#	Article	IF	CITATIONS
1	Participation, both a means and an end: a conceptual analysis of processes and outcomes in childhood disability. Developmental Medicine and Child Neurology, 2017, 59, 16-25.	1.1	361
2	â€~Participation': a systematic review of language, definitions, and constructs used in intervention research with children with disabilities. Developmental Medicine and Child Neurology, 2016, 58, 29-38.	1.1	258
3	Participation in Everyday School Activities For Children With and Without Disabilities. Journal of Developmental and Physical Disabilities, 2007, 19, 485-502.	1.0	142
4	The effect of interventions aimed at improving participation outcomes for children with disabilities: a systematic review. Developmental Medicine and Child Neurology, 2015, 57, 1093-1104.	1.1	135
5	Measures used to quantify participation in childhood disability and their alignment with the family of participationâ€related constructs: a systematic review. Developmental Medicine and Child Neurology, 2018, 60, 1101-1116.	1.1	96
6	Participation in school environment of children and youth with disabilities: A person-oriented approach. Scandinavian Journal of Psychology, 2005, 46, 305-314.	0.8	90
7	Children's voices – Differentiating a child perspective from a child's perspective. Developmental Neurorehabilitation, 2015, 18, 162-168.	0.5	84
8	AAC Interventions for Children in a Family Environment: Implementing Evidence in Practice. AAC: Augmentative and Alternative Communication, 2008, 24, 207-219.	0.8	71
9	Differentiating Activity and Participation of Children and Youth with Disability in Sweden. American Journal of Physical Medicine and Rehabilitation, 2012, 91, S84-S96.	0.7	68
10	Participation and environmental aspects in education and the ICF and the ICF-CY: Findings from a systematic literature review. Developmental Neurorehabilitation, 2012, 15, 63-78.	0.5	61
11	Literature Review of Positive Functioning in Families With Children With a Disability. Journal of Policy and Practice in Intellectual Disabilities, 2006, 3, 253-270.	1.7	60
12	Conceptions of Participation in Students with Disabilities and Persons in Their Close Environment. Journal of Developmental and Physical Disabilities, 2004, 16, 229-245.	1.0	57
13	Perceived participation. A comparison of students with disabilities and students without disabilities. Scandinavian Journal of Disability Research, 2004, 6, 206-224.	1.1	45
14	ICF and ICF-CY lessons learned: Pandora's box of personal factors. Disability and Rehabilitation, 2014, 36, 2187-2194.	0.9	44
15	Interaction processes as a mediating factor between children's externalized behaviour difficulties and engagement in preschool. Early Child Development and Care, 2016, 186, 1649-1663.	0.7	40
16	Using content analysis to link texts on assessment and intervention to the International Classification of Functioning, Disability and Health - version for Children and Youth (ICF-CY). Journal of Rehabilitation Medicine, 2011, 43, 728-733.	0.8	37
17	Does thinking and doing the same thing amount to involved participation? Empirical explorations for finding a measure of intensity for a third ICF-CY qualifier. Developmental Neurorehabilitation, 2012, 15, 274-283.	0.5	37
18	Interaction – it depends – a comparative study of interaction in preschools between children with intellectual disability and children with typical development. Scandinavian Journal of Disability Research, 2010, 12, 151-164.	1.1	35

#	Article	IF	CITATIONS
19	Factors Related to Self-Rated Participation in Adolescents and Adults with Mild Intellectual Disability – A Systematic Literature Review. Journal of Applied Research in Intellectual Disabilities, 2008, 21, 277-291.	1.3	34
20	Patterns of Time Processing Ability in Children with and without Developmental Disabilities. Journal of Applied Research in Intellectual Disabilities, 2010, 23, 250-262.	1.3	32
21	Differences in patterns of participation in leisure activities in Swedish children with and without disabilities. Disability and Rehabilitation, 2014, 36, 464-471.	0.9	31
22	Definitions and Operationalization of Mental Health Problems, Wellbeing and Participation Constructs in Children with NDD: Distinctions and Clarifications. International Journal of Environmental Research and Public Health, 2021, 18, 1656.	1.2	28
23	Participation of young people with disabilities and/or chronic conditions in low―and middleâ€income countries: a scoping review. Developmental Medicine and Child Neurology, 2020, 62, 1259-1265.	1.1	27
24	How are conditions for participation expressed in education policy documents? A review of documents in Scotland and Sweden. European Journal of Special Needs Education, 2011, 26, 251-272.	1.5	26

26	Development and validation of the ICF-CY-Based Functioning Scale of the Disability Evaluation System—Child VersionÂin Taiwan. Journal of the Formosan Medical Association, 2015, 114, 1170-1180.	0.8	23
27	The relationship between classroom quality-related variables and engagement levels in Swedish preschool classrooms: a longitudinal study. European Early Childhood Education Research Journal, 2017, 25, 122-135.	1.2	23
28	ADHD Symptoms Related to Profiles of Selfâ€Esteem in a Longitudinal Study of Twins †A personâ€oriented approach. Journal of Child and Adolescent Psychiatric Nursing, 2008, 21, 228-237.	0.8	22
29	Use of ICT in school: a comparison between students with and without physical disabilities. European Journal of Special Needs Education, 2012, 27, 21-34.	1.5	22
30	A Swedish perspective on nursing and psychosocial research in paediatric oncology: A literature review. European Journal of Oncology Nursing, 2015, 19, 310-317.	0.9	22
31	Important aspects of participation and participation restrictions in people with a mild intellectual disability. Disability and Rehabilitation, 2014, 36, 1264-1272.	0.9	20
32	Understanding the Participation in Home, School, and Community Activities Reported by Children with Disabilities and Their Parents: A Pilot Study. International Journal of Environmental Research and Public Health, 2019, 16, 2217.	1.2	19
33	Content validity and usefulness of Picture My Participation for measuring participation in children with and without intellectual disability in South Africa and Sweden. Scandinavian Journal of Occupational Therapy, 2020, 27, 336-348.	1.1	19
34	The perceived needs of support of parents and classroom teachers a comparison of needs in two microsystems. European Journal of Special Needs Education, 2001, 16, 225-244.	1.5	18
35	Parent Perspectives on Early Intervention: The Paradox of Needs and Rights. British Journal of Developmental Disabilities, 2003, 49, 69-80.	0.1	16
36	Can you see it too? Observed and self-rated participation in mainstream schools in students with and without autism spectrum disorders. Developmental Neurorehabilitation, 2015, 18, 365-374.	0.5	14

#	Article	IF	CITATIONS
37	The content of goals in individual educational programs for students with complex communication needs. AAC: Augmentative and Alternative Communication, 2016, 32, 41-48.	0.8	14
38	Intervention in timeâ€processing ability, daily time management and autonomy in children with intellectual disabilities aged 10–17Âyears – A cluster randomised trial. Australian Occupational Therapy Journal, 2019, 66, 110-120.	0.6	14
39	Hyperactivity precedes conduct problems in preschool children: a longitudinal study. BJPsych Open, 2018, 4, 186-191.	0.3	14
40	Inclusive Teaching Skills and Student Engagement in Physical Education. Frontiers in Education, 2019, 4, .	1.2	14
41	International Classification of Functioning, Disability and Health categories explored for self-rated participation in Swedish adolescents and adults with a mild intellectual disability. Journal of Rehabilitation Medicine, 2012, 44, 562-569.	0.8	13
42	Examining the rights of children with intellectual disability in South Africa: Children's perspectives. Journal of Intellectual and Developmental Disability, 2014, 39, 55-64.	1.1	13
43	Specialised dental care for children with complex disabilities focusing on child's functioning and need for general anaesthesia. Disability and Rehabilitation, 2017, 39, 2484-2491.	0.9	13
44	Participation profiles in domestic life and peer relations as experienced by adolescents with and without impairments and long-term health conditions. Developmental Neurorehabilitation, 2019, 22, 27-38.	0.5	13
45	Trajectories of participation, mental health, and mental health problems in adolescents with self-reported neurodevelopmental disorders. Disability and Rehabilitation, 2022, 44, 1595-1608.	0.9	13
46	Perceived needs among parents of children with a mild intellectual disability in Sweden. Scandinavian Journal of Disability Research, 2017, 19, 307-317.	1.1	12
47	Inclusion Through Participation: Understanding Participation in the International Classification of Functioning, Disability, and Health as a Methodological Research Tool for Investigating Inclusion. Frontiers in Education, 2018, 3, .	1.2	12
48	Agreement between participation ratings of children with intellectual disabilities and their primary caregivers. Research in Developmental Disabilities, 2020, 104, 103715.	1.2	12
49	"Special Support―in Preschools in Sweden: Preschool staff's definition of the construct. International Journal of Disability Development and Education, 2010, 57, 43-57.	0.6	10
50	Everyday environments and activities of children and teachers in Swedish preschools. Early Child Development and Care, 2022, 192, 187-202.	0.7	10
51	Assessing School Engagement – Adaptation and Validation of "Engagement Versus Disaffection With Learning: Teacher Report―in the Swedish Educational Context. Frontiers in Education, 2020, 5, .	1.2	10
52	Social interaction and gender as factors affecting the trajectories of children's engagement and hyperactive behaviour in preschool. British Journal of Educational Psychology, 2021, 91, 617-637.	1.6	10
53	Linking youths' mental, psychosocial, and emotional functioning to ICF-CY: lessons learned. Disability and Rehabilitation, 2018, 40, 2293-2299.	0.9	10
54	How are the activity and participation aspects of the ICF used? Examples from studies of people with intellectual disability. NeuroRehabilitation, 2015, 36, 45-49.	0.5	9

#	Article	IF	CITATIONS
55	A Systematic Review of Generic and Special Needs of Children with Disabilities Living in Poverty Settings in Low- and Middle-Income Countries. Journal of Policy Practice, 2013, 12, 296-315.	0.6	8
56	Social service utilisation patterns among children with mild intellectual disability – differences between children integrated into mainstream classes and children in self-contained classes. European Journal of Special Needs Education, 2015, 30, 220-236.	1.5	8
57	An Analytic Review of Clinical Implications From Nursing and Psychosocial Research Within Swedish Pediatric Oncology. Journal of Pediatric Nursing, 2015, 30, 550-559.	0.7	8
58	Oral health, medical diagnoses, and functioning profiles in children with disabilities receiving paediatric specialist dental care – a study using the ICF-CY. Disability and Rehabilitation, 2015, 37, 1431-1438.	0.9	8
59	Parental Perspectives on Family Mealtimes Related to Gastrostomy Tube Feeding in Children. Qualitative Health Research, 2021, 31, 1596-1608.	1.0	8
60	The Relationship Between Intelligence Quotient and Aspects of Everyday Functioning and Participation for People Who Have Mild and Borderline Intellectual Disabilities. Journal of Applied Research in Intellectual Disabilities, 2018, 31, e68-e78.	1.3	7
61	Documentation of everyday life and health care following gastrostomy tube placement in children: a content analysis of medical records Disability and Rehabilitation, 2020, 42, 2747-2757.	0.9	7
62	Transcultural adaptation, content validity and reliability of the instrument †Picture My Participation' for children and youth with and without intellectual disabilities in mainland China. Scandinavian Journal of Occupational Therapy, 2021, 28, 147-157.	1.1	7
63	Longitudinal pathways of engagement, social interaction skills, hyperactivity and conduct problems in preschool children. Scandinavian Journal of Psychology, 2021, 62, 170-184.	0.8	7
64	Measuring self-efficacy, aptitude to participate and functioning in students with and without impairments. European Journal of Special Needs Education, 2018, 33, 572-583.	1.5	7
65	Factors influencing participation by preschool children with mild intellectual disabilities in Sweden: with or without diagnosis. Research and Practice in Intellectual and Developmental Disabilities, 2015, 2, 126-135.	0.5	6
66	Is independence the same as participation for young people with disabilities?. Developmental Medicine and Child Neurology, 2019, 61, 116-117.	1.1	6
67	Structural validity and internal consistency of Picture My Participation: A measure for children with disability. African Journal of Disability, 2021, 10, 763.	0.7	6
68	Using ICF to Describe Problems With Functioning in Everyday Life for Children Who Completed Treatment for Brain Tumor: An Analysis Based on Professionals' Documentation. Frontiers in Rehabilitation Sciences, 2021, 2, .	0.5	6
69	Social Support for Adolescents With a High Level of Truancy in Swedish Compulsory Schooling. Journal of Education for Students Placed at Risk, 2015, 20, 293-311.	1.5	5
70	Test-retest reliability of Picture My Participation in children with intellectual disability in South Africa. Scandinavian Journal of Occupational Therapy, 2020, , 1-10.	1.1	5
71	Problem solving in relation to resources in everyday life in families of children with disabilities. International Journal of Rehabilitation Research, 2012, 35, 102-108.	0.7	4
72	Habilitation Service Utilization Patterns Among Children With Mild Intellectual Disability. Journal of Policy and Practice in Intellectual Disabilities, 2017, 14, 233-239.	1.7	3

#	Article	IF	CITATIONS
