#	ARTICLE	IF	CITATIONS
1	Sedentary behaviour is associated with heightened cardiovascular, inflammatory and cortisol reactivity to acute psychological stress. <i>Psychoneuroendocrinology</i> , 2022, 141, 105756.	1.3	12
2	The effectiveness of the Structured Health Intervention For Truckers (SHIFT): a cluster randomised controlled trial (RCT). <i>BMC Medicine</i> , 2022, 20, .	2.3	4
3	Sedentary behaviour, physical activity and psychobiological stress reactivity: A systematic review. <i>Biological Psychology</i> , 2022, 172, 108374.	1.1	8
4	The structured health intervention for truckers (SHIFT) cluster randomised controlled trial: a mixed methods process evaluation. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2022, 19, .	2.0	3
5	Time in Nature Associated with Decreased Fatigue in UK Truck Drivers. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 3158.	1.2	9
6	Attenuated cardiovascular reactivity is related to higher anxiety and fatigue symptoms in truck drivers. <i>Psychophysiology</i> , 2021, 58, e13872.	1.2	12
7	Changes in Device-Measured Physical Activity Patterns in U.K. Adults Related to the First COVID-19 Lockdown. <i>Journal for the Measurement of Physical Behaviour</i> , 2021, 4, 247-256.	0.5	5
8	Cardiometabolic risk factors and mental health status among truck drivers: a systematic review. <i>BMJ Open</i> , 2020, 10, e038993.	0.8	24
9	Association Between Depression, Lung Function, and Inflammatory Markers in Patients with Asthma and Occupational Asthma. <i>Journal of Occupational and Environmental Medicine</i> , 2019, 61, 453-460.	0.9	8
10	Psychological distress is related to poor health behaviours in COPD and non-COPD patients: Evidence from the CanCOLD study. <i>Respiratory Medicine</i> , 2019, 146, 1-9.	1.3	22
11	Relationship between antidepressant therapy and risk for cardiovascular events in patients with and without cardiovascular disease.. <i>Health Psychology</i> , 2018, 37, 989-999.	1.3	10
12	Positive and Negative Affect Is Related to Experiencing Chest Pain During Exercise-Induced Myocardial Ischemia. <i>Psychosomatic Medicine</i> , 2017, 79, 395-403.	1.3	4
13	Blood pressure reactivity to psychological stress is associated with clinical outcomes in patients with heart failure. <i>American Heart Journal</i> , 2017, 191, 82-90.	1.2	19
14	Impact of Panic Attacks on Bronchoconstriction and Subjective Distress in Asthma Patients With and Without Panic Disorder. <i>Psychosomatic Medicine</i> , 2017, 79, 576-584.	1.3	11
15	Do Women With Anxiety or Depression Have Higher Rates of Myocardial Ischemia During Exercise Testing Than Men?. <i>Circulation: Cardiovascular Quality and Outcomes</i> , 2016, 9, S53-61.	0.9	12
16	Reactive hyperemia is associated with adverse clinical outcomes in heart failure. <i>American Heart Journal</i> , 2016, 178, 108-114.	1.2	32
17	Prospective Impact of Psychiatric Disorders on Employment Status and Health Care Use in Patients Investigated for Occupational Asthma. <i>Journal of Occupational and Environmental Medicine</i> , 2016, 58, 1196-1201.	0.9	2
18	Endothelial function in postmenopausal women with nighttime systolic hypertension. <i>Menopause</i> , 2015, 22, 857-863.	0.8	9

#	ARTICLE	IF	CITATIONS
19	Association of Depressive and Anxiety Symptoms With 24-Hour Urinary Catecholamines in Individuals With Untreated High Blood Pressure. <i>Psychosomatic Medicine</i> , 2015, 77, 136-144.	1.3	29
20	Induced mild systemic inflammation is associated with impaired ability to improve cognitive task performance by practice. <i>Psychophysiology</i> , 2015, 52, 333-341.	1.2	16
21	Goal Striving and Well-Being in Sport: The Role of Contextual and Personal Motivation. <i>Journal of Sport and Exercise Psychology</i> , 2014, 36, 446-459.	0.7	34
22	Underlying inflammation has no impact on the oxidative stress response to acute mental stress. <i>Brain, Behavior, and Immunity</i> , 2014, 40, 182-190.	2.0	9
23	Vaccine-induced inflammation attenuates the vascular responses to mental stress. <i>International Journal of Psychophysiology</i> , 2014, 93, 340-348.	0.5	10
24	The time course of the inflammatory response to the <i>Salmonella typhi</i> vaccination. <i>Brain, Behavior, and Immunity</i> , 2013, 30, 73-79.	2.0	26
25	The effect of acute mental stress on limb vasodilation is unrelated to total peripheral resistance. <i>Psychophysiology</i> , 2013, 50, 680-690.	1.2	8
26	Eccentric-exercise induced inflammation attenuates the vascular responses to mental stress. <i>Brain, Behavior, and Immunity</i> , 2013, 30, 133-142.	2.0	16
27	Inflammation and Vascular Responses to Acute Mental Stress: Implications for the Triggering of Myocardial Infarction. <i>Current Pharmaceutical Design</i> , 2012, 18, 1494-1501.	0.9	17
28	Exercise intensity does not influence the efficacy of eccentric exercise as a behavioural adjuvant to vaccination. <i>Brain, Behavior, and Immunity</i> , 2010, 24, 623-630.	2.0	39
