#	ARTICLE	IF	CITATIONS
1	Return to sport following anterior cruciate ligament reconstruction surgery: a systematic review and meta-analysis of the state of play. <i>British Journal of Sports Medicine</i> , 2011, 45, 596-606.	6.7	941
2	Fifty-five per cent return to competitive sport following anterior cruciate ligament reconstruction surgery: an updated systematic review and meta-analysis including aspects of physical functioning and contextual factors. <i>British Journal of Sports Medicine</i> , 2014, 48, 1543-1552.	6.7	920
3	Return to the Preinjury Level of Competitive Sport After Anterior Cruciate Ligament Reconstruction Surgery. <i>American Journal of Sports Medicine</i> , 2011, 39, 538-543.	4.2	510
4	Psychological Responses Matter in Returning to Preinjury Level of Sport After Anterior Cruciate Ligament Reconstruction Surgery. <i>American Journal of Sports Medicine</i> , 2013, 41, 1549-1558.	4.2	423
5	A systematic review of the effectiveness of strength-training programs for people with cerebral palsy. <i>Archives of Physical Medicine and Rehabilitation</i> , 2002, 83, 1157-1164.	0.9	362
6	Return-to-Sport Outcomes at 2 to 7 Years After Anterior Cruciate Ligament Reconstruction Surgery. <i>American Journal of Sports Medicine</i> , 2012, 40, 41-48.	4.2	331
7	A systematic review of the psychological factors associated with returning to sport following injury. <i>British Journal of Sports Medicine</i> , 2013, 47, 1120-1126.	6.7	306
8	Motivational interviewing to increase physical activity in people with chronic health conditions: a systematic review and meta-analysis. <i>Clinical Rehabilitation</i> , 2014, 28, 1159-1171.	2.2	292
9	Psychosocial predictors of failure to return to work in non-chronic non-specific low back pain: a systematic review. <i>Occupational and Environmental Medicine</i> , 2007, 65, 507-517.	2.8	235
10	Knee joint kinematics from familiarised treadmill walking can be generalised to overground walking in young unimpaired subjects. <i>Gait and Posture</i> , 2000, 11, 46-53.	1.4	226
11	What proportion of people with hip and knee osteoarthritis meet physical activity guidelines? A systematic review and meta-analysis. <i>Osteoarthritis and Cartilage</i> , 2013, 21, 1648-1659.	1.3	225
12	Differences in habitual physical activity levels of young people with cerebral palsy and their typically developing peers: a systematic review. <i>Disability and Rehabilitation</i> , 2013, 35, 647-655.	1.8	218
13	Sports Participation 2 Years After Anterior Cruciate Ligament Reconstruction in Athletes Who Had Not Returned to Sport at 1 Year. <i>American Journal of Sports Medicine</i> , 2015, 43, 848-856.	4.2	204
14	A randomized clinical trial of strength training in young people with cerebral palsy. <i>Developmental Medicine and Child Neurology</i> , 2003, 45, 652-657.	2.1	193
15	Early mobilization of patients who have had a hip or knee joint replacement reduces length of stay in hospital: a systematic review. <i>Clinical Rehabilitation</i> , 2015, 29, 844-854.	2.2	175
16	Familiarization to treadmill running in young unimpaired adults. <i>Human Movement Science</i> , 2005, 24, 544-557.	1.4	171
17	Single-Event Multilevel Surgery in Children with Spastic Diplegia. <i>Journal of Bone and Joint Surgery - Series A</i> , 2011, 93, 451-460.	3.0	166
18	Pre-operative interventions (non-surgical and non-pharmacological) for patients with hip or knee osteoarthritis awaiting joint replacement surgery â€” a systematic review and meta-analysis. <i>Osteoarthritis and Cartilage</i> , 2011, 19, 1381-1395.	1.3	161

#	ARTICLE	IF	CITATIONS
19	Systematic Review of the Ability of Recovery Expectations to Predict Outcomes in Non-Chronic Non-Specific Low Back Pain. <i>Journal of Occupational Rehabilitation</i> , 2009, 19, 25-40.	2.2	148
20	Should we be testing and training muscle strength in cerebral palsy?. <i>Developmental Medicine and Child Neurology</i> , 2002, 44, 68.	2.1	147
21	Progressive Resistance Exercise Improves Muscle Strength and May Improve Elements of Performance of Daily Activities for People With COPD. <i>Chest</i> , 2009, 136, 1269-1283.	0.8	145
22	Therapeutic exercise in physiotherapy practice is beneficial: a summary of systematic reviews 2002â€“2005. <i>Australian Journal of Physiotherapy</i> , 2007, 53, 7-16.	0.9	144
23	Attitudes, barriers and enablers to physical activity in pregnant women: a systematic review. <i>Journal of Physiotherapy</i> , 2018, 64, 24-32.	1.7	140
24	A Prospective Randomized Clinical Trial in Total Hip Arthroplastyâ€”Comparing Early Results Between the Direct Anterior Approach and the Posterior Approach. <i>Journal of Arthroplasty</i> , 2017, 32, 883-890.	3.1	137
25	Peripheral Muscle Strength Training in COPD. <i>Chest</i> , 2004, 126, 903-914.	0.8	134
26	Progressive Resistance Exercise in Physical Therapy: A Summary of Systematic Reviews. <i>Physical Therapy</i> , 2005, 85, 1208-1223.	2.4	134
27	Organisational benefits of a strong research culture in a health service: a systematic review. <i>Australian Health Review</i> , 2017, 41, 45.	1.1	134
28	Moderate-intensity exercise reduces fatigue and improves mobility in cancer survivors: a systematic review and meta-regression. <i>Journal of Physiotherapy</i> , 2016, 62, 68-82.	1.7	129
29	Identifying facilitators and barriers to physical activity for adults with Down syndrome. <i>Journal of Intellectual Disability Research</i> , 2010, 54, 795-805.	2.0	128
30	Fear of re-injury in people who have returned to sport following anterior cruciate ligament reconstruction surgery. <i>Journal of Science and Medicine in Sport</i> , 2012, 15, 488-495.	1.3	124
31	Progressive resistance training did not improve walking but can improve muscle performance, quality of life and fatigue in adults with multiple sclerosis: a randomized controlled trial. <i>Multiple Sclerosis Journal</i> , 2011, 17, 1362-1374.	3.0	123
32	Does clinical supervision of healthcare professionals improve effectiveness of care and patient experience? A systematic review. <i>BMC Health Services Research</i> , 2017, 17, 786.	2.2	119
33	A randomized clinical trial of strength training in young people with cerebral palsy. <i>Developmental Medicine and Child Neurology</i> , 2003, 45, 652-7.	2.1	117
34	Measuring Muscle Strength for People With Chronic Obstructive Pulmonary Disease: Retest Reliability of Hand-Held Dynamometry. <i>Archives of Physical Medicine and Rehabilitation</i> , 2007, 88, 32-36.	0.9	115
35	Extra Physical Therapy Reduces Patient Length of Stay and Improves Functional Outcomes and Quality of Life in People With Acute or Subacute Conditions: A Systematic Review. <i>Archives of Physical Medicine and Rehabilitation</i> , 2011, 92, 1490-1500.	0.9	114
36	Reducing wait time from referral to first visit for community outpatient services may contribute to better health outcomes: a systematic review. <i>BMC Health Services Research</i> , 2018, 18, 869.	2.2	113

#	ARTICLE	IF	CITATIONS
37	Familiarisation to treadmill walking in unimpaired older people. <i>Gait and Posture</i> , 2005, 21, 72-79.	1.4	110
38	Test-retest reliability of hand-held dynamometric strength testing in young people with cerebral palsy 11No commercial party having a direct financial interest in the results of the research supporting this article has or will confer a benefit upon the author(s) or upon any organization with which the author(s) is/are associated.. <i>Archives of Physical Medicine and Rehabilitation</i> , 2004, 85, 77-80.	0.9	109
39	Most clinical tests cannot accurately diagnose rotator cuff pathology: a systematic review. <i>Australian Journal of Physiotherapy</i> , 2008, 54, 159-170.	0.9	109
40	Progressive resistance exercise for people with multiple sclerosis. <i>Disability and Rehabilitation</i> , 2006, 28, 1119-1126.	1.8	108
41	Effects of a Community-Based Progressive Resistance Training Program on Muscle Performance and Physical Function in Adults With Down Syndrome: A Randomized Controlled Trial. <i>Archives of Physical Medicine and Rehabilitation</i> , 2008, 89, 1215-1220.	0.9	100
42	Hamstring Strength Recovery After Hamstring Tendon Harvest for Anterior Cruciate Ligament Reconstruction: A Comparison Between Graft Types. <i>Arthroscopy - Journal of Arthroscopic and Related Surgery</i> , 2010, 26, 462-469.	2.7	100
43	Not Enough Time or a Low Priority? Barriers to Evidence-Based Practice for Allied Health Clinicians. <i>Journal of Continuing Education in the Health Professions</i> , 2014, 34, 224-231.	1.3	97
44	A community-based strength training programme increases muscle strength and physical activity in young people with Down syndrome: A randomised controlled trial. <i>Research in Developmental Disabilities</i> , 2013, 34, 4385-4394.	2.2	94
45	Progressive resistance training and mobility-related function in young people with cerebral palsy: a randomized controlled trial. <i>Developmental Medicine and Child Neurology</i> , 2013, 55, 806-812.	2.1	94
46	Therapy outcome measures for allied health practitioners in Australia: the AusTOMs. <i>International Journal for Quality in Health Care</i> , 2004, 16, 285-291.	1.8	89
47	A qualitative analysis of a progressive resistance exercise programme for people with multiple sclerosis. <i>Disability and Rehabilitation</i> , 2006, 28, 1127-1134.	1.8	85
48	Progressive resistance exercise improves glycaemic control in people with type 2 diabetes mellitus: a systematic review. <i>Australian Journal of Physiotherapy</i> , 2009, 55, 237-246.	0.9	85
49	A predominantly home-based progressive resistance exercise program increases knee extensor strength in the short-term in people with chronic obstructive pulmonary disease: a randomised controlled trial. <i>Australian Journal of Physiotherapy</i> , 2007, 53, 229-237.	0.9	84
50	The relationship between adherence to hand therapy and short-term outcome after distal radius fracture. <i>Journal of Hand Therapy</i> , 2005, 18, 2-8.	1.5	82
51	â€ But Watch Out for the Weather. <i>Journal of Cardiopulmonary Rehabilitation and Prevention</i> , 2007, 27, 166-174.	2.1	81
52	Relationship between diastasis of the rectus abdominis muscle (DRAM) and musculoskeletal dysfunctions, pain and quality of life: a systematic review. <i>Physiotherapy</i> , 2019, 105, 24-34.	0.4	81
53	A home program of strength training, movement strategy training and education did not prevent falls in people with Parkinson's disease: a randomised trial. <i>Journal of Physiotherapy</i> , 2017, 63, 94-100.	1.7	76
54	Experience of living with knee osteoarthritis: a systematic review of qualitative studies. <i>BMJ Open</i> , 2019, 9, e030060.	1.9	75

#	ARTICLE	IF	CITATIONS
55	A systematic review of the self-concept of children with cerebral palsy compared with children without disability. <i>Developmental Medicine and Child Neurology</i> , 2006, 48, 151-157.	2.1	72
56	A student-led progressive resistance training program increases lower limb muscle strength in adolescents with Down syndrome: a randomised controlled trial. <i>Journal of Physiotherapy</i> , 2010, 56, 187-193.	1.7	72
57	Additional Saturday rehabilitation improves functional independence and quality of life and reduces length of stay: a randomized controlled trial. <i>BMC Medicine</i> , 2013, 11, 198.	5.5	72
58	Primary contact physiotherapy in emergency departments can reduce length of stay for patients with peripheral musculoskeletal injuries compared with secondary contact physiotherapy: a prospective non-randomised controlled trial. <i>Physiotherapy</i> , 2011, 97, 107-114.	0.4	71
59	The modulating effects of music listening on health-related exercise and physical activity in adults: a systematic review and narrative synthesis. <i>Nordic Journal of Music Therapy</i> , 2016, 25, 76-104.	1.1	68
60	Patients value patient-therapist interactions more than the amount or content of therapy during inpatient rehabilitation: a qualitative study. <i>Journal of Physiotherapy</i> , 2012, 58, 261-268.	1.7	67
61	Association between isometric muscle strength and gait joint kinetics in adolescents and young adults with cerebral palsy. <i>Gait and Posture</i> , 2011, 33, 326-332.	1.4	66
62	Psychoeducational Rehabilitation for Health Behavior Change in Coronary Artery Disease. <i>Journal of Cardiopulmonary Rehabilitation and Prevention</i> , 2011, 31, 273-281.	2.1	65
63	Exercise improves glycaemic control in women diagnosed with gestational diabetes mellitus: a systematic review. <i>Journal of Physiotherapy</i> , 2016, 62, 188-196.	1.7	65
64	Adults with cerebral palsy benefit from participating in a strength training programme at a community gymnasium. <i>Disability and Rehabilitation</i> , 2004, 26, 1128-1134.	1.8	63
65	A Systematic Review of the Effect Of Proprioceptive and Balance Exercises on People With an Injured Or Reconstructed Anterior Cruciate Ligament. <i>Research in Sports Medicine</i> , 2005, 13, 163-178.	1.3	63
66	Telephone coaching can increase activity levels for people with non-chronic low back pain: a randomised trial. <i>Journal of Physiotherapy</i> , 2011, 57, 231-238.	1.7	63
67	A Saturday physiotherapy service may decrease length of stay in patients undergoing rehabilitation in hospital: a randomised controlled trial. <i>Australian Journal of Physiotherapy</i> , 2007, 53, 75-81.	0.9	61
68	A qualitative analysis of the benefits of strength training for young people with cerebral palsy. <i>Developmental Medicine and Child Neurology</i> , 2003, 45, 658-663.	2.1	61
69	Primary care clinicians use variable methods to assess acute nonspecific low back pain and usually focus on impairments. <i>Manual Therapy</i> , 2009, 14, 88-100.	1.6	61
70	Mobile Telephone Short Message Service Reminders Can Reduce Nonattendance in Physical Therapy Outpatient Clinics: A Randomized Controlled Trial. <i>Archives of Physical Medicine and Rehabilitation</i> , 2012, 93, 21-26.	0.9	59
71	Factors influencing adherence to a home-based strength-training programme for young people with cerebral palsy. <i>Physiotherapy</i> , 2004, 90, 57-63.	0.4	58
72	Can Physiotherapists Locate Lumbar Spinal Levels by Palpation?. <i>Physiotherapy</i> , 1997, 83, 235-239.	0.4	57

#	ARTICLE	IF	CITATIONS
73	Community ambulation before and after hip fracture: a qualitative analysis. <i>Disability and Rehabilitation</i> , 2010, 32, 1281-1290.	1.8	57
74	Motivational interviewing increases physical activity and self-efficacy in people living in the community after hip fracture: a randomized controlled trial. <i>Clinical Rehabilitation</i> , 2016, 30, 1108-1119.	2.2	57
75	Manipulative physiotherapists can reliably palpate nominated lumbar spinal levels. <i>Manual Therapy</i> , 1999, 4, 151-156.	1.6	56
76	Adherence to Anterior Cruciate Ligament Rehabilitation: A Qualitative Analysis. <i>Journal of Sport Rehabilitation</i> , 2002, 11, 90-102.	1.0	56
77	Reliability and validity of shoulder function outcome measures in people with a proximal humeral fracture. <i>Disability and Rehabilitation</i> , 2014, 36, 1072-1079.	1.8	56
78	Patients receiving inpatient rehabilitation for lower limb orthopaedic conditions do much less physical activity than recommended in guidelines for healthy older adults: an observational study. <i>Journal of Physiotherapy</i> , 2013, 59, 39-44.	1.7	55
79	Physical Activity Levels During Acute Inpatient Admission After Hip Fracture are Very Low. <i>Physiotherapy Research International</i> , 2015, 20, 174-181.	1.5	55
80	Angular movements of the pelvis and lumbar spine during self-selected and slow walking speeds. <i>Gait and Posture</i> , 1999, 9, 88-94.	1.4	54
81	Implementing the Free Water Protocol does not Result in Aspiration Pneumonia in Carefully Selected Patients with Dysphagia: A Systematic Review. <i>Dysphagia</i> , 2017, 32, 345-361.	1.8	54
82	Exercise therapy in oncology rehabilitation in Australia: A mixed methods study. <i>Asia-Pacific Journal of Clinical Oncology</i> , 2017, 13, e515-e527.	1.1	52
83	A small group aerobic exercise programme that reduces body weight is feasible in adults with severe chronic schizophrenia: a pilot study. <i>Disability and Rehabilitation</i> , 2011, 33, 1222-1229.	1.8	49
84	A randomised clinical trial of activity-focussed physiotherapy on patients with distal radius fractures. <i>Archives of Orthopaedic and Trauma Surgery</i> , 2005, 125, 515-520.	2.4	48
85	Strength training can be enjoyable and beneficial for adults with cerebral palsy. <i>Disability and Rehabilitation</i> , 2004, 26, 1121-1127.	1.8	46
86	Validity of the de Morton Mobility Index (DEMMI) for measuring the mobility of patients with hip fracture during rehabilitation. <i>Disability and Rehabilitation</i> , 2013, 35, 325-333.	1.8	46
87	Early Rehabilitation Exercise Program for Inpatients During an Acute Exacerbation of Chronic Obstructive Pulmonary Disease. <i>Journal of Cardiopulmonary Rehabilitation and Prevention</i> , 2012, 32, 163-169.	2.1	45
88	Aphasia disrupts usual care: the stroke team's perceptions of delivering healthcare to patients with aphasia. <i>Disability and Rehabilitation</i> , 2021, 43, 3003-3014.	1.8	45
89	Home exercise programmes supported by video and automated reminders compared with standard paper-based home exercise programmes in patients with stroke: a randomized controlled trial. <i>Clinical Rehabilitation</i> , 2017, 31, 1068-1077.	2.2	44
90	Self-concept of children with cerebral palsy compared with that of children without impairment. <i>Developmental Medicine and Child Neurology</i> , 2007, 49, 350-354.	2.1	43

#	ARTICLE	IF	CITATIONS
91	The de Morton Mobility Index (DEMMI) provides a valid method for measuring and monitoring the mobility of patients making the transition from hospital to the community: an observational study. <i>Journal of Physiotherapy</i> , 2011, 57, 109-116.	1.7	43
92	The effectiveness of sub-group specific manual therapy for low back pain: A systematic review. <i>Manual Therapy</i> , 2012, 17, 201-212.	1.6	43
93	Dysphagia is a Common and Serious Problem for Adults with Mental Illness: A Systematic Review. <i>Dysphagia</i> , 2012, 27, 124-137.	1.8	43
94	Prescribed exercise programs may not be effective in reducing impairments and improving activity during upper limb fracture rehabilitation: a systematic review. <i>Journal of Physiotherapy</i> , 2017, 63, 205-220.	1.7	43
95	Effective clinical supervision of allied health professionals: a mixed methods study. <i>BMC Health Services Research</i> , 2020, 20, 2.	2.2	43
96	Progressive resistance exercise in physical therapy: a summary of systematic reviews. <i>Physical Therapy</i> , 2005, 85, 1208-23.	2.4	42
97	Chest physiotherapy for patients admitted to hospital with an acute exacerbation of chronic obstructive pulmonary disease (COPD): a systematic review. <i>Physiotherapy</i> , 2010, 96, 1-13.	0.4	41
98	Do Colles™ fracture patients benefit from routine referral to physiotherapy following cast removal?. <i>Archives of Orthopaedic and Trauma Surgery</i> , 2000, 120, 413-415.	2.4	40
99	Do triage systems in healthcare improve patient flow? A systematic review of the literature. <i>Australian Health Review</i> , 2011, 35, 371.	1.1	40
100	Additional Saturday Allied Health Services Increase Habitual Physical Activity Among Patients Receiving Inpatient Rehabilitation for Lower Limb Orthopedic Conditions: A Randomized Controlled Trial. <i>Archives of Physical Medicine and Rehabilitation</i> , 2012, 93, 1365-1370.	0.9	39
101	Economic Evaluation of Adult Rehabilitation: A Systematic Review and Meta-Analysis of Randomized Controlled Trials in a Variety of Settings. <i>Archives of Physical Medicine and Rehabilitation</i> , 2014, 95, 94-116.e4.	0.9	39
102	Reducing Waiting Time for Community Rehabilitation Services: A Controlled Before-and-After Trial. <i>Archives of Physical Medicine and Rehabilitation</i> , 2013, 94, 23-31.	0.9	38
103	Does clinical supervision of health professionals improve patient safety? A systematic review and meta-analysis. <i>International Journal for Quality in Health Care</i> , 2016, 28, 447-455.	1.8	38
104	Additional Physical Therapy Services Reduce Length of Stay and Improve Health Outcomes in People With Acute and Subacute Conditions: An Updated Systematic Review and Meta-Analysis. <i>Archives of Physical Medicine and Rehabilitation</i> , 2018, 99, 2299-2312.	0.9	38
105	Angular movements of the lumbar spine and pelvis can be reliably measured after 4 minutes of treadmill walking. <i>Clinical Biomechanics</i> , 1996, 11, 484-486.	1.2	37
106	The effect of walking faster on people with acute low back pain. <i>European Spine Journal</i> , 2003, 12, 166-172.	2.2	37
107	Physiotherapy Services Provided Outside of Business Hours in Australian Hospitals: A National Survey. <i>Physiotherapy Research International</i> , 2013, 18, 115-123.	1.5	36
108	The Feasibility of Physical Activity Interventions During the Intense Treatment Phase for Children and Adolescents with Cancer: A Systematic Review. <i>Pediatric Blood and Cancer</i> , 2016, 63, 1586-1593.	1.5	36

#	ARTICLE	IF	CITATIONS
109	A qualitative analysis of the benefits of strength training for young people with cerebral palsy. <i>Developmental Medicine and Child Neurology</i> , 2003, 45, 658-63.	2.1	35
110	Comparing the self concept of children with cerebral palsy to the perceptions of their parents. <i>Disability and Rehabilitation</i> , 2009, 31, 387-393.	1.8	33
111	Exercise reduces impairment and improves activity in people after some upper limb fractures: a systematic review. <i>Journal of Physiotherapy</i> , 2011, 57, 71-82.	1.7	33
112	The stabilizing role of the rotator cuff at the shoulder's responses to external perturbations. <i>Clinical Biomechanics</i> , 2012, 27, 551-556.	1.2	33
113	Measurement of subacromial impingement of the rotator cuff. <i>Journal of Science and Medicine in Sport</i> , 2012, 15, 2-7.	1.3	33
114	Validity of the AusTOM scales: a comparison of the AusTOMs and EuroQol-5D. <i>Health and Quality of Life Outcomes</i> , 2004, 2, 64.	2.4	32
115	Self-concept in children with spina bifida compared with typically developing children. <i>Developmental Medicine and Child Neurology</i> , 2008, 50, 733-743.	2.1	32
116	Altered scapula position in elite young cricketers with shoulder problems. <i>Journal of Science and Medicine in Sport</i> , 2013, 16, 22-27.	1.3	32
117	Physiotherapy intervention practice patterns used in rehabilitation after distal radial fracture. <i>Physiotherapy</i> , 2013, 99, 233-240.	0.4	32
118	Stabilizing characteristics of rotator cuff muscles: a systematic review. <i>Disability and Rehabilitation</i> , 2015, 37, 1033-1043.	1.8	32
119	Individualised physiotherapy as an adjunct to guideline-based advice for low back disorders in primary care: a randomised controlled trial. <i>British Journal of Sports Medicine</i> , 2016, 50, 237-245.	6.7	32
120	Correlation of impairment and activity limitation after wrist fracture. <i>Physiotherapy Research International</i> , 2002, 7, 90-99.	1.5	31
121	Additional weekend therapy may reduce length of rehabilitation stay after stroke: a meta-analysis of individual patient data. <i>Journal of Physiotherapy</i> , 2016, 62, 124-129.	1.7	31
122	Research experience and research interests of allied health professionals. <i>Journal of Allied Health</i> , 2009, 38, e107-11.	0.2	31
123	Music interventions and physical activity in older adults: A systematic literature review and meta-analysis. <i>Journal of Rehabilitation Medicine</i> , 2012, 44, 710-719.	1.1	30
124	Are weekend inpatient rehabilitation services value for money? An economic evaluation alongside a randomized controlled trial with a 30 day follow up. <i>BMC Medicine</i> , 2014, 12, 89.	5.5	30
125	The association of foot structure and footwear fit with disability in children and adolescents with Down syndrome. <i>Journal of Foot and Ankle Research</i> , 2015, 8, 4.	1.9	30
126	A community-based exercise program to increase participation in physical activities among youth with disability: a feasibility study. <i>Disability and Rehabilitation</i> , 2019, 41, 1152-1159.	1.8	30

#	ARTICLE	IF	CITATIONS
127	Prioritizing patients for Community Rehabilitation Services: do clinicians agree on triage decisions?. <i>Clinical Rehabilitation</i> , 2010, 24, 928-934.	2.2	29
128	The retest reliability of the six-minute walk test in patients referred to a cardiac rehabilitation programme. <i>Physiotherapy Research International</i> , 2012, 17, 55-61.	1.5	29
129	A walking program for people with severe knee osteoarthritis did not reduce pain but may have benefits for cardiovascular health: a phase II randomised controlled trial. <i>Osteoarthritis and Cartilage</i> , 2017, 25, 1969-1979.	1.3	29
