#	Paper	IF	Citations
21	A prenatal group based phone counseling intervention to improve breastfeeding rates and complementary feeding: a randomized, controlled pilot and feasibility trial. <i>BMC Pregnancy and Childbirth</i> , <b>2021</b> , 21, 521	3.2	0
20	Intermittent and continuous energy restriction result in similar weight loss, weight loss maintenance, and body composition changes in a 6 month randomized pilot study. <i>Clinical Obesity</i> , <b>2021</b> , 11, e12430	3.6	2
19	Differences in Gut Microbiota Following a High-Fiber Diet During Pregnancy. <i>Current Developments in Nutrition</i> , <b>2020</b> , 4, 1562-1562	0.4	78
18	The effect of high dietary fiber intake on gestational weight gain, fat accrual, and postpartum weight retention: a randomized clinical trial. <i>BMC Pregnancy and Childbirth</i> , <b>2020</b> , 20, 319	3.2	4
17	Evaluating body composition in infancy and childhood: A comparison between 4C, QMR, DXA, and ADP. <i>Pediatric Obesity</i> , <b>2020</b> , 15, e12617	4.6	6
16	A Single-Goal Fiber Intervention Does Not Compromise Nutritional Intake During Pregnancy. <i>Current Developments in Nutrition</i> , <b>2020</b> , 4, 1000-1000	0.4	78
15	Impact of Lifestyle Interventions on Quality and Consumption of Hyper-Palatable Foods Within Gestational Diets: Single-Goal vs Multiple-Goal. <i>Current Developments in Nutrition</i> , <b>2020</b> , 4, 999-999	0.4	78
14	Dietary Self-Monitoring Related to Appropriate Weight Gain in Pregnancy. <i>Current Developments in Nutrition</i> , <b>2020</b> , 4, 1005-1005	0.4	78
13	Intrauterine DHA exposure and child body composition at 5 y: exploratory analysis of a randomized controlled trial of prenatal DHA supplementation. <i>American Journal of Clinical Nutrition</i> , <b>2018</b> , 107, 35-42	7	14
12	Perioperative Immunonutrition Modulates Inflammatory Response after Radical Cystectomy: Results of a Pilot Randomized Controlled Clinical Trial. <i>Journal of Urology</i> , <b>2018</b> , 200, 292-301	2.5	23
11	Are Protein Levels in Infant Formula a Driving Factor for Childhood Obesity Development?. <i>Obesity</i> , <b>2018</b> , 26, 1114	8	1
10	Validity of anthropometric equations to estimate infant fat mass at birth and in early infancy. <i>BMC Pediatrics</i> , <b>2017</b> , 17, 88	2.6	24
9	Programming of infant neurodevelopment by maternal obesity: potential role of maternal inflammation and insulin resistance. <i>Asia Pacific Journal of Clinical Nutrition</i> , <b>2017</b> , 26, S36-S39	1	2
8	Relationship of circulating adipokines to body composition in pregnant women. <i>Adipocyte</i> , <b>2015</b> , 4, 44-9	3.2	18
7	Longitudinal body composition of children born to mothers with normal weight, overweight, and obesity. <i>Obesity</i> , <b>2015</b> , 23, 1252-8	8	48
6	Abdominal visceral adiposity influences CD4+ T cell cytokine production in pregnancy. <i>Cytokine</i> , <b>2015</b> , 71, 405-8	4	7
5	Comparison of visceral fat measured by magnetic resonance imaging and dual-energy X-ray absorptiometry in women. <i>FASEB Journal</i> , <b>2013</b> , 27, 852.9	0.9	

4	Leptin and resistin are influenced by increased body fat measurements in pregnant women. <i>FASEB Journal</i> , <b>2013</b> , 27, 109.2	0.9	
3	An anthropometric model to estimate neonatal fat mass using air displacement plethysmography. <i>Nutrition and Metabolism</i> , <b>2012</b> , 9, 21	4.6	35
2	Higher infant body fat with excessive gestational weight gain in overweight women. <i>American Journal of Obstetrics and Gynecology</i> , <b>2011</b> , 205, 211.e1-7	6.4	83
1	Overflowing tables: Changes in the energy intake and the social context of Thanksgiving in the United States. <i>Historical Methods</i> ,1-15	0.9
