	34
68	Household food production is positively associated with dietary diversity and intake of nutrient-dense foods for older preschool children in poorer families: Results from a nationally-representative survey in Nepal. PLoS ONE, 2017, 12, e0186765.	1.1	34
69	Physiologic Indicators of Vitamin A Status. Journal of Nutrition, 2002, 132, 2889S-2894S.	1.3	33
70	Maternal Weight and Body Composition during Pregnancy Are Associated with Placental and Birth Weight in Rural Bangladesh,. Journal of Nutrition, 2012, 142, 2010-2016.	1.3	33
71	Arsenic exposure and hepatitis E virus infection during pregnancy. Environmental Research, 2015, 142, 273-280.	3.7	33
72	Antenatal Multiple Micronutrient Supplementation Compared to Iron–Folic Acid Affects Micronutrient Status but Does Not Eliminate Deficiencies in a Randomized Controlled Trial Among Pregnant Women of Rural Bangladesh. Journal of Nutrition, 2019, 149, 1260-1270.	1.3	33

#	Article	IF	CITATIONS
73	Gestational vitamin A deficiency: A novel cause of sensorineural hearing loss in the developing world?. Medical Hypotheses, 2014, 82, 6-10.	0.8	32
74	Effect of complementary food supplementation on breastfeeding and home diet in rural Bangladeshi children. American Journal of Clinical Nutrition, 2016, 104, 1450-1458.	2.2	31
75	Maternal vitamin A and \hat{l}^2 -carotene supplementation and risk of bacterial vaginosis: a randomized controlled trial in rural Bangladesh. American Journal of Clinical Nutrition, 2011, 94, 1643-1649.	2.2	30
76	Determinants of infant breastfeeding practices in Nepal: a national study. International Breastfeeding Journal, 2019, 14, 14.	0.9	30
77	Household food insecurity is associated with low dietary diversity among pregnant and lactating women in rural Malawi. Public Health Nutrition, 2019, 22, 697-705.	1.1	30
78	Vitamin A deficiency and anemia among micronesian children. Nutrition Research, 1989, 9, 1007-1016.	1.3	29
79	Early Neonatal Feeding Is Common and Associated with Subsequent Breastfeeding Behavior in Rural Bangladesh1–3. Journal of Nutrition, 2013, 143, 1161-1167.	1.3	29
80	A home calendar and recall method of last menstrual period for estimating gestational age in rural Bangladesh: a validation study. Journal of Health, Population and Nutrition, 2016, 35, 34.	0.7	27
81	Canonical Correlation Analysis of Infant's Size at Birth and Maternal Factors: A Study in Rural Northwest Bangladesh. PLoS ONE, 2014, 9, e94243.	1.1	26
82	General intelligence is associated with subclinical inflammation in Nepalese children: A population-based plasma proteomics study. Brain, Behavior, and Immunity, 2016, 56, 253-263.	2.0	25
83	Risk factors and neonatal/infant mortality risk of small-for-gestational-age and preterm birth in rural Nepal. Journal of Maternal-Fetal and Neonatal Medicine, 2015, 28, 1019-1025.	0.7	24
84	Availability of emergency obstetric care (EmOC) among public and private health facilities in rural northwest Bangladesh. BMC Public Health, 2015, 15, 36.	1.2	24
85	Effect of maternal antenatal and newborn supplementation with vitamin A on cognitive development of school-aged children in rural Bangladesh: a follow-up of a placebo-controlled, randomized trial. American Journal of Clinical Nutrition, 2017, 106, 77-87.	2.2	24
86	Maternal determinants of timely vaccination coverage among infants in rural Bangladesh. Vaccine, 2014, 32, 5514-5519.	1.7	23
87	Nutritional status and risk factors for stunting in preschool children in Bhutan. Maternal and Child Nutrition, 2018, 14, e12653.	1.4	22
88	Plasma Proteome Biomarkers of Inflammation in School Aged Children in Nepal. PLoS ONE, 2015, 10, e0144279.	1.1	22
89	High Plasma Homocysteine Increases Risk of Metabolic Syndrome in 6 to 8 Year Old Children in Rural Nepal. Nutrients, 2014, 6, 1649-1661.	1.7	21
90	Lowâ€birthweight rates higher among <scp>B</scp> angladeshi neonates measured during active birth surveillance compared to national survey data. Maternal and Child Nutrition, 2015, 11, 583-594.	1.4	21
