#	Article	IF	Citations
1	Environmental stress and socioeconomic status: Does parent and adolescent stress influence executive functioning in urban youth?. Journal of Prevention and Intervention in the Community, 2019, 47, 279-294.	0.5	4
2	Early Term Delivery and Breastfeeding Outcomes. Maternal and Child Health Journal, 2019, 23, 1339-1347.	0.7	2
3	Cortisol awakening response and additive serotonergic genetic risk interactively predict depression in two samples: The 2019 Donald F. Klein Early Career Investigator Award Paper. Depression and Anxiety, 2019, 36, 480-489.	2.0	4
4	Supporting ethnic-racial identity: Implications for diurnal cortisol activity. Psychoneuroendocrinology, 2019, 107, 56.	1.3	0
5	Cardiovascular and Metabolic Risk in Women in the First Year Postpartum: Allostatic Load as a Function of Race, Ethnicity, and Poverty Status. American Journal of Perinatology, 2019, 36, 1079-1089.	0.6	18
6	A preliminary investigation of attachment style and inflammation in African-American young adults. Attachment and Human Development, 2019, 21, 57-69.	1.2	14
7	Taking on the stressâ€depression link: Meaning as a resource in adolescence. Journal of Adolescence, 2018, 65, 39-49.	1.2	34
8	Stress during pregnancy and gestational weight gain. Journal of Perinatology, 2018, 38, 462-467.	0.9	27
9	Violence and Vigilance: The Acute Effects of Community Violent Crime on Sleep and Cortisol. Child Development, 2018, 89, e323-e331.	1.7	66
10	Antenatal depression, psychotropic medication use, and inflammation among pregnant women. Archives of Women's Mental Health, 2018, 21, 785-790.	1.2	11
11	Text message intervention improves objective sleep hours among adolescents: the moderating role of race-ethnicity. Sleep Health, 2017, 3, 62-67.	1.3	19
12	Mothersâ€™ childhood hardship forecasts adverse pregnancy outcomes: Role of inflammatory, lifestyle, and psychosocial pathways. Brain, Behavior, and Immunity, 2017, 65, 11-19.	2.0	45
13	Adolescents' technology and face-to-face time use predict objective sleep outcomes. Sleep Health, 2017, 3, 276-283.	1.3	22
14	Emotion Regulation Regulates More Than Emotion. Clinical Psychological Science, 2017, 5, 37-51.	2.4	24
15	High paternal testosterone may protect against postpartum depressive symptoms in fathers, but confer risk to mothers and children. Hormones and Behavior, 2017, 95, 103-112.	1.0	32
16	The Effects of Childhood and Adolescent Adversity on Substance Use Disorders and Poor Health in Early Adulthood. Journal of Youth and Adolescence, 2017, 46, 15-27.	1.9	29
17	Perceptions of parental secure base support in African American adolescents and young adults. Journal of Social and Personal Relationships, 2017, 34, 1168-1185.	1.4	14
18	Does socioeconomic status mediate racial differences in the cortisol response in middle childhood?. Health Psychology, 2017, 36, 662-672.	1.3	24

#	Article	IF	Citations
19	Diurnal salivary cortisol patterns prior to pregnancy predict infant birth weight.. Health Psychology, 2016, 35, 625-633.	1.3	29
20	Psychological and biological responses to race-based social stress as pathways to disparities in educational outcomes.. American Psychologist, 2016, 71, 455-473.	3.8	131
21	Daily affective experiences predict objective sleep outcomes among adolescents. Journal of Sleep Research, 2016, 25, 62-69.	1.7	37
22	Prenatal Stress and the Cortisol Awakening Response in African-American and Caucasian Women in the Third Trimester of Pregnancy. Maternal and Child Health Journal, 2016, 20, 2142-2149.	0.7	32
23	Positive upshots of cortisol in everyday life.. Emotion, 2016, 16, 431-435.	1.5	43
24	Longitudinal Study of Body Mass Index in Young Males and the Transition to Fatherhood. American Journal of Men's Health, 2016, 10, NP158-NP167.	0.7	41
25	Evidence for a Complex Relationship Among Weight Retention, Cortisol and Breastfeeding in Postpartum Women. Maternal and Child Health Journal, 2016, 20, 1375-1383.	0.7	9
26	Adolescent Reproductive Knowledge, Attitudes, and Beliefs and Future Fatherhood. Journal of Adolescent Health, 2016, 58, 497-503.	1.2	22
27	Assessment of the cortisol awakening response: Expert consensus guidelines. Psychoneuroendocrinology, 2016, 63, 414-432.	1.3	727
28	Breastfeeding, Bed-Sharing, and Maternal Cortisol. Clinical Pediatrics, 2016, 55, 470-478.	0.4	8
29	Interaction of CD38 Variant and Chronic Interpersonal Stress Prospectively Predicts Social Anxiety and Depression Symptoms Over 6 Years. Clinical Psychological Science, 2016, 4, 17-27.	2.4	30
30	Trajectories of relationship stress and inflammatory processes in adolescence. Development and Psychopathology, 2016, 28, 127-138.	1.4	23
31	Quality of relationships with parents and friends in adolescence predicts metabolic risk in young adulthood.. Health Psychology, 2015, 34, 896-904.	1.3	24
32	Developmental origins of flatter cortisol rhythms: socioeconomic status and adult cortisol activity. American Journal of Human Biology, 2015, 27, 458-467.	0.8	76
33	Positive and Negative Affect and Arousal. Psychosomatic Medicine, 2015, 77, 392-401.	1.3	43
34	Susceptibility or Vulnerability? The Role of Basal Cortisol in Psychopathology. Journal of Adolescent Health, 2015, 56, 475-476.	1.2	0
35	Racial and Ethnic Differences in Diurnal Cortisol Rhythms. Psychosomatic Medicine, 2015, 77, 6-15.	1.3	51
36	Cortisol covariation within parents of young children: Moderation by relationship aggression. Psychoneuroendocrinology, 2015, 62, 121-128.	1.3	42

#	Article	IF	Citations
37	Developmental histories of perceived racial discrimination and diurnal cortisol profiles in adulthood: A 20-year prospective study. Psychoneuroendocrinology, 2015, 62, 279-291.	1.3	147
38	Daily life with depressive symptoms: Gender differences inÂadolescents' everyday emotional experiences. Journal of Adolescence, 2015, 43, 132-141.	1.2	23
39	Additive genetic risk from five serotonin system polymorphisms interacts with interpersonal stress to predict depression.. Journal of Abnormal Psychology, 2015, 124, 776-790.	2.0	45
40	Effects of the serotonin transporter polymorphism and history of major depression on overgeneral autobiographical memory. Cognition and Emotion, 2014, 28, 947-958.	1.2	14
41	Associations between self-reported discrimination and diurnal cortisol rhythms among young adults: The moderating role of racialâ€“ethnic minority status. Psychoneuroendocrinology, 2014, 50, 280-288.	1.3	83
42	Refining the Candidate Environment. Clinical Psychological Science, 2014, 2, 235-248.	2.4	51
43	Testing the CaRâ€“FAâ€“X model: Investigating the mechanisms underlying reduced autobiographical memory specificity in individuals with and without a history of depression.. Journal of Abnormal Psychology, 2014, 123, 471-486.	2.0	31
44	Validating new summary indices for the Childhood Trauma Interview: Associations with first onsets of major depressive disorder and anxiety disorders.. Psychological Assessment, 2014, 26, 730-740.	1.2	25
45	Cortisol responses to a group public speaking task for adolescents: Variations by age, gender, and race. Psychoneuroendocrinology, 2014, 50, 155-166.	1.3	39
46	Diurnal cortisol rhythms in youth from risky families: Effects of cumulative risk exposure and variation in the serotonin transporter linked polymorphic region gene. Development and Psychopathology, 2014, 26, 999-1019.	1.4	8
47	A Longitudinal Study of Paternal Mental Health During Transition to Fatherhood as Young Adults. Pediatrics, 2014, 133, 836-843.	1.0	99
48	Prospective associations between the cortisol awakening response and first onsets of anxiety disorders over a six-year follow-up â€“ 2013 Curt Richter Award Winner. Psychoneuroendocrinology, 2014, 44, 47-59.	1.3	86
49	Long-term effects of birth weight and breastfeeding duration on inflammation in early adulthood. Proceedings of the Royal Society B: Biological Sciences, 2014, 281, 20133116.	1.2	48
50	How stable are diurnal cortisol activity indices in healthy individuals? Evidence from three multi-wave studies. Psychoneuroendocrinology, 2014, 39, 184-193.	1.3	125
51	Child-Related Interparental Conflict in Infancy Predicts Child Cognitive Functioning in a Nationally Representative Sample. Journal of Child and Family Studies, 2013, 22, 502-515.	0.7	18
52	Spouses' Cortisol Associations and Moderators: Testing Physiological Synchrony and Connectedness in Everyday Life. Family Process, 2013, 52, 284-298.	1.4	71
53	The cortisol awakening response predicts major depression: predictive stability over a 4-year follow-up and effect of depression history. Psychological Medicine, 2013, 43, 483-493.	2.7	165
54	What Are Little Learners Made of? Sugar and Spice and All Things Nice, and Leptin and <scp>TNF</scp>Î± and Melatonin. Mind, Brain, and Education, 2013, 7, 243-245.	0.9	0

#	Article	IF	Citations
55	Are flatter diurnal cortisol rhythms associated with major depression and anxiety disorders in late adolescence? The role of life stress and daily negative emotion. Development and Psychopathology, 2013, 25, 629-642.	1.4	129
56	Physiological stress responses to the 2008 U.S. presidential election: The role of policy preferences and social dominance orientation. Group Processes and Intergroup Relations, 2012, 15, 333-345.	2.4	10
57	Concerns about appearing prejudiced get under the skin: Stress responses to interracial contact in the moment and across time. Journal of Experimental Social Psychology, 2012, 48, 682-693.	1.3	40
58	Positive Youth, Healthy Adults: Does Positive Well-being in Adolescence Predict Better Perceived Health and Fewer Risky Health Behaviors in Young Adulthood?. Journal of Adolescent Health, 2012, 50, 66-73.	1.2	179
59	Linking disease symptoms and subtypes with personalized systems-based phenotypes: A proof of concept study. Brain, Behavior, and Immunity, 2012, 26, 1047-1056.	2.0	30
60	THE HYPOTHALAMICâ€“PITUITARYâ€“ADRENOCORTICAL SYSTEM AND EMOTION: CURRENT WISDOM AND FUTURE DIRECTIONS. Monographs of the Society for Research in Child Development, 2012, 77, 109-119.	6.8	37
61	EMOTIONâ€”CORTISOL TRANSACTIONS OCCUR OVER MULTIPLE TIME SCALES IN DEVELOPMENT: IMPLICATIONS FOR RESEARCH ON EMOTION AND THE DEVELOPMENT OF EMOTIONAL DISORDERS. Monographs of the Society for Research in Child Development, 2012, 77, 17-27.	6.8	43
62	Diurnal alpha amylase patterns in adolescents: Associations with puberty and momentary mood states. Biological Psychology, 2011, 88, 170-173.	1.1	54
63	Reciprocal Relations Between Objectively Measured Sleep Patterns and Diurnal Cortisol Rhythms in Late Adolescence. Journal of Adolescent Health, 2011, 48, 566-571.	1.2	60
64	Adverse Adolescent Relationship Histories and Young Adult Health: Cumulative Effects of Loneliness, Low Parental Support, Relationship Instability, Intimate Partner Violence, and Loss. Journal of Adolescent Health, 2011, 49, 278-286.	1.2	60
65	Measured Blood Pressure and Hypertension among Young Adults: A Comparison between Two Nationally Representative Samples. Biodemography and Social Biology, 2011, 57, 184-199.	0.4	6
66	Concordance between Self-Reported and Objective Wakeup Times in Ambulatory Salivary Cortisol Research. International Journal of Behavioral Medicine, 2010, 17, 74-78.	0.8	52
67	Loneliness and cortisol: Momentary, day-to-day, and trait associations. Psychoneuroendocrinology, 2010, 35, 430-441.	1.3	236
68	Prospective prediction of major depressive disorder from cortisol awakening responses in adolescence. Psychoneuroendocrinology, 2010, 35, 921-931.	1.3	262
69	Within-person variations in self-focused attention and negative affect in depression and anxiety: A diary study. Cognition and Emotion, 2010, 24, 48-62.	1.2	53
70	Cortisol secretion and fatigue: Associations in a community based cohort. Psychoneuroendocrinology, 2009, 34, 1476-1485.	1.3	109
71	Assessing salivary cortisol in large-scale, epidemiological research. Psychoneuroendocrinology, 2009, 34, 1423-1436.	1.3	694
72	Uncovering the Pathways Linking Depression and Physical Health. Journal of Adolescent Health, 2009, 45, 321-322.	1.2	0

#	Article	IF	Citations
73	Mother-adolescent physiological synchrony in naturalistic settings: Within-family cortisol associations and moderators.. Journal of Family Psychology, 2009, 23, 882-894.	1.0	123
74	Neuroticism and introversion are associated with salivary cortisol patterns in adolescents. Psychoneuroendocrinology, 2008, 33, 1344-1356.	1.3	66
75	Incorporating hypothalamicâ€“pituitaryâ€“adrenal axis measures into preventive interventions for adolescent depression: Are we there yet?. Development and Psychopathology, 2008, 20, 975-1001.	1.4	49
76	Associations between parents' marital functioning, maternal parenting quality, maternal emotion and child cortisol levels. International Journal of Behavioral Development, 2007, 31, 218-231.	1.3	169
77	Sleep timing and quantity in ecological and family context: A nationally representative time-diary study.. Journal of Family Psychology, 2007, 21, 4-19.	1.0	298
78	Racial/Ethnic Differences in Cortisol Diurnal Rhythms in a Community Sample of Adolescents. Journal of Adolescent Health, 2007, 41, 3-13.	1.2	216
79	Sleep and the Body Mass Index and Overweight Status of Children and Adolescents. Child Development, 2007, 78, 309-323.	1.7	283
80	Compliance with ambulatory saliva sampling in the Chicago Health, Aging, and Social Relations Study and associations with social support. Annals of Behavioral Medicine, 2007, 34, 209-216.	1.7	44
81	Transactions among adolescent trait and state emotion and diurnal and momentary cortisol activity in naturalistic settings. Psychoneuroendocrinology, 2006, 31, 664-679.	1.3	290
82	Associations Among Academic Achievement, Attention, and Adrenocortical Reactivity in Caribbean Village Children. Canadian Journal of School Psychology, 2006, 21, 120-138.	1.6	9
83	Day-to-day dynamics of experience-cortisol associations in a population-based sample of older adults. Proceedings of the National Academy of Sciences of the United States of America, 2006, 103, 17058-17063.	3.3	639
84	Beyond Quality. Current Directions in Psychological Science, 2004, 13, 210-213.	2.8	106
85	Adult Attachment, Parent Emotion, and Observed Parenting Behavior: Mediator and Moderator Models. Child Development, 2004, 75, 110-122.	1.7	195
86	Relationship functioning and home and work demands predict individual differences in diurnal cortisol patterns in women. Psychoneuroendocrinology, 2001, 26, 189-208.	1.3	261
