#	ARTICLE	IF	CITATIONS
1	Pediatric Avoidant-Restrictive Food Intake Disorder and gastrointestinal-related Somatic Symptom Disorders: Overlap in clinical presentation. <i>Clinical Child Psychology and Psychiatry</i> , 2022, 27, 385-398.	0.8	6
2	The COVID-19 pandemic and eating disorders in children, adolescents, and emerging adults: virtual care recommendations from the Canadian consensus panel during COVID-19 and beyond. <i>Journal of Eating Disorders</i> , 2021, 9, 46.	1.3	36
3	Parental experiences with their child's eating disorder treatment journey. <i>Journal of Eating Disorders</i> , 2021, 9, 92.	1.3	8
4	Gender differences in symptom presentation and treatment outcome in children and youths with eating disorders. <i>Journal of Eating Disorders</i> , 2021, 9, 113.	1.3	12
5	Health professionals' familiarity and experience with providing clinical care for pediatric avoidant/restrictive food intake disorder. <i>International Journal of Eating Disorders</i> , 2021, 54, 587-594.	2.1	12
6	Trends in the Incidence of New-Onset Anorexia Nervosa and Atypical Anorexia Nervosa Among Youth During the COVID-19 Pandemic in Canada. <i>JAMA Network Open</i> , 2021, 4, e2137395.	2.8	101
7	Cognitive and behavioral correlates of depressive symptoms in a community sample of adolescents. <i>Clinical Child Psychology and Psychiatry</i> , 2020, 25, 98-105.	0.8	2
8	Perceived Occupational Performance in Youth with Eating Disorders: Treatment-Related Changes. <i>Canadian Journal of Occupational Therapy</i> , 2020, 87, 423-430.	0.8	3
9	A longitudinal examination of body-checking behaviors and eating disorder pathology in a community sample of adolescent males and females. <i>International Journal of Eating Disorders</i> , 2020, 53, 1836-1843.	2.1	4
10	Residential treatment for eating disorders in a Canadian treatment centre: Clinical characteristics and treatment experiences of residents.. <i>Canadian Journal of Behavioural Science</i> , 2020, 52, 57-66.	0.5	3
11	Eating Disorder Diagnoses and Symptom Presentation in Transgender Youth: a Scoping Review. <i>Current Psychiatry Reports</i> , 2019, 21, 107.	2.1	88
12	Body checking in pediatric eating and obsessive-compulsive disorders. <i>Journal of Obsessive-Compulsive and Related Disorders</i> , 2019, 23, 100475.	0.7	3
13	Kindness begins with yourself: The role of self-compassion in adolescent body satisfaction and eating pathology. <i>International Journal of Eating Disorders</i> , 2019, 52, 809-816.	2.1	29
14	Self-Compassion and Eating Pathology in Female Adolescents with Eating Disorders: The Mediating Role of Psychological Distress. <i>Mindfulness</i> , 2019, 10, 2716-2723.	1.6	9
15	Effectiveness of family-based treatment for pediatric eating disorders in a tertiary care setting.. <i>Clinical Practice in Pediatric Psychology</i> , 2019, 7, 105-115.	0.2	1
16	Relevance of the <sc>T</sc>houghts<sc>S</sc>hape <sc>F</sc>usion <sc>T</sc>rait <sc>Q</sc>uestionnaire for healthy women and women presenting symptoms of eating disorders and mixed mental disorders. <i>Clinical Psychology and Psychotherapy</i> , 2018, 25, 601-607.	1.4	6
17	The Short Treatment Allocation Tool for Eating Disorders: current practices in assigning patients to level of care. <i>Journal of Eating Disorders</i> , 2018, 6, 45.	1.3	1
18	Eating disorders in biological males: clinical presentation and consideration of sex differences in a pediatric sample. <i>Journal of Eating Disorders</i> , 2018, 6, 40.	1.3	21

#	ARTICLE	IF	CITATIONS
19	Translating research into clinical practice across the developmental spectrum: Examining the clinical utility of the short treatment allocation tool for eating disorders. <i>International Journal of Eating Disorders</i> , 2017, 50, 235-238.	2.1	6
20	Cognitive Distortions Associated with Imagination of the Thin Ideal: Validation of the Thought-Shape Fusion Body Questionnaire (TSF-B). <i>Frontiers in Psychology</i> , 2017, 8, 2194.	1.1	5
21	Pinch, cinch or step: Evaluating the effectiveness and acceptability of mid upper arm circumference measurements in adolescents with eating disorders. <i>Eating Behaviors</i> , 2016, 22, 72-75.	1.1	1
22	Thought-shape fusion in young healthy females appears after vivid imagination of thin ideals. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2016, 52, 75-82.	0.6	24
23	Attitudes toward anthropometric measurements in youth: The role of eating pathology.. <i>Canadian Journal of Behavioural Science</i> , 2016, 48, 232-237.	0.5	2
24	Susceptibility to cognitive distortions: the role of eating pathology. <i>Journal of Eating Disorders</i> , 2015, 3, 31.	1.3	8
25	Food for Thought: Ego-dystonicity and Fear of Self in Eating Disorders. <i>European Eating Disorders Review</i> , 2015, 23, 179-184.	2.3	12
26	Male Youth With Eating Disorders: Clinical and Medical Characteristics of a Sample of Inpatients. <i>Eating Disorders</i> , 2015, 23, 455-461.	1.9	7
27	A Feeling You Can't Let Go: Temporal Stability and Vulnerability to Thought-Shape Fusion in Eating Disorders. <i>Cognitive Therapy and Research</i> , 2015, 39, 678-687.	1.2	2
28	Over-evaluation of thoughts about food: Differences across eating disorder subtypes and a preliminary examination of treatment effects. <i>International Journal of Eating Disorders</i> , 2014, 47, 302-309.	2.1	18
29	Mandating weekly weight gain in a day treatment program for eating disorders. <i>International Journal of Eating Disorders</i> , 2014, 47, 500-506.	2.1	4
30	Acute versus repeated chocolate exposure: Effects on intake and cravings in restrained and unrestrained eaters. <i>Journal of Health Psychology</i> , 2014, 19, 482-490.	1.3	12
31	Assessment of thought-shape fusion: Initial validation of a short version of the trait thought-shape fusion scale. <i>International Journal of Eating Disorders</i> , 2013, 46, 77-85.	2.1	20
32	Specificity of the failure to inhibit responses in overweight children. <i>Appetite</i> , 2012, 59, 409-413.	1.8	121
33	Cognitive distortions and eating pathology: Specificity of thought-shape fusion. <i>Behaviour Research and Therapy</i> , 2012, 50, 449-456.	1.6	19
34	Pre-exposure to high- versus low-caloric foods: Effects on children's subsequent fruit intake. <i>Eating Behaviors</i> , 2012, 13, 71-73.	1.1	10
35	Cognitive Distortions in Normal-Weight and Overweight Women: Susceptibility to Thought-Shape Fusion. <i>Cognitive Therapy and Research</i> , 2012, 36, 417-425.	1.2	13
36	Sweet temptation: Effects of exposure to chocolate-scented lotion on food intake. <i>Food Quality and Preference</i> , 2011, 22, 780-780.	2.3	8

#	ARTICLE	IF	CITATIONS
37	The role of food-cue exposure and negative affect in the experience of thought-shape fusion. Journal of Behavior Therapy and Experimental Psychiatry, 2010, 41, 409-417.	0.6	20
38	Inaccessible food cues affect stress and weight gain in calorically-restricted and ad lib fed rats. Appetite, 2010, 54, 229-232.	1.8	2
39	Wake up and smell the cookies. Effects of olfactory food-cue exposure in restrained and unrestrained eaters. Appetite, 2009, 52, 517-520.	1.8	54
40	Eating behavior in response to food-cue exposure: Examining the cue-reactivity and counteractive-control models.. Psychology of Addictive Behaviors, 2009, 23, 131-139.	1.4	46
41	The role of familiarity on modeling of eating and food consumption in children. Appetite, 2008, 50, 514-518.	1.8	99
42	Effects of food-cue exposure on dieting-related goals: A limitation to counteractive-control theory. Appetite, 2008, 51, 347-349.	1.8	13
43	Caloric restriction in the presence of attractive food cues: External cues, eating, and weight. Physiology and Behavior, 2008, 94, 729-733.	1.0	66
44	“Just looking at food makes me gain weight” Experimental induction of thought-shape fusion in eating-disordered and non-eating-disordered women. Behaviour Research and Therapy, 2008, 46, 219-228.	1.6	49
45	Effects of social contexts on overweight and normal-weight children's food intake. Physiology and Behavior, 2007, 92, 840-846.	1.0	73
46	Selective carbohydrate or protein restriction: Effects on subsequent food intake and cravings. Appetite, 2006, 47, 352-360.	1.8	32
