

Matheus Koengkan

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/2424295/matheus-koengkan-publications-by-year.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
47	The Impact of Energy Policies on the Energy Efficiency Performance of Residential Properties in Portugal. <i>Energies</i> , 2022 , 15, 802	3.1	4
46	The impact of renewable energy policies on deaths from outdoor and indoor air pollution: Empirical evidence from Latin American and Caribbean countries. <i>Energy</i> , 2022 , 245, 123209	7.9	3
45	The Impact of Battery-Electric Vehicles on Energy Consumption: A Macroeconomic Evidence from 29 European Countries. <i>World Electric Vehicle Journal</i> , 2022 , 13, 36	2.5	3
44	What effect does public and private capital have on income inequality? The case of the Latin America and Caribbean region. <i>Latin American Economic Review</i> , 2022 , 1-30	2.8	1
43	Do financial and fiscal incentive policies increase the energy efficiency ratings in residential properties? A piece of empirical evidence from Portugal. <i>Energy</i> , 2022 , 241, 122895	7.9	9
42	Effect of Battery-Electric and Plug-In Hybrid Electric Vehicles on PM2.5 Emissions in 29 European Countries. <i>Sustainability</i> , 2022 , 14, 2188	3.6	3
41	The Capacity of Battery-Electric and Plug-in Hybrid Electric Vehicles to Mitigate CO2 Emissions: Macroeconomic Evidence from European Union Countries. <i>World Electric Vehicle Journal</i> , 2022 , 13, 58	2.5	3
40	Effect of Battery Electric Vehicles on Greenhouse Gas Emissions in 29 European Union Countries. <i>Sustainability</i> , 2021 , 13, 13611	3.6	9
39	Measuring the economic efficiency performance in Latin American and Caribbean countries: An empirical evidence from stochastic production frontier and data envelopment analysis. <i>International Economics</i> , 2021 , 169, 43-43	3.4	5
38	Does the overweight epidemic cause energy consumption? A piece of empirical evidence from the European region. <i>Energy</i> , 2021 , 216, 119297	7.9	15
37	Exploring the capacity of renewable energy consumption to reduce outdoor air pollution death rate in Latin America and the Caribbean region. <i>Environmental Science and Pollution Research</i> , 2021 , 28, 1656-1674	5.1	37
36	The consequences of energy transition on environmental degradation of Latin America and the Caribbean 2021 , 157-184		2
35	The downward trend in the energy intensity of Latin America and the Caribbean: Is the region's physical capital contributing to this tendency? 2021 , 67-93		1
34	A brief history of physical capital in Latin America and the Caribbean since the 1970s 2021 , 1-17		2
33	Energy transition in the Latin America region: Initiatives and challenges 2021 , 95-116		4
32	The capacity of energy transition to decrease deaths from air pollution: Empirical evidence from Latin America and the Caribbean countries 2021 , 185-205		1
31	The relationship between public capital stock, private capital stock, and economic growth in the Latin American and Caribbean countries: A matter of complementarity 2021 , 19-36		1

30	Is gender inequality an essential driver in explaining environmental degradation? Some empirical answers from the CO2 emissions in European Union countries. <i>Environmental Impact Assessment Review</i> , 2021 , 90, 106619	5.3	4
29	Assessing the advancement of new renewable energy sources in Latin American and Caribbean countries. <i>Energy</i> , 2021 , 237, 121611	7.9	4
28	Concentration hurts: Exploring the effects of capital stock on Latin American and Caribbean income inequality 2021 , 37-65		1
27	The role of public, private, and public-private partnership capital stock on the expansion of renewable energy investment in Latin America and the Caribbean region 2021 , 117-137		1
26	The effect of energy transition on economic growth and consumption of nonrenewable energy sources in countries of Latin America and the Caribbean 2021 , 139-155		2
25	Exploring the effect of the renewable energy transition on CO2 emissions of Latin American & Caribbean countries. <i>International Journal of Sustainable Energy</i> , 2020 , 39, 515-538	2.7	28
24	The interactions between renewable energy consumption and economic growth in the Mercosur countries. <i>International Journal of Sustainable Energy</i> , 2020 , 39, 594-614	2.7	23
23	The relationship between CO2 emissions, renewable and non-renewable energy consumption, economic growth, and urbanisation in the Southern Common Market. <i>Journal of Environmental Economics and Policy</i> , 2020 , 9, 383-401	1.8	27
22	The relationship between public capital stock, private capital stock and economic growth in the Latin American and Caribbean countries. <i>International Review of Economics</i> , 2020 , 67, 293-317	0.7	12
21	Asymmetric impacts of globalisation on CO2 emissions of countries in Latin America and the Caribbean. <i>Environment Systems and Decisions</i> , 2020 , 40, 135-147	4.1	31
20	The role of financial openness and China's income on fossil fuels consumption: fresh evidence from Latin American countries. <i>Geo Journal</i> , 2020 , 85, 407-421	2.2	9
19	Effects of financial openness on renewable energy investments expansion in Latin American countries. <i>Journal of Sustainable Finance and Investment</i> , 2020 , 10, 65-82	3	15
18	Globalisation as a motor of renewable energy development in Latin America countries. <i>Geo Journal</i> , 2020 , 85, 1591-1602	2.2	17
17	Does financial openness cause the intensification of environmental degradation? New evidence from Latin American and Caribbean countries. <i>Environmental Economics and Policy Studies</i> , 2019 , 21, 507-532	2.2	14
16	The relationship between economic growth, consumption of energy, and environmental degradation: renewed evidence from Andean community nations. <i>Environment Systems and Decisions</i> , 2019 , 39, 95-107	4.1	17
15	The effect of fiscal and financial incentive policies for renewable energy on CO2 emissions: the case for the Latin American region 2019 , 141-172		4
14	The relationship between financial openness, renewable and nonrenewable energy consumption, CO2 emissions, and economic growth in the Latin American countries: an approach with a panel vector auto regression model 2019 , 199-229		8
13	The impact of public capital stock on energy consumption: Empirical evidence from Latin America and the Caribbean region. <i>International Economics</i> , 2019 , 160, 43-55	3.4	12

12	THE ENERGY-GROWTH NEXUS WITHIN OIL PRODUCTION AND OIL RENTS CONTEXT 2019 , 21, 161		4
11	The decline of environmental degradation by renewable energy consumption in the MERCOSUR countries: an approach with ARDL modeling. <i>Environment Systems and Decisions</i> , 2018 , 38, 415-425	4.1	27
10	Does financial openness increase environmental degradation? Fresh evidence from MERCOSUR countries. <i>Environmental Science and Pollution Research</i> , 2018 , 25, 30508-30516	5.1	13
9	The positive impact of trade openness on consumption of energy: Fresh evidence from Andean community countries. <i>Energy</i> , 2018 , 158, 936-943	7.9	49
8	Are renewable energy policies upsetting carbon dioxide emissions? The case of Latin America countries. <i>Environmental Science and Pollution Research</i> , 2017 , 24, 15044-15054	5.1	68
7	The Negative Impact of Renewable Energy Consumption on Carbon Dioxide Emissions: An empirical evidence from South American Countries. <i>Revista Brasileira De Energias Renováveis</i> , 2017 , 6,	0.5	3
6	The nexus between energy consumption, economic growth, and urbanization in Latin American and Caribbean countries: An approach with PVAR model. <i>Revista Valore</i> , 2017 , 2, 202-219	0.1	11
5	The Hydroelectricity Consumption and Economic Growth Nexus: A Long Time Span Analysis. <i>Revista Brasileira De Energias Renováveis</i> , 2017 , 6,	0.5	5
4	Do energy efficiency and export quality affect the ecological footprint in emerging countries? A two-step approach using the SBMDEA model and panel quantile regression. <i>Environment Systems and Decisions</i> ,1	4.1	3
3	The Effect of Hydroelectricity Consumption on Environmental Degradation □The Case of South America region. <i>The Academic Society Journal</i> ,46-67	0.1	1
2	The impact of income inequality and economic complexity on ecological footprint: an analysis covering a long-time span. <i>Journal of Environmental Economics and Policy</i> ,1-21	1.8	6
1	Do financial incentive policies for renewable energy development increase the economic growth in Latin American and Caribbean countries?. <i>Journal of Sustainable Finance and Investment</i> ,1-23	3	1
