#	Paper	IF	Citations
54	Recent historic increase of infant mortality in France: A time-series analysis, 2001 to 2019.. <i>Lancet Regional Health - Europe, The</i> , 2022 , 16, 100339		1
53	Risk Factors for High-Arched Palate and Posterior Crossbite at the Age of 5 in Children Born Very Preterm: EPIPAGE-2 Cohort Study.. <i>Frontiers in Pediatrics</i> , 2022 , 10, 784911	3.4	
52	Children's mental and behavioral health, schooling, and socioeconomic characteristics during school closure in France due to COVID-19: the SAPRIS project. <i>Scientific Reports</i> , 2021 , 11, 22373	4.9	0
51	Association Between Early Amino Acid Intake and Full-Scale IQ at Age 5 Years Among Infants Born at Less Than 30 Weeks Gestation. <i>JAMA Network Open</i> , 2021 , 4, e2135452	10.4	1
50	Neurodevelopmental outcomes at age 5 among children born preterm: EPIPAGE-2 cohort study. <i>BMJ, The</i> , 2021 , 373, n741	5.9	21
49	Risk factors for very preterm delivery out of a level III maternity unit: The EPIPAGE-2 cohort study. <i>Paediatric and Perinatal Epidemiology</i> , 2021 , 35, 694-705	2.7	1
48	Association of Continuous Opioids and/or Midazolam During Early Mechanical Ventilation with Survival and Sensorimotor Outcomes at Age 2 Years in Premature Infants: Results from the French Prospective National EPIPAGE 2 Cohort. <i>Journal of Pediatrics</i> , 2021 , 232, 38-47.e8	3.6	1
47	Cohort Profile: the Etude Epidémiologique sur les Petits Ages Gestationnels-2 (EPIPAGE-2) preterm birth cohort. <i>International Journal of Epidemiology</i> , 2021 , 50, 1428-1429m	7.8	2
46	Antibody status and cumulative incidence of SARS-CoV-2 infection among adults in three regions of France following the first lockdown and associated risk factors: a multicohort study. <i>International Journal of Epidemiology</i> , 2021 , 50, 1458-1472	7.8	20
45	Identification and comparison of France to other countries of the teaching of research to nursing students: Results of an international survey of nursing educator. <i>Nurse Education Today</i> , 2021 , 97, 104717	3.7	1
44	Full compliance with Respiratory syncytial virus prophylaxis was associated with fewer respiratory-related hospital admissions in preterm children: A cohort study. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2021 , 110, 1633-1638	3.1	1
43	Screening for Retinopathy of Prematurity in Very Preterm Children: The EPIPAGE-2 Cohort Study. <i>Neonatology</i> , 2021 , 118, 80-89	4	0
42	Incidence and risk factors of COVID-19-like symptoms in the French general population during the lockdown period: a multi-cohort study. <i>BMC Infectious Diseases</i> , 2021 , 21, 169	4	12
41	Cause of preterm birth and late-onset sepsis in very preterm infants: the EPIPAGE-2 cohort study. <i>Pediatric Research</i> , 2021 , 90, 584-592	3.2	10
40	Maternal education and cognitive development in 15 European very-preterm birth cohorts from the RECAP Preterm platform. <i>International Journal of Epidemiology</i> , 2021 ,	7.8	3
39	A randomized EPIREMED protocol study on the long-term visuo spatial effects of very preterm children with a working memory deficit. <i>BMC Pediatrics</i> , 2021 , 21, 402	2.6	
38	Profiles of Functioning in 5.5-Year-Old Very Preterm Born Children in France: The EPIPAGE-2 Study. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2021 ,	7.2	1

37	Birth outcomes between 22 and 26 weeks gestation in national population-based cohorts from Sweden, England and France. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2021 ,	3.1	6
36	International comparisons of neurodevelopmental outcomes in infants born very preterm. <i>Seminars in Fetal and Neonatal Medicine</i> , 2020 , 25, 101109	3.7	18
35	Association of Chorioamnionitis with Cerebral Palsy at Two Years after Spontaneous Very Preterm Birth: The EIPAGE-2 Cohort Study. <i>Journal of Pediatrics</i> , 2020 , 222, 71-78.e6	3.6	6
34	Intensity of perinatal care for extremely preterm babies and outcomes at a higher gestational age: evidence from the EIPAGE-2 cohort study. <i>BMC Pediatrics</i> , 2020 , 20, 8	2.6	2
33	Assessment of Neonatal Intensive Care Unit Practices and Preterm Newborn Gut Microbiota and 2-Year Neurodevelopmental Outcomes. <i>JAMA Network Open</i> , 2020 , 3, e2018119	10.4	15
32	Maternal employment and socio-economic status of families raising children born very preterm with motor or cognitive impairments: the EIPAGE cohort study. <i>Developmental Medicine and Child Neurology</i> , 2020 , 62, 1182-1190	3.3	3
31	Machine-Learning vs. Expert-Opinion Driven Logistic Regression Modelling for Predicting 30-Day Unplanned Rehospitalisation in Preterm Babies: A Prospective, Population-Based Study (EIPAGE 2). <i>Frontiers in Pediatrics</i> , 2020 , 8, 585868	3.4	
30	Thresholds of glycemia, insulin therapy, and risk for severe retinopathy in premature infants: A cohort study 2020 , 17, e1003477		
29	Thresholds of glycemia, insulin therapy, and risk for severe retinopathy in premature infants: A cohort study 2020 , 17, e1003477		
28	Thresholds of glycemia, insulin therapy, and risk for severe retinopathy in premature infants: A cohort study 2020 , 17, e1003477		
27	Thresholds of glycemia, insulin therapy, and risk for severe retinopathy in premature infants: A cohort study 2020 , 17, e1003477		
26	Thresholds of glycemia, insulin therapy, and risk for severe retinopathy in premature infants: A cohort study 2020 , 17, e1003477		
25	Study characteristics impacted the pragmatism of randomized controlled trial published in nursing: a meta-epidemiological study. <i>Journal of Clinical Epidemiology</i> , 2019 , 116, 18-25	5.7	6
24	Unit policies and breast milk feeding at discharge of very preterm infants: The EIPAGE-2 cohort study. <i>Paediatric and Perinatal Epidemiology</i> , 2019 , 33, 59-69	2.7	7
23	Early extubation is not associated with severe intraventricular hemorrhage in preterm infants born before 29 weeks of gestation. Results of an EIPAGE-2 cohort study. <i>PLoS ONE</i> , 2019 , 14, e0214232	3.7	4
22	The impact of neonatal unit policies on breast milk feeding at discharge of moderate preterm infants: The EIPAGE-2 cohort study. <i>Maternal and Child Nutrition</i> , 2019 , 15, e12875	3.4	8
21	Volume of Neonatal Care and Survival without Disability at 2 Years in Very Preterm Infants: Results of a French National Cohort Study. <i>Journal of Pediatrics</i> , 2019 , 213, 22-29.e4	3.6	4
20	Assessing the risk of early unplanned rehospitalisation in preterm babies: EIPAGE 2 study. <i>BMC Pediatrics</i> , 2019 , 19, 451	2.6	2

19	Indications leading to termination of pregnancy between 22 and 31 weeks of gestational age in France: A population-based cohort study. <i>European Journal of Obstetrics, Gynecology and Reproductive Biology</i> , 2019 , 233, 12-18	2.4	6
18	Preterm premature rupture of membranes at 22-25 weeks of gestation: perinatal and 2-year outcomes within a national population-based study (EPIPAGE-2). <i>American Journal of Obstetrics and Gynecology</i> , 2018 , 219, 298.e1-298.e14	6.4	27
17	Intensity of perinatal care, extreme prematurity and sensorimotor outcome at 2 years corrected age: evidence from the EPIPAGE-2 cohort study. <i>BMC Medicine</i> , 2018 , 16, 227	11.4	9
16	Neonatal Outcomes in Extremely Preterm Newborns Admitted to Intensive Care after No Active Antenatal Management: A Population-Based Cohort Study. <i>Journal of Pediatrics</i> , 2018 , 203, 150-155	3.6	10
15	Impact of Latency Duration on the Prognosis of Preterm Infants after Preterm Premature Rupture of Membranes at 24 to 32 Weeks of Gestation: A National Population-Based Cohort Study. <i>Journal of Pediatrics</i> , 2017 , 182, 47-52.e2	3.6	37
14	Fetal and neonatal outcomes of preterm infants born before 32 weeks of gestation according to antenatal vs postnatal assessments of restricted growth. <i>American Journal of Obstetrics and Gynecology</i> , 2017 , 216, 516.e1-516.e10	6.4	27
13	Tocolysis after preterm premature rupture of membranes and neonatal outcome: a propensity-score analysis. <i>American Journal of Obstetrics and Gynecology</i> , 2017 , 217, 212.e1-212.e12	6.4	13
12	Histologic Chorioamnionitis and Bronchopulmonary Dysplasia in Preterm Infants: The Epidemiologic Study on Low Gestational Ages 2 Cohort. <i>Journal of Pediatrics</i> , 2017 , 187, 98-104.e3	3.6	21
11	Abstention or intervention for isolated hypotension in the first 3 days of life in extremely preterm infants: association with short-term outcomes in the EPIPAGE 2 cohort study. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2017 , 102, 490-496	4.7	38
10	Providing active antenatal care depends on the place of birth for extremely preterm births: the EPIPAGE 2 cohort study. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2017 , 102, F476-F482	4.7	17
9	Neurodevelopmental outcome at 2 years for preterm children born at 22 to 34 weeks of gestation in France in 2011: EPIPAGE-2 cohort study. <i>BMJ, The</i> , 2017 , 358, j3448	5.9	189
8	Mother-infant interaction assessment at discharge and at 6 months in a French cohort of infants born very preterm: The OLIMPE study. <i>PLoS ONE</i> , 2017 , 12, e0188942	3.7	10
7	First nationwide web-based surveillance system for influenza-like illness in pregnant women: participation and representativeness of the French G-GrippeNet cohort. <i>BMC Public Health</i> , 2016 , 16, 253	4.1	5
6	Placental Complications and Bronchopulmonary Dysplasia: EPIPAGE-2 Cohort Study. <i>Pediatrics</i> , 2016 , 137, e20152163	7.4	36
5	Association Between Early Screening for Patent Ductus Arteriosus and In-Hospital Mortality Among Extremely Preterm Infants. <i>JAMA - Journal of the American Medical Association</i> , 2015 , 313, 2441-8	27.4	80
4	Survival and morbidity of preterm children born at 22 through 34 weeks of gestation in France in 2011: results of the EPIPAGE-2 cohort study. <i>JAMA Pediatrics</i> , 2015 , 169, 230-8	8.3	381
3	EPIPAGE 2: a preterm birth cohort in France in 2011. <i>BMC Pediatrics</i> , 2014 , 14, 97	2.6	86
2	Predictors of the risk of cognitive deficiency in very preterm infants: the EPIPAGE prospective cohort. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2011 , 100, 370-8	3.1	81

- 1 Neurodevelopmental disabilities and special care of 5-year-old children born before 33 weeks of gestation (the EPIPAGE study): a longitudinal cohort study. *Lancet, The*, **2008**, 371, 813-20 40 613
