#	ARTICLE	IF	CITATIONS
1	On Edgeworth Expansions in Generalized Urn Models. <i>Journal of Theoretical Probability</i> , 2014, 27, 725-753.	0.8	11
2	Approximation of the Distribution of Multidimensional Randomized Divisible Statistics by Normal Distributions (Multinomial Scheme). <i>Theory of Probability and Its Applications</i> , 1988, 32, 696-706.	0.3	6
3	Asymptotic normality associated with generalized occupancy problems. <i>Statistics and Probability Letters</i> , 2007, 77, 1549-1558.	0.7	6
4	Randomized decomposable statistics in the scheme of independent allocating particles into boxes. <i>Discrete Mathematics and Applications</i> , 1992, 2, .	0.2	5
5	On limit theorems for decomposable statistics and efficiency of the corresponding statistical tests. <i>Discrete Mathematics and Applications</i> , 1992, 2, .	0.2	4
6	Limit theorems on decomposable statistics in generalized allocation schemes. <i>Discrete Mathematics and Applications</i> , 1996, 6, .	0.2	4
7	A class of asymptotically efficient estimators based on sample spacings. <i>Test</i> , 2020, 29, 617-636.	1.1	4
8	The probability of large deviations for the sum functions of spacings. <i>International Journal of Mathematics and Mathematical Sciences</i> , 2006, 2006, 1-22.	0.7	3
9	On Greenwood goodness-of-fit test. <i>Journal of Statistical Planning and Inference</i> , 2010, 140, 3017-3025.	0.6	3
10	Probabilities of Large Deviations for Randomized Divisible Statistics in the Multinomial Scheme. <i>Theory of Probability and Its Applications</i> , 1990, 34, 645-657.	0.3	2
11	A Cram�r-type large deviation theorem for sums of functions of higher order non-overlapping spacings. <i>Metrika</i> , 2011, 74, 33-54.	0.8	2
12	Approximation by Normal Distribution for a Sample Sum in Sampling Without Replacement from a Finite Population. <i>Sankhya A</i> , 2016, 78, 188-220.	0.8	2
13	On Asymptotic Expansion in the Random Allocation of Particles by Sets. <i>Journal of Theoretical Probability</i> , 2010, 23, 904-919.	0.8	1
14	Higher-order expansions and efficiencies of tests based on spacings. <i>Journal of Nonparametric Statistics</i> , 2013, 25, 339-359.	0.9	1
15	Edgeworth expansions for two-stage sampling with applications to stratified and cluster sampling. <i>Canadian Journal of Statistics</i> , 2015, 43, 578-599.	0.9	1
16	Correction The probabilities of large deviations for a certain class of statistics associated with multinomial distributions. <i>ESAIM - Probability and Statistics</i> , 2021, 25, 53-54.	0.5	1
17	Estimates of speed of convergence in limit theorems for first passage times. <i>Mathematical Notes</i> , 1978, 23, 263-268.	0.4	0
18	The probabilities of large deviations for a certain class of statistics associated with multinomial distribution. <i>ESAIM - Probability and Statistics</i> , 2020, 24, 581-606.	0.5	0
