

# Doreen J Bartlett

## List of Publications by Citations

**Source:** <https://exaly.com/author-pdf/224247/doreen-j-bartlett-publications-by-citations.pdf>

**Version:** 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

70  
papers

3,849  
citations

#	Paper	IF	Citations
70	Content validity of the expanded and revised Gross Motor Function Classification System. <i>Developmental Medicine and Child Neurology</i> , <b>2008</b> , 50, 744-50	3.3	1075
69	Prognosis for gross motor function in cerebral palsy: creation of motor development curves. <i>JAMA - Journal of the American Medical Association</i> , <b>2002</b> , 288, 1357-63	27.4	680
68	Stability and decline in gross motor function among children and youth with cerebral palsy aged 2 to 21 years. <i>Developmental Medicine and Child Neurology</i> , <b>2009</b> , 51, 295-302	3.3	315
67	Reference curves for the Gross Motor Function Measure: percentiles for clinical description and tracking over time among children with cerebral palsy. <i>Physical Therapy</i> , <b>2008</b> , 88, 596-607	3.3	152
66	Gross Motor Function Classification System: impact and utility. <i>Developmental Medicine and Child Neurology</i> , <b>2007</b> , 46, 60-65	3.3	133
65	Limb distribution, motor impairment, and functional classification of cerebral palsy. <i>Developmental Medicine and Child Neurology</i> , <b>2007</b> , 46, 461-467	3.3	128
64	Physical Therapists' Perceptions of Factors Influencing the Acquisition of Motor Abilities of Children With Cerebral Palsy: Implications for Clinical Reasoning. <i>Physical Therapy</i> , <b>2002</b> , 82, 237-248	3.3	115
63	Validity and reliability of a pediatric reach test. <i>Pediatric Physical Therapy</i> , <b>2003</b> , 15, 84-92	0.9	90
62	A Multivariate Model of Determinants of Motor Change for Children With Cerebral Palsy. <i>Physical Therapy</i> , <b>2000</b> , 80, 598-614	3.3	75
61	Amount and focus of physical therapy and occupational therapy for young children with cerebral palsy. <i>Physical and Occupational Therapy in Pediatrics</i> , <b>2012</b> , 32, 368-82	2.1	63
60	Testing of the spinal alignment and range of motion measure: a discriminative measure of posture and flexibility for children with cerebral palsy. <i>Developmental Medicine and Child Neurology</i> , <b>2005</b> , 47, 739-43	3.3	59
59	Validity and reliability of two abbreviated versions of the Gross Motor Function Measure. <i>Physical Therapy</i> , <b>2011</b> , 91, 577-88	3.3	48
58	The prevalence, distribution, and effect of pain among adolescents with cerebral palsy. <i>Pediatric Physical Therapy</i> , <b>2010</b> , 22, 26-33	0.9	46
57	Correlates of decline in gross motor capacity in adolescents with cerebral palsy in Gross Motor Function Classification System levels III to V: an exploratory study. <i>Developmental Medicine and Child Neurology</i> , <b>2010</b> , 52, e155-60	3.3	45
56	Determinants of gross motor function of young children with cerebral palsy: a prospective cohort study. <i>Developmental Medicine and Child Neurology</i> , <b>2014</b> , 56, 275-82	3.3	44
55	A multivariate model of determinants of change in gross-motor abilities and engagement in self-care and play of young children with cerebral palsy. <i>Physical and Occupational Therapy in Pediatrics</i> , <b>2011</b> , 31, 150-68	2.1	43
54	Advancing rehabilitation research: an interactionist perspective to guide question and design. <i>Disability and Rehabilitation</i> , <b>2006</b> , 28, 1169-76	2.4	39

53	The Move & PLAY study: an example of comprehensive rehabilitation outcomes research. <i>Physical Therapy</i> , <b>2010</b> , 90, 1660-72	3.3	37
52	Use of the Alberta Infant Motor Scale to Characterize the Motor Development of Infants Born Preterm at Eight Months Corrected Age. <i>Physical and Occupational Therapy in Pediatrics</i> , <b>2003</b> , 23, 31-45 <sup>2.1</sup>		36
51	Relationships of equipment use and play positions to motor development at eight months corrected age of infants born preterm. <i>Pediatric Physical Therapy</i> , <b>2003</b> , 15, 8-15	0.9	33
50	"If I knew then what I know now": parents' reflections on raising a child with cerebral palsy. <i>Physical and Occupational Therapy in Pediatrics</i> , <b>2011</b> , 31, 169-83	2.1	32
49	Determinants of participation in family and recreational activities of young children with cerebral palsy. <i>Disability and Rehabilitation</i> , <b>2016</b> , 38, 2455-68	2.4	29
48	Child Engagement in Daily Life: a measure of participation for young children with cerebral palsy. <i>Disability and Rehabilitation</i> , <b>2014</b> , 36, 1804-16	2.4	29
47	Consensus classifications of gross motor, manual ability, and communication function classification systems between therapists and parents of children with cerebral palsy. <i>Developmental Medicine and Child Neurology</i> , <b>2016</b> , 58, 98-9	3.3	29
46	Development and validity of the early clinical assessment of balance for young children with cerebral palsy. <i>Developmental Neurorehabilitation</i> , <b>2014</b> , 17, 375-83	1.8	27
45	The Relationship Between the Home Environment and Early Motor Development. <i>Physical and Occupational Therapy in Pediatrics</i> , <b>1999</b> , 19, 43-57	2.1	27
44	Determinants of self-care participation of young children with cerebral palsy. <i>Developmental Neurorehabilitation</i> , <b>2014</b> , 17, 403-13	1.8	22
43	Measuring postural stability in young children with cerebral palsy: a comparison of 2 instruments. <i>Pediatric Physical Therapy</i> , <b>2014</b> , 26, 332-7	0.9	22
42	Understanding the professional socialization of canadian physical therapy students: a qualitative investigation. <i>Physiotherapy Canada Physiotherapie Canada</i> , <b>2009</b> , 61, 15-25	0.8	22
41	Development of the Daily Activities of Infants Scale: a measure supporting early motor development. <i>Developmental Medicine and Child Neurology</i> , <b>2008</b> , 50, 613-7	3.3	21
40	Description of Primary and Secondary Impairments in Young Children With Cerebral Palsy. <i>Pediatric Physical Therapy</i> , <b>2016</b> , 28, 7-14	0.9	21
39	The bodily experience of cerebral palsy: a journey to self-awareness. <i>Disability and Rehabilitation</i> , <b>2013</b> , 35, 1981-90	2.4	20
38	Development of the Early Activity Scale for Endurance for children with cerebral palsy. <i>Pediatric Physical Therapy</i> , <b>2012</b> , 24, 232-40	0.9	20
37	Infant Motor Development and Aspects of the Home Environment. <i>Pediatric Physical Therapy</i> , <b>2000</b> , 12, 62-67	0.9	19
36	Correspondence of classifications between parents of children with cerebral palsy aged 2 to 6 years and therapists using the Gross Motor Function Classification System. <i>Developmental Medicine and Child Neurology</i> , <b>2011</b> , 53, 334-7	3.3	18

35	Physical therapists' perceptions of factors influencing the acquisition of motor abilities of children with cerebral palsy: implications for clinical reasoning. <i>Physical Therapy</i> , <b>2002</b> , 82, 237-48	3.3	16
34	Measuring change in students' critical thinking ability: implications for health care education. <i>Journal of Allied Health</i> , <b>2002</b> , 31, 64-9	0.4	16
33	Moving from parent "consultant" to parent "collaborator": one pediatric research team's experience. <i>Disability and Rehabilitation</i> , <b>2017</b> , 39, 2228-2235	2.4	13
32	Distribution of contractures and spinal malalignments in adolescents with cerebral palsy: observations and influences of function, gender and age. <i>Developmental Neurorehabilitation</i> , <b>2010</b> , 13, 46-52	1.8	13
31	Sharing of lessons learned from multisite research. <i>Pediatric Physical Therapy</i> , <b>2010</b> , 22, 408-16	0.9	13
30	A Collaborative Approach to Decision Making Through Developmental Monitoring to Provide Individualized Services for Children With Cerebral Palsy. <i>Physical Therapy</i> , <b>2018</b> , 98, 865-875	3.3	12
29	Use of the Child Engagement in Daily Life and Ease of Caregiving for Children to Evaluate Change in Young Children with Cerebral Palsy. <i>Physical and Occupational Therapy in Pediatrics</i> , <b>2014</b> ,	2.1	11
28	Effectiveness of Tai Chi for health promotion for adults with health conditions: a scoping review of Meta-analyses. <i>Disability and Rehabilitation</i> , <b>2021</b> , 43, 2978-2989	2.4	11
27	Effectiveness of Tai Chi as a Therapeutic Exercise in Improving Balance and Postural Control. <i>Physical and Occupational Therapy in Geriatrics</i> , <b>2000</b> , 17, 1-22	1.1	11
26	Comprehensive Approach to Outcomes Research in Rehabilitation. <i>Physiotherapy Canada</i> <i>Physiotherapie Canada</i> , <b>2004</b> , 56, 237	0.8	11
25	Ease of Caregiving for Children: a measure of parent perceptions of the physical demands of caregiving for young children with cerebral palsy. <i>Research in Developmental Disabilities</i> , <b>2014</b> , 35, 3403-15	2.7	10
24	Perspectives on classification of selected childhood neurodisabilities based on a review of literature. <i>Developmental Neurorehabilitation</i> , <b>2017</b> , 20, 194-206	1.8	8
23	Developmental Trajectories for the Early Clinical Assessment of Balance by Gross Motor Function Classification System Level for Children With Cerebral Palsy. <i>Physical Therapy</i> , <b>2019</b> , 99, 217-228	3.3	8
22	Perceptions of vulnerability and variations in childrearing practices of parents of infants born preterm. <i>Pediatric Physical Therapy</i> , <b>2011</b> , 23, 280-8	0.9	8
21	Comparison of 15-Month Motor and 18-Month Neurological Outcomes of Term Infants with and without Motor Delays at 10-Months-of-Age. <i>Physical and Occupational Therapy in Pediatrics</i> , <b>2000</b> , 19, 61-72	2.1	8
20	Developmental Trajectories and Reference Percentiles for Range of Motion, Endurance, and Muscle Strength of Children With Cerebral Palsy. <i>Physical Therapy</i> , <b>2019</b> , 99, 329-338	3.3	8
19	Interrelationships of Functional Status and Health Conditions in Children With Cerebral Palsy: A Descriptive Study. <i>Pediatric Physical Therapy</i> , <b>2018</b> , 30, 10-16	0.9	7
18	Determinants of playfulness of young children with cerebral palsy. <i>Developmental Neurorehabilitation</i> , <b>2019</b> , 22, 240-249	1.8	7

17	Neuromotor Development of Preterm Infants Through the First Year of Life. <i>Physical and Occupational Therapy in Pediatrics</i> , <b>1993</b> , 12, 37-55	2.1	7
16	Parents' Experiences and Perceptions when Classifying their Children with Cerebral Palsy: Recommendations for Service Providers. <i>Physical and Occupational Therapy in Pediatrics</i> , <b>2017</b> , 37, 252-267	2.1	6
15	Infant Movement Motivation Questionnaire: development of a measure evaluating infant characteristics relating to motor development in the first year of life. <i>Research in Social and Administrative Pharmacy</i> , <b>2014</b> , 37, 326-33	2.9	5
14	Environmental opportunities questionnaire: development of a measure of the environment supporting early motor development in the first year of life. <i>Disability and Rehabilitation</i> , <b>2013</b> , 35, 1692-74	2.74	5
13	Item generation and pilot testing of the Comprehensive Professional Behaviours Development Log. <i>Journal of Allied Health</i> , <b>2006</b> , 35, 89-93	0.4	4
12	Medical and surgical procedures experienced by young children with cerebral palsy. <i>Pediatric Physical Therapy</i> , <b>2012</b> , 24, 268-77	0.9	3
11	Longitudinal trajectories and reference centiles for the impact of health conditions on daily activities of children with cerebral palsy. <i>Developmental Medicine and Child Neurology</i> , <b>2019</b> , 61, 469-476	3.3	3
10	The use of the Spinal Alignment and Range of Motion Measure with children and young people with cerebral palsy. <i>Developmental Medicine and Child Neurology</i> , <b>2013</b> , 55, 685-6	3.3	2
9	An Answer to a Call for Dialogue on Advancing Rehabilitation Research. <i>Physical Therapy</i> , <b>2006</b> , 86, 763-764	3.9	2
8	Testing of the Spinal Alignment and Range of Motion Measure: a discriminative measure of posture and flexibility for children with cerebral palsy. <i>Developmental Medicine and Child Neurology</i> , <b>2007</b> , 47, 739-743	3.3	1
7	Effectiveness of Tai Chi for Health Promotion of Older Adults: A Scoping Review of Meta-Analyses. <i>American Journal of Lifestyle Medicine</i> , 155982762110012	1.9	1
6	Subgrouping children with cerebral palsy from a broader perspective using two methods. <i>Physiotherapy Theory and Practice</i> , <b>2018</b> , 34, 453-463	1.5	
5	Reinventing the adjustable bench for community-based research and practice. <i>Pediatric Physical Therapy</i> , <b>2014</b> , 26, 274-6	0.9	
4	Preamble for Commentaries on Schreiber and Colleagues. <i>Physical and Occupational Therapy in Pediatrics</i> , <b>2011</b> , 31, 239-239	2.1	
3	Advancing the Evidence Base of Pediatric Physical Therapy: "Sincerely, From the Heart". <i>Pediatric Physical Therapy</i> , <b>2020</b> , 32, 172-179	0.9	
2	LETTER TO THE EDITOR. <i>Pediatric Physical Therapy</i> , <b>2019</b> , 31, 132-133	0.9	
1	Updating the Comprehensive Professional Behaviours Development Log. <i>Journal of Allied Health</i> , <b>2019</b> , 48, 293-297	0.4
