

Cees A Swenne

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/2299102/cees-a-swenne-publications-by-year.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

121
papers

3,496

#	Paper	IF	Citations
121	Repeated Structuring & Learning Procedure for Detection of Myocardial Ischemia: a Robustness Analysis. <i>Annual International Conference of the IEEE Engineering in Medicine and Biology Society IEEE Engineering in Medicine and Biology Society Annual International Conference</i> , 2021 , 2021, 467-470	0.9	
120	Enhanced adaptive matched filter for automated identification and measurement of electrocardiographic alternans. <i>Biomedical Signal Processing and Control</i> , 2021 , 68, 102619	4.9	0
119	Prevalence of ECGs Exceeding Thresholds for ST-Segment-Elevation Myocardial Infarction in Apparently Healthy Individuals: The Role of Ethnicity. <i>Journal of the American Heart Association</i> , 2020 , 9, e015477	6	4
118	Artificial Neural Network for Atrial Fibrillation Identification in Portable Devices. <i>Sensors</i> , 2020 , 20,	3.8	22
117	An initial exploration of subtraction electrocardiography to detect myocardial ischemia in the prehospital setting. <i>Annals of Noninvasive Electrocardiology</i> , 2020 , 25, e12722	1.5	3
116	Lack of diagnostic utility of the ECG-derived ventricular gradient in patients with suspected acute pulmonary embolism. <i>Journal of Electrocardiology</i> , 2020 , 61, 141-146	1.4	1
115	Diagnostic Accuracy Of The Electrocardiographic Decision Support - Myocardial Ischaemia (EDS-MI) Algorithm In Detection Of Acute Coronary Occlusion. <i>European Heart Journal: Acute Cardiovascular Care</i> , 2020 , 9, 13-25	4.3	3
114	Electrical remodeling after percutaneous atrial septal defect closure in pediatric and adult patients. <i>International Journal of Cardiology</i> , 2019 , 285, 32-39	3.2	6
113	Serial electrocardiography to detect newly emerging or aggravating cardiac pathology: a deep-learning approach. <i>BioMedical Engineering OnLine</i> , 2019 , 18, 15	4.1	13
112	Normal Values of QT Variability in 10-s Electrocardiograms for all Ages. <i>Frontiers in Physiology</i> , 2019 , 10, 1272	4.6	2
111	Normal values of the ventricular gradient and QRS-T angle, derived from the pediatric electrocardiogram. <i>Journal of Electrocardiology</i> , 2018 , 51, 490-495	1.4	6
110	Normal Values of Corrected Heart-Rate Variability in 10-Second Electrocardiograms for All Ages. <i>Frontiers in Physiology</i> , 2018 , 9, 424	4.6	34
109	ECG derived ventricular gradient exceeds echocardiography in the early detection of pulmonary hypertension in scleroderma patients. <i>International Journal of Cardiology</i> , 2018 , 273, 203-206	3.2	3
108	Serial ECG Analysis: Absolute Rather Than Signed Changes in the Spatial QRS-T Angle Should Be Used to Detect Emerging Cardiac Pathology 2018 ,		3
107	Dr. Galen Wagner (1939-2016) as an Academic Writer: An Overview of his Peer-reviewed Scientific Publications. <i>Journal of Electrocardiology</i> , 2017 , 50, 47-73	1.4	1
106	Genetic loci associated with heart rate variability and their effects on cardiac disease risk. <i>Nature Communications</i> , 2017 , 8, 15805	17.4	50
105	Longitudinal association of short-term, metronome-paced heart rate variability and echocardiographically assessed cardiac structure at a 4-year follow-up: results from the prospective, population-based CARLA cohort. <i>Europace</i> , 2017 , 19, 2027-2035	3.9	1

104	Prognostic relevance of the interaction between short-term, metronome-paced heart rate variability, and inflammation: results from the population-based CARLA cohort study. <i>Europace</i> , 2017 , 19, 110-118	3.9	4
103	The Olson method for detection of acute myocardial ischemia in patients with coronary occlusion. <i>Journal of Electrocardiology</i> , 2017 , 50, 74-81	1.4	2
102	Position of ST-deviation measurements relative to the J-point: Impact for ischemia detection. <i>Journal of Electrocardiology</i> , 2017 , 50, 82-89	1.4	6
101	Galen Wagner, M.D., Ph.D. (1939-2016) as international mentor of young investigators in electrocardiology. <i>Journal of Electrocardiology</i> , 2017 , 50, 21-46	1.4	0
100	Detection of elevated pulmonary pressures by the ECG-derived ventricular gradient: A comparison of conversion matrices in patients with suspected pulmonary hypertension. <i>Journal of Electrocardiology</i> , 2017 , 50, 115-122	1.4	
99	Electrocardiographic detection of pulmonary hypertension in patients with systemic sclerosis using the ventricular gradient. <i>Journal of Electrocardiology</i> , 2016 , 49, 60-8	1.4	6
98	Association between autonomic nervous dysfunction and cellular inflammation in end-stage renal disease. <i>BMC Cardiovascular Disorders</i> , 2016 , 16, 210	2.3	6
97	Heart Rate-Dependent Hysteresis of T-Wave Alternans in Primary Prevention ICD Patients. <i>Annals of Noninvasive Electrocardiology</i> , 2016 , 21, 460-9	1.5	4
96	Scientific STAFF and MALT meetings - past, present, and future. <i>Journal of Electrocardiology</i> , 2016 , 49, 259-62	1.4	3
95	Predictive Power of f99 Repolarization Index for the Occurrence of Ventricular Arrhythmias. <i>Annals of Noninvasive Electrocardiology</i> , 2016 , 21, 152-60	1.5	2
94	Subtraction electrocardiography: Detection of ischemia-induced ST displacement without the need to identify the J point. <i>Journal of Electrocardiology</i> , 2016 , 49, 316-22	1.4	2
93	Intra-individual ECG changes over 25 years: How long can elective ECGs be used as reference for acute ischemia detection?. <i>Journal of Electrocardiology</i> , 2015 , 48, 490-7	1.4	1
92	Mechanisms of exercise-recovery hysteresis in the ECG: ISCE 2015 paper. <i>Journal of Electrocardiology</i> , 2015 , 48, 1006-9	1.4	3
91	Atherosclerosis at your fingertips?. <i>Netherlands Heart Journal</i> , 2015 , 23, 466-467	2.2	
90	The role of insulin resistance in the association between body fat and autonomic function. <i>Nutrition, Metabolism and Cardiovascular Diseases</i> , 2015 , 25, 93-9	4.5	23
89	Dependency of exercise-induced T-wave alternans predictive power for the occurrence of ventricular arrhythmias from heart rate. <i>Annals of Noninvasive Electrocardiology</i> , 2015 , 20, 345-54	1.5	2
88	Vectorcardiographic diagnostic & prognostic information derived from the 12-lead electrocardiogram: Historical review and clinical perspective. <i>Journal of Electrocardiology</i> , 2015 , 48, 463-75	1.4	25
87	Performance of ST and ventricular gradient difference vectors in electrocardiographic detection of acute myocardial ischemia. <i>Journal of Electrocardiology</i> , 2015 , 48, 498-504	1.4	11

86	Comparison of model-based and expert-rule based electrocardiographic identification of the culprit artery in patients with acute coronary syndrome. <i>Journal of Electrocardiology</i> , 2015 , 48, 483-9	1.4	7
85	Psychosocial distress under pressure. <i>Netherlands Heart Journal</i> , 2014 , 22, 70	2.2	
84	Body fat, especially visceral fat, is associated with electrocardiographic measures of sympathetic activation. <i>Obesity</i> , 2014 , 22, 1553-9	8	22
83	Normal values of the electrocardiogram for ages 16-90 years. <i>Journal of Electrocardiology</i> , 2014 , 47, 914-21	1.4	93
82	Diverging opinions about shared decisions. <i>Netherlands Heart Journal</i> , 2014 , 22, 334-5	2.2	
81	Electrocardiographic detection of right ventricular pressure overload in patients with suspected pulmonary hypertension. <i>Journal of Electrocardiology</i> , 2014 , 47, 175-82	1.4	25
80	Role of the ECG in initial acute coronary syndrome triage: primary PCI regardless presence of ST elevation or of non-ST elevation. <i>Netherlands Heart Journal</i> , 2014 , 22, 484-90	2.2	13
79	Acute coronary syndrome with a totally occluded culprit artery: relation of the ST injury vector with ST-elevation and non-ST elevation ECGs. <i>Journal of Electrocardiology</i> , 2014 , 47, 183-90	1.4	13
78	Directionality and proportionality of the ST and ventricular gradient difference vectors during acute ischemia. <i>Journal of Electrocardiology</i> , 2014 , 47, 500-4	1.4	5
77	Beyond lipid lowering: pleiotropic effects of statins in heart failure. <i>Netherlands Heart Journal</i> , 2013 , 21, 406-7	2.2	4
76	Neurocardiological differences between musicians and control subjects. <i>Netherlands Heart Journal</i> , 2013 , 21, 183-8	2.2	4
75	Difference vectors to describe dynamics of the ST segment and the ventricular gradient in acute ischemia. <i>Journal of Electrocardiology</i> , 2013 , 46, 302-11	1.4	14
74	Exercise-resembling effects of periodic somatosensory stimulation in heart failure. <i>International Journal of Cardiology</i> , 2013 , 168, 3327-33	3.2	1
73	Baroreflex sensitivity: mechanisms and measurement. <i>Netherlands Heart Journal</i> , 2013 , 21, 58-60	2.2	65
72	Response to Dr. Madias's comments on "T-wave alternans by a 16-lead electrocardiogram system". <i>Annals of Noninvasive Electrocardiology</i> , 2013 , 18, 100-1	1.5	
71	Feasibility of Laser Doppler Vibrometry as potential diagnostic tool for patients with abdominal aortic aneurysms. <i>Journal of Biomechanics</i> , 2013 , 46, 1113-20	2.9	6
70	Will future troponin measurement overrule the ECG as the primary diagnostic tool in patients with acute coronary syndrome?. <i>Journal of Electrocardiology</i> , 2013 , 46, 312-7	1.4	8
69	Incremental prognostic value of an abnormal baseline spatial QRS-T angle in chronic dialysis patients. <i>Europace</i> , 2013 , 15, 290-6	3.9	34

68	Heart rate variability and first cardiovascular event in populations without known cardiovascular disease: meta-analysis and dose-response meta-regression. <i>Europace</i> , 2013 , 15, 742-9	3.9	245
67	Comparison of standard versus orthogonal ECG leads for T-wave alternans identification. <i>Annals of Noninvasive Electrocardiology</i> , 2012 , 17, 130-40	1.5	17
66	Role of the vectorcardiogram-derived spatial QRS-T angle in diagnosing left ventricular hypertrophy. <i>Journal of Electrocardiology</i> , 2012 , 45, 154-60	1.4	12
65	Diagnosis and mortality prediction in pulmonary hypertension: the value of the electrocardiogram-derived ventricular gradient. <i>Journal of Electrocardiology</i> , 2012 , 45, 312-8	1.4	13
64	Online medical literature consultation habits of academic teaching physicians in the EU and CIS countries: a cross-sectional study. <i>PLoS ONE</i> , 2012 , 7, e44302	3.7	1
63	Rehabilitation: Periodic somatosensory stimulation increases arterial baroreflex sensitivity in chronic heart failure patients. <i>International Journal of Cardiology</i> , 2011 , 152, 237-41	3.2	13
62	Influence of the vectorcardiogram synthesis matrix on the power of the electrocardiogram-derived spatial QRS-T angle to predict arrhythmias in patients with ischemic heart disease and systolic left ventricular dysfunction. <i>Journal of Electrocardiology</i> , 2011 , 44, 410-5	1.4	21
61	Predictive power of T-wave alternans and of ventricular gradient hysteresis for the occurrence of ventricular arrhythmias in primary prevention cardioverter-defibrillator patients. <i>Journal of Electrocardiology</i> , 2011 , 44, 453-9	1.4	18
60	Follow-up after pulmonary valve replacement in adults with tetralogy of Fallot: association between QRS duration and outcome. <i>Journal of the American College of Cardiology</i> , 2010 , 56, 1486-92	15.1	58
59	Cardiovascular dynamics in ischemic cardiomyopathy during exercise. <i>International Journal of Cardiovascular Imaging</i> , 2010 , 26, 161-4	2.5	
58	The spatial QRS-T angle in the Frank vectorcardiogram: accuracy of estimates derived from the 12-lead electrocardiogram. <i>Journal of Electrocardiology</i> , 2010 , 43, 294-301	1.4	39
57	Association of health behaviour with heart rate variability: a population-based study. <i>BMC Cardiovascular Disorders</i> , 2010 , 10, 58	2.3	12
56	Predicting ventricular arrhythmias in patients with ischemic heart disease: clinical application of the ECG-derived QRS-T angle. <i>Circulation: Arrhythmia and Electrophysiology</i> , 2009 , 2, 548-54	6.4	95
55	Relation of resting heart rate to prognosis in patients with idiopathic pulmonary arterial hypertension. <i>American Journal of Cardiology</i> , 2009 , 103, 1451-6	3	38
54	Cardiovascular diseases, risk factors and short-term heart rate variability in an elderly general population: the CARLA study 2002-2006. <i>European Journal of Epidemiology</i> , 2009 , 24, 123-42	12.1	81
53	Oxygen uptake in heart failure: how much, how fast?. <i>Netherlands Heart Journal</i> , 2009 , 17, 224-5	2.2	2
52	Reconstruction of standard 12-lead electrocardiograms from 12-lead electrocardiograms recorded with the Mason-Likar electrode configuration. <i>Journal of Electrocardiology</i> , 2008 , 41, 211-9	1.4	24
51	Normal limits of the spatial QRS-T angle and ventricular gradient in 12-lead electrocardiograms of young adults: dependence on sex and heart rate. <i>Journal of Electrocardiology</i> , 2008 , 41, 648-55	1.4	68

50	Pulmonary valve replacement in tetralogy of Fallot improves the repolarization. <i>International Journal of Cardiology</i> , 2008 , 124, 301-6	3.2	14
49	Biventricular pacing in chronic heart failure acutely facilitates the arterial baroreflex. <i>American Journal of Physiology - Heart and Circulatory Physiology</i> , 2008 , 295, H755-60	5.2	20
48	Improved ECG detection of presence and severity of right ventricular pressure load validated with cardiac magnetic resonance imaging. <i>American Journal of Physiology - Heart and Circulatory Physiology</i> , 2008 , 294, H2150-7	5.2	29
47	Exercise training increases oxygen uptake efficiency slope in chronic heart failure. <i>European Journal of Cardiovascular Prevention and Rehabilitation</i> , 2008 , 15, 140-4		32
46	Gated SPECT: what's the ideal method to measure LVEF?. <i>International Journal of Cardiovascular Imaging</i> , 2008 , 24, 807-10	2.5	2
45	Pacemaking in the AV node. <i>Heart Rhythm</i> , 2007 , 4, 1336-7	6.7	
44	Cardiovascular disease, risk factors, and heart rate variability in the general population. <i>Journal of Electrocardiology</i> , 2007 , 40, S19-S21	1.4	7
43	Early changes in rat hearts with developing pulmonary arterial hypertension can be detected with three-dimensional electrocardiography. <i>American Journal of Physiology - Heart and Circulatory Physiology</i> , 2007 , 293, H1300-7	5.2	34
42	Biventricular pacing and transmural dispersion of the repolarization. <i>Europace</i> , 2007 , 9, 48-9; author reply 61	3.9	1
41	Baroreflex sensitivity, blood pressure buffering, and resonance: what are the links? Computer simulation of healthy subjects and heart failure patients. <i>Journal of Applied Physiology</i> , 2007 , 102, 1348-367	3.7	44
40	Effect of exercise training on autonomic derangement and neurohumoral activation in chronic heart failure. <i>Journal of Cardiac Failure</i> , 2007 , 13, 294-303	3.3	81
39	Elucidation of the spatial ventricular gradient and its link with dispersion of repolarization. <i>Heart Rhythm</i> , 2006 , 3, 1092-9	6.7	59
38	Tryptophan depletion affects heart rate variability and impulsivity in remitted depressed patients with a history of suicidal ideation. <i>Biological Psychiatry</i> , 2006 , 60, 507-14	7.9	62
37	Reduction of QRS duration after pulmonary valve replacement in adult Fallot patients is related to reduction of right ventricular volume. <i>European Heart Journal</i> , 2005 , 26, 928-32	9.5	64
36	Dispersion of repolarization in cardiac resynchronization therapy. <i>Heart Rhythm</i> , 2005 , 2, 1286-93	6.7	35
35	Validation of ECG indices of ventricular repolarization heterogeneity: a computer simulation study. <i>Journal of Cardiovascular Electrophysiology</i> , 2005 , 16, 1097-103	2.7	40
34	Cardiovascular disease, risk factors and heart rate variability in the elderly general population: design and objectives of the CARdiovascular disease, Living and Ageing in Halle (CARLA) Study. <i>BMC Cardiovascular Disorders</i> , 2005 , 5, 33	2.3	84
33	Hypertensive stress increases dispersion of repolarization. <i>PACE - Pacing and Clinical Electrophysiology</i> , 2004 , 27, 1603-9	1.6	4

32	The influence of premature ventricular contractions on left ventricular function in asymptomatic children without structural heart disease: an echocardiographic evaluation. <i>International Journal of Cardiovascular Imaging</i> , 2003 , 19, 295-9		46
31	Effect of n-3 fatty acids on heart rate variability and baroreflex sensitivity in middle-aged subjects. <i>American Heart Journal</i> , 2003 , 146, E4	4.9	34
30	Heart rate variability and sympathovagal balance: pharmacological validation. <i>Netherlands Heart Journal</i> , 2003 , 11, 250-259	2.2	5
29	(N-3) fatty acids do not affect electrocardiographic characteristics of healthy men and women. <i>Journal of Nutrition</i> , 2002 , 132, 3051-4	4.1	17
28	Neurocardiological basis for intraindividual ECG variability. <i>Journal of Electrocardiology</i> , 2002 , 35 Suppl, 239-42	1.4	3
27	Rhythmic sensory stimulation improves fitness by conditioning the autonomic nervous system. <i>Netherlands Heart Journal</i> , 2002 , 10, 43-47	2.2	1
26	Within-subject electrocardiographic differences at equal heart rates: role of the autonomic nervous system. <i>Pflugers Archiv European Journal of Physiology</i> , 2001 , 441, 717-24	4.6	26
25	Changes in frequency of premature complexes and heart rate variability related to shift work. <i>Occupational and Environmental Medicine</i> , 2001 , 58, 678-81	2.1	41
24	The importance of high-frequency paced breathing in spectral baroreflex sensitivity assessment. <i>Journal of Hypertension</i> , 2000 , 18, 1635-44	1.9	47
23	Occupational determinants of heart rate variability. <i>International Archives of Occupational and Environmental Health</i> , 2000 , 73, 255-62	3.2	72
22	Correlated neurocardiologic and fitness changes in athletes interrupting training. <i>Medicine and Science in Sports and Exercise</i> , 2000 , 32, 571-5	1.2	5
21	Low heart rate variability in a 2-minute rhythm strip predicts risk of coronary heart disease and mortality from several causes: the ARIC Study. Atherosclerosis Risk In Communities. <i>Circulation</i> , 2000 , 102, 1239-44	16.7	562
20	Correlation of heart rate variability with cardiac functional and metabolic variables in cyclists with training induced left ventricular hypertrophy. <i>Heart</i> , 1999 , 81, 612-7	5.1	22
19	Cardiac neural changes before vasovagal syncope. <i>Circulation</i> , 1999 , 100, e67	16.7	
18	Exercise training and heart rate variability in older people. <i>Medicine and Science in Sports and Exercise</i> , 1999 , 31, 816-21	1.2	80
17	Heart rate variability from short electrocardiographic recordings predicts mortality from all causes in middle-aged and elderly men. The Zutphen Study. <i>American Journal of Epidemiology</i> , 1997 , 145, 899-908 ³⁸		379
16	Heart rate variability, baroreflex sensitivity, and cardiac vagal tone. <i>Clinical Science</i> , 1996 , 91 Suppl, 113-5		
15	Heart rate variability during repeated incremental head-up tilt discloses time dependence of individual autonomic dynamics. <i>Clinical Cardiology</i> , 1996 , 19, 62-8	3.3	11

14	Intravenous instrumentation alters the autonomic state in humans. <i>European Journal of Applied Physiology and Occupational Physiology</i> , 1996 , 73, 113-6		5
13	Reproducibility and Comparability of Short- and Long-Term Heart Rate Variability Measures in Healthy Young Men. <i>Annals of Noninvasive Electrocardiology</i> , 1996 , 1, 287-292	1.5	12
12	Autonomic, ischaemic, circadian and rhythmic factors as causes of the spontaneous variability of ventricular arrhythmias. <i>European Heart Journal</i> , 1995 , 16, 674-81	9.5	11
11	Similar orthostatic defense in active, healthy young adult and late middle-aged men. <i>American Journal of Cardiology</i> , 1995 , 76, 922-7	3	2
10	Sympathovagal balance and graded orthostatic tilt. <i>Circulation</i> , 1995 , 91, 2292-3	16.7	2
9	Heart rate and heart rate variability as indexes of sympathovagal balance. <i>American Journal of Physiology - Heart and Circulatory Physiology</i> , 1994 , 266, H1565-71	5.2	67
8	Methods in heart rate variability analysis: which tachogram should we choose?. <i>Computer Methods and Programs in Biomedicine</i> , 1993 , 41, 1-8	6.9	12
7	Supine and standing sympathovagal balance in athletes and controls. <i>European Journal of Applied Physiology and Occupational Physiology</i> , 1993 , 67, 164-7		23
6	Epicardial reflection as a cause of incessant ventricular bigeminy. <i>PACE - Pacing and Clinical Electrophysiology</i> , 1988 , 11, 1036-44	1.6	13
5	ECG criteria for assessment of mechanisms of ventricular arrhythmias: a review. <i>European Heart Journal</i> , 1987 , 8, 800-12	9.5	5
4	Assessment of mechanisms of ventricular arrhythmias from the surface ECG in 118 patients. <i>European Heart Journal</i> , 1987 , 8, 813-20	9.5	5
3	Long-term follow-up after pacemaker implantation in sick sinus syndrome. <i>PACE - Pacing and Clinical Electrophysiology</i> , 1981 , 4, 8-13	1.6	24
2	A computerized, interactive coronary care unit monitoring system. <i>IEEE Transactions on Biomedical Engineering</i> , 1977 , 24, 63-7	5	3
1	Pattern recognition for ECG-monitoring: an interactive method for the classification of ventricular complexes. <i>Journal of Biomedical Informatics</i> , 1973 , 6, 150-60		23
