#	ARTICLE	IF	CITATIONS
1	Effect of postnatal low-dose exposure to environmental chemicals on the gut microbiome in a rodent model. <i>Microbiome</i> , 2016, 4, 26.	11.1	122
2	The Ramazzini Institute 13-week pilot study on glyphosate and Roundup administered at human-equivalent dose to Sprague Dawley rats: effects on the microbiome. <i>Environmental Health</i> , 2018, 17, 50.	4.0	87
3	The Ramazzini Institute 13-week pilot study glyphosate-based herbicides administered at human-equivalent dose to Sprague Dawley rats: effects on development and endocrine system. <i>Environmental Health</i> , 2019, 18, 15.	4.0	64
4	The carcinogenic effects of aspartame: The urgent need for regulatory reevaluation. <i>American Journal of Industrial Medicine</i> , 2014, 57, 383-397.	2.1	43
5	The Ramazzini Institute 13-week study on glyphosate-based herbicides at human-equivalent dose in Sprague Dawley rats: study design and first in-life endpoints evaluation. <i>Environmental Health</i> , 2018, 17, 52.	4.0	33
6	Maternal urinary levels of glyphosate during pregnancy and anogenital distance in newborns in a US multicenter pregnancy cohort. <i>Environmental Pollution</i> , 2021, 280, 117002.	7.5	33
7	Diagnosis, monitoring and prevention of exposure-related non-communicable diseases in the living and working environment: DiMoPEX-project is designed to determine the impacts of environmental exposure on human health. <i>Journal of Occupational Medicine and Toxicology</i> , 2018, 13, 6.	2.2	32
8	Low-dose exposure of glyphosate-based herbicides disrupt the urine metabolome and its interaction with gut microbiota. <i>Scientific Reports</i> , 2021, 11, 3265.	3.3	32
9	Effect of maternal exposure to endocrine disrupting chemicals on reproduction and mammary gland development in female Sprague-Dawley rats. <i>Reproductive Toxicology</i> , 2015, 54, 110-119.	2.9	31
10	Life-span exposure to sinusoidal-50%Hz magnetic field and acute low-dose γ radiation induce carcinogenic effects in Sprague-Dawley rats. <i>International Journal of Radiation Biology</i> , 2016, 92, 202-214.	1.8	29
11	Changes in mammary histology and transcriptome profiles by low-dose exposure to environmental phenols at critical windows of development. <i>Environmental Research</i> , 2017, 152, 233-243.	7.5	26
12	Historical evidence of glyphosate exposure from a US agricultural cohort. <i>Environmental Health</i> , 2019, 18, 42.	4.0	25
13	Synergism between sinusoidal-50%Hz magnetic field and formaldehyde in triggering carcinogenic effects in male Sprague-Dawley rats. <i>American Journal of Industrial Medicine</i> , 2016, 59, 509-521.	2.1	21
14	Changes in the Metabolome in Response to Low-Dose Exposure to Environmental Chemicals Used in Personal Care Products during Different Windows of Susceptibility. <i>PLoS ONE</i> , 2016, 11, e0159919.	2.5	20
15	Gene expression profiles for low-dose exposure to diethyl phthalate in rodents and humans: a translational study with implications for breast carcinogenesis. <i>Scientific Reports</i> , 2020, 10, 7067.	3.3	19
16	Paired Serum and Urine Concentrations of Biomarkers of Diethyl Phthalate, Methyl Paraben, and Triclosan in Rats. <i>Environmental Health Perspectives</i> , 2016, 124, 39-45.	6.0	18
17	An Integrated Experimental Design for the Assessment of Multiple Toxicological End Points in Rat Bioassays. <i>Environmental Health Perspectives</i> , 2017, 125, 289-295.	6.0	9
18	A transcriptomic analysis of turmeric: Curcumin represses the expression of cholesterol biosynthetic genes and synergizes with simvastatin. <i>Pharmacological Research</i> , 2018, 132, 176-187.	7.1	9

#	ARTICLE	IF	CITATIONS
19	Histology and Transcriptome Profiles of the Mammary Gland across Critical Windows of Development in Sprague Dawley Rats. <i>Journal of Mammary Gland Biology and Neoplasia</i> , 2018, 23, 149-163.	2.7	6
20	Life-span carcinogenicity studies on Sprague-Dawley rats exposed to ^{137}Cs radiation: Design of the project and report on the tumor occurrence after postnatal radiation exposure (6 weeks of age) delivered in a single acute exposure. <i>American Journal of Industrial Medicine</i> , 2015, 58, 46-60.	2.1	5
21	Evaluation of Toxicant-Associated Fatty Liver Disease and Liver Neoplastic Progress in Sprague-Dawley Rats Treated with Low Doses of Aflatoxin B1 Alone or in Combination with Extremely Low Frequency Electromagnetic Fields. <i>Toxins</i> , 2022, 14, 325.	3.4	3
