#	ARTICLE	IF	CITATIONS
1	Clarity and consistency in stillbirth reporting in Europe: why is it so hard to get this right?. <i>European Journal of Public Health</i> , 2022, 32, 200-206.	0.1	7
2	Understanding ethnic inequalities in stillbirth rates: a UK population-based cohort study. <i>BMJ Open</i> , 2022, 12, e057412.	0.8	14
3	Using Robson's Tenâ€Group Classification System for comparing caesarean section rates in Europe: an analysis of routine data from the Euroâ€Peristat study. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2021, 128, 1444-1453.	1.1	23
4	Associations between social and behavioural factors and the risk of late stillbirth â€ findings from the Midland and North of England Stillbirth caseâ€control study. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2021, 128, 704-713.	1.1	18
5	Global, regional, and national estimates and trends in stillbirths from 2000 to 2019: a systematic assessment. <i>Lancet, The</i> , 2021, 398, 772-785.	6.3	186
6	Producing valid statistics when legislation, culture and medical practices differ for births at or before the threshold of survival: report of a European workshop. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2020, 127, 314-318.	1.1	16
7	Parentsâ€™ decision-making following diagnosis of a severe congenital anomaly in pregnancy: Practical, theoretical and ethical tensions. <i>Social Science and Medicine</i> , 2020, 266, 113362.	1.8	4
8	Parentsâ€™ experiences of care following the loss of a baby at the margins between miscarriage, stillbirth and neonatal death: a UK qualitative study. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2020, 127, 868-874.	1.1	33
9	Assessing the deprivation gap in stillbirths and neonatal deaths by cause of death: a national population-based study. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2019, 104, F624-F630.	1.4	15
10	Diagnosis of a severe congenital anomaly: A qualitative analysis of parental decision making and the implications for healthcare encounters. <i>Health Expectations</i> , 2018, 21, 678-684.	1.1	24
11	How do late terminations of pregnancy affect comparisons of stillbirth rates in Europe? Analyses of aggregated routine data from the Euroâ€Peristat Project. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2018, 125, 226-234.	1.1	26
12	Updated birth weight centiles for England and Wales. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2018, 103, F577-F582.	1.4	37
13	Quantifying the burden of stillbirths before 28 weeks of completed gestational age in high-income countries: a population-based study of 19 European countries. <i>Lancet, The</i> , 2018, 392, 1639-1646.	6.3	35
14	Decision-making at the limits of viability: recognising the influence of parental factors. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2018, 103, F196-F197.	1.4	1
15	An International Comparison of Death Classification at 22 to 25 Weeksâ€™ Gestational Age. <i>Pediatrics</i> , 2018, 142, .	1.0	32
16	Variability in the management and outcomes of extremely preterm births across five European countries: a population-based cohort study. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2017, 102, F400-F408.	1.4	39
17	Causes and temporal changes in nationally collected stillbirth audit data in high-resource settings. <i>Seminars in Fetal and Neonatal Medicine</i> , 2017, 22, 118-128.	1.1	25
18	Ensuring the Comparability of Infant Mortality Rates: the Impact of the Management of Preâ€Viable and Periâ€Viable Births. <i>Paediatric and Perinatal Epidemiology</i> , 2017, 31, 392-393.	0.8	4

#	ARTICLE	IF	CITATIONS
19	Variations in very preterm birth rates in 30 high-income countries: are valid international comparisons possible using routine data?. BJOG: an International Journal of Obstetrics and Gynaecology, 2017, 124, 785-794.	1.1	49
20	Clinicians' perspectives of parental decision-making following diagnosis of a severe congenital anomaly: a qualitative study. BMJ Open, 2017, 7, e014716.	0.8	20
21	Care provision during termination of pregnancy following diagnosis of a severe congenital anomaly – A qualitative study of what is important to parents. Midwifery, 2016, 43, 14-20.	1.0	35
22	Moral distress: an inevitable part of neonatal and paediatric intensive care?. Archives of Disease in Childhood, 2016, 101, 686-687.	1.0	6
23	Stillbirths: rates, risk factors, and acceleration towards 2030. Lancet, The, 2016, 387, 587-603.	6.3	1,220
24	Stillbirths: recall to action in high-income countries. Lancet, The, 2016, 387, 691-702.	6.3	481
25	Eating difficulties in children born late and moderately preterm at 2 y of age: a prospective population-based cohort study. American Journal of Clinical Nutrition, 2016, 103, 406-414.	2.2	51
26	Towards reducing variations in infant mortality and morbidity: a population-based approach. Programme Grants for Applied Research, 2016, 4, 1-218.	0.4	7
27	Economic costs associated with moderate and late preterm birth: a prospective population-based study. BJOG: an International Journal of Obstetrics and Gynaecology, 2015, 122, 1495-1505.	1.1	68
28	Early Emergence of Delayed Social Competence in Infants Born Late and Moderately Preterm. Journal of Developmental and Behavioral Pediatrics, 2015, 36, 690-699.	0.6	41
29	Gender balance: Women are funded more fairly in social science. Nature, 2015, 525, 181-183.	13.7	43
30	Interpretation of early life mortality rates. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2015, 100, F99-F100.	1.4	3
31	Infants Born Late/Moderately Preterm Are at Increased Risk for a Positive Autism Screen at 2 Years of Age. Journal of Pediatrics, 2015, 166, 269-275.e3.	0.9	88
32	Neonatal outcomes and delivery of care for infants born late preterm or moderately preterm: a prospective population-based study. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2015, 100, F479-F485.	1.4	113
33	Neurodevelopmental outcomes following late and moderate prematurity: a population-based cohort study. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2015, 100, F301-F308.	1.4	209
34	Associations between late and moderately preterm birth and smoking, alcohol, drug use and diet: a population-based case-cohort study. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2015, 100, F486-F491.	1.4	36
35	Socioeconomic inequalities in pregnancy outcome associated with Down syndrome: a population-based study. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2015, 100, F400-F404.	1.4	10
36	Trends in the incidence and mortality of multiple births by socioeconomic deprivation and maternal age in England: population-based cohort study. BMJ Open, 2014, 4, e004514.	0.8	35

#	ARTICLE	IF	CITATIONS
37	Experiences with maternal and perinatal death reviews in the <sc>UK</sc>’the <sc>MBRRACE</sc>’the <sc>UK</sc> programme. BJOG: an International Journal of Obstetrics and Gynaecology, 2014, 121, 41-46.	1.1	65
38	Telephone interviews and online questionnaires can be used to improve neurodevelopmental follow-up rates. BMC Research Notes, 2014, 7, 219.	0.6	17
39	Long-term outcome for the tiniest or most immature babies: survival rates. Seminars in Fetal and Neonatal Medicine, 2014, 19, 72-77.	1.1	14
40	Neighbourhood deprivation and very preterm birth in an English and French cohort. BMC Pregnancy and Childbirth, 2013, 13, 97.	0.9	41
41	Comparing regional infant death rates: the influence of preterm births <lt;24 weeks of gestation. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2013, 98, F103-F107.	1.4	35
42	Prevention of preterm births: are we looking in the wrong place? The case for primary prevention. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2012, 97, F160-F161.	1.4	12
43	Socioeconomic inequalities in the rate of stillbirths by cause: a population-based study. BMJ Open, 2012, 2, e001100.	0.8	27
44	Socioeconomic inequalities in outcome of pregnancy and neonatal mortality associated with congenital anomalies: population based study. BMJ: British Medical Journal, 2011, 343, d4306-d4306.	2.4	53
45	A Prospective Population-Based Study of Birth at 32-36 Weeks of Gestation: Neonatal Outcomes from the Late and Moderate Preterm Birth Study (LAMBS). Pediatric Research, 2011, 70, 304-304.	1.1	1
46	Neighbourhood Social Characteristics and Risk of Very Preterm Birth in a French and English Region. Pediatric Research, 2011, 70, 623-623.	1.1	0
47	Nature of socioeconomic inequalities in neonatal mortality: population based study. BMJ: British Medical Journal, 2010, 341, c6654-c6654.	2.4	54
48	Neonatal outcomes in babies born out of hours. BMJ: British Medical Journal, 2010, 341, c3087-c3087.	2.4	0
49	Socioeconomic inequalities in survival and provision of neonatal care: population based study of very preterm infants. BMJ: British Medical Journal, 2009, 339, b4702-b4702.	2.4	43
50	Socioeconomic inequalities in very preterm birth rates. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2007, 92, F11-F14.	1.4	151
51	Deprivation and Infection Among Spontaneous Very Preterm Births. Obstetrics and Gynecology, 2007, 110, 325-329.	1.2	17
52	The Impact of Physical, Intellectual and Social Impairments on Survival in Adults with Intellectual Disability: A Population-Based Register Study. Journal of Applied Research in Intellectual Disabilities, 2007, 20, 360-367.	1.3	19
53	Mortality in adults with moderate to profound intellectual disability: a population-based study. Journal of Intellectual Disability Research, 2007, 51, 520-527.	1.2	107
54	Conducting a critical interpretive synthesis of the literature on access to healthcare by vulnerable groups. BMC Medical Research Methodology, 2006, 6, 35.	1.4	1,217

#	ARTICLE	IF	CITATIONS
55	Socioeconomic factors associated with the onset of disability in older age: a longitudinal study of people aged 75 years and over. <i>Social Science and Medicine</i> , 2005, 61, 1567-1575.	1.8	95
56	Additive and multiplicative covariate regression models for relative survival incorporating fractional polynomials for time-dependent effects. <i>Statistics in Medicine</i> , 2005, 24, 3871-3885.	0.8	60
57	Patients' help-seeking experiences and delay in cancer presentation: a qualitative synthesis. <i>Lancet, The</i> , 2005, 366, 825-831.	6.3	432
58	Do we need an age specific measure of consensual poverty for older adults? Evidence from the poverty and social exclusion survey. <i>Journal of Epidemiology and Community Health</i> , 2004, 58, 616-617.	2.0	6
59	Providing more up-to-date estimates of patient survival: a comparison of standard survival analysis with period analysis using life-table methods and proportional hazards models. <i>Journal of Clinical Epidemiology</i> , 2004, 57, 14-20.	2.4	13
60	Latest trends in cancer incidence among UK South Asians in Leicester. <i>British Journal of Cancer</i> , 2003, 89, 70-73.	2.9	43
61	Up-to-date estimates of long-term cancer survival in England and Wales. <i>British Journal of Cancer</i> , 2003, 89, 74-76.	2.9	17
62	Recent changes in lung cancer incidence for south Asians: a population based register study. <i>BMJ: British Medical Journal</i> , 2003, 326, 81-82.	2.4	17
63	A study of heredity as a risk factor in strabismus. <i>Eye</i> , 2002, 16, 519-521.	1.1	41
64	Emergency admissions of older people to hospital: a link with material deprivation. <i>Journal of Public Health</i> , 1998, 20, 97-101.	1.0	23
65	Geographical variation in coronary revascularisation rates.. <i>Journal of Epidemiology and Community Health</i> , 1996, 50, 227-227.	2.0	0
66	Parents' views of health surveillance.. <i>Archives of Disease in Childhood</i> , 1995, 73, 57-61.	1.0	4
67	Children's vision screening: impact on inequalities in central England.. <i>Journal of Epidemiology and Community Health</i> , 1995, 49, 606-609.	2.0	9
68	The presentation of children with amblyopia. <i>Eye</i> , 1994, 8, 623-626.	1.1	61
69	Factors affecting the outcome of children treated for amblyopia. <i>Eye</i> , 1994, 8, 627-631.	1.1	164
70	Global, Regional, and National Levels and Trends in Stillbirths from 2000 to 2019: A Systematic Assessment. <i>SSRN Electronic Journal</i> , 0, , .	0.4	1
