

Thomas Eck

List of Publications by Citations

Source: <https://exaly.com/author-pdf/2299041/thomas-eck-publications-by-citations.pdf>

Version: 2024-04-25

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
65	The MODIS Aerosol Algorithm, Products, and Validation. <i>Journals of the Atmospheric Sciences</i> , 2005 , 62, 947-973	2.1	2405
64	An emerging ground-based aerosol climatology: Aerosol optical depth from AERONET. <i>Journal of Geophysical Research</i> , 2001 , 106, 12067-12097		1459
63	Wavelength dependence of the optical depth of biomass burning, urban, and desert dust aerosols. <i>Journal of Geophysical Research</i> , 1999 , 104, 31333-31349		1437
62	Accuracy assessments of aerosol optical properties retrieved from Aerosol Robotic Network (AERONET) Sun and sky radiance measurements. <i>Journal of Geophysical Research</i> , 2000 , 105, 9791-9806		1272
61	A review of biomass burning emissions part II: intensive physical properties of biomass burning particles. <i>Atmospheric Chemistry and Physics</i> , 2005 , 5, 799-825	6.8	935
60	Global evaluation of the Collection 5 MODIS dark-target aerosol products over land. <i>Atmospheric Chemistry and Physics</i> , 2010 , 10, 10399-10420	6.8	894
59	Spectral discrimination of coarse and fine mode optical depth. <i>Journal of Geophysical Research</i> , 2003 , 108,		446
58	A review of biomass burning emissions part III: intensive optical properties of biomass burning particles. <i>Atmospheric Chemistry and Physics</i> , 2005 , 5, 827-849	6.8	378
57	Columnar aerosol optical properties at AERONET sites in central eastern Asia and aerosol transport to the tropical mid-Pacific. <i>Journal of Geophysical Research</i> , 2005 , 110, n/a-n/a		323
56	Climatological aspects of the optical properties of fine/coarse mode aerosol mixtures. <i>Journal of Geophysical Research</i> , 2010 , 115,		276
55	An analysis of AERONET aerosol absorption properties and classifications representative of aerosol source regions. <i>Journal of Geophysical Research</i> , 2012 , 117, n/a-n/a		240
54	Light absorption by pollution, dust, and biomass burning aerosols: a global model study and evaluation with AERONET measurements. <i>Annales Geophysicae</i> , 2009 , 27, 3439-3464	2	192
53	Classification of aerosol properties derived from AERONET direct sun data. <i>Atmospheric Chemistry and Physics</i> , 2007 , 7, 453-458	6.8	185
52	Characterization of the optical properties of biomass burning aerosols in Zambia during the 1997 ZIBBEE field campaign. <i>Journal of Geophysical Research</i> , 2001 , 106, 3425-3448		180
51	Bimodal size distribution influences on the variation of Angstrom derivatives in spectral and optical depth space. <i>Journal of Geophysical Research</i> , 2001 , 106, 9787-9806		175
50	Detection of biomass burning smoke from TOMS measurements. <i>Geophysical Research Letters</i> , 1996 , 23, 745-748	4.9	164
49	Aeronet's Version 2.0 quality assurance criteria 2006 , 6408, 134		151

48	High aerosol optical depth biomass burning events: A comparison of optical properties for different source regions. <i>Geophysical Research Letters</i> , 2003 , 30,	4.9	146
47	Variability of biomass burning aerosol optical characteristics in southern Africa during the SAFARI 2000 dry season campaign and a comparison of single scattering albedo estimates from radiometric measurements. <i>Journal of Geophysical Research</i> , 2003 , 108, n/a-n/a		124
46	Maritime aerosol network as a component of AERONET ¶first results and comparison with global aerosol models and satellite retrievals. <i>Atmospheric Measurement Techniques</i> , 2011 , 4, 583-597	4	121
45	The lognormal distribution as a reference for reporting aerosol optical depth statistics; Empirical tests using multi-year, multi-site AERONET Sunphotometer data. <i>Geophysical Research Letters</i> , 2000 , 27, 3333-3336	4.9	117
44	Spatial and temporal variability of column-integrated aerosol optical properties in the southern Arabian Gulf and United Arab Emirates in summer. <i>Journal of Geophysical Research</i> , 2008 , 113,		108
43	Optical properties of boreal region biomass burning aerosols in central Alaska and seasonal variation of aerosol optical depth at an Arctic coastal site. <i>Journal of Geophysical Research</i> , 2009 , 114,		105
42	Comparison of Moderate Resolution Imaging Spectroradiometer (MODIS) and Aerosol Robotic Network (AERONET) remote-sensing retrievals of aerosol fine mode fraction over ocean. <i>Journal of Geophysical Research</i> , 2005 , 110,		103
41	Satellite estimation of spectral UVB irradiance using TOMS derived total ozone and UV reflectivity. <i>Geophysical Research Letters</i> , 1995 , 22, 611-614	4.9	98
40	Dust optical properties over North Africa and Arabian Peninsula derived from the AERONET dataset. <i>Atmospheric Chemistry and Physics</i> , 2011 , 11, 10733-10741	6.8	97
39	Maritime component in aerosol optical models derived from Aerosol Robotic Network data. <i>Journal of Geophysical Research</i> , 2003 , 108, AAC 14-1		95
38	A critical examination of spatial biases between MODIS and MISR aerosol products ¶application for potential AERONET deployment. <i>Atmospheric Measurement Techniques</i> , 2011 , 4, 2823-2836	4	80
37	Validation of AERONET estimates of atmospheric solar fluxes and aerosol radiative forcing by ground-based broadband measurements. <i>Journal of Geophysical Research</i> , 2008 , 113,		80
36	A seasonal trend of single scattering albedo in southern African biomass-burning particles: Implications for satellite products and estimates of emissions for the world's largest biomass-burning source. <i>Journal of Geophysical Research D: Atmospheres</i> , 2013 , 118, 6414-6432	4.4	79
35	Effect of dry-season biomass burning on Amazon basin aerosol concentrations and optical properties, 1992¶1994. <i>Journal of Geophysical Research</i> , 1996 , 101, 19465-19481		75
34	Characterization of the optical properties of atmospheric aerosols in Amazonia from long-term AERONET monitoring (1993¶1995 and 1999¶2006). <i>Journal of Geophysical Research</i> , 2008 , 113,		71
33	Fog- and cloud-induced aerosol modification observed by the Aerosol Robotic Network (AERONET). <i>Journal of Geophysical Research</i> , 2012 , 117, n/a-n/a		70
32	The albedo of a tropical evergreen forest. <i>Quarterly Journal of the Royal Meteorological Society</i> , 1980 , 106, 551-558	6.4	70
31	AERONET-based models of smoke-dominated aerosol near source regions and transported over oceans, and implications for satellite retrievals of aerosol optical depth. <i>Atmospheric Chemistry and Physics</i> , 2014 , 14, 11493-11523	6.8	63

30	Relationship between column aerosol optical thickness and in situ ground based dust concentrations over Barbados. <i>Geophysical Research Letters</i> , 2000 , 27, 1643-1646	4.9	63
29	A synthesis of single scattering albedo of biomass burning aerosol over southern Africa during SAFARI 2000. <i>Geophysical Research Letters</i> , 2007 , 34,	4.9	61
28	Development towards a global operational aerosol consensus: basic climatological characteristics of the International Cooperative for Aerosol Prediction Multi-Model Ensemble (ICAP-MME). <i>Atmospheric Chemistry and Physics</i> , 2015 , 15, 335-362	6.8	57
27	New approach to monitor transboundary particulate pollution over Northeast Asia. <i>Atmospheric Chemistry and Physics</i> , 2014 , 14, 659-674	6.8	53
26	Remote sensing of soot carbon [Part 2: Understanding the absorption Ångström exponent. <i>Atmospheric Chemistry and Physics</i> , 2016 , 16, 1587-1602	6.8	52
25	Aerosol Radiative Impact on Spectral Solar Flux at the Surface, Derived from Principal-Plane Sky Measurements. <i>Journals of the Atmospheric Sciences</i> , 2002 , 59, 635-646	2.1	49
24	Observations of rapid aerosol optical depth enhancements in the vicinity of polluted cumulus clouds. <i>Atmospheric Chemistry and Physics</i> , 2014 , 14, 11633-11656	6.8	46
23	Latitudinal variation of aerosol properties from Indo-Gangetic Plain to central Himalayan foothills during TIGERZ campaign. <i>Journal of Geophysical Research D: Atmospheres</i> , 2014 , 119, 4750-4769	4.4	43
22	Effect of smoke and clouds on the transmissivity of photosynthetically active radiation inside the canopy. <i>Atmospheric Chemistry and Physics</i> , 2006 , 6, 1645-1656	6.8	41
21	Observations of the Interaction and Transport of Fine Mode Aerosols with Cloud and/or Fog in Northeast Asia from Aerosol Robotic Network (AERONET) and Satellite Remote Sensing. <i>Journal of Geophysical Research D: Atmospheres</i> , 2018 , 123, 5560-5587	4.4	33
20	Global evaluation of the Collection 5 MODIS dark-target aerosol products over land		33
19	Intercomparison of aerosol single-scattering albedo derived from AERONET surface radiometers and LARGE in situ aircraft profiles during the 2011 DRAGON-MD and DISCOVER-AQ experiments. <i>Journal of Geophysical Research D: Atmospheres</i> , 2014 , 119, 7439-7452	4.4	30
18	Pan-Arctic sunphotometry during the ARCTAS-A campaign of April 2008. <i>Geophysical Research Letters</i> , 2010 , 37, n/a-n/a	4.9	26
17	Aerosol optical properties derived from the DRAGON-NE Asia campaign, and implications for a single-channel algorithm to retrieve aerosol optical depth in spring from Meteorological Imager (MI) on-board the Communication, Ocean, and Meteorological Satellite (COMS). <i>Atmospheric Chemistry and Physics</i> , 2016 , 16, 1769-1800	6.8	25
16	Influence of observed diurnal cycles of aerosol optical depth on aerosol direct radiative effect. <i>Atmospheric Chemistry and Physics</i> , 2013 , 13, 7895-7901	6.8	24
15	Robust optical features of fine mode size distributions: Application to the Qubec smoke event of 2002. <i>Journal of Geophysical Research</i> , 2005 , 110,		23
14	AERONET Remotely Sensed Measurements and Retrievals of Biomass Burning Aerosol Optical Properties During the 2015 Indonesian Burning Season. <i>Journal of Geophysical Research D: Atmospheres</i> , 2019 , 124, 4722-4740	4.4	21
13	Verification and application of the extended spectral deconvolution algorithm (SDA+) methodology to estimate aerosol fine and coarse mode extinction coefficients in the marine boundary layer. <i>Atmospheric Measurement Techniques</i> , 2014 , 7, 3399-3412	4	20

12	Coarse mode optical information retrievable using ultraviolet to short-wave infrared Sun photometry: Application to United Arab Emirates Unified Aerosol Experiment data. <i>Journal of Geophysical Research</i> , 2008 , 113, n/a-n/a		20
11	Observation-based study on aerosol optical depth and particle size in partly cloudy regions. <i>Journal of Geophysical Research D: Atmospheres</i> , 2017 , 122, 10013-10024	4-4	8
10	Dust optical properties over North Africa and Arabian Peninsula derived from the AERONET dataset		7
9	A miniature scanning sun photometer for vertical profiles and mobile platforms. <i>Aerosol Science and Technology</i> , 2016 , 50, 11-16	3-4	4
8	Remote sensing of soot carbon [Part 2: Understanding the absorption Angstrom exponent		4
7	Where do we need additional in situ aerosol and sun photometer data?: a critical examination of spatial biases between MODIS and MISR aerosol products 2011 ,		3
6	Influence of observed diurnal cycles of aerosol optical depth on aerosol direct radiative effect		3
5	Development towards a global operational aerosol consensus: basic climatological characteristics of the International Cooperative for Aerosol Prediction Multi-Model Ensemble (ICAP-MME)		3
4	Verification and application of the extended Spectral Deconvolution Algorithm (SDA+) methodology to estimate aerosol fine and coarse mode extinction coefficients in the marine boundary layer 2014 ,		1
3	AERONET-based microphysical and optical properties of smoke-dominated aerosol near source regions and transported over oceans, and implications for satellite retrievals of aerosol optical depth		1
2	Climatological aspects of the optical properties of fine/coarse mode aerosol mixtures 2010 , 115,		1
1	Current and Future Perspectives of Aerosol Research at NASA Goddard Space Flight Center. <i>Bulletin of the American Meteorological Society</i> , 2014 , 95, ES203-ES207	6-1
