#	ARTICLE	IF	CITATIONS
1	Neurobiology of maternal regulation of infant fear: the role of mesolimbic dopamine and its disruption by maltreatment. Neuropsychopharmacology, 2019, 44, 1247-1257.	5.4	42
2	Infant Trauma Alters Social Buffering of Threat Learning: Emerging Role of Prefrontal Cortex in Preadolescence. Frontiers in Behavioral Neuroscience, 2019, 13, 132.	2.0	33
3	Differential involvement of the medial prefrontal cortex across variants of contextual fear conditioning. Learning and Memory, 2017, 24, 322-330.	1.3	29
4	Using the context preexposure facilitation effect to study long-term context memory in preweanling, juvenile, adolescent, and adult rats. Physiology and Behavior, 2015, 148, 22-28.	2.1	23
5	Neonatal ethanol exposure impairs long-term context memory formation and prefrontal immediate early gene expression in adolescent rats. Behavioural Brain Research, 2019, 359, 386-395.	2.2	17
6	Antagonism of muscarinic acetylcholine receptors in medial prefrontal cortex disrupts the context preexposure facilitation effect. Neurobiology of Learning and Memory, 2017, 143, 27-35.	1.9	16
7	Cholinergic mechanisms of the context preexposure facilitation effect in adolescent rats.. Behavioral Neuroscience, 2016, 130, 196-205.	1.2	14
8	Age and experience dependent changes in Egr-1 expression during the ontogeny of the context preexposure facilitation effect (CPFE). Neurobiology of Learning and Memory, 2018, 150, 1-12.	1.9	14
9	NMDA receptor antagonism disrupts acquisition and retention of the context preexposure facilitation effect in adolescent rats. Behavioural Brain Research, 2016, 301, 168-177.	2.2	9
10	Impairment of the context preexposure facilitation effect in juvenile rats by neonatal alcohol exposure is associated with decreased Egr-1 mRNA expression in the prefrontal cortex.. Behavioral Neuroscience, 2018, 132, 497-511.	1.2	8
11	Maternal continuous oral oxycodone self-administration alters pup affective/social communication but not spatial learning or sensory-motor function. Drug and Alcohol Dependence, 2021, 221, 108628.	3.2	4
12	Mechanisms of context conditioning in the developing rat. Neurobiology of Learning and Memory, 2021, 179, 107388.	1.9	3
