#	ARTICLE	IF	CITATIONS
1	Practices to support relational coordination in care transitions: Observations from the VA rural Transitions Nurse Program. <i>Health Care Management Review</i> , 2022, 47, 109-114.	0.6	12
2	Sustainment stories: a qualitative analysis of barriers to sustainment of the National Rural Transitions of Care Nurse Program. <i>BMC Health Services Research</i> , 2022, 22, 119.	0.9	0
3	Effectiveness of the rural transitions nurse program for Veterans: A multicenter implementation study. <i>Journal of Hospital Medicine</i> , 2022, 17, 149-157.	0.7	12
4	Learning environments, reliability enhancing work practices, employee engagement, and safety climate in <scp>VA</scp> cardiac catheterization laboratories. <i>Health Services Research</i> , 2022, 57, 385-391.	1.0	7
5	Recruitment and hiring practices in United States infection prevention and control departments: Results of a national survey. <i>American Journal of Infection Control</i> , 2021, 49, 70-74.	1.1	10
6	A pilot study to assess the learning environment and use of reliability enhancing work practices in <scp>VHA</scp> cardiac catheterization laboratories. <i>Learning Health Systems</i> , 2021, 5, e10227.	1.1	5
7	Training registered nurses to conduct pre-implementation assessment to inform program scale-up: an example from the rural Transitions Nurse Program. <i>Implementation Science Communications</i> , 2021, 2, 28.	0.8	6
8	Challenges and opportunities in recruiting, hiring and training infection preventionists across facility settings. <i>American Journal of Infection Control</i> , 2021, 49, 973-977.	1.1	6
9	The Impacts of COVID-19 on Veterans Affairs Catheterization Laboratory Staff During the First Months of the US Response. <i>Journal of Cardiovascular Nursing</i> , 2021, Publish Ahead of Print, 595-598.	0.6	3
10	Infection preventionist retention and professional development strategies: Insights from a national survey. <i>American Journal of Infection Control</i> , 2021, 49, 960-962.	1.1	7
11	Understanding adaptations in the Veteran Health Administration's Transitions Nurse Program: refining methodology and pragmatic implications for scale-up. <i>Implementation Science</i> , 2021, 16, 71.	2.5	17
12	Assessing the impact of remote work during COVID-19 on clinical and translational scientists and staff in Colorado. <i>Journal of Clinical and Translational Science</i> , 2021, 5, e71.	0.3	7
13	Increasing enrolment in a national VA transitions of care programme: a pre- and post evaluation of a data dashboard and nudge-based intervention. <i>BMJ Health and Care Informatics</i> , 2021, 28, e100416.	1.4	0
14	Psychological safety and infection prevention practices: Results from a national survey. <i>American Journal of Infection Control</i> , 2020, 48, 2-6.	1.1	16
15	Mapping the reach of a rural Transitions Nurse Program for veterans with geographic information systems. <i>Implementation Science Communications</i> , 2020, 1, 36.	0.8	4
16	Using the Practical, Robust Implementation and Sustainability Model (PRISM) to qualitatively assess multilevel contextual factors to help plan, implement, evaluate, and disseminate health services programs. <i>Translational Behavioral Medicine</i> , 2019, 9, 1002-1011.	1.2	110
17	Operationalizing an Implementation Framework to Disseminate a Care Coordination Program for Rural Veterans. <i>Journal of General Internal Medicine</i> , 2019, 34, 58-66.	1.3	20
18	Practical Use of Process Mapping to Guide Implementation of a Care Coordination Program for Rural Veterans. <i>Journal of General Internal Medicine</i> , 2019, 34, 67-74.	1.3	19

#	ARTICLE	IF	CITATIONS
19	International responses to the 2015 APIC MegaSurvey. American Journal of Infection Control, 2019, 47, 729-731.	1.1	0
20	Dissemination and implementation science for infection prevention: A primer. American Journal of Infection Control, 2019, 47, 688-692.	1.1	11
21	Brainwriting Premortem. Journal of Nursing Care Quality, 2019, 34, 94-100.	0.5	23
22	Does nurse job satisfaction influence adherence to the central line insertion checklist and central line-associated bloodstream infections in the Veterans Health Administration?. American Journal of Infection Control, 2018, 46, 587-589.	1.1	3
23	Relationship Between Psychological Safety and Reporting Nonadherence to a Safety Checklist. Journal of Nursing Care Quality, 2018, 33, 53-60.	0.5	12
24	Infection prevention staffing and resources in U.S. acute care hospitals: Results from the APIC MegaSurvey. American Journal of Infection Control, 2018, 46, 852-857.	1.1	25
25	Factors affecting annual compensation and professional development support for infection preventionists: Implications for recruitment and retention. American Journal of Infection Control, 2018, 46, 865-869.	1.1	4
26	Pilot randomised controlled trial to improve hand hygiene through mindful moments. BMJ Quality and Safety, 2018, 27, 799-806.	1.8	13
27	Infection prevention workforce: Potential benefits to educational diversity. American Journal of Infection Control, 2017, 45, 603-606.	1.1	19
28	Brief Mindfulness Practices for Healthcare Providers – A Systematic Literature Review. American Journal of Medicine, 2017, 130, 1219.e1-1219.e17.	0.6	137
29	Journal Club: Commentary on “Risk factors for MRSA colonization in the neonatal ICU: A systematic review and meta-analysis”. American Journal of Infection Control, 2017, 45, 1405-1406.	1.1	2
30	Implementation and dissemination of a transition of care program for rural veterans: a controlled before and after study. Implementation Science, 2017, 12, 123.	2.5	30
31	Capturing the Central Line Bundle Infection Prevention Interventions. Nursing Research, 2016, 65, 397-407.	0.8	4
32	Testing the Quality Health Outcomes Model Applied to Infection Prevention in Hospitals. Quality Management in Health Care, 2016, 25, 149-161.	0.4	4
33	Use hand cleaning to prompt mindfulness in clinic. BMJ, The, 2016, 352, i13.	3.0	8
34	Confirmation of the Validity of the Relational Coordination Survey as a Measure of the Work Environment in a National Sample of Infection Preventionists. Journal of Nursing Measurement, 2015, 23, 379-392.	0.2	11
35	Improving School Immunization Rates May Be As Basic As Record Reconciliation and Policy Enforcement. Journal of Public Health Management and Practice, 2015, 21, 269-272.	0.7	0
36	Infection prevention needs assessment in Colorado hospitals: Rural and urban settings. American Journal of Infection Control, 2014, 42, 597-601.	1.1	19

#	ARTICLE	IF	CITATIONS
37	Assessment of the quality of publicly reported central line-associated bloodstream infection data in Colorado, 2010. <i>American Journal of Infection Control</i> , 2013, 41, 874-879.	1.1	16
38	The CLEAN TEAM: A Collaboration to Bring Infection Prevention Practices to Eagle County Elementary Schools. <i>American Journal of Infection Control</i> , 2013, 41, S75.	1.1	0
39	Simulation to the Rescue! Caring for a Pediatric Patient in the Rural Setting. <i>Journal for Nurses in Professional Development</i> , 2013, 29, 197-201.	0.1	1
40	Isolation: A Concept Analysis. <i>Nursing Forum</i> , 2013, 48, 54-60.	1.0	24
41	Statewide Collaboration to Evaluate the Effects of Blood Loss and Transfusion on Surgical Site Infection after Hysterectomy. <i>Infection Control and Hospital Epidemiology</i> , 2012, 33, 90-93.	1.0	11
42	Indwelling urinary catheter management and catheter-associated urinary tract infection prevention practices in Nurses Improving Care for Healthsystem Elders hospitals. <i>American Journal of Infection Control</i> , 2012, 40, 715-720.	1.1	62
43	Indwelling Urinary Catheter Care Practices at Nursing Improving Care for Healthsystem Elders (NICHE) Hospital. <i>American Journal of Infection Control</i> , 2011, 39, E34.	1.1	0
44	Marketing Infection Prevention at a Small Colorado Hospital: Staff Beliefs and Motivations. <i>American Journal of Infection Control</i> , 2011, 39, E87-E88.	1.1	0
45	Education Methods for Maintaining Nursing Competency in Low-Volume, High-Risk Procedures in the Rural Setting. <i>Journal for Nurses in Staff Development</i> , 2010, 26, E1-E7.	0.5	15
46	Provider-Pharmacist Education and Adherence Rates for the Oral Typhoid Vaccine: A Pilot Study. <i>Journal of Travel Medicine</i> , 2005, 12, 113-114.	1.4	4
