#	ARTICLE	IF	CITATIONS
1	Objectively measured light-intensity lifestyle activity and sedentary time are independently associated with metabolic syndrome: a cross-sectional study of Japanese adults. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2013, 10, 30.	4.6	107
2	Association between physical activity and metabolic syndrome in middle-aged Japanese: a cross-sectional study. <i>BMC Public Health</i> , 2011, 11, 624.	2.9	77
3	Estimation of whole-body skeletal muscle mass by bioelectrical impedance analysis in the standing position. <i>Obesity Research and Clinical Practice</i> , 2010, 4, e1-e7.	1.8	36
4	Lifestyle-Based Physical Activity Intervention for One Year Improves Metabolic Syndrome in Overweight Male Employees. <i>Tohoku Journal of Experimental Medicine</i> , 2013, 229, 11-17.	1.2	30
5	The effects of <i>Lactobacillus pentosus</i> strain b240 and appropriate physical training on salivary secretory IgA levels in elderly adults with low physical fitness: a randomized, double-blind, placebo-controlled trial. <i>Journal of Clinical Biochemistry and Nutrition</i> , 2014, 54, 61-66.	1.4	21
6	Effects of a Lifestyle-Based Physical Activity Intervention on Medical Expenditure in Japanese Adults: A Community-Based Retrospective Study. <i>BioMed Research International</i> , 2016, 2016, 1-6.	1.9	12
7	Relationship between thigh intermuscular adipose tissue accumulation and number of metabolic syndrome risk factors in middle-aged and older Japanese adults. <i>Experimental Gerontology</i> , 2016, 79, 26-30.	2.8	11
8	Effects of daily walking on intermuscular adipose tissue accumulation with age: a 5-year follow-up of participants in a lifestyle-based daily walking program. <i>European Journal of Applied Physiology</i> , 2018, 118, 785-793.	2.5	8
9	Daily steps and healthcare costs in Japanese communities. <i>Scientific Reports</i> , 2021, 11, 15095.	3.3	4
10	Effect of Urban Area Size and Commuting Modes on Physical Activity among working people who took part in health guidance. <i>Japanese Journal of Physical Fitness and Sports Medicine</i> , 2012, 61, 383-392.	0.0	1
11	Study on the Effects of Muscle Training by Community Inhabitants on Medical Economy. <i>International Journal of Sport and Health Science</i> , 2006, 4, 606-616.	0.2	0
12	Development of a Physical Fitness Estimation Method for Middle-aged and Elderly Persons Using Computerized Adaptive Testing. <i>International Journal of Sport and Health Science</i> , 2008, 6, 238-250.	0.2	0
