#	ARTICLE	IF	CITATIONS
1	High Tidal Volumes in Mechanically Ventilated Patients Increase Organ Dysfunction after Cardiac Surgery. <i>Anesthesiology</i> , 2012, 116, 1072-1082.	2.5	230
2	Prevalence of and risk factors for persistent postoperative nonanginal pain after cardiac surgery: a 2-year prospective multicentre study. <i>Cmaj</i> , 2014, 186, E213-E223.	2.0	155
3	Bronchial blocker versus left double-lumen endotracheal tube in video-assisted thoracoscopic surgery: a randomized-controlled trial examining time and quality of lung deflation. <i>Canadian Journal of Anaesthesia</i> , 2016, 63, 818-827.	1.6	62
4	Iatrogenic pulmonary artery rupture. <i>Current Opinion in Anaesthesiology</i> , 2007, 20, 48-52.	2.0	53
5	Step-by-step clinical management of one-lung ventilation: Continuing Professional Development. <i>Canadian Journal of Anaesthesia</i> , 2014, 61, 1103-1121.	1.6	52
6	Perioperative ventilatory strategies in cardiac surgery. <i>Bailliere's Best Practice and Research in Clinical Anaesthesiology</i> , 2015, 29, 381-395.	4.0	31
7	Modified right-sided Broncho-Cath, double lumen tube improves endobronchial positioning: a randomized study. <i>Canadian Journal of Anaesthesia</i> , 2007, 54, 276-282.	1.6	25
8	Influence of Norepinephrine and Phenylephrine on Frontal Lobe Oxygenation During Cardiopulmonary Bypass in Patients with Diabetes. <i>Journal of Cardiothoracic and Vascular Anesthesia</i> , 2014, 28, 608-617.	1.3	19
9	Calculating Ideal Body Weight: Keep It Simple. <i>Anesthesiology</i> , 2017, 127, 203-204.	2.5	17
10	Effect of position and positive pressure ventilation on functional residual capacity in morbidly obese patients: a randomized trial. <i>Canadian Journal of Anaesthesia</i> , 2018, 65, 522-528.	1.6	14
11	Les tubes endotrachéaux à double lumière et les bloqueurs bronchiques présentent une physiologie similaire de collapsus pulmonaire pendant l'isolation pulmonaire. <i>Canadian Journal of Anaesthesia</i> , 2021, 68, 791-800.	1.6	14
12	A customized stylet for GlideScope® insertion of double lumen tubes. <i>Canadian Journal of Anaesthesia</i> , 2012, 59, 424-425.	1.6	13
13	Open or minimally invasive esophagectomy: are the outcomes different?. <i>Current Opinion in Anaesthesiology</i> , 2009, 22, 56-60.	2.0	10
14	Déflation du poumon non ventilé pendant la ventilation unipulmonaire avec un tube endotrachéal à double lumière : une étude randomisée contrôlée de l'occlusion de la lumière endobronchique du poumon non ventilé avant l'ouverture pleurale. <i>Canadian Journal of Anaesthesia</i> , 2021, 68, 801-811.	1.6	8
15	Right upper lobe anatomy revisited: a computed tomography scan study. <i>Canadian Journal of Anaesthesia</i> , 2019, 66, 813-819.	1.6	7
16	Correct positioning of double-lumen tubes. <i>Canadian Journal of Anaesthesia</i> , 2012, 59, 431-436.	1.6	5
17	Optimizing Lung Collapse With a Bronchial Blocker: It's Not What You Use, but How You Use It, Part II. <i>Journal of Cardiothoracic and Vascular Anesthesia</i> , 2019, 33, 255.	1.3	5
18	Unusual Cause of Life-Threatening Hemoptysis During Cardiac Operation: Surgical Management Revisited. <i>Annals of Thoracic Surgery</i> , 2017, 104, e251-e252.	1.3	4

#	ARTICLE	IF	CITATIONS
19	In reply: The need to better understand the physiology of lung collapse during one-lung ventilation. Canadian Journal of Anaesthesia, 2021, 68, 1454-1455.	1.6	4
20	Guidewire localization with transesophageal echocardiography: do not forget the left side. Canadian Journal of Anaesthesia, 2012, 59, 811-812.	1.6	3
21	Lung re-inflation after one-lung ventilation for thoracic surgery: an alternative technique. Canadian Journal of Anaesthesia, 2015, 62, 424-426.	1.6	2
22	Avoidable tracheal injury using a double-lumen endotracheal tube: a case report. Canadian Journal of Anaesthesia, 2018, 65, 735-736.	1.6	2
23	The Evidence Base Surrounding Lung Isolation Often Is Wider Than Described. Journal of Cardiothoracic and Vascular Anesthesia, 2018, 32, e13.	1.3	1
24	Does every obese sleep apnea patients need CPAP treatment before bariatric surgery: Results of a validation study. Canadian Journal of Respiratory, Critical Care, and Sleep Medicine, 2020, 4, 266-271.	0.5	1
25	Use of a second ventilatory circuit when using a double-lumen endotracheal tube. Canadian Journal of Anaesthesia, 2020, 67, 1114-1115.	1.6	1
26	Granulocyte Macrophage Colony-Stimulating Factor and whole lung lavage for pulmonary alveolar proteinosis: A synergistic effect?. Canadian Journal of Respiratory, Critical Care, and Sleep Medicine, 0, 1-7.	0.5	1
27	A call to Mallinckrodt for a modified right-sided Broncho-Cathâ,ç double lumen tube. Canadian Journal of Anaesthesia, 2007, 54, 1029-1030.	1.6	0
28	Guide for bougie as an adjunct for an anterior larynx. Canadian Journal of Anaesthesia, 2014, 61, 963-964.	1.6	0
29	Prise en charge de la douleur postopÃ©ratoire en chirurgie cardiaque. Praticien En Anesthésie Réanimation, 2014, 18, 325-332.	0.0	0
30	Safe and effective positioning of a left-sided double-lumen tube. Canadian Journal of Anaesthesia, 2015, 62, 1224-1224.	1.6	0
31	Massive Hemoptysis. , 2019, , 733-745.		0
32	In reply: Effect of respiratory changes in tracheal length on computed tomographic study of bronchial anatomy. Canadian Journal of Anaesthesia, 2020, 67, 266-267.	1.6	0
33	In reply: Non-ventilated lung airway occlusion during one-lung ventilation: a need for further research?. Canadian Journal of Anaesthesia, 2021, 68, 1458-1459.	1.6	0
34	An innovative template to ensure reliable rigid intubation stylet shape: a prospective comparative study. Canadian Journal of Anaesthesia, 2022, , 1.	1.6	0
