

# Richard Williams

## List of Publications by Citations

**Source:** <https://exaly.com/author-pdf/2382438/richard-williams-publications-by-citations.pdf>

**Version:** 2024-04-26

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

| # | Paper                                                                                                                                                                                                              | IF  | Citations |
|---|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 8 | Understanding and interpreting generalized ordered logit models. <i>Journal of Mathematical Sociology</i> , <b>2016</b> , 40, 7-20                                                                                 | 1.2 | 346       |
| 7 | Linear Dynamic Panel-data Estimation Using Maximum Likelihood and Structural Equation Modeling. <i>The Stata Journal</i> , <b>2018</b> , 18, 293-326                                                               | 3.5 | 63        |
| 6 | Dynamic panel data modelling using maximum likelihood: an alternative to Arellano-Bond. <i>Applied Economics</i> , <b>2019</b> , 51, 2221-2232                                                                     | 1.6 | 46        |
| 5 | Can the journal impact factor be used as a criterion for the selection of junior researchers? A large-scale empirical study based on ResearcherID data. <i>Journal of Informetrics</i> , <b>2017</b> , 11, 788-799 | 3.1 | 32        |
| 4 | An evaluation of percentile measures of citation impact, and a proposal for making them better. <i>Scientometrics</i> , <b>2020</b> , 124, 1457-1478                                                               | 3   | 13        |
| 3 | Sampling issues in bibliometric analysis: Response to discussants. <i>Journal of Informetrics</i> , <b>2016</b> , 10, 1253-1257                                                                                    | 3.1 | 11        |
| 2 | Sampling issues in bibliometric analysis. <i>Journal of Informetrics</i> , <b>2016</b> , 10, 1225-1232                                                                                                             | 3.1 | 11        |
| 1 | Use of the journal impact factor as a criterion for the selection of junior researchers: A rejoinder on a comment by Peters (2017). <i>Journal of Informetrics</i> , <b>2017</b> , 11, 945-947                     | 3.1 | 4         |
