#	Article	IF	CITATIONS
1	Prevalence and Psychological Correlates of Occasional and Repetitive Deliberate Self-harm in Adolescents. JAMA Pediatrics, 2007, 161, 641.	3.6	346
2	Lifeâ€time prevalence and psychosocial correlates of adolescent direct selfâ€injurious behavior: A comparative study of findings in 11 European countries. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2014, 55, 337-348.	3.1	298
3	Prevalence of mental health problems among children and adolescents in Germany: results of the BELLA study within the National Health Interview and Examination Survey. European Child and Adolescent Psychiatry, 2008, 17, 22-33.	2.8	243
4	Adverse childhood experiences and their impact on frequency, severity, and the individual function of nonsuicidal self-injury in youth. Psychiatry Research, 2013, 206, 265-272.	1.7	217
5	Explaining gender differences in non-fatal suicidal behaviour among adolescents: a population-based study. BMC Public Health, 2011, 11, 597.	1.2	86
6	A 2-year longitudinal study of prospective predictors of pathological Internet use in adolescents. European Child and Adolescent Psychiatry, 2016, 25, 725-734.	2.8	75
7	Impact of a maternal history of childhood abuse on the development of mother–infant interaction during the first year of life. Child Abuse and Neglect, 2015, 48, 179-189.	1.3	72
8	Self-mutilation and suicidal behaviour in children and adolescents: prevalence and psychosocial correlates: results of the BELLA study. European Child and Adolescent Psychiatry, 2008, 17, 92-98.	2.8	66
9	Hypothalamic-pituitary-adrenal axis, childhood adversity and adolescent nonsuicidal self-injury. Psychoneuroendocrinology, 2016, 74, 203-211.	1.3	65
10	Developmental trajectories of self-injurious behavior, suicidal behavior and substance misuse and their association with adolescent borderline personality pathology. Journal of Affective Disorders, 2016, 197, 231-238.	2.0	63
11	The Specific Role of Childhood Abuse, Parental Bonding, and Family Functioning in Female Adolescents With Borderline Personality Disorder. Journal of Personality Disorders, 2016, 30, 177-192.	0.8	63
12	Ecological Momentary Assessment of Affective and Interpersonal Instability in Adolescent Non-Suicidal Self-Injury. Journal of Abnormal Child Psychology, 2017, 45, 1429-1438.	3.5	62
13	Risk-behaviour screening for identifying adolescents with mental health problems in Europe. European Child and Adolescent Psychiatry, 2014, 23, 611-620.	2.8	60
14	Pathological Internet Use Is on the Rise Among European Adolescents. Journal of Adolescent Health, 2016, 59, 236-239.	1.2	57
15	Psychosocial Support for War-Traumatized Child and Adolescent Refugees: Evaluation of a Short-Term Treatment Program. Australian and New Zealand Journal of Psychiatry, 2005, 39, 81-87.	1.3	55
16	Stress vulnerability in male youth with Internet Gaming Disorder. Psychoneuroendocrinology, 2017, 77, 244-251.	1.3	54
17	Prospective risk for suicidal thoughts and behaviour in adolescents with onset, maintenance or cessation of direct self-injurious behaviour. European Child and Adolescent Psychiatry, 2017, 26, 345-354.	2.8	53
18	Psychopathological factors associated with problematic alcohol and problematic Internet use in a sample of adolescents in Germany. Psychiatry Research, 2016, 240, 272-277.	1.7	49

#	Article	IF	Citations
19	Non-suicidal self-injury disorder as a stand-alone diagnosis in a consecutive help-seeking sample of adolescents. Journal of Affective Disorders, 2020, 274, 1122-1125.	2.0	48
20	Health related quality of life and psychopathological distress in risk taking and self-harming adolescents with full-syndrome, subthreshold and without borderline personality disorder: rethinking the clinical cut-off?. Borderline Personality Disorder and Emotion Dysregulation, 2017, 4, 7.	1.1	46
21	Does parental monitoring moderate the relationship between bullying and adolescent nonsuicidal self-injury and suicidal behavior? A community-based self-report study of adolescents in Germany. BMC Public Health, 2015, 15, 583.	1.2	45
22	Music-based interventions to reduce internalizing symptoms in children and adolescents: A meta-analysis. Journal of Affective Disorders, 2018, 225, 647-656.	2.0	45
23	Psychobiological response to pain in female adolescents with nonsuicidal self-injury. Journal of Psychiatry and Neuroscience, 2017, 42, 189-199.	1.4	41
24	Impact of Maternal Early Life Maltreatment and Maternal History of Depression on Child Psychopathology: Mediating Role of Maternal Sensitivity?. Child Psychiatry and Human Development, 2019, 50, 278-290.	1.1	38
25	Treating nonsuicidal self-injury (NSSI) in adolescents: consensus based German guidelines. Child and Adolescent Psychiatry and Mental Health, 2016, 10, 46.	1.2	35
26	Effectiveness of a brief psychotherapeutic intervention compared with treatment as usual for adolescent nonsuicidal self-injury: a single-centre, randomised controlled trial. European Child and Adolescent Psychiatry, 2020, 29, 881-891.	2.8	35
27	Effects of acute transcutaneous vagus nerve stimulation on emotion recognition in adolescent depression. Psychological Medicine, 2021, 51, 511-520.	2.7	33
28	The association of self-injurious behaviour and suicide attempts with recurrent idiopathic pain in adolescents: evidence from a population-based study. Child and Adolescent Psychiatry and Mental Health, 2015, 9, 32.	1.2	31
29	Longitudinal development of risk-taking and self-injurious behavior in association with late adolescent borderline personality disorder symptoms. Psychiatry Research, 2019, 273, 127-133.	1.7	31
30	Life Events Predicting the First Onset of Adolescent Direct Self-Injurious Behavior—A Prospective Multicenter Study. Journal of Adolescent Health, 2020, 66, 195-201.	1.2	31
31	Help-seeking behaviour following school-based screening for current suicidality among European adolescents. Social Psychiatry and Psychiatric Epidemiology, 2015, 50, 973-982.	1.6	30
32	Effects of maternal history of depression and early life maltreatment on children's health-related quality of life. Journal of Affective Disorders, 2018, 225, 280-288.	2.0	30
33	Resting cardiac function in adolescent non-suicidal self-injury: The impact of borderline personality disorder symptoms and psychosocial functioning. Psychiatry Research, 2017, 248, 117-120.	1.7	27
34	Regional grey matter volume reduction in adolescents engaging in non-suicidal self-injury. Psychiatry Research - Neuroimaging, 2018, 280, 48-55.	0.9	27
35	Infant predictors of behavioural inhibition. British Journal of Developmental Psychology, 2008, 26, 145-150.	0.9	25
36	Self-injury: Treatment, Assessment, Recovery (STAR): online intervention for adolescent non-suicidal self-injury - study protocol for a randomized controlled trial. Trials, 2019, 20, 425.	0.7	21

#	Article	IF	CITATIONS
37	Parents' childhood experiences of bonding and parental psychopathology predict borderline personality disorder during adolescence in offspring. Psychiatry Research, 2016, 246, 373-378.	1.7	20
38	High-frequency ecological momentary assessment of emotional and interpersonal states preceding and following self-injury in female adolescents. European Child and Adolescent Psychiatry, 2020, 30, 1299-1308.	2.8	20
39	Excessive and pathological Internet use – Risk-behavior or psychopathology?. Addictive Behaviors, 2021, 123, 107045.	1.7	20
40	Stress, coping and emotional and behavioral problems among German high school students. Mental Health and Prevention, 2016, 4, 81-87.	0.7	18
41	Longitudinal covariance of resting-state cardiac function and borderline personality disorder symptoms in adolescent non-suicidal self-injury. World Journal of Biological Psychiatry, 2018, 19, 152-157.	1.3	18
42	The effect of a maternal history of childhood abuse on adrenocortical attunement in mothers and their toddlers. Developmental Psychobiology, 2017, 59, 639-652.	0.9	17
43	Differentiating BPD in adolescents with NSSI disorder: the role of adverse childhood experiences and current social relationships. Borderline Personality Disorder and Emotion Dysregulation, 2018, 5, 20.	1.1	16
44	Effects and moderators of the Olweus bullying prevention program (OBPP) in Germany. European Child and Adolescent Psychiatry, 2021, 30, 1745-1754.	2.8	16
45	Help-seeking duration in adolescents with suicidal behavior and non-suicidal self-injury. Journal of Psychiatric Research, 2021, 140, 60-67.	1.5	16
46	Supporting Patient Care by Using Innovative Information Technology. Disease Management and Health Outcomes, 2002, 10, 479-487.	0.3	15
47	Promoting Help-seeking using E-technology for ADolescents with mental health problems: study protocol for a randomized controlled trial within the ProHEAD Consortium. Trials, 2019, 20, 94.	0.7	15
48	The cost incurred by victims of bullying from a societal perspective: estimates based on a German online survey of adolescents. European Child and Adolescent Psychiatry, 2019, 28, 585-594.	2.8	15
49	Measuring family functioning in families with parental cancer: Reliability and validity of the German adaptation of the Family Assessment Device (FAD). Journal of Psychosomatic Research, 2017, 93, 110-117.	1.2	14
50	Longitudinal development of pain sensitivity in adolescent non-suicidal self-injury. Journal of Psychiatric Research, 2017, 89, 81-84.	1.5	14
51	Childhood Adversity and Psychophysiological Reactivity to Pain in Adolescent Nonsuicidal Self-Injury. Psychopathology, 2018, 51, 346-352.	1.1	13
52	Adolescent nonsuicidal self-injury and cortisol response to the retrieval of adversity: A sibling study. Psychoneuroendocrinology, 2019, 110, 104460.	1.3	13
53	Under the skin: does psychiatric outcome of bullying victimization in school persist over time? AÂprospective intervention study. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2022, 63, 646-654.	3.1	13
54	Psychosocial functioning in adolescents with non-suicidal self-injury: the roles of childhood maltreatment, borderline personality disorder and depression. Borderline Personality Disorder and Emotion Dysregulation, 2021, 8, 21.	1.1	12

#	Article	IF	CITATIONS
