

Kevin C Harris, Mhsc

List of Publications by Citations

Source: <https://exaly.com/author-pdf/2227446/kevin-c-harris-mhsc-publications-by-citations.pdf>
Version: 2024-04-09

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.
The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

55 papers	2,524 citations	19 h-index	50 g-index
63 ext. papers	3,170 ext. citations	2.7 avg, IF	4.85 L-index

#	Paper	IF	Citations
55	Hypertension Canada's 2018 Guidelines for Diagnosis, Risk Assessment, Prevention, and Treatment of Hypertension in Adults and Children. <i>Canadian Journal of Cardiology</i> , 2018 , 34, 506-525	3.8	348
54	Effect of school-based physical activity interventions on body mass index in children: a meta-analysis. <i>Cmaj</i> , 2009 , 180, 719-26	3.5	324
53	Hypertension Canada's 2016 Canadian Hypertension Education Program Guidelines for Blood Pressure Measurement, Diagnosis, Assessment of Risk, Prevention, and Treatment of Hypertension. <i>Canadian Journal of Cardiology</i> , 2016 , 32, 569-88	3.8	314
52	Childhood obesity and cardiovascular dysfunction. <i>Journal of the American College of Cardiology</i> , 2013 , 62, 1309-19	15.1	259
51	The 2015 Canadian Hypertension Education Program recommendations for blood pressure measurement, diagnosis, assessment of risk, prevention, and treatment of hypertension. <i>Canadian Journal of Cardiology</i> , 2015 , 31, 549-68	3.8	222
50	Hypertension Canada's 2017 Guidelines for Diagnosis, Risk Assessment, Prevention, and Treatment of Hypertension in Adults. <i>Canadian Journal of Cardiology</i> , 2017 , 33, 557-576	3.8	205
49	Hypertension Canada's 2020 Comprehensive Guidelines for the Prevention, Diagnosis, Risk Assessment, and Treatment of Hypertension in Adults and Children. <i>Canadian Journal of Cardiology</i> , 2020 , 36, 596-624	3.8	139
48	Obesity and arterial stiffness in children: systematic review and meta-analysis. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 2015 , 35, 1038-44	9.4	93
47	Should early extubation be the goal for children after congenital cardiac surgery?. <i>Journal of Thoracic and Cardiovascular Surgery</i> , 2014 , 148, 2642-7	1.5	72
46	Reduced Physical Activity During COVID-19 Pandemic in Children With Congenital Heart Disease. <i>Canadian Journal of Cardiology</i> , 2020 , 36, 1130-1134	3.8	46
45	Hypertension Canada's 2016 Canadian Hypertension Education Program Guidelines for Blood Pressure Measurement, Diagnosis, and Assessment of Risk of Pediatric Hypertension. <i>Canadian Journal of Cardiology</i> , 2016 , 32, 589-97	3.8	45
44	A Systematic Review of Infective Endocarditis in Patients With Bovine Jugular Vein Valves Compared With Other Valve Types. <i>JACC: Cardiovascular Interventions</i> , 2017 , 10, 1449-1458	5	41
43	Physical Activity and Sedentary Behavior in Children With Congenital Heart Disease. <i>Journal of the American Heart Association</i> , 2017 , 6,	6	40
42	Validity and reliability of the Physical Activity Questionnaire for Children (PAQ-C) and Adolescents (PAQ-A) in individuals with congenital heart disease. <i>PLoS ONE</i> , 2017 , 12, e0175806	3.7	35
41	Hypertension Canada's 2017 Guidelines for the Diagnosis, Assessment, Prevention, and Treatment of Pediatric Hypertension. <i>Canadian Journal of Cardiology</i> , 2017 , 33, 577-585	3.8	28
40	Validity of Commercial Activity Trackers in Children With Congenital Heart Disease. <i>Canadian Journal of Cardiology</i> , 2017 , 33, 799-805	3.8	28
39	Feasibility of optical coherence tomography in children with Kawasaki disease and pediatric heart transplant recipients. <i>Circulation: Cardiovascular Imaging</i> , 2014 , 7, 671-8	3.9	24

38	A prospective observational multicenter study of balloon angioplasty for the treatment of native and recurrent coarctation of the aorta. <i>Catheterization and Cardiovascular Interventions</i> , 2014 , 83, 1116-237	23
37	Right ventricular outflow tract tachycardia in children. <i>Journal of Pediatrics</i> , 2006 , 149, 822-826	3.6 22
36	Biophysical properties of the aorta and left ventricle and exercise capacity in obese children. <i>American Journal of Cardiology</i> , 2012 , 110, 897-901	3 19
35	Economic evaluation of palivizumab in children with congenital heart disease: a Canadian perspective. <i>Canadian Journal of Cardiology</i> , 2011 , 27, 523.e11-5	3.8 19
34	Physical activity evaluation in children with congenital heart disease. <i>Heart</i> , 2017 , 103, 1408-1412	5.1 16
33	Optical Coherence Tomography for the Early Detection of Coronary Vascular Changes in Children and Adolescents After Cardiac Transplantation: Findings From the International Pediatric OCT Registry. <i>JACC: Cardiovascular Imaging</i> , 2019 , 12, 2492-2501	8.4 14
32	Rivaroxaban, a direct Factor Xa inhibitor, versus acetylsalicylic acid as thromboprophylaxis in children post-Fontan procedure: Rationale and design of a prospective, randomized trial (the UNIVERSE study). <i>American Heart Journal</i> , 2019 , 213, 97-104	4.9 13
31	Modifiable cardiovascular risk factors in adolescents and adults with congenital heart disease. <i>Congenital Heart Disease</i> , 2018 , 13, 563-570	3.1 12
30	Physical Activity Is Associated With Better Vascular Function in Children and Adolescents With Congenital Heart Disease. <i>Canadian Journal of Cardiology</i> , 2020 , 36, 1474-1481	3.8 11
29	Outcomes of Radiofrequency Perforation for Pulmonary Atresia and Intact Ventricular Septum: A Single-Centre Experience. <i>Pediatric Cardiology</i> , 2017 , 38, 170-175	2.1 10
28	Fontan-Associated Liver Disease: Evidence for Early Surveillance of Liver Health in Pediatric Fontan Patients. <i>Canadian Journal of Cardiology</i> , 2019 , 35, 217-220	3.8 10
27	A novel treadmill protocol for exercise testing in children: the British Columbia Children's Hospital protocol. <i>BMJ Open Sport and Exercise Medicine</i> , 2017 , 3, e000197	3.4 10
26	Childhood obesity, arterial stiffness, and prevalence and treatment of hypertension. <i>Current Treatment Options in Cardiovascular Medicine</i> , 2014 , 16, 339	2.1 10
25	Ambulatory blood pressure and carotid intima media thickness in children with type 1 diabetes. <i>Pediatric Diabetes</i> , 2020 , 21, 358-365	3.6 9
24	Utility of 3D printed cardiac models in congenital heart disease: a scoping review. <i>Heart</i> , 2020 , 106, 1631-1637	5.1 9
23	Peritoneal-pericardial communication in an adolescent on peritoneal dialysis. <i>Pediatric Nephrology</i> , 2016 , 31, 153-6	3.2 7
22	Improving Quality of Congenital Heart Disease Research in Canada: Standardizing Nomenclature Across Canada. <i>Canadian Journal of Cardiology</i> , 2018 , 34, 1674-1676	3.8 6
21	Utility and Access to 3-Dimensional Printing in the Context of Congenital Heart Disease: An International Physician Survey Study. <i>CJC Open</i> , 2020 , 2, 207-213	2 5

20	Optical coherence tomography for the evaluation of asymmetric cardiac allograft vasculopathy in a child. <i>Pediatric Transplantation</i> , 2014 , 18, E190-2	1.8	5
19	Intimal thickening at coronary bifurcations in pediatric heart transplant recipients. <i>Pediatric Transplantation</i> , 2018 , 22, e13100	1.8	4
18	Coronary artery intimal thickening and ventricular dynamics in pediatric heart transplant recipients. <i>Congenital Heart Disease</i> , 2018 , 13, 663-670	3.1	4
17	Use of sildenafil in an infant with persistent pulmonary hypertension secondary to lung and renal hypoplasia - a case report. <i>BMC Pediatrics</i> , 2019 , 19, 416	2.6	3
16	The Canadian Pediatric Cardiology Research Network: A Model National Data-Sharing Organization to Facilitate the Study of Pediatric Heart Diseases. <i>CJC Open</i> , 2021 , 3, 510-515	2	3
15	Aortic Dimensions, Biophysical Properties, and Plasma Biomarkers in Children and Adults with Marfan or Loeys-Dietz Syndrome. <i>CJC Open</i> , 2021 , 3, 585-594	2	3
14	Persistent fever in an infant: incomplete Kawasaki disease. <i>Cmaj</i> , 2011 , 183, 2009-13	3.5	2
13	Valvar aortico-ventricular tunnel: an insight into the development of the great arteries. <i>Cardiology in the Young</i> , 2017 , 27, 788-790	1	1
12	Pulmonary artery wall thickness in children with Fontan physiology: an optical coherence tomography case control study. <i>Cardiology in the Young</i> , 2019 , 29, 524-527	1	1
11	Neuroblastoma masquerading as supraventricular tachycardia: a case of super sinus tachycardia. <i>Archives of Disease in Childhood</i> , 2012 , 97, 553	2.2	1
10	Physiological Responses to Exercise in Pediatric Heart Transplant Recipients. <i>Medicine and Science in Sports and Exercise</i> , 2019 , 51, 850-857	1.2	1
9	The relative incidence of cardiogenic and septic shock in neonates. <i>Paediatrics and Child Health</i> , 2020 , 25, 372-377	0.7	1
8	Polymorphic ventricular tachycardia associated with an episode of reflex syncope: Is this the needle in the haystack?. <i>HeartRhythm Case Reports</i> , 2018 , 4, 510-513	1	1
7	Unique Challenges of Randomised Controlled Trials in Pediatric Cardiology. <i>Canadian Journal of Cardiology</i> , 2021 , 37, 1394-1403	3.8	1
6	Pediatric Lipid Screening and Treatment in Canada: Practices, Attitudes, and Barriers. <i>Canadian Journal of Cardiology</i> , 2020 , 36, 1545-1549	3.8	0
5	Patterns of Early Coronary Artery Changes in Pediatric Heart Transplant Recipients Detected Using Optical Coherence Tomography.. <i>Circulation: Cardiovascular Imaging</i> , 2022 , 15, e012486	3.9	0
4	Children with congenital heart disease exhibit seasonal variation in physical activity. <i>PLoS ONE</i> , 2020 , 15, e0241187	3.7	0
3	A Doppler Echocardiographic Study of the Myocardial Inotropic Response to Peak Semisupine Exercise in Healthy Children: Development of a Simplified Index of Myocardial Reserve. <i>Journal of the American Society of Echocardiography</i> , 2017 , 30, 790-796	5.8
