#	ARTICLE	IF	CITATIONS
1	Identification of type 2 diabetes loci in 433,540 East Asian individuals. <i>Nature</i> , 2020, 582, 240-245.	13.7	282
2	Multi-ancestry genetic study of type 2 diabetes highlights the power of diverse populations for discovery and translation. <i>Nature Genetics</i> , 2022, 54, 560-572.	9.4	250
3	Association of Solid Fuel Use With Risk of Cardiovascular and All-Cause Mortality in Rural China. <i>JAMA - Journal of the American Medical Association</i> , 2018, 319, 1351.	3.8	202
4	Causal associations of blood lipids with risk of ischemic stroke and intracerebral hemorrhage in Chinese adults. <i>Nature Medicine</i> , 2019, 25, 569-574.	15.2	200
5	Genetic and environmental effects on body mass index from infancy to the onset of adulthood: an individual-based pooled analysis of 45 twin cohorts participating in the Collaborative project of Development of Anthropometrical measures in Twins (CODATwins) study. <i>American Journal of Clinical Nutrition</i> , 2016, 104, 371-379.	2.2	175
6	Identification of risk loci and a polygenic risk score for lung cancer: a large-scale prospective cohort study in Chinese populations. <i>Lancet Respiratory Medicine</i> , 2019, 7, 881-891.	5.2	167
7	Adherence to Healthy Lifestyle and Cardiovascular Diseases in the Chinese Population. <i>Journal of the American College of Cardiology</i> , 2017, 69, 1116-1125.	1.2	161
8	Association of Depression With All-Cause and Cardiovascular Disease Mortality Among Adults in China. <i>JAMA Network Open</i> , 2020, 3, e1921043.	2.8	143
9	Consumption of spicy foods and total and cause specific mortality: population based cohort study. <i>BMJ</i> , 2015, 351, h3942.	3.0	138
10	Mortality and recurrent vascular events after first incident stroke: a 9-year community-based study of 0.5 million Chinese adults. <i>The Lancet Global Health</i> , 2020, 8, e580-e590.	2.9	137
11	Frailty index and all-cause and cause-specific mortality in Chinese adults: a prospective cohort study. <i>Lancet Public Health</i> , 2020, 5, e650-e660.	4.7	134
12	Genetic and environmental influences on height from infancy to early adulthood: An individual-based pooled analysis of 45 twin cohorts. <i>Scientific Reports</i> , 2016, 6, 28496.	1.6	133
13	Cancer incidence and mortality: A cohort study in China, 2008–2013. <i>International Journal of Cancer</i> , 2017, 141, 1315-1323.	2.3	124
14	Genetic risk, incident gastric cancer, and healthy lifestyle: a meta-analysis of genome-wide association studies and prospective cohort study. <i>Lancet Oncology</i> , 2020, 21, 1378-1386.	5.1	123
15	Associations Between Hepatitis B Virus Infection and Risk of All Cancer Types. <i>JAMA Network Open</i> , 2019, 2, e195718.	2.8	114
16	Age-specific association between blood pressure and vascular and non-vascular chronic diseases in 0.5 million adults in China: a prospective cohort study. <i>The Lancet Global Health</i> , 2018, 6, e641-e649.	2.9	110
17	Lifestyle, cardiometabolic disease, and multimorbidity in a prospective Chinese study. <i>European Heart Journal</i> , 2021, 42, 3374-3384.	1.0	105
18	Association of Physical Activity With Risk of Major Cardiovascular Diseases in Chinese Men and Women. <i>JAMA Cardiology</i> , 2017, 2, 1349.	3.0	102

#	ARTICLE	IF	CITATIONS
19	Associations of egg consumption with cardiovascular disease in a cohort study of 0.5 million Chinese adults. <i>Heart</i> , 2018, 104, 1756-1763.	1.2	101
20	Metabolically healthy obesity, transition to unhealthy metabolic status, and vascular disease in Chinese adults: A cohort study. <i>PLoS Medicine</i> , 2020, 17, e1003351.	3.9	100
21	Cooking fuels and risk of all-cause and cardiopulmonary mortality in urban China: a prospective cohort study. <i>The Lancet Global Health</i> , 2020, 8, e430-e439.	2.9	85
22	Adherence to a healthy lifestyle and the risk of type 2 diabetes in Chinese adults. <i>International Journal of Epidemiology</i> , 2017, 46, 1410-1420.	0.9	84
23	Insomnia symptoms and risk of cardiovascular diseases among 0.5 million adults. <i>Neurology</i> , 2019, 93, e2110-e2120.	1.5	81
24	The relative and attributable risks of cardia and non-cardia gastric cancer associated with <i>Helicobacter pylori</i> infection in China: a case-cohort study. <i>Lancet Public Health</i> , The, 2021, 6, e888-e896.	4.7	78
25	Prenatal famine exposure, adulthood obesity patterns and risk of type 2 diabetes. <i>International Journal of Epidemiology</i> , 2018, 47, 399-408.	0.9	72
26	Diabetes, plasma glucose and incidence of pancreatic cancer: A prospective study of 0.5 million Chinese adults and a meta-analysis of 22 cohort studies. <i>International Journal of Cancer</i> , 2017, 140, 1781-1788.	2.3	71
27	Smoking and smoking cessation in relation to risk of diabetes in Chinese men and women: a 9-year prospective study of 0.5 million people. <i>Lancet Public Health</i> , The, 2018, 3, e167-e176.	4.7	65
28	Adherence to a healthy lifestyle and all-cause and cause-specific mortality in Chinese adults: a 10-year prospective study of 0.5 million people. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2019, 16, 98.	2.0	62
29	Major Dietary Patterns in Relation to General and Central Obesity among Chinese Adults. <i>Nutrients</i> , 2015, 7, 5834-5849.	1.7	60
30	Solid Fuel Use and Risks of Respiratory Diseases. A Cohort Study of 280,000 Chinese Never-Smokers. <i>American Journal of Respiratory and Critical Care Medicine</i> , 2019, 199, 352-361.	2.5	60
31	Adiposity and risk of ischaemic and haemorrhagic stroke in 0.5 million Chinese men and women: a prospective cohort study. <i>The Lancet Global Health</i> , 2018, 6, e630-e640.	2.9	59
32	Solid Fuel Use and Incident COPD in Chinese Adults: Findings from the China Kadoorie Biobank. <i>Environmental Health Perspectives</i> , 2019, 127, 57008.	2.8	57
33	Association of <i>CETP</i> Gene Variants With Risk for Vascular and Nonvascular Diseases Among Chinese Adults. <i>JAMA Cardiology</i> , 2018, 3, 34.	3.0	54
34	Association between Ambient Temperature and Blood Pressure and Blood Pressure Regulators: 1831 Hypertensive Patients Followed Up for Three Years. <i>PLoS ONE</i> , 2013, 8, e84522.	1.1	50
35	Gender-Specific Association between Tobacco Smoking and Central Obesity among 0.5 Million Chinese People: The China Kadoorie Biobank Study. <i>PLoS ONE</i> , 2015, 10, e0124586.	1.1	49
36	Sleep behavior and depression: Findings from the China Kadoorie Biobank of 0.5 million Chinese adults. <i>Journal of Affective Disorders</i> , 2018, 229, 120-124.	2.0	47

#	ARTICLE	IF	CITATIONS
37	Vitamin D and cause-specific vascular disease and mortality: a Mendelian randomisation study involving 99,012 Chinese and 106,911 European adults. <i>BMC Medicine</i> , 2019, 17, 160.	2.3	44
38	Tea consumption and risk of ischaemic heart disease. <i>Heart</i> , 2017, 103, 783-789.	1.2	43
39	Gallstone Disease and the Risk of Ischemic Heart Disease. <i>Arteriosclerosis, Thrombosis, and Vascular Biology</i> , 2015, 35, 2232-2237.	1.1	42
40	Characteristics and correlates of sleep duration, daytime napping, snoring and insomnia symptoms among 0.5 million Chinese men and women. <i>Sleep Medicine</i> , 2018, 44, 67-75.	0.8	42
41	Genetic Predisposition to Type 2 Diabetes and Risk of Subclinical Atherosclerosis and Cardiovascular Diseases Among 160,000 Chinese Adults. <i>Diabetes</i> , 2019, 68, 2155-2164.	0.3	42
42	Soy intake and breast cancer risk: a prospective study of 300,000 Chinese women and a dose-response meta-analysis. <i>European Journal of Epidemiology</i> , 2020, 35, 567-578.	2.5	41
43	Depression, anxiety, and prevalent diabetes in the Chinese population: Findings from the China Kadoorie Biobank of 0.5 million people. <i>Journal of Psychosomatic Research</i> , 2013, 75, 511-517.	1.2	39
44	Genetic Contribution to the Variance of Blood Pressure and Heart Rate: A Systematic Review and Meta-Regression of Twin Studies. <i>Twin Research and Human Genetics</i> , 2015, 18, 158-170.	0.3	39
45	Red meat, poultry and fish consumption and risk of diabetes: a 9-year prospective cohort study of the China Kadoorie Biobank. <i>Diabetologia</i> , 2020, 63, 767-779.	2.9	39
46	Trans-ethnic Mendelian-randomization study reveals causal relationships between cardiometabolic factors and chronic kidney disease. <i>International Journal of Epidemiology</i> , 2022, 50, 1995-2010.	0.9	39
47	Genetic risk, adherence to a healthy lifestyle, and type 2 diabetes risk among 550,000 Chinese adults: results from 2 independent Asian cohorts. <i>American Journal of Clinical Nutrition</i> , 2020, 111, 698-707.	2.2	38
48	Associations of Adiposity, Circulating Protein Biomarkers, and Risk of Major Vascular Diseases. <i>JAMA Cardiology</i> , 2021, 6, 276.	3.0	36
49	Genetic and Environmental Effects on Weight, Height, and BMI Under 18 Years in a Chinese Population-Based Twin Sample. <i>Twin Research and Human Genetics</i> , 2015, 18, 571-580.	0.3	35
50	Dietary Patterns and Insomnia Symptoms in Chinese Adults: The China Kadoorie Biobank. <i>Nutrients</i> , 2017, 9, 232.	1.7	35
51	Association between tea consumption and risk of cancer: a prospective cohort study of 0.5 million Chinese adults. <i>European Journal of Epidemiology</i> , 2019, 34, 753-763.	2.5	34
52	Association between adiposity measures and COPD risk in Chinese adults. <i>European Respiratory Journal</i> , 2020, 55, 1901899.	3.1	34
53	Type 2 Diabetes and Risk of Incident Cancer in China: A Prospective Study Among 0.5 Million Chinese Adults. <i>American Journal of Epidemiology</i> , 2018, 187, 1380-1391.	1.6	33
54	Association of Major Depression With Risk of Ischemic Heart Disease in a Mega-cohort of Chinese Adults: The China Kadoorie Biobank Study. <i>Journal of the American Heart Association</i> , 2016, 5, .	1.6	32

#	ARTICLE	IF	CITATIONS
55	Central adiposity in relation to risk of liver cancer in Chinese adults: A prospective study of 0.5 million people. <i>International Journal of Cancer</i> , 2019, 145, 1245-1253.	2.3	30
56	A large-scale genome-wide association analysis of lung function in the Chinese population identifies novel loci and highlights shared genetic aetiology with obesity. <i>European Respiratory Journal</i> , 2021, 58, 2100199.	3.1	30
57	Multimorbidity patterns and association with mortality in 0.5 million Chinese adults. <i>Chinese Medical Journal</i> , 2022, 135, 648-657.	0.9	30
58	Sex differences in the association between socioeconomic status and diabetes prevalence and incidence in China: cross-sectional and prospective studies of 0.5 million adults. <i>Diabetologia</i> , 2019, 62, 1420-1429.	2.9	29
59	Tea consumption and long-term risk of type 2 diabetes and diabetic complications: a cohort study of 0.5 million Chinese adults. <i>American Journal of Clinical Nutrition</i> , 2021, 114, 194-202.	2.2	29
60	Stroke risk prediction using machine learning: a prospective cohort study of 0.5 million Chinese adults. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2021, 28, 1719-1727.	2.2	29
61	Consumption of Tea, Alcohol, and Fruits and Risk of Kidney Stones: A Prospective Cohort Study in 0.5 Million Chinese Adults. <i>Nutrients</i> , 2021, 13, 1119.	1.7	28
62	Association of Major Depressive Episodes With Stroke Risk in a Prospective Study of 0.5 Million Chinese Adults. <i>Stroke</i> , 2016, 47, 2203-2208.	1.0	27
63	Chronic hepatitis B virus infection and risk of chronic kidney disease: a population-based prospective cohort study of 0.5 million Chinese adults. <i>BMC Medicine</i> , 2018, 16, 93.	2.3	27
64	Tea consumption and risk of stroke in Chinese adults: a prospective cohort study of 0.5 million men and women. <i>American Journal of Clinical Nutrition</i> , 2020, 111, 197-206.	2.2	27
65	Determination of Zygosity in Adult Chinese Twins Using the 450K Methylation Array versus Questionnaire Data. <i>PLoS ONE</i> , 2015, 10, e0123992.	1.1	27
66	Associations of Body Composition Measurements with Serum Lipid, Glucose and Insulin Profile: A Chinese Twin Study. <i>PLoS ONE</i> , 2015, 10, e0140595.	1.1	26
67	Chronic hepatitis B virus infection and total and cause-specific mortality: a prospective cohort study of 0.5 million people. <i>BMJ Open</i> , 2019, 9, e027696.	0.8	26
68	Association between multiple comorbidities and self-rated health status in middle-aged and elderly Chinese: the China Kadoorie Biobank study. <i>BMC Public Health</i> , 2018, 18, 744.	1.2	25
69	Physical Activity, Sedentary Leisure Time, Circulating Metabolic Markers, and Risk of Major Vascular Diseases. <i>Circulation Genomic and Precision Medicine</i> , 2019, 12, 386-396.	1.6	24
70	Effect of total, domain-specific, and intensity-specific physical activity on all-cause and cardiovascular mortality among hypertensive adults in China. <i>Journal of Hypertension</i> , 2018, 36, 793-800.	0.3	23
71	Factors associated with suicide risk among Chinese adults: A prospective cohort study of 0.5 million individuals. <i>PLoS Medicine</i> , 2021, 18, e1003545.	3.9	23
72	Association of low-activity ALDH2 and alcohol consumption with risk of esophageal cancer in Chinese adults: A population-based cohort study. <i>International Journal of Cancer</i> , 2018, 143, 1652-1661.	2.3	22

#	ARTICLE	IF	CITATIONS
73	Association of Educational Level and Marital Status With Obesity: A Study of Chinese Twins. <i>Twin Research and Human Genetics</i> , 2018, 21, 126-135.	0.3	22
74	Age prediction of children and adolescents aged 6-17 years: an epigenome-wide analysis of DNA methylation. <i>Aging</i> , 2018, 10, 1015-1026.	1.4	22
75	Alcohol drinking and risks of liver cancer and non-neoplastic chronic liver diseases in China: a 10-year prospective study of 0.5 million adults. <i>BMC Medicine</i> , 2021, 19, 216.	2.3	22
76	The Relative Validity and Reproducibility of Food Frequency Questionnaires in the China Kadoorie Biobank Study. <i>Nutrients</i> , 2022, 14, 794.	1.7	22
77	The association of cigarette smoking and alcohol drinking with body mass index: a cross-sectional, population-based study among Chinese adult male twins. <i>BMC Public Health</i> , 2016, 16, 311.	1.2	21
78	Gallstone Disease and the Risk of Type 2 Diabetes. <i>Scientific Reports</i> , 2017, 7, 15853.	1.6	21
79	Habitual Tea Consumption and Risk of Fracture in 0.5 Million Chinese Adults: A Prospective Cohort Study. <i>Nutrients</i> , 2018, 10, 1633.	1.7	21
80	Long-term solid fuel use and risks of major eye diseases in China: A population-based cohort study of 486,532 adults. <i>PLoS Medicine</i> , 2021, 18, e1003716.	3.9	21
81	Family History and Stroke Risk in China: Evidence from a Large Cohort Study. <i>Journal of Stroke</i> , 2017, 19, 188-195.	1.4	21
82	Physical activity, sedentary leisure-time and risk of incident type 2 diabetes: a prospective study of 512 000 Chinese adults. <i>BMJ Open Diabetes Research and Care</i> , 2019, 7, e000835.	1.2	20
83	Early famine exposure and adult disease risk based on a 10-year prospective study of Chinese adults. <i>Heart</i> , 2020, 106, heartjnl-2019-315750.	1.2	20
84	Association of Sleep Duration with Weight Gain and General and Central Obesity Risk in Chinese Adults: A Prospective Study. <i>Obesity</i> , 2020, 28, 468-474.	1.5	20
85	Dairy consumption and risks of total and site-specific cancers in Chinese adults: an 11-year prospective study of 0.5 million people. <i>BMC Medicine</i> , 2022, 20, 134.	2.3	20
86	Cancer incidence in relation to body fatness among 0.5 million men and women: Findings from the China Kadoorie Biobank. <i>International Journal of Cancer</i> , 2020, 146, 987-998.	2.3	19
87	Association of physical activity with risk of hepatobiliary diseases in China: a prospective cohort study of 0.5 million people. <i>British Journal of Sports Medicine</i> , 2021, 55, 1024-1033.	3.1	19
88	Socioeconomic differences in health-care use and outcomes for stroke and ischaemic heart disease in China during 2009-2016: a prospective cohort study of 0.5 million adults. <i>The Lancet Global Health</i> , 2020, 8, e591-e602.	2.9	19
89	Habitual snoring, adiposity measures and risk of type 2 diabetes in 0.5 million Chinese adults: a 10-year cohort. <i>BMJ Open Diabetes Research and Care</i> , 2020, 8, e001015.	1.2	19
90	Alcohol metabolism genes and risks of site-specific cancers in Chinese adults: An 11-year prospective study. <i>International Journal of Cancer</i> , 2022, 150, 1627-1639.	2.3	19

#	ARTICLE	IF	CITATIONS
91	Associations of domain-specific physical activities with insomnia symptoms among 0.5 million Chinese adults. <i>Journal of Sleep Research</i> , 2017, 26, 330-337.	1.7	18
92	Association between major depressive episode and risk of type 2 diabetes: A large prospective cohort study in Chinese adults. <i>Journal of Affective Disorders</i> , 2018, 234, 59-66.	2.0	17
93	Body-mass index and long-term risk of sepsis-related mortality: a population-based cohort study of 0.5 million Chinese adults. <i>Critical Care</i> , 2020, 24, 534.	2.5	17
94	Fluoride exposure, dopamine relative gene polymorphism and intelligence: A cross-sectional study in China. <i>Ecotoxicology and Environmental Safety</i> , 2021, 209, 111826.	2.9	17
95	Self-Rated Health Status and Risk of Incident Stroke in 0.5 Million Chinese Adults: The China Kadoorie Biobank Study. <i>Journal of Stroke</i> , 2018, 20, 247-257.	1.4	17
96	Epigenome-wide analysis of DNA methylation and coronary heart disease: a nested case-control study. <i>ELife</i> , 2021, 10, .	2.8	16
97	Circulating Metabolites and the Development of Type 2 Diabetes in Chinese Adults. <i>Diabetes Care</i> , 2022, 45, 477-480.	4.3	16
98	Solid fuels for cooking and tobacco use and risk of major chronic liver disease mortality: a prospective cohort study of 0.5 million Chinese adults. <i>International Journal of Epidemiology</i> , 2020, 49, 45-55.	0.9	15
99	Problem drinking, wellbeing and mortality risk in Chinese men: findings from the China Kadoorie Biobank. <i>Addiction</i> , 2020, 115, 850-862.	1.7	15
100	Systemic inflammation is associated with incident stroke and heart disease in East Asians. <i>Scientific Reports</i> , 2020, 10, 5605.	1.6	15
101	Improved lipidomic profile mediates the effects of adherence to healthy lifestyles on coronary heart disease. <i>ELife</i> , 2021, 10, .	2.8	15
102	Adherence to Healthy Lifestyle and Attenuation of Biological Aging in Middle-Aged and Older Chinese Adults. <i>Journals of Gerontology - Series A Biological Sciences and Medical Sciences</i> , 2021, 76, 2232-2241.	1.7	15
103	Age-Specific Associations Between Habitual Snoring and Cardiovascular Diseases in China. <i>Chest</i> , 2021, 160, 1053-1063.	0.4	15
104	Adherence to Healthy Lifestyle and Liver cancer in Chinese: a prospective cohort study of 0.5 million people. <i>British Journal of Cancer</i> , 2022, 126, 815-821.	2.9	15
105	City Level of Income and Urbanization and Availability of Food Stores and Food Service Places in China. <i>PLoS ONE</i> , 2016, 11, e0148745.	1.1	14
106	Characteristics of spicy food consumption and its relation to lifestyle behaviours: results from 0.5 million adults. <i>International Journal of Food Sciences and Nutrition</i> , 2021, 72, 569-576.	1.3	14
107	Natural history of silent lacunar infarction: 10-year follow-up of a community-based prospective study of 0.5 million Chinese adults. <i>The Lancet Regional Health - Western Pacific</i> , 2021, 17, 100309.	1.3	14
108	Blood DNA methylation markers associated with type 2 diabetes, fasting glucose, and HbA1c levels: An epigenome-wide association study in 316 adult twin pairs. <i>Genomics</i> , 2021, 113, 4206-4213.	1.3	14

#	ARTICLE	IF	CITATIONS
109	Adiposity, metabolomic biomarkers, and risk of nonalcoholic fatty liver disease: a case-cohort study. <i>American Journal of Clinical Nutrition</i> , 2022, 115, 799-810.	2.2	14
110	The Paradox Association between Smoking and Blood Pressure among Half Million Chinese People. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 2824.	1.2	13
111	Causal effects of gallstone disease on risk of gastrointestinal cancer in Chinese. <i>British Journal of Cancer</i> , 2021, 124, 1864-1872.	2.9	13
112	Alcohol drinking and risks of total and site-specific cancers in China: A 10-year prospective study of 0.5 million adults. <i>International Journal of Cancer</i> , 2021, 149, 522-534.	2.3	13
113	Physical activity attenuates genetic effects on <scp>BMI</scp>: Results from a study of <scp>C</scp>hinese adult twins. <i>Obesity</i> , 2016, 24, 750-756.	1.5	12
114	Season of birth and the risk of type 2 diabetes in adulthood: a prospective cohort study of 0.5 million Chinese adults. <i>Diabetologia</i> , 2017, 60, 836-842.	2.9	12
115	Carotid Intima-media Thickness but Not Carotid Artery Plaque in Healthy Individuals Is Linked to Lean Body Mass. <i>Journal of the American Heart Association</i> , 2019, 8, e011919.	1.6	12
116	Asymptomatic and pre-symptomatic infection in Coronavirus Disease 2019 pandemic. <i>Medical Review</i> , 2022, 2, 66-88.	0.3	12
117	Observational and Genetic Associations of Body Mass Index and Hepatobiliary Diseases in a Relatively Lean Chinese Population. <i>JAMA Network Open</i> , 2020, 3, e2018721.	2.8	11
118	Association between blood pressure levels and cardiovascular deaths: a 20-year follow-up study in rural China. <i>BMJ Open</i> , 2020, 10, e035190.	0.8	11
119	Combined healthy lifestyle score and risk of epigenetic aging: a discordant monozygotic twin study. <i>Aging</i> , 2021, 13, 14039-14052.	1.4	11
120	Association of Red Meat Consumption, Metabolic Markers, and Risk of Cardiovascular Diseases. <i>Frontiers in Nutrition</i> , 2022, 9, 833271.	1.6	11
121	Socioeconomic Status in Relation to Risks of Major Gastrointestinal Cancers in Chinese Adults: A Prospective Study of 0.5 Million People. <i>Cancer Epidemiology Biomarkers and Prevention</i> , 2020, 29, 823-831.	1.1	10
122	Lifestyle factors and fetal and childhood origins of type 2 diabetes: a prospective study of Chinese and European adults. <i>American Journal of Clinical Nutrition</i> , 2022, 115, 749-758.	2.2	10
123	Place of death and phenomenon of going home to die in Chinese adults: A prospective cohort study. <i>The Lancet Regional Health - Western Pacific</i> , 2022, 18, 100301.	1.3	10
124	Metabolically healthy obesity, transition to unhealthy phenotypes, and type 2 diabetes in 0.5 million Chinese adults: the China Kadoorie Biobank. <i>European Journal of Endocrinology</i> , 2022, 186, 233-244.	1.9	10
125	Blood pressure and cardiovascular diseases in Chinese adults with type 2 diabetes: A prospective cohort study. <i>The Lancet Regional Health - Western Pacific</i> , 2021, 7, 100085.	1.3	9
126	Circulating proteins and risk of pancreatic cancer: a case-subcohort study among Chinese adults. <i>International Journal of Epidemiology</i> , 2022, 51, 817-829.	0.9	9
