

Harry Moultrie

List of Publications by Citations

Source: <https://exaly.com/author-pdf/2261218/harry-moultrie-publications-by-citations.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
64	Nevirapine versus ritonavir-boosted lopinavir for HIV-infected children. <i>New England Journal of Medicine</i> , 2012 , 366, 2380-9	59.2	155
63	Early assessment of the clinical severity of the SARS-CoV-2 omicron variant in South Africa: a data linkage study.. <i>Lancet, The</i> , 2022 ,	40	152
62	Increased risk of SARS-CoV-2 reinfection associated with emergence of the Omicron variant in South Africa		143
61	Effectiveness of BNT162b2 Vaccine against Omicron Variant in South Africa.. <i>New England Journal of Medicine</i> , 2021 ,	59.2	132
60	Rates and predictors of failure of first-line antiretroviral therapy and switch to second-line ART in South Africa. <i>Journal of Acquired Immune Deficiency Syndromes (1999)</i> , 2012 , 60, 428-37	3.1	107
59	The contribution of maternal HIV seroconversion during late pregnancy and breastfeeding to mother-to-child transmission of HIV. <i>Journal of Acquired Immune Deficiency Syndromes (1999)</i> , 2012 , 59, 417-25	3.1	100
58	Virologic failure and second-line antiretroviral therapy in children in South Africa--the leDEA Southern Africa collaboration. <i>Journal of Acquired Immune Deficiency Syndromes (1999)</i> , 2011 , 56, 270-8	3.1	96
57	Outcomes of the South African National Antiretroviral Treatment Programme for children: the leDEA Southern Africa collaboration. <i>South African Medical Journal</i> , 2009 , 99, 730-7	1.5	90
56	Increased risk of SARS-CoV-2 reinfection associated with emergence of Omicron in South Africa.. <i>Science</i> , 2022 , 376, eabn4947	33.3	89
55	Challenges to pediatric HIV care and treatment in South Africa. <i>Journal of Infectious Diseases</i> , 2007 , 196 Suppl 3, S474-81	7	78
54	Early mortality and loss to follow-up in HIV-infected children starting antiretroviral therapy in Southern Africa. <i>Journal of Acquired Immune Deficiency Syndromes (1999)</i> , 2010 , 54, 524-32	3.1	76
53	Mortality in the year following antiretroviral therapy initiation in HIV-infected adults and children in Uganda and Zimbabwe. <i>Clinical Infectious Diseases</i> , 2012 , 55, 1707-18	11.6	57
52	Antiretroviral therapy responses among children attending a large public clinic in Soweto, South Africa. <i>Pediatric Infectious Disease Journal</i> , 2011 , 30, 974-9	3.4	48
51	Monitoring the South African National Antiretroviral Treatment Programme, 2003-2007: the leDEA Southern Africa collaboration. <i>South African Medical Journal</i> , 2009 , 99, 653-60	1.5	43
50	The effect of early initiation of antiretroviral treatment in infants on pediatric AIDS mortality in South Africa: a model-based analysis. <i>Pediatric Infectious Disease Journal</i> , 2012 , 31, 474-80	3.4	41
49	Effects of rifampin-based antituberculosis therapy on plasma efavirenz concentrations in children vary by CYP2B6 genotype. <i>Aids</i> , 2013 , 27, 1933-40	3.5	40
48	Variability of growth in children starting antiretroviral treatment in southern Africa. <i>Pediatrics</i> , 2012 , 130, e966-77	7.4	38

47	Pharmacokinetics and safety of rifabutin in young HIV-infected children receiving rifabutin and lopinavir/ritonavir. <i>Journal of Antimicrobial Chemotherapy</i> , 2015 , 70, 543-9	5.1	37
46	Effect on mortality and virological response of delaying antiretroviral therapy initiation in children receiving tuberculosis treatment. <i>Aids</i> , 2010 , 24, 1341-9	3.5	37
45	Antiretroviral therapy outcomes in HIV-infected children after adjusting protease inhibitor dosing during tuberculosis treatment. <i>PLoS ONE</i> , 2011 , 6, e17273	3.7	34
44	Changing the South African national antiretroviral therapy guidelines: The role of cost modelling. <i>PLoS ONE</i> , 2017 , 12, e0186557	3.7	34
43	A survey of paediatric HIV programmatic and clinical management practices in Asia and sub-Saharan Africa--the International epidemiologic Databases to Evaluate AIDS (IeDEA). <i>Journal of the International AIDS Society</i> , 2013 , 16, 17998	5.4	32
42	Six-month gain in weight, height, and CD4 predict subsequent antiretroviral treatment responses in HIV-infected South African children. <i>Aids</i> , 2010 , 24, 139-46	3.5	32
41	Short-term risk of anaemia following initiation of combination antiretroviral treatment in HIV-infected patients in countries in sub-Saharan Africa, Asia-Pacific, and central and South America. <i>Journal of the International AIDS Society</i> , 2012 , 15, 5	5.4	28
40	Temporal trends in the characteristics of children at antiretroviral therapy initiation in southern Africa: the IeDEA-SA Collaboration. <i>PLoS ONE</i> , 2013 , 8, e81037	3.7	28
39	When to start antiretroviral therapy in children aged 2-5 years: a collaborative causal modelling analysis of cohort studies from southern Africa. <i>PLoS Medicine</i> , 2013 , 10, e1001555	11.6	27
38	Virologic response in children treated with abacavir-compared with stavudine-based antiretroviral treatment: a South African multi-cohort analysis. <i>Pediatric Infectious Disease Journal</i> , 2014 , 33, 617-22	3.4	26
37	Predictors of loss to follow-up among children in the first and second years of antiretroviral treatment in Johannesburg, South Africa. <i>Global Health Action</i> , 2013 , 6, 19248	3	26
36	Cost and outcomes of paediatric antiretroviral treatment in South Africa. <i>Aids</i> , 2013 , 27, 243-50	3.5	22
35	Alcohol use and sexual risk behaviour among men and women in inner-city Johannesburg, South Africa. <i>BMC Public Health</i> , 2017 , 17, 548	4.1	21
34	Tuberculosis Immune Reconstitution Inflammatory Syndrome in children initiating Antiretroviral Therapy for HIV infection: A systematic literature review. <i>Pediatric Infectious Disease Journal</i> , 2014 , 33, 499-503	3.4	21
33	Accuracy of immunological criteria for identifying virological failure in children on antiretroviral therapy - the IeDEA Southern Africa Collaboration. <i>Tropical Medicine and International Health</i> , 2011 , 16, 1367-71	2.3	20
32	Potent and sustained antiviral response of raltegravir-based highly active antiretroviral therapy in HIV type 1-infected children and adolescents. <i>Pediatric Infectious Disease Journal</i> , 2012 , 31, 273-7	3.4	20
31	Frequency of stavudine substitution due to toxicity in children receiving antiretroviral treatment in sub-Saharan Africa. <i>Aids</i> , 2013 , 27, 781-5	3.5	19
30	A biregional survey and review of first-line treatment failure and second-line paediatric antiretroviral access and use in Asia and southern Africa. <i>Journal of the International AIDS Society</i> , 2011 , 14, 7	5.4	19

29	Prognosis of children with HIV-1 infection starting antiretroviral therapy in Southern Africa: a collaborative analysis of treatment programs. <i>Pediatric Infectious Disease Journal</i> , 2014 , 33, 608-16	3.4	18
28	Tuberculosis and the risk of opportunistic infections and cancers in HIV-infected patients starting ART in Southern Africa. <i>Tropical Medicine and International Health</i> , 2013 , 18, 194-8	2.3	17
27	Virologic failure among children taking lopinavir/ritonavir-containing first-line antiretroviral therapy in South Africa. <i>Pediatric Infectious Disease Journal</i> , 2015 , 34, 175-9	3.4	16
26	Immune recovery after starting ART in HIV-infected patients presenting and not presenting with tuberculosis in South Africa. <i>Journal of Acquired Immune Deficiency Syndromes (1999)</i> , 2013 , 63, 142-5	3.1	16
25	Bounding the levels of transmissibility & immune evasion of the Omicron variant in South Africa		15
24	Predictors of virologic and clinical response to nevirapine versus lopinavir/ritonavir-based antiretroviral therapy in young children with and without prior nevirapine exposure for the prevention of mother-to-child HIV transmission. <i>Pediatric Infectious Disease Journal</i> , 2014 , 33, 846-54	3.4	13
23	Viral load versus CD4+ monitoring and 5-year outcomes of antiretroviral therapy in HIV-positive children in Southern Africa: a cohort-based modelling study. <i>Aids</i> , 2014 , 28, 2451-60	3.5	12
22	Paradoxical tuberculosis-associated immune reconstitution inflammatory syndrome in children. <i>Pediatric Pulmonology</i> , 2016 , 51, 157-64	3.5	12
21	Effect of baseline immune suppression on growth recovery in HIV positive South African children receiving antiretroviral treatment. <i>Journal of Acquired Immune Deficiency Syndromes (1999)</i> , 2012 , 61, 235-42	3.1	10
20	Correlation of Mutations with Minimal Inhibitory Concentration of Rifampin and Rifabutin in an HIV/AIDS Endemic Setting, South Africa. <i>Frontiers in Microbiology</i> , 2016 , 7, 1947	5.7	10
19	Cost-effectiveness of Remdesivir and Dexamethasone for COVID-19 Treatment in South Africa. <i>Open Forum Infectious Diseases</i> , 2021 , 8, ofab040	1	10
18	Focus on adolescents with HIV and AIDS. <i>South African Medical Journal</i> , 2014 , 104, 897	1.5	9
17	The role of targeted viral load testing in diagnosing virological failure in children on antiretroviral therapy with immunological failure. <i>Tropical Medicine and International Health</i> , 2012 , 17, 1386-90	2.3	9
16	Breakthrough Covid-19 infections during periods of circulating Beta, Delta and Omicron variants of concern, among health care workers in the Sisonke Ad26.COVS vaccine trial, South Africa		9
15	Assessment of epidemiological and genetic characteristics and clinical outcomes of resistance to bedaquiline in patients treated for rifampicin-resistant tuberculosis: a cross-sectional and longitudinal study. <i>Lancet Infectious Diseases, The</i> , 2021 ,	25.5	7
14	Effectiveness of the Ad26.COVS vaccine in health-care workers in South Africa (the Sisonke study): results from a single-arm, open-label, phase 3B, implementation study.. <i>Lancet, The</i> , 2022 , 399, 1141-1153	40	7
13	The intersecting pandemics of tuberculosis and COVID-19: population-level and patient-level impact, clinical presentation, and corrective interventions.. <i>Lancet Respiratory Medicine, the</i> , 2022 ,	35.1	6
12	Evaluation of the intensified tuberculosis case finding guidelines for children living with HIV. <i>International Journal of Tuberculosis and Lung Disease</i> , 2018 , 22, 1322-1328	2.1	5

11	Microbiological investigation for tuberculosis among HIV-infected children in Soweto, South Africa. <i>International Journal of Tuberculosis and Lung Disease</i> , 2014 , 18, 676-81	2.1	4
10	The effect of tuberculosis treatment on virologic and immunologic response to combination antiretroviral therapy among South African children. <i>Journal of Acquired Immune Deficiency Syndromes (1999)</i> , 2014 , 67, 136-44	3.1	4
9	Growth in Virologically Suppressed HIV-Positive Children on Antiretroviral Therapy: Individual and Population-level References. <i>Pediatric Infectious Disease Journal</i> , 2015 , 34, e254-9	3.4	3
8	Effectiveness of Ad26.CO2.S and BNT162b2 Vaccines against Omicron Variant in South Africa.. <i>New England Journal of Medicine</i> , 2022 ,	59.2	3
7	CHAPAS-3 fills the gap. <i>Lancet Infectious Diseases, The</i> , 2016 , 16, 133-4	25.5	2
6	Outcomes in treatment with darunavir/ritonavir in ART-experienced paediatric patients. <i>South African Medical Journal</i> , 2015 , 105, 330-1	1.5	2
5	A geospatial analysis of two-hour surgical access to district hospitals in South Africa. <i>BMC Health Services Research</i> , 2020 , 20, 744	2.9	2
4	Novel biomarkers for paediatric tuberculosis. <i>Lancet Infectious Diseases, The</i> , 2014 , 14, 900-1	25.5	1
3	Protective Effect of HIV-Positive Primary Caregivers on Mortality in Children Receiving Antiretroviral Therapy?. <i>Journal of Infectious Diseases</i> , 2008 , 198, 939-940	7	1
2	A position statement and practical guide to the use of particulate filtering facepiece respirators (N95, FFP2, or equivalent) for South African health workers exposed to respiratory pathogens including and SARS-CoV-2. <i>African Journal of Thoracic and Critical Care Medicine</i> , 2021 , 27,	0.2	1
1	Advancing TB research using digitized programmatic data. <i>International Journal of Tuberculosis and Lung Disease</i> , 2021 , 25, 890-895	2.1	0
