#	ARTICLE	IF	CITATIONS
1	Subgroups of people who make frequent emergency department visits in Ontario and Alberta: a retrospective cohort study. <i>CMAJ Open</i> , 2022, 10, E232-E246.	2.4	3
2	People who make frequent emergency department visits based on persistence of frequent use in Ontario and Alberta: a retrospective cohort study. <i>CMAJ Open</i> , 2022, 10, E220-E231.	2.4	7
3	Towards an International Consensus on the Prevention, Treatment, and Management of High-Risk Substance Use and Overdose among Youth. <i>Medicina (Lithuania)</i> , 2022, 58, 539.	2.0	5
4	Out-of-hospital management of unresponsive, apneic, witnessed opioid overdoses: a case series from a supervised consumption site. <i>Canadian Journal of Emergency Medicine</i> , 2022, 24, 650-658.	1.1	4
5	Characterizing people with frequent emergency department visits and substance use: a retrospective cohort study of linked administrative data in Ontario, Alberta, and B.C., Canada. <i>BMC Emergency Medicine</i> , 2022, 22, .	1.9	2
6	Comparison of rates of opioid withdrawal symptoms and reversal of opioid toxicity in patients treated with two naloxone dosing regimens: a retrospective cohort study. <i>Clinical Toxicology</i> , 2021, 59, 38-46.	1.9	15
7	Authors' reply to Comment on Comparison of rates of opioid withdrawal symptoms and reversal of opioid toxicity in patients treated with two naloxone dosing regimens. <i>Clinical Toxicology</i> , 2021, 59, 80-81.	1.9	0
8	Comparing mortality and healthcare utilization in the year following a paramedic-attended non-fatal overdose among people who were and were not transported to hospital: A prospective cohort study using linked administrative health data. <i>Drug and Alcohol Dependence</i> , 2021, 218, 108381.	3.2	6
9	Death after emergency department visits for opioid overdose in British Columbia: a retrospective cohort analysis. <i>CMAJ Open</i> , 2021, 9, E242-E251.	2.4	15
10	Identifying subgroups and risk among frequent emergency department users in British Columbia. <i>Journal of the American College of Emergency Physicians Open</i> , 2021, 2, e12346.	0.7	11
11	Comparing rapid micro-induction and standard induction of buprenorphine/naloxone for treatment of opioid use disorder: protocol for an open-label, parallel-group, superiority, randomized controlled trial. <i>Addiction Science & Clinical Practice</i> , 2021, 16, 11.	2.6	26
12	Does targeted temperature management improve neurologic outcomes in patients with nonshockable rhythms?. <i>Canadian Journal of Emergency Medicine</i> , 2021, 23, 166-168.	1.1	0
13	Short communication: Systematic review on effectiveness of micro-induction approaches to buprenorphine initiation. <i>Addictive Behaviors</i> , 2021, 114, 106740.	3.0	32
14	Buprenorphineâ€“naloxone practice and attitudes in 22 Canadian emergency physician groups: a cross-sectional survey. <i>CMAJ Open</i> , 2021, 9, E864-E873.	2.4	7
15	Prescription opioid use among drivers in British Columbia, 1997â€“2016. <i>Injury Prevention</i> , 2021, 27, injuryprev-2020-043989.	2.4	4
16	Characteristics of frequent emergency department users in British Columbia, Canada: a retrospective analysis. <i>CMAJ Open</i> , 2021, 9, E134-E141.	2.4	16
17	Adverse events related to bystander naloxone administration in cases of suspected opioid overdose in British Columbia: An observational study. <i>PLoS ONE</i> , 2021, 16, e0259126.	2.5	13
18	Prevention of alcohol withdrawal seizure recurrence and treatment of other alcohol withdrawal symptoms in the emergency department: a rapid review. <i>BMC Emergency Medicine</i> , 2021, 21, 131.	1.9	2

#	ARTICLE	IF	CITATIONS
19	Timing of endoscopy for acute upper gastrointestinal bleeding: journal club review. Canadian Journal of Emergency Medicine, 2021, , 1.	1.1	1
20	Lorazepam Versus Diazepam in the Management of Emergency Department Patients With Alcohol Withdrawal. Annals of Emergency Medicine, 2020, 76, 774-781.	0.6	5
21	Effectiveness of micro-induction approaches to buprenorphine initiation: A systematic review protocol. Addictive Behaviors, 2020, 111, 106551.	3.0	7
22	Microdosing and standard dosing take-home buprenorphine from the emergency department: A feasibility study. Journal of the American College of Emergency Physicians Open, 2020, 1, 1712-1722.	0.7	21
23	Don't forget our dual public health crises. Canadian Journal of Emergency Medicine, 2020, 22, E8.	1.1	8
24	Naloxone dosing in the era of ultra-potent opioid overdoses: a systematic review. Canadian Journal of Emergency Medicine, 2020, 22, 178-186.	1.1	25
25	Emergency department buprenorphine/naloxone: What we can achieve with system-level support and local champions. Canadian Journal of Emergency Medicine, 2020, 22, 735-737.	1.1	1
26	Frequent emergency department use and mortality in patients with substance and opioid use in Alberta: A population-based retrospective cohort study. Canadian Journal of Emergency Medicine, 2019, 21, 482-491.	1.1	7
27	Naloxone interventions in opioid overdoses: a systematic review protocol. Systematic Reviews, 2019, 8, 138.	5.3	13
28	Epidemiologic trends in substance and opioid misuse-related emergency department visits in Alberta: a cross-sectional time-series analysis. Canadian Journal of Public Health, 2018, 109, 164-173.	2.3	8
29	Effectiveness of Interventions to Decrease Emergency Department Visits by Adult Frequent Users: A Systematic Review. Academic Emergency Medicine, 2017, 24, 40-52.	1.8	150
30	Comparing patients who leave the ED prematurely, before vs after medical evaluation: a National Hospital Ambulatory Medical Care Survey analysis. American Journal of Emergency Medicine, 2016, 34, 830-833.	1.6	8
31	Mortality, admission rates and outpatient use among frequent users of emergency departments: a systematic review. Emergency Medicine Journal, 2016, 33, 230-236.	1.0	77
32	Defining, quantifying, and characterizing adult frequent users of a suburban Canadian emergency department. Canadian Journal of Emergency Medicine, 2013, 15, 214-226.	1.1	44
