|----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|-----------|
| 52 | Every Newborn: progress, priorities, and potential beyond survival. <i>Lancet, The</i> , <b>2014</b> , 384, 189-205                                                                                                                                                 | 4.0  | 959       |
| 51 | Mortality risk in preterm and small-for-gestational-age infants in low-income and middle-income countries: a pooled country analysis. <i>Lancet, The</i> , <b>2013</b> , 382, 417-425                                                                               | 4.0  | 452       |
| 50 | National and regional estimates of term and preterm babies born small for gestational age in 138 low-income and middle-income countries in 2010. <i>The Lancet Global Health</i> , <b>2013</b> , 1, e26-36                                                          | 13.6 | 404       |
| 49 | Two million intrapartum-related stillbirths and neonatal deaths: where, why, and what can be done?. <i>International Journal of Gynecology and Obstetrics</i> , <b>2009</b> , 107 Suppl 1, S5-18, S19                                                               | 4    | 316       |
| 48 | Intrapartum-related neonatal encephalopathy incidence and impairment at regional and global levels for 2010 with trends from 1990. <i>Pediatric Research</i> , <b>2013</b> , 74 Suppl 1, 50-72                                                                      | 3.2  | 305       |
| 47 | Preterm birth-associated neurodevelopmental impairment estimates at regional and global levels for 2010. <i>Pediatric Research</i> , <b>2013</b> , 74 Suppl 1, 17-34                                                                                                | 3.2  | 239       |
| 46 | Neonatal resuscitation in low-resource settings: what, who, and how to overcome challenges to scale up?. <i>International Journal of Gynecology and Obstetrics</i> , <b>2009</b> , 107 Suppl 1, S47-62, S63-4                                                       | 4    | 207       |
| 45 | 60 Million non-facility births: who can deliver in community settings to reduce intrapartum-related deaths?. <i>International Journal of Gynecology and Obstetrics</i> , <b>2009</b> , 107 Suppl 1, S89-112                                                         | 4    | 159       |
| 44 | Estimates of burden and consequences of infants born small for gestational age in low and middle income countries with INTERGROWTH-21 standard: analysis of CHERG datasets. <i>BMJ, The</i> , <b>2017</b> , 358, j3677                                              | 5.9  | 145       |
| 43 | Linking families and facilities for care at birth: what works to avert intrapartum-related deaths?. <i>International Journal of Gynecology and Obstetrics</i> , <b>2009</b> , 107 Suppl 1, S65-85, S86-8                                                            | 4    | 129       |
| 42 | Obstetric care in low-resource settings: what, who, and how to overcome challenges to scale up?. <i>International Journal of Gynecology and Obstetrics</i> , <b>2009</b> , 107 Suppl 1, S21-44, S44-5                                                               | 4    | 128       |
| 41 | Reducing intrapartum-related deaths and disability: can the health system deliver?. <i>International Journal of Gynecology and Obstetrics</i> , <b>2009</b> , 107 Suppl 1, S123-40, S140-2                                                                          | 4    | 128       |
| 40 | Risk of early-onset neonatal infection with maternal infection or colonization: a global systematic review and meta-analysis. <i>PLoS Medicine</i> , <b>2013</b> , 10, e1001502                                                                                     | 11.6 | 110       |
| 39 | Urinary tract infections in pregnancy in a rural population of Bangladesh: population-based prevalence, risk factors, etiology, and antibiotic resistance. <i>BMC Pregnancy and Childbirth</i> , <b>2019</b> , 20, 1                                                | 3.2  | 92        |
| 38 | Estimates of neonatal morbidities and disabilities at regional and global levels for 2010: introduction, methods overview, and relevant findings from the Global Burden of Disease study. <i>Pediatric Research</i> , <b>2013</b> , 74 Suppl 1, 4-16                | 3.2  | 91        |
| 37 | Short Maternal Stature Increases Risk of Small-for-Gestational-Age and Preterm Births in Low- and Middle-Income Countries: Individual Participant Data Meta-Analysis and Population Attributable Fraction. <i>Journal of Nutrition</i> , <b>2015</b> , 145, 2542-50 | 4.1  | 81        |
| 36 | Harmonization of Maternal Nutrition Trials [Finding and Creating Similarities in Protocols and Outcomes. <i>Current Developments in Nutrition</i> , <b>2020</b> , 4, 1738-1738                                                                                      | 0.4  | 78        |

|    |                                                                                                                                                                                                                                                               |      |    |
|----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|----|
| 35 | Care seeking for neonatal illness in low- and middle-income countries: a systematic review. <i>PLoS Medicine</i> , <b>2012</b> , 9, e1001183                                                                                                                  | 11.6 | 77 |
| 34 | Risk factors for neonatal mortality due to birth asphyxia in southern Nepal: a prospective, community-based cohort study. <i>Pediatrics</i> , <b>2008</b> , 121, e1381-90                                                                                     | 7.4  | 70 |
| 33 | Prevalence of small-for-gestational-age and its mortality risk varies by choice of birth-weight-for-gestation reference population. <i>PLoS ONE</i> , <b>2014</b> , 9, e92074                                                                                 | 3.7  | 47 |
| 32 | Small babies, big numbers: global estimates of preterm birth. <i>The Lancet Global Health</i> , <b>2019</b> , 7, e2-e3                                                                                                                                        | 13.6 | 37 |
| 31 | Comparison of US Birth Weight References and the International Fetal and Newborn Growth Consortium for the 21st Century Standard. <i>JAMA Pediatrics</i> , <b>2015</b> , 169, e151438                                                                         | 8.3  | 33 |
| 30 | Treatment of infections in young infants in low- and middle-income countries: a systematic review and meta-analysis of frontline health worker diagnosis and antibiotic access. <i>PLoS Medicine</i> , <b>2014</b> , 11, e1001741                             | 11.6 | 31 |
| 29 | Validity of Newborn Clinical Assessment to Determine Gestational Age in Bangladesh. <i>Pediatrics</i> , <b>2016</b> , 138,                                                                                                                                    | 7.4  | 30 |
| 28 | Verbal autopsy methods to ascertain birth asphyxia deaths in a community-based setting in southern Nepal. <i>Pediatrics</i> , <b>2008</b> , 121, e1372-80                                                                                                     | 7.4  | 27 |
| 27 | Screening and treatment of maternal genitourinary tract infections in early pregnancy to prevent preterm birth in rural Sylhet, Bangladesh: a cluster randomized trial. <i>BMC Pregnancy and Childbirth</i> , <b>2015</b> , 15, 326                           | 3.2  | 17 |
| 26 | Effect of population-based antenatal screening and treatment of genitourinary tract infections on birth outcomes in Sylhet, Bangladesh (MIST): a cluster-randomised clinical trial. <i>The Lancet Global Health</i> , <b>2019</b> , 7, e148-e159              | 13.6 | 17 |
| 25 | Incidence of and risk factors for neonatal respiratory depression and encephalopathy in rural Sarlahi, Nepal. <i>Pediatrics</i> , <b>2011</b> , 128, e915-24                                                                                                  | 7.4  | 15 |
| 24 | Global Burden, Epidemiologic Trends, and Prevention of Intrapartum-Related Deaths in Low-Resource Settings. <i>Clinics in Perinatology</i> , <b>2016</b> , 43, 593-608                                                                                        | 2.8  | 13 |
| 23 | Development and validation of a simplified algorithm for neonatal gestational age assessment - protocol for the Alliance for Maternal Newborn Health Improvement (AMANHI) prospective cohort study. <i>Journal of Global Health</i> , <b>2017</b> , 7, 021201 | 4.3  | 11 |
| 22 | Global challenges, efforts, and controversies in neonatal care. <i>Clinics in Perinatology</i> , <b>2014</b> , 41, 749-72                                                                                                                                     | 2.8  | 10 |
| 21 | Practice patterns of massage therapists. <i>Journal of Alternative and Complementary Medicine</i> , <b>2000</b> , 6, 527-9                                                                                                                                    | 2.4  | 10 |
| 20 | Sexually Transmitted Infections in Pregnancy: A Narrative Review of the Global Research Gaps, Challenges, and Opportunities. <i>Sexually Transmitted Diseases</i> , <b>2020</b> , 47, 779-789                                                                 | 2.4  | 10 |
| 19 | Establishing a conceptual framework of the impact of placental malaria on infant neurodevelopment. <i>International Journal of Infectious Diseases</i> , <b>2019</b> , 84, 54-65                                                                              | 10.5 | 8  |
| 18 | Prevalence of and risk factors for abnormal vaginal flora and its association with adverse pregnancy outcomes in a rural district in north-east Bangladesh. <i>Acta Obstetrica Et Gynecologica Scandinavica</i> , <b>2019</b> , 98, 309-319                   | 3.8  | 8  |

|    |                                                                                                                                                                                                                                   |      |   |
|----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|---|
| 17 | Maternal short stature and under-weight status are independent risk factors for preterm birth and small for gestational age in rural Bangladesh. <i>European Journal of Clinical Nutrition</i> , <b>2019</b> , 73, 733-742        | 5.2  | 7 |
| 16 | Development and evaluation of a mobile application for case management of small and sick newborns in Bangladesh. <i>BMC Medical Informatics and Decision Making</i> , <b>2019</b> , 19, 116                                       | 3.6  | 6 |
| 15 | Injections during labor and intrapartum-related hypoxic injury and mortality in rural southern Nepal. <i>International Journal of Gynecology and Obstetrics</i> , <b>2013</b> , 122, 22-6                                         | 4    | 5 |
| 14 | Neonatal neurological examination in a resource-limited setting: What defines normal?. <i>European Journal of Paediatric Neurology</i> , <b>2020</b> , 29, 71-80                                                                  | 3.8  | 5 |
| 13 | Prediction of gestational age with symphysis-fundal height and estimated uterine volume in a pregnancy cohort in Sylhet, Bangladesh. <i>BMJ Open</i> , <b>2020</b> , 10, e034942                                                  | 3    | 3 |
| 12 | The effect of milk type and fortification on the growth of low-birthweight infants: An umbrella review of systematic reviews and meta-analyses. <i>Maternal and Child Nutrition</i> , <b>2021</b> , 17, e13176                    | 3.4  | 3 |
| 11 | Breastfeeding in a Global Context: Epidemiology, Impact, and Future Directions.. <i>Clinical Therapeutics</i> , <b>2021</b> ,                                                                                                     | 3.5  | 2 |
| 10 | Mixed-methods, descriptive and observational cohort study examining feeding and growth patterns among low birthweight infants in India, Malawi and Tanzania: the LIFE study protocol. <i>BMJ Open</i> , <b>2021</b> , 11, e048216 | 3    | 1 |
| 9  | Diagnostic accuracy of neonatal foot length to identify preterm and low birthweight infants: a systematic review and meta-analysis. <i>BMJ Global Health</i> , <b>2020</b> , 5,                                                   | 6.6  | 1 |
| 8  | Optimizing initial neonatal resuscitation to reduce neonatal encephalopathy around the world. <i>Seminars in Fetal and Neonatal Medicine</i> , <b>2021</b> , 26, 101262                                                           | 3.7  | 1 |
| 7  | Dietary Practices Among Pregnant Women in Rural Amhara, Ethiopia. <i>Current Developments in Nutrition</i> , <b>2021</b> , 5, 698-698                                                                                             | 0.4  | 1 |
| 6  | Gestational Age-Specific Distribution of the Hammersmith Neonatal Neurological Examination Scores Among Low-Risk Neonates in Ghana. <i>Early Human Development</i> , <b>2021</b> , 152, 105133                                    | 2.2  | 1 |
| 5  | Effect of birthweight measurement quality improvement on low birthweight prevalence in rural Ethiopia. <i>Population Health Metrics</i> , <b>2021</b> , 19, 35                                                                    | 3    | 1 |
| 4  | Associations between malaria in pregnancy and neonatal neurological outcomes. <i>International Journal of Infectious Diseases</i> , <b>2021</b> , 112, 144-151                                                                    | 10.5 | 0 |
| 3  | Population attributable fractions for risk factors for spontaneous preterm births in 81 low- and middle-income countries: A systematic analysis.. <i>Journal of Global Health</i> , <b>2022</b> , 12, 04013                       | 4.3  | 0 |
| 2  | A systematic review on estimating population attributable fraction for risk factors for small-for-gestational-age births in 81 low- and middle-income countries.. <i>Journal of Global Health</i> , <b>2022</b> , 12, 04024       | 4.3  | 0 |
| 1  | Feasibility, Acceptability, and Adherence of Nutritional Supplement Amongst Pregnant Women in Rural Ethiopia. <i>Current Developments in Nutrition</i> , <b>2021</b> , 5, 740-740                                                 | 0.4  |   |
