#	ARTICLE	IF	CITATIONS
1	Inconsistencies in fertility preservation for young people with cancer in the UK. Archives of Disease in Childhood, 2022, 107, 265-270.	1.0	4
2	Attention deficit hyperactivity disorder was associated with increased risk of suicidal behaviour. Archives of Disease in Childhood: Education and Practice Edition, 2021, 106, 63-63.	0.3	0
3	Is there a sex difference in mortality rates for deaths occurring in paediatric intensive care units? Systematic literature review protocol. BMJ Open, 2021, 11, e046794.	0.8	2
4	Olanzapine was an effective additional antiemetic for children and young people undergoing highly emetogenic chemotherapy. Archives of Disease in Childhood: Education and Practice Edition, 2021, , edpract-2021-321775.	0.3	0
5	Drug-free inactive disease in juvenile idiopathic arthritis can be achieved for 40% of patients. Archives of Disease in Childhood: Education and Practice Edition, 2020, 105, edpract-2019-317833.	0.3	0
6	Continuous glucose monitoring improves patient satisfaction and frequency of glucose monitoring but does not lead to better glycaemic control in youth with type 1 diabetes. Archives of Disease in Childhood: Education and Practice Edition, 2020, , .	0.3	0
7	Quadrupling or quintupling inhaled corticosteroid doses to prevent asthma exacerbations: the juryâ€™s still out. Archives of Disease in Childhood: Education and Practice Edition, 2019, 104, 166-167.	0.3	0
8	Childhood kidney disease is associated with increased risk of end-stage renal failure in adulthood. Archives of Disease in Childhood: Education and Practice Edition, 2019, 104, 55-56.	0.3	2
9	There is no role for routine annual echocardiography in patients with repaired dextro-transposition of the great arteries without other cardiac anomalies. Archives of Disease in Childhood: Education and Practice Edition, 2019, 104, 224-224.	0.3	0
10	Survival from cancer in young people: An overview of late effects focusing on reproductive health. Acta Obstetrica Et Gynecologica Scandinavica, 2019, 98, 573-582.	1.3	8
11	Mental health of longâ€™term survivors of childhood and young adult cancer: A systematic review. International Journal of Cancer, 2018, 143, 1279-1286.	2.3	60
12	Global Health Journal Club: Is Honey Effective as a Treatment for Chemotherapy-induced Mucositis in Paediatric Oncology Patients?. Journal of Tropical Pediatrics, 2018, 64, 162-168.	0.7	16
13	Late effects of childhood cancer. Lancet, The, 2018, 391, 1772.	6.3	4
14	Use of high or low FiO 2 during initial resuscitation did not impact survival or neurodevelopmental outcomes of preterm infants. Archives of Disease in Childhood: Education and Practice Edition, 2018, 103, 56-57.	0.3	0
15	Initial use of high-flow oxygen did not reduce duration of oxygen therapy in infants with bronchiolitis. Archives of Disease in Childhood: Education and Practice Edition, 2018, 103, 217-217.	0.3	2
16	Child maltreatment is associated with poor socioeconomic outcomes at 50 years of age. Archives of Disease in Childhood: Education and Practice Edition, 2018, 103, 167-168.	0.3	0
17	Including children and young people in assessments: a practical guide. Archives of Disease in Childhood: Education and Practice Edition, 2018, 103, 267-273.	0.3	3
18	Enhanced milieu training does not confer additional benefit over standard community interventions for toddlers with language delay. Archives of Disease in Childhood: Education and Practice Edition, 2018, 103, edpract-2018-315149.	0.3	1

#	ARTICLE	IF	CITATIONS
19	Adversity-related injury in adolescence is associated with increased risk of suicide, alcohol and drug-related deaths in the decade following admission. Archives of Disease in Childhood: Education and Practice Edition, 2018, 103, 223-223.	0.3	0
20	Distal forearm fractures can be reliably diagnosed using ultrasound. Archives of Disease in Childhood: Education and Practice Edition, 2017, 102, 275-275.	0.3	2
21	General anaesthesia under the age of 4 years has minimal impact on future academic performance. Archives of Disease in Childhood: Education and Practice Edition, 2017, 102, 276-276.	0.3	0
22	Question 1: Is a low-bacterial diet helpful in preventing infection in immunosuppressed children?. Archives of Disease in Childhood, 2017, 102, 380.1-382.	1.0	0
23	Non-attendance at hospital appointments is poorly communicated to general practice, despite links with deprivation and safeguarding concerns. Archives of Disease in Childhood: Education and Practice Edition, 2017, 103, edpract-2017-314127.	0.3	1
24	Antiemetic medication for prevention and treatment of chemotherapy-induced nausea and vomiting in childhood. The Cochrane Library, 2016, 2016, CD007786.	1.5	46
25	Nutritional support in children and young people with cancer undergoing chemotherapy. The Cochrane Library, 2015, 2015, CD003298.	1.5	33
26	A systematic review of associations between environmental exposures and development of asthma in children aged up to 9 years. BMJ Open, 2014, 4, e006554.	0.8	122
27	The Prevalence of Metabolic Syndrome in Children: A Systematic Review of the Literature. Metabolic Syndrome and Related Disorders, 2013, 11, 71-80.	0.5	268
28	The prevalence of metabolic syndrome in children – a systematic review. Archives of Disease in Childhood, 2012, 97, A116.2-A117.	1.0	6
29	Asthma and other recurrent wheezing disorders in children (chronic). Clinical Evidence, 2012, 2012, .	0.2	1
30	Asthma and other recurrent wheezing disorders in children (acute). Clinical Evidence, 2012, 2012, .	0.2	0
