

Jakob Lykke Poulsen

List of Publications by Citations

Source: <https://exaly.com/author-pdf/2515130/jakob-lykke-poulsen-publications-by-citations.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
27	Pain and chronic pancreatitis: a complex interplay of multiple mechanisms. <i>World Journal of Gastroenterology</i> , 2013 , 19, 7282-91	5.6	60
26	Evolving paradigms in the treatment of opioid-induced bowel dysfunction. <i>Therapeutic Advances in Gastroenterology</i> , 2015 , 8, 360-72	4.7	42
25	The Impact of Opioid Treatment on Regional Gastrointestinal Transit. <i>Journal of Neurogastroenterology and Motility</i> , 2016 , 22, 282-91	4.4	37
24	A novel semi-automatic segmentation method for volumetric assessment of the colon based on magnetic resonance imaging. <i>Abdominal Imaging</i> , 2015 , 40, 2232-41		34
23	The prevalence of underweight is increased in chronic pancreatitis outpatients and associates with reduced life quality. <i>Nutrition</i> , 2017 , 43-44, 1-7	4.8	25
22	Ambulatory assessment of colonic motility using the electromagnetic capsule tracking system. <i>Neurogastroenterology and Motility</i> , 2019 , 31, e13451	4	24
21	Opioid-induced bowel dysfunction in healthy volunteers assessed with questionnaires and MRI. <i>European Journal of Gastroenterology and Hepatology</i> , 2016 , 28, 514-24	2.2	23
20	The Scandinavian baltic pancreatic club (SBPC) database: design, rationale and characterisation of the study cohort. <i>Scandinavian Journal of Gastroenterology</i> , 2017 , 52, 909-915	2.4	22
19	Clinical potential of naloxegol in the management of opioid-induced bowel dysfunction. <i>Clinical and Experimental Gastroenterology</i> , 2014 , 7, 345-58	3.1	22
18	Chronic Pancreatitis Is Characterized by Distinct Complication Clusters That Associate With Etiological Risk Factors. <i>American Journal of Gastroenterology</i> , 2019 , 114, 656-664	0.7	21
17	Opioid treatment and hypoalbuminemia are associated with increased hospitalisation rates in chronic pancreatitis outpatients. <i>Pancreatology</i> , 2016 , 16, 807-13	3.8	18
16	Normative values for region-specific colonic and gastrointestinal transit times in 111 healthy volunteers using the 3D-Transit electromagnet tracking system: Influence of age, gender, and body mass index. <i>Neurogastroenterology and Motility</i> , 2020 , 32, e13734	4	17
15	Colorectal Transit and Volume During Treatment With Prolonged-release Oxycodone/Naloxone Versus Oxycodone Plus Macrogol 3350. <i>Journal of Neurogastroenterology and Motility</i> , 2018 , 24, 119-127	4.4	16
14	MRI assessed pancreatic morphology and exocrine function are associated with disease burden in chronic pancreatitis. <i>European Journal of Gastroenterology and Hepatology</i> , 2017 , 29, 1269-1275	2.2	12
13	The impact of naloxegol on anal sphincter function - Using a human experimental model of opioid-induced bowel dysfunction. <i>European Journal of Pharmaceutical Sciences</i> , 2018 , 117, 187-192	5.1	11
12	Study protocol for a randomised, double-blinded, placebo-controlled, clinical trial of S-ketamine for pain treatment in patients with chronic pancreatitis (RESET trial). <i>BMJ Open</i> , 2015 , 5, e007087	3	11
11	Prolonged-Release Oxycodone/Naloxone Improves Anal Sphincter Relaxation Compared to Oxycodone Plus Macrogol 3350. <i>Digestive Diseases and Sciences</i> , 2017 , 62, 3156-3166	4	9

10	Multiple risk factors for diabetes mellitus in patients with chronic pancreatitis: A multicentre study of 1117 cases. <i>United European Gastroenterology Journal</i> , 2020 , 8, 453-461	5.3	8
9	Pancreas-specific plasma amylase for assessment and diagnosis of chronic pancreatitis: New insights on an old topic. <i>United European Gastroenterology Journal</i> , 2019 , 7, 955-964	5.3	7
8	Pancreatic exocrine insufficiency in diabetes mellitus - prevalence and characteristics. <i>European Journal of Internal Medicine</i> , 2019 , 68, 18-22	3.9	7
7	PrescrAIP: A Pan-European Study on Current Treatment Regimens of Auto-Immune Pancreatitis. <i>Frontiers in Medicine</i> , 2020 , 7, 408	4.9	6
6	Normative values for gastric motility assessed with the 3D-transit electromagnetic tracking system. <i>Neurogastroenterology and Motility</i> , 2020 , 32, e13829	4	5
5	Ambulatory assessment of colonic motility using the electromagnetic capsule tracking system: Effect of opioids. <i>Neurogastroenterology and Motility</i> , 2020 , 32, e13753	4	4
4	Short-term oxycodone treatment does not affect electrogenic ion transport in isolated mucosa from the human rectosigmoid colon. <i>Scandinavian Journal of Gastroenterology</i> , 2016 , 51, 538-47	2.4	1
3	Oxycodone and macrogol 3350 treatment reduces anal sphincter relaxation compared to combined oxycodone and naloxone tablets. <i>Scandinavian Journal of Pain</i> , 2017 , 16, 179-179	1.9	
2	The Pathogenesis of Chronic Pancreatitis 2017 , 29-62		
1	Wegener's granulomatosis in a young patient preceded by localized cutaneous manifestations. <i>Dermatology Reports</i> , 2011 , 3, e44	0.9
