#	ARTICLE	IF	CITATIONS
1	Examining the effectiveness of telemonitoring with routinely acquired blood pressure data in primary care: challenges in the statistical analysis. <i>BMC Medical Research Methodology</i> , 2021, 21, 31.	3.1	2
2	Specialist to non-specialist teleconsultations in chronic respiratory disease management: A systematic review. <i>Journal of Global Health</i> , 2021, 11, 04019.	2.7	8
3	Assessing the Implementation and Effectiveness of the Electronic Patient-Reported Outcome Tool for Older Adults With Complex Care Needs: Mixed Methods Study. <i>Journal of Medical Internet Research</i> , 2021, 23, e29071.	4.3	9
4	Patients'™ and Clinicians'™ Visions of a Future Internet-of-Things System to Support Asthma Self-Management: Mixed Methods Study. <i>Journal of Medical Internet Research</i> , 2021, 23, e22432.	4.3	12
5	Patients'™ and Clinicians'™ Perceived Trust in Internet-of-Things Systems to Support Asthma Self-management: Qualitative Interview Study. <i>JMIR MHealth and UHealth</i> , 2021, 9, e24127.	3.7	22
6	The Use of Telemonitoring in Managing the COVID-19 Pandemic: Pilot Implementation Study. <i>JMIR Formative Research</i> , 2021, 5, e20131.	1.4	14
7	Atrial fibrillation self-management: a mobile telephone app scoping review and content analysis. <i>European Journal of Cardiovascular Nursing</i> , 2021, 20, 305-314.	0.9	11
8	Exploring the relationship between the usability of a goal-oriented mobile health application and non-usage attrition in patients with multimorbidity: A blended data analysis approach. <i>Digital Health</i> , 2021, 7, 205520762110455.	1.8	7
9	Improving the early identification of COVID-19 pneumonia: a narrative review. <i>BMJ Open Respiratory Research</i> , 2021, 8, e000911.	3.0	7
10	Early experience with an opt-in research register - Scottish Health Research Register (SHARE): a multi-method evaluation of participant recruitment performance. <i>BMC Medical Research Methodology</i> , 2021, 21, 286.	3.1	1
11	Exploring the perspectives of primary care providers on use of the electronic Patient Reported Outcomes tool to support goal-oriented care: a qualitative study. <i>BMC Medical Informatics and Decision Making</i> , 2021, 21, 366.	3.0	3
12	Stakeholders perspectives and deployment strategies of health information exchange illustrated through an in-depth case study of Pakistan. <i>Informatics for Health and Social Care</i> , 2020, 45, 130-150.	2.6	3
13	Time to change the paradigm? A mixed method study of the preferred and potential features of an asthma self-management app. <i>Health Informatics Journal</i> , 2020, 26, 862-879.	2.1	17
14	Evidence and Recommendations on the Use of Telemedicine for the Management of Arterial Hypertension. <i>Hypertension</i> , 2020, 76, 1368-1383.	2.7	178
15	Telemonitoring at scale for hypertension in primary care: An implementation study. <i>PLoS Medicine</i> , 2020, 17, e1003124.	8.4	37
16	Using a mHealth system to recall and refer existing clients and refer community members with health concerns to primary healthcare facilities in South Africa: a feasibility study. <i>Global Health Action</i> , 2020, 13, 1717410.	1.9	8
17	A Mobile Phone Intervention to Improve Obesity-Related Health Behaviors of Adolescents Across Europe: Iterative Co-Design and Feasibility Study. <i>JMIR MHealth and UHealth</i> , 2020, 8, e14118.	3.7	39
18	Telemonitoring at scale for hypertension in primary care: An implementation study. , 2020, 17, e1003124.		0

#	ARTICLE	IF	CITATIONS
19	Telemonitoring at scale for hypertension in primary care: An implementation study. , 2020, 17, e1003124.		0
20	Telemonitoring at scale for hypertension in primary care: An implementation study. , 2020, 17, e1003124.		0
21	Acceptability, benefits, and challenges of video consulting: a qualitative study in primary care. British Journal of General Practice, 2019, 69, e586-e594.	1.4	353
22	Comparing the content and quality of video, telephone, and face-to-face consultations: a non-randomised, quasi-experimental, exploratory study in UK primary care. British Journal of General Practice, 2019, 69, e595-e604.	1.4	253
23	Promoting healthy teenage behaviour across three European countries through the use of a novel smartphone technology platform, PEGASO fit for future: study protocol of a quasi-experimental, controlled, multi-Centre trial. BMC Medical Informatics and Decision Making, 2019, 19, 278.	3.0	14
24	Remote consulting with telemonitoring of continuous positive airway pressure usage data for the routine review of people with obstructive sleep apnoea hypopnoea syndrome: A systematic review. Journal of Telemedicine and Telecare, 2019, 25, 17-25.	2.7	19
25	Apps to Support Self-Management for People With Hypertension: Content Analysis. JMIR MHealth and UHealth, 2019, 7, e13257.	3.7	17
26	Telehealth for Chronic Obstructive Pulmonary Disease: Promises, Populations, and Personalized Care. American Journal of Respiratory and Critical Care Medicine, 2018, 198, 552-554.	5.6	8
27	Alternatives to the face-to-face consultation in general practice: focused ethnographic case study. British Journal of General Practice, 2018, 68, e293-e300.	1.4	74
28	Are self-reported telemonitored blood pressure readings affected by end-digit preference: a prospective cohort study in Scotland. BMJ Open, 2018, 8, e019431.	1.9	14
29	Predicting Out-of-Office Blood Pressure in the Clinic for the Diagnosis of Hypertension in Primary Care. Hypertension, 2018, 71, 250-261.	2.7	14
30	The characteristics and capabilities of the available open source health information technologies supporting healthcare: a scoping review protocol. BMJ Health and Care Informatics, 2018, 25, 230-238.	3.0	2
31	Five key strategic priorities of integrating patient generated health data into United Kingdom electronic health records. BMJ Health and Care Informatics, 2018, 25, 254-259.	3.0	23
32	Digital Support Platform: a qualitative research study investigating the feasibility of an internet-based, postdiagnostic support platform for families living with dementia. BMJ Open, 2018, 8, e020281.	1.9	15
33	Prospective external validation of the Predicting Out-of-Office Blood Pressure (PROOF-BP) strategy for triaging ambulatory monitoring in the diagnosis and management of hypertension: observational cohort study. BMJ: British Medical Journal, 2018, 361, k2478.	2.3	12
34	Receptionistsâ€™ role in new approaches to consultations in primary care: a focused ethnographic study. British Journal of General Practice, 2018, 68, e478-e486.	1.4	13
35	Making technology-enabled health care work in general practice. British Journal of General Practice, 2018, 68, 223.2-223.	1.4	1
36	Implementing telemonitoring in primary care: learning from a large qualitative dataset gathered during a series of studies. BMC Family Practice, 2018, 19, 118.	2.9	31

#	ARTICLE	IF	CITATIONS
37	Strategies to promote adoption and usage of an application to support asthma self-management: a qualitative observational study. <i>BMJ Health and Care Informatics</i> , 2018, 25, 243-253.	3.0	20
38	Improving Prediction of Risk of Hospital Admission in Chronic Obstructive Pulmonary Disease: Application of Machine Learning to Telemonitoring Data. <i>Journal of Medical Internet Research</i> , 2018, 20, e263.	4.3	40
39	The potential of alternatives to face-to-face consultation in general practice, and the impact on different patient groups: a mixed-methods case study. <i>Health Services and Delivery Research</i> , 2018, 6, 1-200.	1.4	59
40	Defining the Core Components of a Clinical Review of People Using Continuous Positive Airway Pressure Therapy to Treat Obstructive Sleep Apnea: An International e-Delphi Study. <i>Journal of Clinical Sleep Medicine</i> , 2018, 14, 1679-1687.	2.6	4
41	The march of telehealth. <i>International Journal of Pharmacy Practice</i> , 2017, 25, 183-184.	0.6	0
42	Tele-pharmacy in rural Scotland: a proof of concept study. <i>International Journal of Pharmacy Practice</i> , 2017, 25, 210-219.	0.6	10
43	Promoting Healthy Teenage Behaviour Through the Use of a Novel Mhealth Technology Platform: Pegaso, Developed With and for Teenagers. <i>Journal of Adolescent Health</i> , 2017, 60, S65-S66.	2.5	1
44	Cohort profile: the Scottish Research register SHARE. A register of people interested in research participation linked to NHS data sets. <i>BMJ Open</i> , 2017, 7, e013351.	1.9	51
45	All watched over by machines of loving grace: an optimistic view of big data. <i>BMJ: British Medical Journal</i> , 2017, 358, j3967.	2.3	2
46	A systematic review of electronic multi-compartment medication devices with reminder systems for improving adherence to self-administered medications. <i>International Journal of Pharmacy Practice</i> , 2017, 25, 185-194.	0.6	31
47	The use of mobile applications to support self-management for people with asthma: a systematic review of controlled studies to identify features associated with clinical effectiveness and adherence. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2017, 24, 619-632.	4.4	141
48	Telephone first consultations in primary care. <i>BMJ: British Medical Journal</i> , 2017, 358, j4345.	2.3	5
49	Integrating third-party telehealth records with the general practice electronic medical record system: a solution.. <i>Journal of Innovation in Health Informatics</i> , 2017, 24, 317.	0.9	7
50	Better value primary care is needed now more than ever. <i>BMJ: British Medical Journal</i> , 2017, 359, j4944.	2.3	12
51	Home monitoring of breathing rate in people with chronic obstructive pulmonary disease: observational study of feasibility, acceptability, and change after exacerbation. <i>International Journal of COPD</i> , 2017, Volume 12, 1221-1231.	2.3	44
52	Self-monitoring of blood pressure in hypertension: A systematic review and individual patient data meta-analysis. <i>PLoS Medicine</i> , 2017, 14, e1002389.	8.4	401
53	Telehealth Interventions to Support Self-Management of Long-Term Conditions: A Systematic Metareview of Diabetes, Heart Failure, Asthma, Chronic Obstructive Pulmonary Disease, and Cancer. <i>Journal of Medical Internet Research</i> , 2017, 19, e172.	4.3	389
54	The acceptability to patients of video-consulting in general practice: semi-structured interviews in three diverse general practices.. <i>Journal of Innovation in Health Informatics</i> , 2016, 23, 493.	0.9	32

#	ARTICLE	IF	CITATIONS
55	Opt-in method is vital for data sharing. <i>BMJ, The</i> , 2016, 354, i4293.	6.0	0
56	Supported Telemonitoring and Glycemic Control in People with Type 2 Diabetes: The Telescot Diabetes Pragmatic Multicenter Randomized Controlled Trial. <i>PLoS Medicine</i> , 2016, 13, e1002098.	8.4	77
57	Barriers and facilitators to health information exchange in low- and middle-income country settings: a systematic review. <i>Health Policy and Planning</i> , 2016, 31, 1310-1325.	2.7	139
58	Interventions to modify physical activity in patients with COPD: a systematic review. <i>European Respiratory Journal</i> , 2016, 48, 69-81.	6.7	144
59	Involving patients in clinical research: the Telescot Patient Panel. <i>Health Expectations</i> , 2016, 19, 691-701.	2.6	9
60	The epidemiology, healthcare and societal burden and costs of asthma in the UK and its member nations: analyses of standalone and linked national databases. <i>BMC Medicine</i> , 2016, 14, 113.	5.5	193
61	Digital technology in respiratory diseases. <i>Chronic Respiratory Disease</i> , 2016, 13, 189-191.	2.4	6
62	Using alternatives to face-to-face consultations: a survey of prevalence and attitudes in general practice. <i>British Journal of General Practice</i> , 2016, 66, e460-e466.	1.4	100
63	Views of patients and professionals about electronic multicompartiment medication devices: a qualitative study. <i>BMJ Open</i> , 2016, 6, e012915.	1.9	8
64	Predicting Out-of-Office Blood Pressure in the Clinic (PROOF-BP). <i>Hypertension</i> , 2016, 67, 941-950.	2.7	39
65	Proliferation of private online healthcare companies. <i>BMJ, The</i> , 2016, 352, i1076.	6.0	6
66	Pilot randomised controlled trial of Help4Mood, an embodied virtual agent-based system to support treatment of depression. <i>Journal of Telemedicine and Telecare</i> , 2016, 22, 348-355.	2.7	94
67	Application of Mixed Effects Limits of Agreement in the Presence of Multiple Sources of Variability: Exemplar from the Comparison of Several Devices to Measure Respiratory Rate in COPD Patients. <i>PLoS ONE</i> , 2016, 11, e0168321.	2.5	53
68	Supporting Goal-Oriented Primary Health Care for Seniors with Complex Care Needs Using Mobile Technology: Evaluation and Implementation of the Health System Performance Research Network, Bridgepoint Electronic Patient Reported Outcome Tool. <i>JMIR Research Protocols</i> , 2016, 5, e126.	1.0	23
69	Individual patient data meta-analysis of self-monitoring of blood pressure (BP-SMART): a protocol: Table 1. <i>BMJ Open</i> , 2015, 5, e008532.	1.9	10
70	Challenges of harmonising data from UK national health surveys: a case study of attempts to estimate the UK prevalence of asthma. <i>Journal of the Royal Society of Medicine</i> , 2015, 108, 433-439.	2.0	6
71	Oximetry-supported self-management for chronic obstructive pulmonary disease: mixed method feasibility pilot project. <i>BMC Health Services Research</i> , 2015, 15, 485.	2.2	16
72	Can older people remember medication reminders presented using synthetic speech?. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2015, 22, 35-42.	4.4	11

#	ARTICLE	IF	CITATIONS
73	Effect of downsampling and compressive sensing on audio-based continuous cough monitoring. , 2015, 2015, 6231-5.		8
74	Qualitative study of telemonitoring of blood glucose and blood pressure in type 2 diabetes. BMJ Open, 2015, 5, e008896.	1.9	31
75	Telemonitoring for chronic obstructive pulmonary disease: a cost and cost-utility analysis of a randomised controlled trial. Journal of Telemedicine and Telecare, 2015, 21, 108-118.	2.7	37
76	Changes in telemonitored physiological variables and symptoms prior to exacerbations of chronic obstructive pulmonary disease. Journal of Telemedicine and Telecare, 2015, 21, 29-36.	2.7	52
77	Mixed methods feasibility study for a trial of blood pressure telemonitoring for people who have had stroke/transient ischaemic attack (TIA). Trials, 2015, 16, 117.	1.6	22
78	Estimating the incidence, prevalence and true cost of asthma in the UK: secondary analysis of national stand-alone and linked databases in England, Northern Ireland, Scotland and Walesâ€”a study protocol. BMJ Open, 2014, 4, e006647.	1.9	27
79	Telemonitoring for chronic heart failure: the views of patients and healthcare professionals â€” a qualitative study. Journal of Clinical Nursing, 2014, 23, 132-144.	3.0	112
80	The use of global positional satellite location in dementia: a feasibility study for a randomised controlled trial. BMC Psychiatry, 2014, 14, 160.	2.6	26
81	Interventions for improving patients' trust in doctors and groups of doctors. The Cochrane Library, 2014, 2014, CD004134.	2.8	102
82	Coordinating Caregiving using Smartphone Technology: a Collaborative Software Prototype Approach. Studies in Health Technology and Informatics, 2014, 202, 237-40.	0.3	0
83	The impact of supported telemetric monitoring in people with type 2 diabetes: study protocol for a randomised controlled trial. Trials, 2013, 14, 198.	1.6	8
84	Exploring telemonitoring and self-management by patients with chronic obstructive pulmonary disease: A qualitative study embedded in a randomized controlled trial. Patient Education and Counseling, 2013, 93, 403-410.	2.2	88
85	Acceptability and perceived barriers and facilitators to creating a national research register to enable â€”direct to patientâ€” enrolment into research: the Scottish Health Research Register (SHARE). BMC Health Services Research, 2013, 13, 422.	2.2	32
86	Use of the Internet and Mobile Media for Delivery of Cognitive Behavioral Insomnia Therapy. Sleep Medicine Clinics, 2013, 8, 407-419.	2.6	41
87	Activity monitoring in patients with depression: A systematic review. Journal of Affective Disorders, 2013, 145, 21-28.	4.1	193
88	The use of remote monitoring technologies in managing chronic obstructive pulmonary disease. QJM - Monthly Journal of the Association of Physicians, 2013, 106, 883-885.	0.5	33
89	Telemonitoring-based service redesign for the management of uncontrolled hypertension (HITS): cost and cost-effectiveness analysis of a randomised controlled trial. BMJ Open, 2013, 3, e002681.	1.9	56
90	Effectiveness of telemonitoring integrated into existing clinical services on hospital admission for exacerbation of chronic obstructive pulmonary disease: researcher blind, multicentre, randomised controlled trial. BMJ, The, 2013, 347, f6070-f6070.	6.0	253

#	ARTICLE	IF	CITATIONS
91	The use of global positioning systems in promoting safer walking for people with dementia. <i>Journal of Telemedicine and Telecare</i> , 2013, 19, 288-292.	2.7	20
92	Telemonitoring based service redesign for the management of uncontrolled hypertension: multicentre randomised controlled trial. <i>BMJ, The</i> , 2013, 346, f3030-f3030.	6.0	146
93	Experiences of patients and professionals participating in the HITS home blood pressure telemonitoring trial: a qualitative study: Table A1. <i>BMJ Open</i> , 2013, 3, e002671.	1.9	58
94	Currently available smartphone apps for asthma have worrying deficiencies. <i>Evidence-Based Medicine</i> , 2013, 18, e45-e45.	0.6	4
95	Integrating Telehealth Care-Generated Data With the Family Practice Electronic Medical Record: Qualitative Exploration of the Views of Primary Care Staff. <i>Interactive Journal of Medical Research</i> , 2013, 2, e29.	1.4	22
96	A qualitative study exploring why people do not participate in cardiac rehabilitation and coronary heart disease self-help groups, and their rehabilitation experience without these resources. <i>Primary Health Care Research and Development</i> , 2012, 13, 30-41.	1.2	9
97	Meta-analysis on COPD: Comment on "Home telehealth for chronic obstructive pulmonary disease: a systematic review and meta-analysis. by J Polisen et al." <i>Journal of Telemedicine and Telecare</i> , 2012, 18, 242-242.	2.7	6
98	Fear of Falling and the Use of Telecare by Older People. <i>British Journal of Occupational Therapy</i> , 2012, 75, 304-312.	0.9	12
99	Continuity, but at what cost? The impact of telemonitoring COPD on continuities of care: a qualitative study. <i>Primary Care Respiratory Journal: Journal of the General Practice Airways Group</i> , 2012, 21, 322-328.	2.3	66
100	The influence of significant others upon participation in cardiac rehabilitation and coronary heart disease self-help groups. <i>International Journal of Therapy and Rehabilitation</i> , 2011, 18, 450-459.	0.3	4
101	Piloting tele-monitoring in COPD: a mixed methods exploration of issues in design and implementation. <i>Primary Care Respiratory Journal: Journal of the General Practice Airways Group</i> , 2011, 21, 57-64.	2.3	91
102	Improving recruitment to clinical trials with a register of a million patients who agree to the use of their clinical records for research in the Scottish Health Research Register (SHARE). <i>Trials</i> , 2011, 12, .	1.6	8
103	The Impact of eHealth on the Quality and Safety of Health Care: A Systematic Overview. <i>PLoS Medicine</i> , 2011, 8, e1000387.	8.4	1,052
104	Comparison of the accuracy of patients' recall of the content of telephone and face-to-face consultations: an exploratory study. <i>Postgraduate Medical Journal</i> , 2011, 87, 394-399.	1.8	22
105	Comparison of face-to-face and telephone consultations in primary care: qualitative analysis. <i>British Journal of General Practice</i> , 2010, 60, e201-e212.	1.4	62
106	Using new technologies to deliver test results in primary care: structured interview study of patients' views. <i>Primary Health Care Research and Development</i> , 2010, 11, 142.	1.2	9
107	Bell's palsy: new evidence provides a definitive drug therapy strategy. <i>British Journal of General Practice</i> , 2009, 59, 569-570.	1.4	2
108	The acceptability to patients and professionals of remote blood pressure monitoring using mobile phones. <i>Primary Health Care Research and Development</i> , 2009, 10, 299.	1.2	40
