#	ARTICLE	IF	CITATIONS
1	Multispecialty Interprofessional Team Memory Clinics: Enhancing Collaborative Practice and Health Care Providers'™ Experience of Dementia Care. Canadian Journal on Aging, 2022, 41, 96-109.	1.1	10
2	Comparing Virtual to In-Person Delivery of Continuing Medical Education in Dementia Care: Which Is Preferred?. Journal of the American Medical Directors Association, 2022, 23, 1413-1417.e1.	2.5	5
3	Informant-based tools for assessment and monitoring of cognition, behavior, and function in neurocognitive disorders: Systematic review and report from a CCCDTD5 Working Group. International Journal of Geriatric Psychiatry, 2022, 37, .	2.7	2
4	Recruitment of participants for dementia research: interprofessional perspectives from primary care-based memory clinics. Neurodegenerative Disease Management, 2022, 12, 117-127.	2.2	3
5	Enabling Advance Care Planning in Dementia Care: A Primary Care Approach. Journal of Palliative Care, 2021, 36, 224-233.	1.0	6
6	The C5-75 Program: Meeting the Need for Efficient, Pragmatic Frailty Screening and Management in Primary Care. Canadian Journal on Aging, 2021, 40, 193-205.	1.1	4
7	Frailty screening in older adults: is annual screening necessary in primary care?. Family Practice, 2021, , .	1.9	0
8	In Their Own Words: How COVID-19 Has Impacted the Well-Being of Persons Living with Dementia in the Community. Canadian Journal on Aging, 2021, 40, 543-553.	1.1	3
9	“Booster Days”: An educational initiative to develop a community of practice of primary care collaborative memory clinics. Gerontology and Geriatrics Education, 2020, 41, 4-19.	0.8	11
10	Improving family medicine resident training in dementia care: An experiential learning opportunity in Primary Care Collaborative Memory Clinics. Gerontology and Geriatrics Education, 2020, 41, 447-462.	0.8	2
11	A Decade of Dementia Care Training: Learning Needs of Primary Care Clinicians. Journal of Continuing Education in the Health Professions, 2020, 40, 131-140.	1.3	11
12	Delaying Transition Into Long-Term Care for Persons Living With Dementia: Multispecialty Interprofessional Team Memory Clinics. Journal of the American Medical Directors Association, 2020, 21, 2014-2015.e1.	2.5	3
13	Partnerships for improving dementia care in primary care: Extending access to primary care-based memory clinics in Ontario, Canada. Health and Social Care in the Community, 2019, 27, 1574-1585.	1.6	7
14	Situational cues surrounding family physicians seeking external resources while self-monitoring in practice. Advances in Health Sciences Education, 2019, 24, 783-796.	3.3	3
15	Specialist and family physician collaboration: Insights from primary care-based memory clinics. Health and Social Care in the Community, 2019, 27, e522-e533.	1.6	16
16	Measuring the Implementation of Lifestyle-Integrated Functional Exercise in Primary Care for Older Adults: Results of a Feasibility Study. Canadian Journal on Aging, 2019, 38, 350-366.	1.1	7
17	DIVERT-Collaboration Action Research and Evaluation (CARE) Trial Protocol: a multiprovincial pragmatic cluster randomised trial of cardiorespiratory management in home care. BMJ Open, 2019, 9, e030301.	1.9	7
18	Quality assurance as a foundational element for an integrated system of dementia care. International Journal of Health Care Quality Assurance, 2019, 32, 978-990.	0.9	9

#	ARTICLE	IF	CITATIONS
19	Key Lessons Learned in the Strategic Implementation of the Primary Care Collaborative Memory Clinic Model: A Tale of Two Regions. <i>World Health & Population</i> , 2019, 18, 68-81.	0.2	2
20	Advanced Care Planning for Persons With Dementia in Primary Care: Attitudes and Barriers Among Health-Care Professionals. <i>Journal of Palliative Care</i> , 2019, 34, 248-254.	1.0	9
21	Person-centered risk assessment framework: assessing and managing risk in older adults living with dementia. <i>Neurodegenerative Disease Management</i> , 2019, 9, 47-57.	2.2	10
22	Improving access to community support and services for persons living with dementia: Integration of home care services into primary care-based memory clinics. <i>Geriatrics and Gerontology International</i> , 2019, 19, 81-82.	1.5	7
23	Key Lessons Learned in the Strategic Implementation of the Primary Care Collaborative Memory Clinic Model: A Tale of Two Regions. <i>Healthcare Policy</i> , 2019, 15, 53-69.	0.6	1
24	Effect of Primary Care-Based Memory Clinics on Referrals to and Wait Time for Specialized Geriatric Services. <i>Journal of the American Geriatrics Society</i> , 2018, 66, 631-632.	2.6	11
25	Persons with dementia and care partners' perspectives on memory clinics in primary care. <i>Neurodegenerative Disease Management</i> , 2018, 8, 385-397.	2.2	8
26	Frailty Screening and Case-Finding for Complex Chronic Conditions in Older Adults in Primary Care. <i>Geriatrics (Switzerland)</i> , 2018, 3, 39.	1.7	15
27	Computer-Based Driving in Dementia Decision Tool With Mail Support: Cluster Randomized Controlled Trial. <i>Journal of Medical Internet Research</i> , 2018, 20, e194.	4.3	6
28	Education to Improve Dementia Care. <i>Family Medicine</i> , 2018, 50, 195-203.	0.5	9
29	Towards Consensus on Essential Components of Physical Examination in Primary Care-based Memory Clinics*. <i>Canadian Geriatrics Journal</i> , 2018, 21, 143-151.	1.2	3
30	Optimizing medications in older adults with cognitive impairment: Considerations for primary care clinicians. <i>Canadian Family Physician</i> , 2018, 64, 646-652.	0.4	8
31	Driving assessment for people with dementia. <i>Canadian Family Physician</i> , 2018, 64, 744.	0.4	2
32	Identifying frailty in primary care: A systematic review. <i>Geriatrics and Gerontology International</i> , 2017, 17, 1358-1377.	1.5	42
33	Use of potentially inappropriate medications among ambulatory home-dwelling elderly patients with dementia: A review of the literature. <i>Canadian Pharmacists Journal</i> , 2017, 150, 169-183.	0.8	20
34	Primary Care Collaborative Memory Clinics: Building Capacity for Optimized Dementia Care. <i>Healthcare Quarterly</i> , 2017, 19, 55-62.	0.7	26
35	Driving and Dementia: Workshop Module on Communicating Cessation to Drive. <i>Canadian Geriatrics Journal</i> , 2017, 20, 241-245.	1.2	5
36	Driving and dementia: Efficient approach to driving safety concerns in family practice. <i>Canadian Family Physician</i> , 2017, 63, 27-31.	0.4	13

#	ARTICLE	IF	CITATIONS
37	Screening for frailty in primary care: Accuracy of gait speed and hand-grip strength. Canadian Family Physician, 2017, 63, e51-e57.	0.4	47
38	Office-Based Case Finding for Chronic Obstructive Pulmonary Disease in Older Adults in Primary Care. Canadian Respiratory Journal, 2016, 2016, 1-7.	1.6	5
39	P2-409: Primary Care Memory Clinics: What Elements of Care are Most Highly Valued?. , 2016, 12, P801-P802.		0
40	P3-337: Dementia Care Learning Needs Among Primary Care Clinicians: Does This Vary by Practice Setting?. Alzheimer's and Dementia, 2016, 12, P975.	0.8	0
41	F2-03-02: Primary Care Collaborative Memory Clinics in Ontario. Alzheimer's and Dementia, 2016, 12, P218.	0.8	0
42	Family physicians'™ perspectives on memory clinics in primary care. Neurodegenerative Disease Management, 2016, 6, 467-478.	2.2	10
43	Quality of Dementia Care in the Community: Identifying Key Quality Assurance Components. Canadian Geriatrics Journal, 2016, 19, 164-181.	1.2	9
44	Measuring the implementation of a group-based Lifestyle-integrated Functional Exercise (Mi-LiFE) intervention delivered in primary care for older adults aged 75 years or older: a pilot feasibility study protocol. Pilot and Feasibility Studies, 2015, 1, 20.	1.2	11
45	Evaluation of a Dementia Education Program for Family Medicine Residents. Canadian Geriatrics Journal, 2015, 18, 57-64.	1.2	13
46	Physicians' perceptions of capacity building for managing chronic disease in seniors using integrated interprofessional care models. Canadian Family Physician, 2015, 61, e148-57.	0.4	9
47	Frailty: Identifying elderly patients at high risk of poor outcomes. Canadian Family Physician, 2015, 61, 227-31.	0.4	62
48	Integrating community services into primary care: improving the quality of dementia care. Neurodegenerative Disease Management, 2014, 4, 11-21.	2.2	29
49	Ensuring the Success of Interprofessional Teams: Key Lessons Learned in Memory Clinics. Canadian Journal on Aging, 2014, 33, 49-59.	1.1	22
50	Primary Care-Based Memory Clinics: Expanding Capacity for Dementia Care. Canadian Journal on Aging, 2014, 33, 307-319.	1.1	48
51	Developing Memory Clinics in Primary Care: An Evidence-Based Interprofessional Program of Continuing Professional Development. Journal of Continuing Education in the Health Professions, 2013, 33, 24-32.	1.3	45
52	Geriatric Medicine Leadership of Health Care Transformation: To Be or Not To Be?. Canadian Geriatrics Journal, 2013, 16, 192-195.	1.2	21
53	Structured approach to patients with memory difficulties in family practice. Canadian Family Physician, 2013, 59, 249-54.	0.4	13
54	The aging physician. Canadian Family Physician, 2012, 58, 17-8.	0.4	17
