#	ARTICLE	IF	CITATIONS
1	Trial of aerosolised surfactant for preterm infants with respiratory distress syndrome. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2022, 107, 51-55.	2.8	11
2	Mortality and significant neurosensory impairment in preterm infants: an international comparison. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2022, 107, 317-323.	2.8	6
3	Survival prediction modelling in extreme prematurity: are days important?. Journal of Perinatology, 2022, 42, 177-180.	2.0	0
4	Neurodevelopmental outcomes of preterm infants after randomisation to initial resuscitation with lower (FiO ₂ < 0.3) or higher (FiO ₂ ≥ 0.6) initial oxygen levels. An individual patient meta-analysis. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2022, 107, 386-392.	2.8	9
5	Five-minute Apgar score and outcomes in neonates of 24–28 weeks gestation. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2022, 107, 437-446.	2.8	6
6	International Variation in the Management of Patent Ductus Arteriosus and Its Association with Infant Outcomes: A Survey and Linked Cohort Study. Journal of Pediatrics, 2022, 244, 24-29.e7.	1.8	4
7	When should intensive care be provided for the extremely preterm infants born at the margin of viability? A survey of Australasian parents and clinicians. Journal of Paediatrics and Child Health, 2021, 57, 52-57.	0.8	3
8	Inter-center variability in neonatal outcomes of preterm infants: A longitudinal evaluation of 298 neonatal units in 11 countries. Seminars in Fetal and Neonatal Medicine, 2021, 26, 101196.	2.3	12
9	Neonatal Golden Hour: A survey of Australian and New Zealand Neonatal Network units' early stabilisation practices for very preterm infants. Journal of Paediatrics and Child Health, 2021, 57, 990-997.	0.8	11
10	Early PARacetamol (EPAR) Trial: A Randomized Controlled Trial of Early Paracetamol to Promote Closure of the Ductus Arteriosus in Preterm Infants. Neonatology, 2021, 118, 274-281.	2.0	19
11	Protocol for assessing if behavioural functioning of infants born < 29 weeks gestation is improved by omega-3 long-chain polyunsaturated fatty acids: follow-up of a randomised controlled trial. BMJ Open, 2021, 11, e044740.	1.9	6
12	A bespoke data linkage of an IVF clinical quality registry to population health datasets; methods and performance. International Journal of Population Data Science, 2021, 6, 1679.	0.1	2
13	Outcomes of delivery room resuscitation of bradycardic preterm infants: A retrospective cohort study of randomised trials of high vs low initial oxygen concentration and an individual patient data analysis. Resuscitation, 2021, 167, 209-217.	3.0	15
14	Neonatal outcomes of extremely preterm twins by sex pairing: an international cohort study. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2021, 106, 17-24.	2.8	9
15	Improving incidence trends of severe intraventricular haemorrhages in preterm infants < 32 weeks gestation: a cohort study. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2020, 105, 145-150.	2.8	52
16	Survey shows marked variations in approaches to redirection of care for critically ill very preterm infants in 11 countries. Acta Paediatrica, International Journal of Paediatrics, 2020, 109, 1338-1345.	1.5	7
17	FEEDing DURing red cell transfusion (FEEDUR RCT): a multi-arm randomised controlled trial. BMC Pediatrics, 2020, 20, 346.	1.7	9
18	Family Rooms in Neonatal Intensive Care Units and Neonatal Outcomes: An International Survey and Linked Cohort Study. Journal of Pediatrics, 2020, 226, 112-117.e4.	1.8	13

#	ARTICLE	IF	CITATIONS
19	The perinatal period, the developing intestinal microbiome and inflammatory bowel diseases: What links early life events with later life disease?. <i>Journal of the Royal Society of New Zealand</i> , 2020, 50, 371-383.	1.9	2
20	Standardised neonatal parenteral nutrition formulations – Australasian neonatal parenteral nutrition consensus update 2017. <i>BMC Pediatrics</i> , 2020, 20, 59.	1.7	16
21	Neonatal Outcomes in Very Preterm Infants With Severe Congenital Heart Defects: An International Cohort Study. <i>Journal of the American Heart Association</i> , 2020, 9, e015369.	3.7	28
22	The International Network for Evaluating Outcomes (iNeo) of neonates: evolution, progress and opportunities. <i>Translational Pediatrics</i> , 2019, 8, 170-181.	1.2	16
23	Trends in Outcomes for Neonates Born Very Preterm and Very Low Birth Weight in 11 High-Income Countries. <i>Journal of Pediatrics</i> , 2019, 215, 32-40.e14.	1.8	142
24	Unit-Level Variations in Healthcare Professionals’ Availability for Preterm Neonates <29 Weeks’ Gestation: An International Survey. <i>Neonatology</i> , 2019, 116, 347-355.	2.0	10
25	In utero exposure to breast cancer treatment: a population-based perinatal outcome study. <i>British Journal of Cancer</i> , 2019, 121, 719-721.	6.4	9
26	Perceptions of Australian and New Zealand clinicians caring for neonates born at the borderline of viability have changed since the 2005 consensus guideline. <i>Journal of Paediatrics and Child Health</i> , 2019, 55, 1429-1436.	0.8	2
27	Preventive strategies and factors associated with surgically treated necrotising enterocolitis in extremely preterm infants: an international unit survey linked with retrospective cohort data analysis. <i>BMJ Open</i> , 2019, 9, e031086.	1.9	12
28	Early PARacetamol (EPAR) trial: a study protocol for a randomised controlled trial of early paracetamol to promote closure of the ductus arteriosus in preterm infants. <i>BMJ Open</i> , 2019, 9, e031428.	1.9	8
29	Admission temperature and hospital outcomes in extremely preterm infants. <i>Journal of Paediatrics and Child Health</i> , 2019, 55, 216-223.	0.8	13
30	Neurodevelopmental outcomes of extremely preterm infants in New South Wales and the Australian Capital Territory. <i>Journal of Paediatrics and Child Health</i> , 2019, 55, 956-961.	0.8	17
31	Respiratory Management of Extremely Preterm Infants: An International Survey. <i>Neonatology</i> , 2018, 114, 28-36.	2.0	69
32	Breastfeeding data in the Family Integrated Care trial. <i>The Lancet Child and Adolescent Health</i> , 2018, 2, e5.	5.6	7
33	Patterns of use of near-infrared spectroscopy in neonatal intensive care units: international usage survey. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2018, 107, 1198-1204.	1.5	22
34	Effectiveness of Family Integrated Care in neonatal intensive care units on infant and parent outcomes: a multicentre, multinational, cluster-randomised controlled trial. <i>The Lancet Child and Adolescent Health</i> , 2018, 2, 245-254.	5.6	322
35	Lower versus higher oxygen concentrations titrated to target oxygen saturations during resuscitation of preterm infants at birth. <i>The Cochrane Library</i> , 2018, 5, CD010239.	2.8	21
36	Delayed vs early umbilical cord clamping for preterm infants: a systematic review and meta-analysis. <i>American Journal of Obstetrics and Gynecology</i> , 2018, 218, 1-18.	1.3	399

#	ARTICLE	IF	CITATIONS
37	Outcomes of oxygen saturation targeting during delivery room stabilisation of preterm infants. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2018, 103, F446-F454.	2.8	103
38	Hypertriglyceridaemia in extremely preterm infants receiving parenteral lipid emulsions. BMC Pediatrics, 2018, 18, 348.	1.7	20
39	Neonatal Outcomes of Very Preterm or Very Low Birth Weight Triplets. Pediatrics, 2018, 142, .	2.1	14
40	Protocol for the Lactoferrin Infant Feeding Trial (LIFT): a randomised trial of adding lactoferrin to the feeds of very-low birthweight babies prior to hospital discharge. BMJ Open, 2018, 8, e023044.	1.9	9
41	Preterm Infant Outcomes after Randomization to Initial Resuscitation with FiO2 0.21 or 1.0. Journal of Pediatrics, 2018, 201, 55-61.e1.	1.8	33
42	Variations in Oxygen Saturation Targeting, and Retinopathy of Prematurity Screening and Treatment Criteria in Neonatal Intensive Care Units: An International Survey. Neonatology, 2018, 114, 323-331.	2.0	24
43	Trends in late-onset sepsis in a neonatal intensive care unit following implementation of infection control bundle: A 15-year audit. Journal of Paediatrics and Child Health, 2018, 54, 1314-1320.	0.8	9
44	Risk of neurodevelopmental impairment for outborn extremely preterm infants in an Australian regional network. Journal of Maternal-Fetal and Neonatal Medicine, 2017, 30, 96-102.	1.5	17
45	Causes of death in very preterm infants cared for in neonatal intensive care units: a population-based retrospective cohort study. BMC Pediatrics, 2017, 17, 59.	1.7	58
46	International variations and trends in the treatment for retinopathy of prematurity. British Journal of Ophthalmology, 2017, 101, 1399-1404.	3.9	46
47	Age-dependent variation of fecal calprotectin in cystic fibrosis and healthy children. Journal of Cystic Fibrosis, 2017, 16, 631-636.	0.7	43
48	Cerebral oxygenation as measured by near-infrared spectroscopy in neonatal intensive care: correlation with arterial oxygenation. Acta Paediatrica, International Journal of Paediatrics, 2017, 106, 1073-1078.	1.5	13
49	Targeted Oxygen in the Resuscitation of Preterm Infants, a Randomized Clinical Trial. Pediatrics, 2017, 139, .	2.1	93
50	Delayed versus Immediate Cord Clamping in Preterm Infants. New England Journal of Medicine, 2017, 377, 2445-2455.	27.0	228
51	Prediction of outcomes of extremely low gestational age newborns in Australia and New Zealand. BMJ Paediatrics Open, 2017, 1, e000205.	1.4	9
52	Antenatal gastrointestinal anomalies in neonates subsequently found to have alveolar capillary dysplasia. Clinical Case Reports (discontinued), 2017, 5, 559-566.	0.5	8
53	Survival in Very Preterm Infants: An International Comparison of 10 National Neonatal Networks. Pediatrics, 2017, 140, .	2.1	140
54	Association between respiratory syncytial viral disease and the subsequent risk of the first episode of severe asthma in different subgroups of high-risk Australian children: a whole-of-population-based cohort study. BMJ Open, 2017, 7, e017936.	1.9	19

#	ARTICLE	IF	CITATIONS
55	Morbidity and mortality among very preterm singletons following fertility treatment in Australia and New Zealand, a population cohort study. BMC Pregnancy and Childbirth, 2017, 17, 50.	2.4	11
56	Scoping review shows wide variation in the definitions of bronchopulmonary dysplasia in preterm infants and calls for a consensus. Acta Paediatrica, International Journal of Paediatrics, 2017, 106, 366-374.	1.5	88
57	Preterm infant outcomes in relation to the gestational age of onset and duration of prelabour rupture of membranes: a retrospective cohort study. BMJ Paediatrics Open, 2017, 1, e000216.	1.4	6
58	Comparing very low birth weight versus very low gestation cohort methods for outcome analysis of high risk preterm infants. BMC Pediatrics, 2017, 17, 166.	1.7	19
59	Outcomes of infants with abdominal wall defects over 18years. Journal of Pediatric Surgery, 2016, 51, 1644-1649.	1.6	24
60	Clinicians in 25 countries prefer to use lower levels of oxygen to resuscitate preterm infants at birth. Acta Paediatrica, International Journal of Paediatrics, 2016, 105, 1061-1066.	1.5	24
61	Neonatal Outcomes of Very Low Birth Weight and Very Preterm Neonates: An International Comparison. Journal of Pediatrics, 2016, 177, 144-152.e6.	1.8	184
62	Risk factors associated with RSV hospitalisation in the first 2 years of life, among different subgroups of children in NSW: a whole-of-population-based cohort study. BMJ Open, 2016, 6, e011398.	1.9	23
63	In premature infants born at borderline viability, do days matter?. Journal of Paediatrics and Child Health, 2016, 52, 349-350.	0.8	3
64	Country-specific vs. Common Birthweight-for-Gestational Age References to Identify Small for Gestational Age Infants Born at 24-28 weeks: An International Study. Paediatric and Perinatal Epidemiology, 2016, 30, 450-461.	1.7	18
65	A population study of respiratory rehospitalisation in very preterm infants in the first 3 years of life. Journal of Paediatrics and Child Health, 2016, 52, 715-721.	0.8	26
66	Outborns or Inborns: Where Are the Differences? A Comparison Study of Very Preterm Neonatal Intensive Care Unit Infants Cared for in Australia and New Zealand and in Canada. Neonatology, 2016, 109, 76-84.	2.0	44
67	Preterm infant outcomes in New South Wales and the Australian Capital Territory. Journal of Paediatrics and Child Health, 2015, 51, 713-721.	0.8	47
68	Evaluation of the Family Integrated Care model of neonatal intensive care: a cluster randomized controlled trial in Canada and Australia. BMC Pediatrics, 2015, 15, 210.	1.7	87
69	Outcome comparison of very preterm infants cared for in the neonatal intensive care units in Australia and New Zealand and in Canada. Journal of Paediatrics and Child Health, 2015, 51, 881-888.	0.8	26
70	Neurodevelopmental outcomes of preterm singletons, twins and higher-order gestations: a population-based cohort study. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2015, 100, F106-F114.	2.8	27
71	Neurodevelopmental outcome of extremely preterm infants born to rural and urban residents' mothers in Australia. Early Human Development, 2015, 91, 437-443.	1.8	4
72	Neurodevelopmental Outcomes of Premature Infants Treated for Patent Ductus Arteriosus: A Population-Based Cohort Study. Journal of Pediatrics, 2015, 167, 1025-1032.e3.	1.8	67

#	ARTICLE	IF	CITATIONS
73	Guidelines for the Management of Extremely Premature Deliveries: A Systematic Review. <i>Pediatrics</i> , 2015, 136, 343-350.	2.1	158
74	Is it feasible to identify preterm infants with respiratory distress syndrome for early extubation to continuous positive airway pressure post-surfactant treatment during retrieval?. <i>Journal of Paediatrics and Child Health</i> , 2015, 51, 321-327.	0.8	5
75	Prematurity reduces the severity and need for treatment of neonatal abstinence syndrome. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2015, 104, e188-94.	1.5	42
76	Trends in Morbidity and Mortality of Extremely Preterm Multiple Gestation Newborns. <i>Pediatrics</i> , 2015, 136, 263-271.	2.1	33
77	Comparing CRIB and SNAPPE as mortality predictors for very preterm infants. <i>Journal of Paediatrics and Child Health</i> , 2015, 51, 524-528.	0.8	30
78	Risk factors associated with preterm birth among singletons following assisted reproductive technology in Australia 2007-2009: a population-based retrospective study. <i>BMC Pregnancy and Childbirth</i> , 2014, 14, 406.	2.4	26
79	Improved nutrient intake following implementation of the consensus standardised parenteral nutrition formulations in preterm neonates: a before-after intervention study. <i>BMC Pediatrics</i> , 2014, 14, 309.	1.7	21
80	Standardised neonatal parenteral nutrition formulations: an Australasian group consensus 2012. <i>BMC Pediatrics</i> , 2014, 14, 48.	1.7	42
81	Population study of neurodevelopmental outcomes of extremely premature infants admitted after office hours. <i>Journal of Paediatrics and Child Health</i> , 2014, 50, E45-54.	0.8	12
82	Intraventricular Hemorrhage and Neurodevelopmental Outcomes in Extreme Preterm Infants. <i>Pediatrics</i> , 2014, 133, 55-62.	2.1	372
83	Long term developmental outcomes of pre-school age children following laser surgery for twin-to-twin transfusion syndrome. <i>Early Human Development</i> , 2014, 90, 837-842.	1.8	19
84	The International Network for Evaluating Outcomes of very low birth weight, very preterm neonates (iNeo): a protocol for collaborative comparisons of international health services for quality improvement in neonatal care. <i>BMC Pediatrics</i> , 2014, 14, 110.	1.7	61
85	Perinatal outcomes of Australian buprenorphine-exposed mothers and their newborn infants. <i>Journal of Paediatrics and Child Health</i> , 2013, 49, 746-753.	0.8	15
86	Australasian neonatal intensive care enteral nutrition survey: Implications for practice. <i>Journal of Paediatrics and Child Health</i> , 2013, 49, E340-7.	0.8	27
87	Profile of infants born to drug-using mothers: A state-wide audit. <i>Journal of Paediatrics and Child Health</i> , 2013, 49, E80-6.	0.8	36
88	The association between maternal country of birth and neonatal intensive care unit outcomes. <i>Early Human Development</i> , 2013, 89, 607-614.	1.8	8
89	Molecular Characterization of Bacterial Colonization in the Preterm and Term Infant's Intestine. <i>Indian Journal of Pediatrics</i> , 2013, 80, 1-5.	0.8	21
90	Causes of death in infants admitted to Australian neonatal intensive care units between 1995 and 2006. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2013, 102, e17-23.	1.5	12

#	ARTICLE	IF	CITATIONS
91	Prevalence of viruses in stool of premature neonates at a neonatal intensive care unit. <i>Journal of Paediatrics and Child Health</i> , 2013, 49, E221-6.	0.8	19
92	Dopamine D2 receptor gene polymorphisms in newborn infants of drug-using women. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2012, 97, F193-F198.	2.8	13
93	Early Postnatal Surge of Serum Clara Cell Secretory Protein in Newborn Infants. <i>Neonatology</i> , 2012, 101, 125-131.	2.0	8
94	The associations between ethnicity and outcomes of infants in neonatal intensive care units. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2012, 97, F133-F138.	2.8	16
95	Early Cystic Fibrosis Lung Disease Detected by Bronchoalveolar Lavage and Lung Clearance Index. <i>American Journal of Respiratory and Critical Care Medicine</i> , 2012, 185, 862-873.	5.6	125
96	Higher versus lower oxygen concentrations titrated to target oxygen saturations during resuscitation of preterm infants at birth. <i>The Cochrane Library</i> , 2012, , .	2.8	13
97	Use of oxygen for delivery room neonatal resuscitation in non-tertiary Australian and New Zealand hospitals: A survey of current practices, opinions and equipment. <i>Journal of Paediatrics and Child Health</i> , 2012, 48, 828-832.	0.8	13
98	The use of oxygen for delivery room resuscitation of newborn infants in non-Western countries. <i>Early Human Development</i> , 2012, 88, 631-635.	1.8	13
99	Evaluation of Neonatal Regional Cerebral Perfusion Using Power Doppler and the Index Fractional Moving Blood Volume. <i>Neonatology</i> , 2012, 101, 254-259.	2.0	10
100	Can the early condition at admission of a high-risk infant aid in the prediction of mortality and poor neurodevelopmental outcome? A population study in Australia. <i>Journal of Paediatrics and Child Health</i> , 2012, 48, 588-595.	0.8	18
101	Respiratory disease and early serum S100A12 changes in very premature infants. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2011, 100, 1538-1543.	1.5	6
102	Sensorimotor skills associated with motor dysfunction in children born extremely preterm. <i>Early Human Development</i> , 2011, 87, 489-493.	1.8	42
103	Effects of Prophylactic Indomethacin in Extremely Low-Birth-Weight Infants With and Without Adequate Exposure to Antenatal Corticosteroids. <i>JAMA Pediatrics</i> , 2011, 165, 642.	3.0	15
104	The temporal influence of a heroin shortage on pregnant drug users and their newborn infants in Sydney, Australia. <i>Australian and New Zealand Journal of Obstetrics and Gynaecology</i> , 2010, 50, 230-236.	1.0	5
105	Perinatal characteristics and outcome of preterm singleton, twin and triplet infants in NSW and the ACT, Australia (1994-2005). <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2010, 95, F20-F24.	2.8	40
106	Short-term outcomes of mothers and infants exposed to antenatal amphetamines. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2010, 95, F36-F41.	2.8	43
107	Use of Oxygen for Resuscitation of the Extremely Low Birth Weight Infant. <i>Pediatrics</i> , 2010, 125, 389-391.	2.1	45
108	Developmental coordination disorder in "apparently normal" schoolchildren born extremely preterm. <i>Archives of Disease in Childhood</i> , 2009, 94, 298-302.	1.9	104
