#	ARTICLE	IF	CITATIONS
1	The Prevalence of Metabolic Syndrome in Children: A Systematic Review of the Literature. <i>Metabolic Syndrome and Related Disorders</i> , 2013, 11, 71-80.	0.5	268
2	A systematic review of associations between environmental exposures and development of asthma in children aged up to 9 years. <i>BMJ Open</i> , 2014, 4, e006554.	0.8	122
3	Mental health of long-term survivors of childhood and young adult cancer: A systematic review. <i>International Journal of Cancer</i> , 2018, 143, 1279-1286.	2.3	60
4	Antiemetic medication for prevention and treatment of chemotherapy-induced nausea and vomiting in childhood. <i>The Cochrane Library</i> , 2016, 2016, CD007786.	1.5	46
5	Nutritional support in children and young people with cancer undergoing chemotherapy. <i>The Cochrane Library</i> , 2015, 2015, CD003298.	1.5	33
6	Global Health Journal Club: Is Honey Effective as a Treatment for Chemotherapy-induced Mucositis in Paediatric Oncology Patients?. <i>Journal of Tropical Pediatrics</i> , 2018, 64, 162-168.	0.7	16
7	Survival from cancer in young people: An overview of late effects focusing on reproductive health. <i>Acta Obstetrica Et Gynecologica Scandinavica</i> , 2019, 98, 573-582.	1.3	8
8	The prevalence of metabolic syndrome in children – a systematic review. <i>Archives of Disease in Childhood</i> , 2012, 97, A116.2-A117.	1.0	6
9	Late effects of childhood cancer. <i>Lancet</i> , 2018, 391, 1772.	6.3	4
10	Inconsistencies in fertility preservation for young people with cancer in the UK. <i>Archives of Disease in Childhood</i> , 2022, 107, 265-270.	1.0	4
11	Including children and young people in assessments: a practical guide. <i>Archives of Disease in Childhood: Education and Practice Edition</i> , 2018, 103, 267-273.	0.3	3
12	Distal forearm fractures can be reliably diagnosed using ultrasound. <i>Archives of Disease in Childhood: Education and Practice Edition</i> , 2017, 102, 275-275.	0.3	2
13	Initial use of high-flow oxygen did not reduce duration of oxygen therapy in infants with bronchiolitis. <i>Archives of Disease in Childhood: Education and Practice Edition</i> , 2018, 103, 217-217.	0.3	2
14	Childhood kidney disease is associated with increased risk of end-stage renal failure in adulthood. <i>Archives of Disease in Childhood: Education and Practice Edition</i> , 2019, 104, 55-56.	0.3	2
15	Is there a sex difference in mortality rates for deaths occurring in paediatric intensive care units? Systematic literature review protocol. <i>BMJ Open</i> , 2021, 11, e046794.	0.8	2
16	Non-attendance at hospital appointments is poorly communicated to general practice, despite links with deprivation and safeguarding concerns. <i>Archives of Disease in Childhood: Education and Practice Edition</i> , 2017, 103, edpract-2017-314127.	0.3	1
17	Enhanced milieu training does not confer additional benefit over standard community interventions for toddlers with language delay. <i>Archives of Disease in Childhood: Education and Practice Edition</i> , 2018, 103, edpract-2018-315149.	0.3	1
18	Asthma and other recurrent wheezing disorders in children (chronic). <i>Clinical Evidence</i> , 2012, 2012, .	0.2	1

#	ARTICLE	IF	CITATIONS
19	General anaesthesia under the age of 4 years has minimal impact on future academic performance. Archives of Disease in Childhood: Education and Practice Edition, 2017, 102, 276-276.	0.3	0
20	Question 1: Is a low-bacterial diet helpful in preventing infection in immunosuppressed children?. Archives of Disease in Childhood, 2017, 102, 380.1-382.	1.0	0
21	Use of high or low FiO <sub>2</sub> during initial resuscitation did not impact survival or neurodevelopmental outcomes of preterm infants. Archives of Disease in Childhood: Education and Practice Edition, 2018, 103, 56-57.	0.3	0
22	Child maltreatment is associated with poor socioeconomic outcomes at 50 years of age. Archives of Disease in Childhood: Education and Practice Edition, 2018, 103, 167-168.	0.3	0
23	Adversity-related injury in adolescence is associated with increased risk of suicide, alcohol and drug-related deaths in the decade following admission. Archives of Disease in Childhood: Education and Practice Edition, 2018, 103, 223-223.	0.3	0
24	Quadrupling or quintupling inhaled corticosteroid doses to prevent asthma exacerbations: the jury's still out. Archives of Disease in Childhood: Education and Practice Edition, 2019, 104, 166-167.	0.3	0
25	There is no role for routine annual echocardiography in patients with repaired dextro-transposition of the great arteries without other cardiac anomalies. Archives of Disease in Childhood: Education and Practice Edition, 2019, 104, 224-224.	0.3	0
26	Drug-free inactive disease in juvenile idiopathic arthritis can be achieved for 40% of patients. Archives of Disease in Childhood: Education and Practice Edition, 2020, 105, edpract-2019-317833.	0.3	0
27	Attention deficit hyperactivity disorder was associated with increased risk of suicidal behaviour. Archives of Disease in Childhood: Education and Practice Edition, 2021, 106, 63-63.	0.3	0
28	Olanzapine was an effective additional antiemetic for children and young people undergoing highly emetogenic chemotherapy. Archives of Disease in Childhood: Education and Practice Edition, 2021, , edpract-2021-321775.	0.3	0
29	Asthma and other recurrent wheezing disorders in children (acute). Clinical Evidence, 2012, 2012, .	0.2	0
30	Continuous glucose monitoring improves patient satisfaction and frequency of glucose monitoring but does not lead to better glycaemic control in youth with type 1 diabetes. Archives of Disease in Childhood: Education and Practice Edition, 2020, , .	0.3	0
