## Naoki Ohnishi

List of Publications by Year in descending order

Source: https://exaly.com/author-pdf/2251185/publications.pdf Version: 2024-02-01

#	Article	IF	CITATIONS
1	Landscape heterogeneity in landform and land use provides functional resistance to gene flow in continuous Asian black bear populations. Ecology and Evolution, 2019, 9, 4958-4968.	1.9	7
2	The influence of invasive mongoose on the genetic structure of the endangered Amami rabbit populations. Ecological Research, 2017, 32, 735-741.	1.5	2
3	Influence of Food Availability on Matrilineal Site Fidelity of Female Asian Black Bears. Mammal Study, 2017, 42, 1-12.	0.6	55
4	Population Genetic Structure of the Asian Black Bear ( <i>Ursus thibetanus</i> ) within and Across Management Units in Northern Japan. Mammal Study, 2015, 40, 231-244.	0.6	38
5	A Difference in the Genetic Distribution Pattern between The Sexes in the Asian Black Bear. Mammal Study, 2014, 39, 11-16.	0.6	39
6	Genetic Characterization of Northernmost Isolated Population of Asian Black Bear ( <i>Ursus) Tj ETQq0 0 0 rgBT /</i>	Overlock	10 Tf 50 542
7	Mass-Intrusion-Induced Temporary Shift in the Genetic Structure of an Asian Black Bear Population. Mammal Study, 2011, 36, 67-71.	0.6	40

8	Characteristics of Asian black bears stripping bark from coniferous trees. Acta Theriologica, 2011, 56, 267-273.	1.1	40
9	Isolation and characterization of microsatellite loci in the Amami rabbit (Pentalagus furnessi). Conservation Genetics, 2009, 10, 1121-1123.	1.5	2
10	The influence of climatic oscillations during the Quaternary Era on the genetic structure of Asian black bears in Japan. Heredity, 2009, 102, 579-589.	2.6	78
11	Low genetic diversities in isolated populations of the Asian black bear (Ursus thibetanus) in Japan, in comparison with large stable populations. Conservation Genetics, 2007, 8, 1331-1337.	1.5	54
