#	ARTICLE	IF	CITATIONS
1	Social inequality in perceived environmental exposures in relation to housing conditions in Germany. <i>Environmental Research</i> , 2006, 101, 246-255.	3.7	137
2	Environmental inequalities among children in Europe—evaluation of scientific evidence and policy implications. <i>European Journal of Public Health</i> , 2010, 20, 14-20.	0.1	121
3	Interactive and Independent Associations between the Socioeconomic and Objective Built Environment on the Neighbourhood Level and Individual Health: A Systematic Review of Multilevel Studies. <i>PLoS ONE</i> , 2015, 10, e0123456.	1.1	100
4	Socioeconomic determinants of children's environmental tobacco smoke exposure and family's home smoking policy. <i>European Journal of Public Health</i> , 2008, 19, 52-58.	0.1	94
5	Impact of universal interventions on social inequalities in physical activity among older adults: an equity-focused systematic review. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2017, 14, 20.	2.0	82
6	Social Inequalities in Exposure to Ambient Air Pollution: A Systematic Review in the WHO European Region. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 3127.	1.2	77
7	Social Inequalities in Environmental Resources of Green and Blue Spaces: A Review of Evidence in the WHO European Region. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 1216.	1.2	77
8	Relationship between neighbourhood socioeconomic position and neighbourhood public green space availability: An environmental inequality analysis in a large German city applying generalized linear models. <i>International Journal of Hygiene and Environmental Health</i> , 2017, 220, 711-718.	2.1	69
9	Increased health risks of children with single mothers: the impact of socio-economic and environmental factors. <i>European Journal of Public Health</i> , 2013, 23, 469-475.	0.1	64
10	Intersectionality-based quantitative health research and sex/gender sensitivity: a scoping review. <i>International Journal for Equity in Health</i> , 2019, 18, 199.	1.5	61
11	Environmental noise and incident mental health problems: A prospective cohort study among school children in Germany. <i>Environmental Research</i> , 2015, 143, 49-54.	3.7	58
12	Mapping Environmental Inequalities Relevant for Health for Informing Urban Planning Interventions—A Case Study in the City of Dortmund, Germany. <i>International Journal of Environmental Research and Public Health</i> , 2016, 13, 711.	1.2	58
13	Social Inequalities in Environmental Noise Exposure: A Review of Evidence in the WHO European Region. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 1011.	1.2	52
14	Sex/Gender Differences in the Association between Residential Green Space and Self-Rated Health—A Sex/Gender-Focused Systematic Review. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 4818.	1.2	50
15	How to Tackle Key Challenges in the Promotion of Physical Activity among Older Adults (65+): The AEQUIPA Network Approach. <i>International Journal of Environmental Research and Public Health</i> , 2017, 14, 379.	1.2	49
16	Material, psychosocial and sociodemographic determinants are associated with positive mental health in Europe: a cross-sectional study. <i>BMJ Open</i> , 2014, 4, e005095.	0.8	35
17	Determinants of inadequate parental sun protection behaviour in their children — Results of a cross-sectional study in Germany. <i>International Journal of Hygiene and Environmental Health</i> , 2014, 217, 363-369.	2.1	34
18	Neighbourhood socioeconomic context, individual socioeconomic position, and overweight in young children: a multilevel study in a large German city. <i>BMC Obesity</i> , 2016, 3, 25.	3.1	33

#	ARTICLE	IF	CITATIONS
19	Association of sociodemographic and environmental factors with the mental health status among preschool children—Results from a cross-sectional study in Bavaria, Germany. <i>International Journal of Hygiene and Environmental Health</i> , 2016, 219, 458-467.	2.1	31
20	Built and socioeconomic neighbourhood environments and overweight in preschool aged children. A multilevel study to disentangle individual and contextual relationships. <i>Environmental Research</i> , 2016, 150, 328-336.	3.7	25
21	Impact of public smoking bans on children’s exposure to tobacco smoke at home: a systematic review and meta-analysis. <i>BMC Public Health</i> , 2018, 18, 749.	1.2	24
22	Integrating Sex/Gender into Environmental Health Research: Development of a Conceptual Framework. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 12118.	1.2	24
23	Do perceived job insecurity and annoyance due to air and noise pollution predict incident self-rated poor health? A prospective analysis of independent and joint associations using a German national representative cohort study. <i>BMJ Open</i> , 2017, 7, e012815.	0.8	18
24	Walking for Transport among Older Adults: A Cross-Sectional Study on the Role of the Built Environment in Less Densely Populated Areas in Northern Germany. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 9479.	1.2	18
25	Gender inequalities in mental wellbeing in 26 European countries: do welfare regimes matter?. <i>European Journal of Public Health</i> , 2016, 26, 872-876.	0.1	17
26	Home as a Place of Noise Control for the Elderly? A Cross-Sectional Study on Potential Mediating Effects and Associations between Road Traffic Noise Exposure, Access to a Quiet Side, Dwelling-Related Green and Noise Annoyance. <i>International Journal of Environmental Research and Public Health</i> , 2018, 15, 1036.	1.2	16
27	Intersectionality and eco-social theory: a review of potentials for public health knowledge and social justice. <i>Critical Public Health</i> , 2023, 33, 125-134.	1.4	15
28	The Operationalisation of Sex and Gender in Quantitative Health-Related Research: A Scoping Review. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 7493.	1.2	15
29	Geschlecht in der Public-Health-Forschung zu gesundheitlichen Ungleichheiten: Potenziale und Begrenzungen des Intersektionalitätsansatzes. <i>Gender</i> , 2015, 7, 51-67.	0.2	13
30	Early environmental quality and life-course mental health effects: The Equal-Life project. <i>Environmental Epidemiology</i> , 2022, 6, e183.	1.4	13
31	No further increase in the parent reported prevalence of allergies in Bavarian preschool children: Results from three cross-sectional studies. <i>International Journal of Hygiene and Environmental Health</i> , 2016, 219, 343-348.	2.1	12
32	Relations between Objective and Perceived Built Environments and the Modifying Role of Individual Socioeconomic Position. A Cross-Sectional Study on Traffic Noise and Urban Green Space in a Large German City. <i>International Journal of Environmental Research and Public Health</i> , 2018, 15, 1562.	1.2	12
33	Social determinants of older adults’ urban design preference: a cross-sectional study. <i>Cities and Health</i> , 2022, 6, 360-374.	1.6	12
34	Cognitive-Motivational Determinants of Residents’ Civic Engagement and Health (Inequities) in the Context of Noise Action Planning: A Conceptual Model. <i>International Journal of Environmental Research and Public Health</i> , 2017, 14, 578.	1.2	11
35	Urban road traffic noise and noise annoyance—a study on perceived noise control and its value among the elderly. <i>European Journal of Public Health</i> , 2019, 29, 377-379.	0.1	11
36	CART-analysis embedded in social theory: A case study comparing quantitative data analysis strategies for intersectionality-based public health monitoring within and beyond the binaries. <i>SSM - Population Health</i> , 2021, 13, 100722.	1.3	11

#	ARTICLE	IF	CITATIONS
37	Intersectoral collaboration of public health and urban planning for promotion of mobility and healthy ageing: protocol of the AFOOT project. <i>Cities and Health</i> , 2017, 1, 83-88.	1.6	10
38	Equity Impact Assessment of Interventions to Promote Physical Activity among Older Adults: A Logic Model Framework. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 420.	1.2	9
39	Practice of reporting social characteristics when describing representativeness of epidemiological cohort studies – A rationale for an intersectional perspective. <i>SSM - Population Health</i> , 2020, 11, 100617.	1.3	8
40	Barriers, Facilitating Factors, and Intersectoral Collaboration for Promoting Active Mobility for Healthy Aging – A Qualitative Study within Local Government in Germany. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 3807.	1.2	8
41	Soziale Ungleichheit bei umweltbezogener Gesundheit: Erklärungsansätze aus umweltepidemiologischer Perspektive. , 2009, , 99-116.		8
42	Classification tree analysis for an intersectionality-informed identification of population groups with non-daily vegetable intake. <i>BMC Public Health</i> , 2021, 21, 2007.	1.2	7
43	The relationship between perceived built environment and cycling or e-biking for transport among older adults – a cross-sectional study. <i>PLoS ONE</i> , 2022, 17, e0267314.	1.1	7
44	Children’s exposure to second-hand smoke before and after the smoking ban in Bavaria – a multiple cross-sectional study. <i>European Journal of Public Health</i> , 2016, 26, 969-974.	0.1	6
45	Equity-Specific Effects of Interventions to Promote Physical Activity among Middle-Aged and Older Adults: Development of a Collaborative Equity-Specific Re-Analysis Strategy. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 3195.	1.2	6
46	Socioeconomic status and change in sports activity among middle-aged and older men and women: evidence from the German Ageing Survey. <i>Journal of Public Health</i> , 2019, 41, 689-699.	1.0	6
47	Impact of Public Smoking Bans on Social Inequalities in Children’s Exposure to Tobacco Smoke at Home: An Equity-Focused Systematic Review. <i>Nicotine and Tobacco Research</i> , 2019, 21, 1462-1472.	1.4	5
48	Is older residents’ exposure to road traffic noise associated with civic engagement for noise protection? A cross-sectional path analysis. <i>Journal of Transport and Health</i> , 2021, 20, 101007.	1.1	5
49	Considering “non-acoustic factors” as social and environmental determinants of health equity and environmental justice. Reflections on research and fields of action towards a vision for environmental noise policies. <i>Transportation Research Interdisciplinary Perspectives</i> , 2021, 11, 100445.	1.6	5
50	Equity impact of interventions to promote physical activity in older adults: protocol for a systematic review. <i>Systematic Reviews</i> , 2016, 5, 17.	2.5	4
51	Gender inequalities in the association between area deprivation and perceived social support: a cross-sectional multilevel analysis at the municipality level in Germany. <i>BMJ Open</i> , 2018, 8, e019973.	0.8	4
52	Moving noise action planning towards more environmental health equity. Five propositions. <i>Cities and Health</i> , 0, , 1-9.	1.6	4
53	Equity-specific effects of interventions to promote physical activity among middle-aged and older adults: results from applying a novel equity-specific re-analysis strategy. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2021, 18, 65.	2.0	4
54	Social Inequalities in the Association between Social Infrastructure and Mental Health: An Observational Cross-Sectional Analysis of Children and Adolescents in Germany. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 6760.	1.2	4

#	ARTICLE	IF	CITATIONS
55	Exploring Environmental Health Inequalities: A Scientometric Analysis of Global Research Trends (1970â€“2020). International Journal of Environmental Research and Public Health, 2022, 19, 7394.	1.2	4
56	Decision Tree Analyses to Explore the Relevance of Multiple Sex/Gender Dimensions for the Exposure to Green Spaces: Results from the KORA INGER Study. International Journal of Environmental Research and Public Health, 2022, 19, 7476.	1.2	4
57	Equity impacts of interventions to increase physical activity among older adults: a quantitative health impact assessment. International Journal of Behavioral Nutrition and Physical Activity, 2020, 17, 103.	2.0	3
58	Destinations fostering older adultsâ€™ walking for transport: a cross-sectional study from Germany. BMC Geriatrics, 2022, 22, 219.	1.1	3
59	Measuring Environmental Justice in Real Time: A Pilot Study Using Digital Participatory Method in the Global South, Nepal. International Journal of Environmental Research and Public Health, 2022, 19, 4752.	1.2	2
60	Welchen Beitrag kann sozialepidemiologische Forschung fÃ¼r eine gesundheitsfÃ¶rdernde Stadtentwicklung leisten?. Public Health Forum, 2016, 24, 265-268.	0.1	0
