#	ARTICLE	IF	CITATIONS
1	Use of yellow mealworm (<i>Tenebrio molitor</i>) as a protein source on growth performance, carcass traits, meat quality and intestinal morphology of Japanese quails (<i>Coturnix japonica</i>). <i>Veterinary and Animal Science</i> , 2019, 8, 100066.	1.5	26
2	Evaluation of thyme and ajwain as antibiotic growth promoter substitutions on growth performance, carcass characteristics and serum biochemistry in Japanese quails (<i>Coturnix japonica</i>). <i>Animal Nutrition</i> , 2018, 4, 79-83.	5.1	17
3	Effect of different lysine levels on Arian broiler performances. <i>Italian Journal of Animal Science</i> , 2011, 10, e32.	1.9	16
4	Effect of different levels of lysine and threonine on carcass characteristics, intestinal microflora and growth performance of broiler chicks. <i>Italian Journal of Animal Science</i> , 2017, 16, 580-587.	1.9	14
5	Evaluation of cottonseed bioactive peptides on growth performance, carcass traits, immunity, total antioxidant activity of serum and intestinal morphology in broiler chickens. <i>Italian Journal of Animal Science</i> , 2020, 19, 1375-1386.	1.9	14
6	Effects of periodical application of bioactive peptides derived from cottonseed on performance, immunity, total antioxidant activity of serum and intestinal development of broilers. <i>Animal Nutrition</i> , 2021, 7, 134-141.	5.1	11
7	Productive performance, egg-related indices, blood profiles, and interferon- γ gene expression of laying Japanese quails fed on <i>Tenebrio molitor</i> larva meal as a replacement for fish meal. <i>Italian Journal of Animal Science</i> , 2020, 19, 274-281.	1.9	10
8	Growth Performance, Intestinal Morphology, Serum Biochemical and Hematological Parameters in Japanese quail (<i>Coturnix japonica</i>) Fed Supplemental L-Arginine. <i>Brazilian Journal of Poultry Science</i> , 2020, 22, .	0.7	2
9	EFFECT OF POULTRY FEED SUPPLEMENTED WITH HYPERICUM PERFORATUM EXTRACT AND VIRGINIAMYCINE ON GROWTH PERFORMANCE, SOME IMMUNE RESPONSES AND INTESTINAL MICROBIAL POPULATION OF BROILERS. <i>Russian Journal of Agricultural and Socio-Economic Sciences</i> , 2014, 36, 27-33.	0.1	1
10	Evaluation of cottonseed bioactive peptides supplementation on performance, egg quality, and total antioxidant activity of serum in laying hens. <i>Bulletin of the National Research Centre</i> , 2021, 45, .	1.8	1
11	The effects of 1 α (OH)D ₃ individually or in combination with phytase, and different levels of cholecalciferol on performance, tibia criteria, and plasma minerals of Japanese quails. <i>Acta Scientiarum - Animal Sciences</i> , 0, 44, e54218.	0.3	0
