

John Wright

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/2189976/john-wright-publications-by-year.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
363	'When will this end? Will it end?' The impact of the March-June 2020 UK COVID-19 lockdown response on mental health: a longitudinal survey of mothers in the Born in Bradford study.. <i>BMJ Open</i> , 2022 , 12, e047748	3	4
362	Children develop robust and sustained cross-reactive spike-specific immune responses to SARS-CoV-2 infection.. <i>Nature Immunology</i> , 2022 , 23, 40-49	19.1	22
361	Short- and medium-term air pollution exposure, plasmatic protein levels and blood pressure in children.. <i>Environmental Research</i> , 2022 , 211, 113109	7.9	1
360	The early-life exposome modulates the effect of polymorphic inversions on DNA methylation.. <i>Communications Biology</i> , 2022 , 5, 455	6.7	0
359	Integrating polygenic risk scores in the prediction of type 2 diabetes risk and subtypes in British Pakistanis and Bangladeshis: A population-based cohort study.. <i>PLoS Medicine</i> , 2022 , 19, e1003981	11.6	1
358	Urban environment and health behaviours in children from six European countries. <i>Environment International</i> , 2022 , 107319	12.9	2
357	Cohort description: Measures of early-life behaviour and later psychopathology in the LifeCycle Project - EU Child Cohort Network. <i>Journal of Epidemiology</i> , 2021 ,	3.4	1
356	Advancing tools for human early lifecourse exposome research and translation (ATHLETE): Project overview.. <i>Environmental Epidemiology</i> , 2021 , 5, e166	0.2	2
355	Urban environment and cognitive and motor function in children from four European birth cohorts. <i>Environment International</i> , 2021 , 158, 106933	12.9	5
354	The EU Child Cohort Network's core data: establishing a set of findable, accessible, interoperable and re-usable (FAIR) variables. <i>European Journal of Epidemiology</i> , 2021 , 36, 565-580	12.1	6
353	Associations of diarised sleep onset time, period and duration with total and central adiposity in a biethnic sample of young children: the Born in Bradford observational cohort study. <i>BMJ Open</i> , 2021 , 11, e044769	3	0
352	Understanding COVID-19 misinformation and vaccine hesitancy in context: Findings from a qualitative study involving citizens in Bradford, UK. <i>Health Expectations</i> , 2021 , 24, 1158-1167	3.7	45
351	Prenatal and childhood exposure to air pollution and traffic and the risk of liver injury in European children. <i>Environmental Epidemiology</i> , 2021 , 5, e153	0.2	0
350	Effect of Maternal Prepregnancy/Early-Pregnancy Body Mass Index and Pregnancy Smoking and Alcohol on Congenital Heart Diseases: A Parental Negative Control Study. <i>Journal of the American Heart Association</i> , 2021 , 10, e020051	6	6
349	Ethnicity, pre-existing comorbidities, and outcomes of hospitalised patients with COVID-19. <i>Wellcome Open Research</i> , 2021 , 6, 32	4.8	0
348	Variability of multi-omics profiles in a population-based child cohort. <i>BMC Medicine</i> , 2021 , 19, 166	11.4	7
347	Urban environment during early-life and blood pressure in young children. <i>Environment International</i> , 2021 , 146, 106174	12.9	8

346	Urinary metabolite quantitative trait loci in children and their interaction with dietary factors. <i>Human Molecular Genetics</i> , 2021 , 29, 3830-3844	5.6	1
345	Shared DNA methylation signatures in childhood allergy: The MeDALL study. <i>Journal of Allergy and Clinical Immunology</i> , 2021 , 147, 1031-1040	11.5	5
344	Prenatal exposure to a wide range of environmental chemicals and child behaviour between 3 and 7 years of age - An exposome-based approach in 5 European cohorts. <i>Science of the Total Environment</i> , 2021 , 763, 144115	10.2	9
343	Maternal iodine status in a multi-ethnic UK birth cohort: Associations with child cognitive and educational development. <i>Paediatric and Perinatal Epidemiology</i> , 2021 , 35, 236-246	2.7	4
342	Maternal anxiety during pregnancy and newborn epigenome-wide DNA methylation. <i>Molecular Psychiatry</i> , 2021 , 26, 1832-1845	15.1	6
341	Respiratory syncytial virus in young children: community cohort study integrating serological surveys, questionnaire and electronic health records, Born in Bradford cohort, England, 2008 to 2013. <i>Eurosurveillance</i> , 2021 , 26,	19.8	1
340	Ethnicity, pre-existing comorbidities, and outcomes of hospitalised patients with COVID-19. <i>Wellcome Open Research</i> , 2021 , 6, 32	4.8	1
339	Early-life environmental exposure determinants of child behavior in Europe: A longitudinal, population-based study. <i>Environment International</i> , 2021 , 153, 106523	12.9	15
338	In Utero Exposure to Mercury Is Associated With Increased Susceptibility to Liver Injury and Inflammation in Childhood. <i>Hepatology</i> , 2021 , 74, 1546-1559	11.2	3
337	Evidence for causal associations between prenatal and postnatal antibiotic exposure and asthma in children, England. <i>Clinical and Experimental Allergy</i> , 2021 , 51, 1438-1448	4.1	2
336	Covid-19 lockdown: Ethnic differences in children's self-reported physical activity and the importance of leaving the home environment; a longitudinal and cross-sectional study from the Born in Bradford birth cohort study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2021 , 18, 117	8.4	7
335	Early life multiple exposures and child cognitive function: A multi-centric birth cohort study in six European countries. <i>Environmental Pollution</i> , 2021 , 284, 117404	9.3	6
334	Prenatal and postnatal exposure to PFAS and cardiometabolic factors and inflammation status in children from six European cohorts. <i>Environment International</i> , 2021 , 157, 106853	12.9	4
333	Fine-scale population structure and demographic history of British Pakistanis. <i>Nature Communications</i> , 2021 , 12, 7189	17.4	0
332	Factors associated with the uptake of the UK routine childhood immunization schedule in a bi-ethnic population. <i>European Journal of Public Health</i> , 2020 , 30, 697-702	2.1	3
331	Maternal iodine status, intrauterine growth, birth outcomes and congenital anomalies in a UK birth cohort. <i>BMC Medicine</i> , 2020 , 18, 132	11.4	9
330	Using methylome data to inform exposome-health association studies: An application to the identification of environmental drivers of child body mass index. <i>Environment International</i> , 2020 , 138, 105622	12.9	10
329	Association between the pregnancy exposome and fetal growth. <i>International Journal of Epidemiology</i> , 2020 , 49, 572-586	7.8	16

328	Early-Life Environmental Exposures and Childhood Obesity: An Exposome-Wide Approach. <i>Environmental Health Perspectives</i> , 2020 , 128, 67009	8.4	44
327	A scientometric analysis of birth cohorts in South Asia: Way forward for Pakistan. <i>PLoS ONE</i> , 2020 , 15, e0235385	3.7	0
326	Associations between air pollution and pediatric eczema, rhinoconjunctivitis and asthma: A meta-analysis of European birth cohorts. <i>Environment International</i> , 2020 , 136, 105474	12.9	20
325	Maternal Physical Activity and Neonatal Cord Blood Lipid Levels: Findings From a Prospective Pregnancy Cohort. <i>Journal of Physical Activity and Health</i> , 2020 , 17, 236-241	2.5	4
324	COVID-19 in-patient hospital mortality by ethnicity. <i>Wellcome Open Research</i> , 2020 , 5, 86	4.8	11
323	The Born in Bradford COVID-19 Research Study: Protocol for an adaptive mixed methods research study to gather actionable intelligence on the impact of COVID-19 on health inequalities amongst families living in Bradford. <i>Wellcome Open Research</i> , 2020 , 5, 191	4.8	20
322	Experiences of lockdown during the Covid-19 pandemic: descriptive findings from a survey of families in the Born in Bradford study. <i>Wellcome Open Research</i> , 2020 , 5, 228	4.8	13
321	Occupational chemical exposures in pregnancy and fetal growth: evidence from the Born in Bradford Study. <i>Scandinavian Journal of Work, Environment and Health</i> , 2020 , 46, 417-428	4.3	3
320	Characterising a healthy adult with a rare HAO1 knockout to support a therapeutic strategy for primary hyperoxaluria. <i>ELife</i> , 2020 , 9,	8.9	19
319	Maternal Physical Activity and Neonatal Cord Blood pH: Findings from the Born in Bradford Pregnancy Cohort. <i>Physical Activity and Health</i> , 2020 , 4, 150	2	0
318	Letter to the Editor: Time to update the language of genetics from the nineteenth to the twenty-first century: a response to Schmidtke and Cornel. <i>Journal of Community Genetics</i> , 2020 , 11, 249-251	3.5	0
317	The effect of maternal pre-/early-pregnancy BMI and pregnancy smoking and alcohol on congenital heart diseases: a parental negative control study 2020 ,		3
316	Cohort Profile: East London Genes & Health (ELGH), a community-based population genomics and health study in British Bangladeshi and British Pakistani people. <i>International Journal of Epidemiology</i> , 2020 , 49, 20-21i	7.8	19
315	Early life tobacco exposure and children's telomere length: The HELIX project. <i>Science of the Total Environment</i> , 2020 , 711, 135028	10.2	8
314	Multiple environmental exposures in early-life and allergy-related outcomes in childhood. <i>Environment International</i> , 2020 , 144, 106038	12.9	4
313	Do nuclear magnetic resonance (NMR)-based metabolomics improve the prediction of pregnancy-related disorders? Findings from a UK birth cohort with independent validation. <i>BMC Medicine</i> , 2020 , 18, 366	11.4	4
312	The LifeCycle Project-EU Child Cohort Network: a federated analysis infrastructure and harmonized data of more than 250,000 children and parents. <i>European Journal of Epidemiology</i> , 2020 , 35, 709-724	12.1	25
311	Prenatal Exposure to Perfluoroalkyl Substances Associated With Increased Susceptibility to Liver Injury in Children. <i>Hepatology</i> , 2020 , 72, 1758-1770	11.2	27

310	Changes in parental smoking during pregnancy and risks of adverse birth outcomes and childhood overweight in Europe and North America: An individual participant data meta-analysis of 229,000 singleton births. <i>PLoS Medicine</i> , 2020 , 17, e1003182	11.6	21
309	Maternal iodine status in a multi-ethnic UK birth cohort: associations with autism spectrum disorder. <i>BMC Pediatrics</i> , 2020 , 20, 544	2.6	2
308	Starting school: educational development as a function of age of entry and prematurity. <i>Archives of Disease in Childhood</i> , 2020 , 105, 160-165	2.2	5
307	Associations of Pregnancy Physical Activity with Maternal Cardiometabolic Health, Neonatal Delivery Outcomes and Body Composition in a Biethnic Cohort of 7305 Mother-Child Pairs: The Born in Bradford Study. <i>Sports Medicine</i> , 2020 , 50, 615-628	10.6	9
306	Association of Fish Consumption and Mercury Exposure During Pregnancy With Metabolic Health and Inflammatory Biomarkers in Children. <i>JAMA Network Open</i> , 2020 , 3, e201007	10.4	10
305	Experiences of lockdown during the Covid-19 pandemic: descriptive findings from a survey of families in the Born in Bradford study. <i>Wellcome Open Research</i> , 2020 , 5, 228	4.8	11
304	Changes in parental smoking during pregnancy and risks of adverse birth outcomes and childhood overweight in Europe and North America: An individual participant data meta-analysis of 229,000 singleton births 2020 , 17, e1003182		
303	Changes in parental smoking during pregnancy and risks of adverse birth outcomes and childhood overweight in Europe and North America: An individual participant data meta-analysis of 229,000 singleton births 2020 , 17, e1003182		
302	Changes in parental smoking during pregnancy and risks of adverse birth outcomes and childhood overweight in Europe and North America: An individual participant data meta-analysis of 229,000 singleton births 2020 , 17, e1003182		
301	Changes in parental smoking during pregnancy and risks of adverse birth outcomes and childhood overweight in Europe and North America: An individual participant data meta-analysis of 229,000 singleton births 2020 , 17, e1003182		
300	Changes in parental smoking during pregnancy and risks of adverse birth outcomes and childhood overweight in Europe and North America: An individual participant data meta-analysis of 229,000 singleton births 2020 , 17, e1003182		
299	Changes in parental smoking during pregnancy and risks of adverse birth outcomes and childhood overweight in Europe and North America: An individual participant data meta-analysis of 229,000 singleton births 2020 , 17, e1003182		
298	A scoping review and systematic mapping of health promotion interventions associated with obesity in Islamic religious settings in the UK. <i>Obesity Reviews</i> , 2019 , 20, 1231-1261	10.6	9
297	Early-Life Environmental Exposures and Blood Pressure in Children. <i>Journal of the American College of Cardiology</i> , 2019 , 74, 1317-1328	15.1	49
296	Age at cytomegalovirus, Epstein Barr virus and varicella zoster virus infection and risk of atopy: The Born in Bradford cohort, UK. <i>Pediatric Allergy and Immunology</i> , 2019 , 30, 604-613	4.2	9
295	Socioeconomic position and exposure to multiple environmental chemical contaminants in six European mother-child cohorts. <i>International Journal of Hygiene and Environmental Health</i> , 2019 , 222, 864-872	6.9	30
294	Influence of the Urban Exposome on Birth Weight. <i>Environmental Health Perspectives</i> , 2019 , 127, 47007	8.4	41
293	Personal assessment of the external exposome during pregnancy and childhood in Europe. <i>Environmental Research</i> , 2019 , 174, 95-104	7.9	19

292	Integrating research and system-wide practice in public health: lessons learnt from Better Start Bradford. <i>BMC Public Health</i> , 2019 , 19, 260	4.1	5
291	Early-life exposome and lung function in children in Europe: an analysis of data from the longitudinal, population-based HELIX cohort. <i>Lancet Planetary Health</i> , 2019 , 3, e81-e92	9.8	57
290	Maternal body mass index, gestational weight gain, and the risk of overweight and obesity across childhood: An individual participant data meta-analysis. <i>PLoS Medicine</i> , 2019 , 16, e1002744	11.6	152
289	Prenatal and Childhood Traffic-Related Air Pollution Exposure and Telomere Length in European Children: The HELIX Project. <i>Environmental Health Perspectives</i> , 2019 , 127, 87001	8.4	20
288	Growing up in Bradford: protocol for the age 7-11 follow up of the Born in Bradford birth cohort. <i>BMC Public Health</i> , 2019 , 19, 939	4.1	20
287	Diet as a Source of Exposure to Environmental Contaminants for Pregnant Women and Children from Six European Countries. <i>Environmental Health Perspectives</i> , 2019 , 127, 107005	8.4	48
286	Associations of autozygosity with a broad range of human phenotypes. <i>Nature Communications</i> , 2019 , 10, 4957	17.4	40
285	ActEarly: a City Collaboratory approach to early promotion of good health and wellbeing. <i>Wellcome Open Research</i> , 2019 , 4, 156	4.8	5
284	Associations of cord leptin and cord insulin with adiposity and blood pressure in White British and Pakistani children aged 4/5 years. <i>Wellcome Open Research</i> , 2019 , 4, 157	4.8	2
283	Investigating the association between early years foundation stage profile scores and subsequent diagnosis of an autism spectrum disorder: a retrospective study of linked healthcare and education data. <i>BMJ Paediatrics Open</i> , 2019 , 3, e000483	2.4	3
282	Associations of maternal quitting, reducing, and continuing smoking during pregnancy with longitudinal fetal growth: Findings from Mendelian randomization and parental negative control studies. <i>PLoS Medicine</i> , 2019 , 16, e1002972	11.6	24
281	Obesity is associated with shorter telomeres in 8 year-old children. <i>Scientific Reports</i> , 2019 , 9, 18739	4.9	20
280	The early-life exposome: Description and patterns in six European countries. <i>Environment International</i> , 2019 , 123, 189-200	12.9	56
279	Lifestyle intervention strategies in early life to improve pregnancy outcomes and long-term health of offspring: a narrative review. <i>Journal of Developmental Origins of Health and Disease</i> , 2019 , 10, 314-327	4	10
278	Integrating Clinical and Epidemiologic Data on Allergic Diseases Across Birth Cohorts: A Harmonization Study in the Mechanisms of the Development of Allergy Project. <i>American Journal of Epidemiology</i> , 2019 , 188, 408-417	3.8	6
277	The association between socioeconomic status and autism diagnosis in the United Kingdom for children aged 5-8 years of age: Findings from the Born in Bradford cohort. <i>Autism</i> , 2019 , 23, 131-140	6.6	25
276	Associations of maternal quitting, reducing, and continuing smoking during pregnancy with longitudinal fetal growth: Findings from Mendelian randomization and parental negative control studies 2019 , 16, e1002972		
275	Associations of maternal quitting, reducing, and continuing smoking during pregnancy with longitudinal fetal growth: Findings from Mendelian randomization and parental negative control studies 2019 , 16, e1002972		

274	Associations of maternal quitting, reducing, and continuing smoking during pregnancy with longitudinal fetal growth: Findings from Mendelian randomization and parental negative control studies 2019 , 16, e1002972		
273	DNA methylation in childhood asthma: an epigenome-wide meta-analysis. <i>Lancet Respiratory Medicine</i> , 2018 , 6, 379-388	35.1	119
272	Ethnic differences in the association between maternal vitamin D status and offspring asthma and wheeze: Findings from the Born in Bradford cohort study. <i>Allergy: European Journal of Allergy and Clinical Immunology</i> , 2018 , 73, 1544-1546	9.3	1
271	Association of maternal exposures with adiposity at age 4/5 years in white British and Pakistani children: findings from the Born in Bradford study. <i>Diabetologia</i> , 2018 , 61, 242-252	10.3	10
270	Patient-reported safety incidents as a new source of patient safety data: an exploratory comparative study in an acute hospital in England. <i>Journal of Health Services Research and Policy</i> , 2018 , 23, 36-43	2.4	26
269	Is small size at birth associated with early childhood morbidity in white British and Pakistani origin UK children aged 0-3? Findings from the born in Bradford cohort study. <i>BMC Pediatrics</i> , 2018 , 18, 22	2.6	2
268	Investigating the relationship between fetal growth and academic attainment: secondary analysis of the Born in Bradford (BiB) cohort. <i>International Journal of Epidemiology</i> , 2018 , 47, 1475-1484	7.8	5
267	Identifying positive deviants in healthcare quality and safety: a mixed methods study. <i>Journal of the Royal Society of Medicine</i> , 2018 , 111, 276-291	2.3	9
266	Associations of social and economic and pregnancy exposures with blood pressure in UK White British and Pakistani children age 4/5. <i>Scientific Reports</i> , 2018 , 8, 8966	4.9	5
265	Availability, use of, and satisfaction with green space, and children's mental wellbeing at age 4 years in a multicultural, deprived, urban area: results from the Born in Bradford cohort study. <i>Lancet Planetary Health</i> , 2018 , 2, e244-e254	9.8	47
264	Prevalence of, and risk factors for, presenting visual impairment: findings from a vision screening programme based on UK NSC guidance in a multi-ethnic population. <i>Eye</i> , 2018 , 32, 1599-1607	4.4	7
263	Early life exposome and lung function in children from the HELIX cohort 2018 ,		2
262	Determinants of the urinary and serum metabolome in children from six European populations. <i>BMC Medicine</i> , 2018 , 16, 202	11.4	56
261	Gestational diabetes and ultrasound-assessed fetal growth in South Asian and White European women: findings from a prospective pregnancy cohort. <i>BMC Medicine</i> , 2018 , 16, 203	11.4	20
260	Influence of maternal obesity on the association between common pregnancy complications and risk of childhood obesity: an individual participant data meta-analysis. <i>The Lancet Child and Adolescent Health</i> , 2018 , 2, 812-821	14.5	45
259	Associations of TV Viewing Duration, Meals and Snacks Eaten When Watching TV, and a TV in the Bedroom with Child Adiposity. <i>Obesity</i> , 2018 , 26, 1619-1628	8	17
258	Variability of urinary concentrations of non-persistent chemicals in pregnant women and school-aged children. <i>Environment International</i> , 2018 , 121, 561-573	12.9	61
257	In-utero and childhood chemical exposome in six European mother-child cohorts. <i>Environment International</i> , 2018 , 121, 751-763	12.9	79

256	The Urban Exposome during Pregnancy and Its Socioeconomic Determinants. <i>Environmental Health Perspectives</i> , 2018 , 126, 077005	8.4	48
255	Socioeconomic inequalities in urban and transport planning related exposures and mortality: A health impact assessment study for Bradford, UK. <i>Environment International</i> , 2018 , 121, 931-941	12.9	36
254	What can patients tell us about the quality and safety of hospital care? Findings from a UK multicentre survey study. <i>BMJ Quality and Safety</i> , 2018 , 27, 673-682	5.4	38
253	How to protect school children from the neurodevelopmental harms of air pollution by interventions in the school environment in the urban context. <i>Environment International</i> , 2018 , 121, 199-208	12.9	22
252	Human Early Life Exposome (HELIX) study: a European population-based exposome cohort. <i>BMJ Open</i> , 2018 , 8, e021311	3	88
251	Partners at Care Transitions: exploring healthcare professionals' perspectives of excellence at care transitions for older people. <i>BMJ Open</i> , 2018 , 8, e022468	3	8
250	ENDOGAMY, CONSANGUINITY AND THE HEALTH IMPLICATIONS OF CHANGING MARITAL CHOICES IN THE UK PAKISTANI COMMUNITY. <i>Journal of Biosocial Science</i> , 2017 , 49, 435-446	1.6	10
249	The health impact of the 2014-15 Ebola outbreak. <i>Public Health</i> , 2017 , 143, 60-70	4	149
248	Mechanisms of the Development of Allergy (MeDALL): Introducing novel concepts in allergy phenotypes. <i>Journal of Allergy and Clinical Immunology</i> , 2017 , 139, 388-399	11.5	103
247	How might health services capture patient-reported safety concerns in a hospital setting? An exploratory pilot study of three mechanisms. <i>BMJ Quality and Safety</i> , 2017 , 26, 42-53	5.4	23
246	The Patient Feedback Response Framework - Understanding why UK hospital staff find it difficult to make improvements based on patient feedback: A qualitative study. <i>Social Science and Medicine</i> , 2017 , 178, 19-27	5.1	57
245	Can patient involvement improve patient safety? A cluster randomised control trial of the Patient Reporting and Action for a Safe Environment (PRASE) intervention. <i>BMJ Quality and Safety</i> , 2017 , 26, 622-631	5.4	66
244	PCSK9 genetic variants and risk of type 2 diabetes: a mendelian randomisation study. <i>Lancet Diabetes and Endocrinology</i> , 2017 , 5, 97-105	18.1	225
243	Cytomegalovirus, Epstein-Barr virus and varicella zoster virus infection in the first two years of life: a cohort study in Bradford, UK. <i>BMC Infectious Diseases</i> , 2017 , 17, 220	4	18
242	An analysis of IL-36 signature genes and individuals with knockout mutations validates IL-36 as a psoriasis therapeutic target. <i>Science Translational Medicine</i> , 2017 , 9,	17.5	79
241	The Effectiveness of Pharmacological and Non-Pharmacological Interventions for Improving Glycaemic Control in Adults with Severe Mental Illness: A Systematic Review and Meta-Analysis. <i>PLoS ONE</i> , 2017 , 12, e0168549	3.7	23
240	Prevalence, trajectories, and determinants of television viewing time in an ethnically diverse sample of young children from the UK. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2017 , 14, 88	8.4	27
239	Implementing electronic records in NHS secondary care organizations in England: policy and progress since 1998. <i>British Medical Bulletin</i> , 2017 , 121, 95-106	5.4	4

238	Variations in the prevalence of childhood asthma and wheeze in MeDALL cohorts in Europe. <i>ERJ Open Research</i> , 2017 , 3,	3.5	32
237	Estimating the human mutation rate from autozygous segments reveals population differences in human mutational processes. <i>Nature Communications</i> , 2017 , 8, 303	17.4	52
236	The Influence of Meteorological Factors and Atmospheric Pollutants on the Risk of Preterm Birth. <i>American Journal of Epidemiology</i> , 2017 , 185, 247-258	3.8	32
235	Improving case ascertainment of congenital anomalies: findings from a prospective birth cohort with detailed primary care record linkage. <i>BMJ Paediatrics Open</i> , 2017 , 1, e000171	2.4	15
234	Physical Activity, Sedentary Time, and Fatness in a Biethnic Sample of Young Children. <i>Medicine and Science in Sports and Exercise</i> , 2017 , 49, 930-938	1.2	27
233	Exploring the implementation of an electronic record into a maternity unit: a qualitative study using Normalisation Process Theory. <i>BMC Medical Informatics and Decision Making</i> , 2017 , 17, 4	3.6	14
232	Does involvement in a cohort study improve health and affect health inequalities? A natural experiment. <i>BMC Health Services Research</i> , 2017 , 17, 79	2.9	5
