#	ARTICLE	IF	CITATIONS
1	European guidelines on perinatal care- Peripartum care Episiotomy. Journal of Maternal-Fetal and Neonatal Medicine, 2024, 35, 8797-8802.	0.7	7
2	Risk of preterm birth in relation to history of preterm birth: a population-based registry study of 213 335 women in Norway. BJOG: an International Journal of Obstetrics and Gynaecology, 2022, 129, 900-907.	1.1	14
3	Substantial decrease in preeclampsia prevalence and risk over two decades: A population-based study of 1,153,227 deliveries in Norway. Pregnancy Hypertension, 2022, 28, 21-27.	0.6	11
4	Association between maternal country of birth and preterm birth: A population-based register study of 910,752 deliveries. Scandinavian Journal of Public Health, 2021, 49, 904-913.	1.2	4
5	Maternal diseases and risk of hypertensive disorders of pregnancy across gestational age groups. Pregnancy Hypertension, 2021, 25, 25-33.	0.6	9
6	Birth Injuries and Perineal Trauma. , 2021, , 462-468.		0
7	Hands up if you do not understand hands on. Midwifery, 2020, 90, 102836.	1.0	0
8	Effect of maternal country of birth on intrapartum epidural use – A population-based register study of 602 095 deliveries. European Journal of Obstetrics, Gynecology and Reproductive Biology, 2020, 250, 41-47.	0.5	6
9	Adverse perinatal outcomes in 665,244 term and post-term deliveries – a Norwegian population-based study. European Journal of Obstetrics, Gynecology and Reproductive Biology, 2020, 247, 212-218.	0.5	12
10	Effects of external cephalic version for breech presentation at or near term in high-resource settings: A systematic review of randomized and non-randomized studies. European Journal of Midwifery, 2020, 4, 1-8.	0.5	4
11	Impact of animated instruction on tablets and hands-on training in applying bimanual perineal support on episiotomy rates: an intervention study. International Urogynecology Journal, 2019, 30, 1343-1350.	0.7	3
12	The role of mediolateral episiotomy during operative vaginal delivery. European Journal of Obstetrics, Gynecology and Reproductive Biology, 2019, 240, 192-196.	0.5	47
13	Country of birth and county of residence and association with overweight and obesity – a population-based study of 219 555 pregnancies in Norway. Journal of Public Health, 2019, 41, e290-e299.	1.0	7
14	<p>Induction Of Labor Among Singleton Pregnancies In Six Palestinian Governmental Hospitals: A Population-Based Cohort Study</p>. International Journal of Women's Health, 2019, Volume 11, 597-605.	1.1	1
15	Prevalence and risk of pre-eclampsia and gestational hypertension in twin pregnancies: a population-based register study. BMJ Open, 2019, 9, e029908.	0.8	63
16	Differences in rates and odds for emergency caesarean section in six Palestinian hospitals: a population-based birth cohort study. BMJ Open, 2018, 8, e019509.	0.8	18
17	A population-based study of the effect of pregnancy history on risk of stillbirth. International Journal of Gynecology and Obstetrics, 2018, 140, 73-80.	1.0	7
18	Maternal body mass index as a predictor for delivery method. Acta Obstetrica Et Gynecologica Scandinavica, 2018, 97, 212-218.	1.3	32

#	ARTICLE	IF	CITATIONS
19	Enhancing recognition of obstetric anal sphincter injuries in six maternity units in Palestine: an interventional quality improvement study. <i>BMJ Open</i> , 2018, 8, e020983.	0.8	10
20	Impact of electronic and blended learning programs for manual perineal support on incidence of obstetric anal sphincter injuries: a prospective interventional study. <i>BMC Medical Education</i> , 2018, 18, 258.	1.0	9
21	Evaluation of Accuracy of Episiotomy Incision in a Governmental Maternity Unit in Palestine: An Observational Study. <i>Obstetrics and Gynecology International</i> , 2018, 2018, 1-6.	0.5	4
22	Caesarean section in Palestine using the Robson Ten Group Classification System: a population-based birth cohort study. <i>BMJ Open</i> , 2018, 8, e022875.	0.8	17
23	Episiotomy practice in six Palestinian hospitals: a population-based cohort study among singleton vaginal births. <i>BMJ Open</i> , 2018, 8, e021629.	0.8	7
24	The association of maternal country of birth and education with hypertensive disorders of pregnancy: A population-based study of 960516 deliveries in Norway. <i>Acta Obstetrica Et Gynecologica Scandinavica</i> , 2018, 97, 1237-1247.	1.3	21
25	Diagnosis and repair of perineal injuries: knowledge before and after expert training—a multicentre observational study among Palestinian physicians and midwives. <i>BMJ Open</i> , 2017, 7, e014183.	0.8	17
26	Evaluation of an animated instructional video as a training tool for manual perineum support during vaginal delivery. <i>International Journal of Gynecology and Obstetrics</i> , 2017, 137, 213-219.	1.0	5
27	Building a research registry for studying birth complications and outcomes in six Palestinian governmental hospitals. <i>BMC Pregnancy and Childbirth</i> , 2017, 17, 112.	0.9	23
28	Fetal head size and effect of manual perineal protection. <i>PLoS ONE</i> , 2017, 12, e0189842.	1.1	21
29	Episiotomy preferences, indication, and classification—a survey among Nordic doctors. <i>Acta Obstetrica Et Gynecologica Scandinavica</i> , 2016, 95, 587-595.	1.3	16
30	Intrapartum Interventions and Risk of Perineal Trauma. , 2016, , 83-96.		1
31	Perineal Trauma and Its Impact on Women's Health. , 2016, , 147-160.		2
32	Sexual activity and dyspareunia the first year postpartum in relation to degree of perineal trauma. <i>International Urogynecology Journal</i> , 2016, 27, 1513-1523.	0.7	43
33	Role of Training to Reduce Perineal Trauma at an Organizational Level. , 2016, , 181-185.		0
34	Risk Factors for Perineal Trauma. , 2016, , 71-82.		0
35	The Association of Episiotomy with Obstetric Anal Sphincter Injury—A Population Based Matched Cohort Study. <i>PLoS ONE</i> , 2014, 9, e107053.	1.1	29
36	Modeling manual perineal protection during vaginal delivery. <i>International Urogynecology Journal</i> , 2014, 25, 65-71.	0.7	45

#	ARTICLE	IF	CITATIONS
37	Effect of different episiotomy techniques on perineal pain and sexual activity 3Âmonths after delivery. International Urogynecology Journal, 2014, 25, 1629-1637.	0.7	30
38	Different episiotomy techniques, postpartum perineal pain, and blood loss: an observational study. International Urogynecology Journal, 2013, 24, 865-872.	0.7	43
39	Are obstetric anal sphincter ruptures preventable?â€ Large and consistent rupture rate variations between the Nordic countries and between delivery units in Norway. Acta Obstetricia Et Gynecologica Scandinavica, 2013, 92, 94-100.	1.3	65
40	Changing associations of episiotomy and anal sphincter injury across risk strata: results of a population-based register study in Finland 2004â€2011. BMJ Open, 2013, 3, e003216.	0.8	27
41	Prevalence and Risk Indicators for Anal Incontinence among Pregnant Women. ISRN Obstetrics & Gynecology, 2013, 2013, 1-8.	1.2	11
42	Classification of episiotomy: towards a standardisation of terminology. BJOG: an International Journal of Obstetrics and Gynaecology, 2012, 119, 1284-1285.	1.1	2
43	Incidence of obstetric anal sphincter injuries after training to protect the perineum: cohort study. BMJ Open, 2012, 2, e001649.	0.8	126
44	Classification of episiotomy: towards a standardisation of terminology. BJOG: an International Journal of Obstetrics and Gynaecology, 2012, 119, 522-526.	1.1	112
45	Mange sfinkterskader kan forebygges. Tidsskrift for Den Norske Laegeforening, 2012, 132, 2364-2365.	0.2	1
46	Evaluation of the incision angle of mediolateral episiotomy at 60 degrees. International Journal of Gynecology and Obstetrics, 2011, 112, 220-224.	1.0	85
47	Prevalence and risk factors for anal incontinence after obstetric anal sphincter rupture. Acta Obstetricia Et Gynecologica Scandinavica, 2011, 90, 319-324.	1.3	64
48	Changing incidence of anal sphincter tears in four Nordic countries through the last decades. European Journal of Obstetrics, Gynecology and Reproductive Biology, 2009, 146, 71-75.	0.5	142
49	Anal sphincter tears at spontaneous delivery: A comparison of five hospitals in Norway. Acta Obstetricia Et Gynecologica Scandinavica, 2008, 87, 1176-1180.	1.3	20
50	Decreasing the Incidence of Anal Sphincter Tears During Delivery. Obstetrics and Gynecology, 2008, 111, 1053-1057.	1.2	118
