#	Paper	IF	Citations
183	Rationale and principles of early rehabilitation care after an acute injury or illness. <i>Disability and Rehabilitation</i> , 2005 , 27, 353-9	2.4	107
182	ICF Core Sets development for the acute hospital and early post-acute rehabilitation facilities. <i>Disability and Rehabilitation</i> , 2005 , 27, 361-6	2.4	101
181	Incidence and risk factors of respiratory syncytial virus-related hospitalizations in premature infants in Germany. <i>European Journal of Pediatrics</i> , 2003 , 162, 230-6	4.1	90
180	ICF Core Set for patients with neurological conditions in early post-acute rehabilitation facilities. <i>Disability and Rehabilitation</i> , 2005 , 27, 389-95	2.4	72
179	Health services utilization of patients with vertigo in primary care: a retrospective cohort study. <i>Journal of Neurology</i> , 2014 , 261, 1492-8	5.5	68
178	Rehabilitation outcome of anoxic-ischaemic encephalopathy survivors with prolonged disorders of consciousness. <i>Resuscitation</i> , 2013 , 84, 1409-15	4	67
177	Burden of disability attributable to vertigo and dizziness in the aged: results from the KORA-Age study. <i>European Journal of Public Health</i> , 2014 , 24, 802-7	2.1	66
176	Economic evaluation of possible prevention of RSV-related hospitalizations in premature infants in Germany. <i>European Journal of Pediatrics</i> , 2003 , 162, 237-44	4.1	56
175	ICF Core Set for patients with neurological conditions in the acute hospital. <i>Disability and Rehabilitation</i> , 2005 , 27, 367-73	2.4	55
174	Down on heights? One in three has visual height intolerance. <i>Journal of Neurology</i> , 2013 , 260, 597-604	5.5	53
173	How much does it hurt to be lonely? Mental and physical differences between older men and women in the KORA-Age Study. <i>International Journal of Geriatric Psychiatry</i> , 2014 , 29, 245-52	3.9	52
172	ICF Core Set for geriatric patients in early post-acute rehabilitation facilities. <i>Disability and Rehabilitation</i> , 2005 , 27, 411-7	2.4	50
171	Association between sleep disturbances and falls among the elderly: results from the German Cooperative Health Research in the Region of Augsburg-Age study. <i>Sleep Medicine</i> , 2013 , 14, 1356-63	4.6	46
170	Gender differences in the association between grip strength and mortality in older adults: results from the KORA-age study. <i>BMC Geriatrics</i> , 2016 , 16, 201	4.1	46
169	Patient goals in post-acute geriatric rehabilitation--goal attainment is an indicator for improved functioning. <i>Journal of Rehabilitation Medicine</i> , 2011 , 43, 156-61	3.4	43
168	Systematic review of measures and their concepts used in published studies focusing on rehabilitation in the acute hospital and in early post-acute rehabilitation facilities. <i>Disability and Rehabilitation</i> , 2005 , 27, 419-29	2.4	43
167	Scales could be developed based on simple clinical ratings of International Classification of Functioning, Disability and Health Core Set categories. <i>Journal of Clinical Epidemiology</i> , 2009 , 62, 891-8	5.7	42

166	Persistent vegetative state and minimally conscious state: a systematic review and meta-analysis of diagnostic procedures. <i>Deutsches A&#x0308;rzteblatt International</i> , 2015 , 112, 235-42	2.5	40
165	Health outcome after major trauma: what are we measuring?. <i>PLoS ONE</i> , 2014 , 9, e103082	3.7	38
164	Description of spatio-temporal gait parameters in elderly people and their association with history of falls: results of the population-based cross-sectional KORA-Age study. <i>BMC Geriatrics</i> , 2015 , 15, 32	4.1	37
163	Distribution and determinants of functioning and disability in aged adults--results from the German KORA-Age study. <i>BMC Public Health</i> , 2013 , 13, 137	4.1	36
162	Health care utilization, prognosis and outcomes of vestibular disease in primary care settings: systematic review. <i>Journal of Neurology</i> , 2016 , 263 Suppl 1, S36-44	5.5	36
161	Identification of relevant ICF categories by patients with neurological conditions in early post-acute rehabilitation facilities. <i>Disability and Rehabilitation</i> , 2005 , 27, 459-65	2.4	35
160	Assessing observer agreement when describing and classifying functioning with the International Classification of Functioning, Disability and Health. <i>Acta Dermato-Venereologica</i> , 2007 , 39, 71-6	2.2	34
159	ICF Core Set for patients with cardiopulmonary conditions in early post-acute rehabilitation facilities. <i>Disability and Rehabilitation</i> , 2005 , 27, 397-404	2.4	32
158	Identification of relevant ICF categories by patients in the acute hospital. <i>Disability and Rehabilitation</i> , 2005 , 27, 447-58	2.4	32
157	Time to evaluate COVID-19 contact-tracing apps. <i>Nature Medicine</i> , 2021 , 27, 361-362	50.5	32
156	Understanding human functioning using graphical models. <i>BMC Medical Research Methodology</i> , 2010 , 10, 14	4.7	31
155	Visual height intolerance and acrophobia: clinical characteristics and comorbidity patterns. <i>European Archives of Psychiatry and Clinical Neuroscience</i> , 2015 , 265, 375-85	5.1	30
154	Contractures with special reference in elderly: definition and risk factors - a systematic review with practical implications. <i>Disability and Rehabilitation</i> , 2014 , 36, 529-38	2.4	30
153	International Classification of Functioning, Disability and Health (ICF) Core Set for patients with vertigo, dizziness and balance disorders. <i>Journal of Vestibular Research: Equilibrium and Orientation</i> , 2012 , 22, 261-71	2.5	30
152	The ICF forms a useful framework for classifying individual patient goals in post-acute rehabilitation. <i>Journal of Rehabilitation Medicine</i> , 2011 , 43, 151-5	3.4	30
151	Identification of relevant ICF categories by geriatric patients in an early post-acute rehabilitation facility. <i>Disability and Rehabilitation</i> , 2005 , 27, 467-73	2.4	30
150	Identification of aspects of functioning, disability and health relevant to patients experiencing vertigo: a qualitative study using the international classification of functioning, disability and health. <i>Health and Quality of Life Outcomes</i> , 2012 , 10, 75	3	28
149	ICF Core Set for patients with cardiopulmonary conditions in the acute hospital. <i>Disability and Rehabilitation</i> , 2005 , 27, 375-80	2.4	28

148	Impact of vertigo and dizziness on self-perceived participation and autonomy in older adults: results from the KORA-Age study. <i>Quality of Life Research</i> , 2014 , 23, 2301-8	3.7	27
147	On the relationship between gingival biotypes and supracrestal gingival height, crown form and papilla height. <i>Clinical Oral Implants Research</i> , 2014 , 25, 894-8	4.8	27
146	Graphical models illustrated complex associations between variables describing human functioning. <i>Journal of Clinical Epidemiology</i> , 2009 , 62, 922-33	5.7	27
145	Economic burden of vertigo: a systematic review. <i>Health Economics Review</i> , 2019 , 9, 37	2	27
144	Validation of International Classification of Functioning, Disability, and Health (ICF) Core Sets for early postacute rehabilitation facilities: comparisons with three other functional measures. <i>American Journal of Physical Medicine and Rehabilitation</i> , 2006 , 85, 640-9	2.6	26
143	Rehabilitation outcome of unconscious traumatic brain injury patients. <i>Journal of Neurotrauma</i> , 2013 , 30, 1476-83	5.4	24
142	Prevalence and Predictors of Subclinical Micronutrient Deficiency in German Older Adults: Results from the Population-Based KORA-Age Study. <i>Nutrients</i> , 2017 , 9,	6.7	24
141	Neighborhood and healthy aging in a German city: distances to green space and senior service centers and their associations with physical constitution, disability, and health-related quality of life. <i>European Journal of Ageing</i> , 2015 , 12, 273-283	3.6	23
140	The ICF categories identified in nursing interventions administered to neurological patients with post-acute rehabilitation needs. <i>Disability and Rehabilitation</i> , 2005 , 27, 431-6	2.4	23
139	Country-specific and individual determinants of dizziness in Europe: results from the Survey of Health Ageing and Retirement in Europe (SHARE). <i>Public Health</i> , 2017 , 149, 1-10	4	22
138	Systematic Review and Meta-analysis of the Effectiveness of Implementation Strategies for Non-communicable Disease Guidelines in Primary Health Care. <i>Journal of General Internal Medicine</i> , 2018 , 33, 1142-1154	4	22
137	Sarcopenia is associated with disability status-results from the KORA-Age study. <i>Osteoporosis International</i> , 2017 , 28, 2069-2079	5.3	21
136	A New Questionnaire for Estimating the Severity of Visual Height Intolerance and Acrophobia by a Metric Interval Scale. <i>Frontiers in Neurology</i> , 2017 , 8, 211	4.1	21
135	Associations between multiple accelerometry-assessed physical activity parameters and selected health outcomes in elderly people--results from the KORA-age study. <i>PLoS ONE</i> , 2014 , 9, e111206	3.7	21
134	Validation of the comprehensive ICF Core Sets for patients receiving rehabilitation interventions in the acute care setting. <i>Journal of Rehabilitation Medicine</i> , 2011 , 43, 92-101	3.4	21
133	Goals of physiotherapy interventions can be described using the International Classification of Functioning, Disability and Health. <i>Physiotherapy</i> , 2008 , 94, 150-157	3	21
132	Neonatal hearing screening: modelling cost and effectiveness of hospital- and community-based screening. <i>BMC Health Services Research</i> , 2006 , 6, 14	2.9	21
131	Consequences of visual height intolerance for quality of life: a qualitative study. <i>Quality of Life Research</i> , 2014 , 23, 697-705	3.7	20

130	Subscales of the vestibular activities and participation questionnaire could be applied across cultures. <i>Journal of Clinical Epidemiology</i> , 2015 , 68, 211-9	5.7	20
129	Comparing the clinical effectiveness of different new-born hearing screening strategies. A decision analysis. <i>BMC Public Health</i> , 2005 , 5, 12	4.1	20
128	Functioning and disability in people living with spinal cord injury in high- and low-resourced countries: a comparative analysis of 14 countries. <i>International Journal of Public Health</i> , 2011 , 56, 341-52 ⁴		19
127	Rationale and design of the prospective German registry of outcome in patients with severe disorders of consciousness after acute brain injury. <i>Archives of Physical Medicine and Rehabilitation</i> , 2013 , 94, 1870-6	2.8	18
126	The ICF as a way to specify goals and to assess the outcome of physiotherapeutic interventions in the acute hospital. <i>Journal of Rehabilitation Medicine</i> , 2011 , 43, 174-7	3.4	18
125	Identification of relevant ICF categories by health professionals in the acute hospital. <i>Disability and Rehabilitation</i> , 2005 , 27, 437-45	2.4	18
124	Determinants for utilization and transitions of long-term care in adults 65+ in Germany: results from the longitudinal KORA-Age study. <i>BMC Geriatrics</i> , 2018 , 18, 172	4.1	17
123	Validation of the comprehensive ICF Core Set for patients in geriatric post-acute rehabilitation facilities. <i>Journal of Rehabilitation Medicine</i> , 2011 , 43, 102-12	3.4	17
122	Criteria for validating comprehensive ICF Core Sets and developing brief ICF Core Set versions. <i>Journal of Rehabilitation Medicine</i> , 2011 , 43, 87-91	3.4	17
121	Goals of patients with rehabilitation needs in acute hospitals: goal achievement is an indicator for improved functioning. <i>Journal of Rehabilitation Medicine</i> , 2011 , 43, 145-50	3.4	17
120	Prevalence, Determinants, and Consequences of Vestibular Hypofunction. Results From the KORA-FF4 Survey. <i>Frontiers in Neurology</i> , 2018 , 9, 1076	4.1	17
119	Intervention goals determine physical therapists' workload in the acute care setting. <i>Physical Therapy</i> , 2010 , 90, 1468-78	3.3	16
118	Patients' functioning as predictor of nursing workload in acute hospital units providing rehabilitation care: a multi-centre cohort study. <i>BMC Health Services Research</i> , 2010 , 10, 295	2.9	16
117	Patients' view on health-related aspects of functioning and disability of joint contractures: a qualitative interview study based on the International Classification of Functioning, Disability and Health (ICF). <i>Disability and Rehabilitation</i> , 2014 , 36, 2225-32	2.4	15
116	Brief ICF Core Set for patients in geriatric post-acute rehabilitation facilities. <i>Journal of Rehabilitation Medicine</i> , 2011 , 43, 139-44	3.4	15
115	Survey of motion sickness susceptibility in children and adolescents aged 3 months to 18 years. <i>Journal of Neurology</i> , 2019 , 266, 65-73	5.5	14
114	Impact of joint contracture on older persons in a geriatric setting: A cross-sectional study. <i>Zeitschrift Fur Gerontologie Und Geriatrie</i> , 2015 , 48, 625-32	2.7	13
113	Relevance of community structures and neighbourhood characteristics for participation of older adults: a qualitative study. <i>Quality of Life Research</i> , 2016 , 25, 143-52	3.7	13

112	Association between anemia and falls in community-dwelling older people: cross-sectional results from the KORA-Age study. <i>BMC Geriatrics</i> , 2014 , 14, 29	4.1	13
111	ICF Core Sets for early post-acute rehabilitation facilities. <i>Journal of Rehabilitation Medicine</i> , 2011 , 43, 131-8	3.4	13
110	Towards a European strategy to address the COVID-19 pandemic. <i>Lancet, The</i> , 2021 , 398, 838-839	4.0	13
109	Examining Functioning and Contextual Factors in Individuals with Joint Contractures from the Health Professional Perspective Using the ICF: An International Internet-Based Qualitative Expert Survey. <i>Rehabilitation Nursing</i> , 2016 , 41, 170-8	1.3	12
108	Predictive Capability of an iPad-Based Medical Device (mex) for the Diagnosis of Vertigo and Dizziness. <i>Frontiers in Neurology</i> , 2018 , 9, 29	4.1	12
107	Effects of pharmaceutical counselling on antimicrobial use in surgical wards: intervention study with historical control group. <i>Pharmacoepidemiology and Drug Safety</i> , 2011 , 20, 739-46	2.6	12
106	Functioning and health in patients with cancer on home-parenteral nutrition: a qualitative study. <i>Health and Quality of Life Outcomes</i> , 2010 , 8, 41	3	12
105	Systematic review of measures and their concepts used in published studies focusing on the treatment of acute inflammatory arthritis. <i>Clinical Rheumatology</i> , 2006 , 25, 807-13	3.9	12
104	Worldwide survey on laboratory testing of vestibular function. <i>Neurology: Clinical Practice</i> , 2020 , 10, 379-387	1.7	12
103	Primary or secondary chronic functional dizziness: does it make a difference? A DizzyReg study in 356 patients. <i>Journal of Neurology</i> , 2020 , 267, 212-222	5.5	12
102	Common eye diseases in older adults of southern Germany: results from the KORA-Age study. <i>Age and Ageing</i> , 2017 , 46, 481-486	3	12
101	Susceptibility to Fear of Heights in Bilateral Vestibulopathy and Other Disorders of Vertigo and Balance. <i>Frontiers in Neurology</i> , 2018 , 9, 406	4.1	11
100	Directed acyclic graphs helped to identify confounding in the association of disability and electrocardiographic findings: results from the KORA-Age study. <i>Journal of Clinical Epidemiology</i> , 2014 , 67, 199-206	5.7	11
99	Quality of evidence of rehabilitation interventions in long-term care for people with severe disorders of consciousness after brain injury: A systematic review. <i>Journal of Rehabilitation Medicine</i> , 2015 , 47, 577-85	3.4	11
98	A high level of household physical activity compensates for lack of leisure time physical activity with regard to deficit accumulation: Results from the KORA-Age study. <i>Preventive Medicine</i> , 2016 , 86, 64-9	4.3	11
97	Prevalence of motion sickness in various vestibular disorders: a study on 749 patients. <i>Journal of Neurology</i> , 2018 , 265, 95-97	5.5	10
96	Impact of joint contractures on functioning and social participation in older individuals--development of a standard set (JointConFunctionSet): study protocol. <i>BMC Geriatrics</i> , 2013 , 13, 18	4.1	10
95	Efficacy of a post-acute interval inpatient neurorehabilitation programme for severe brain injury. <i>Brain Injury</i> , 2014 , 28, 44-50	2.1	10

94	Using core sets of the international classification of functioning, disability and health (ICF) to measure disability in vestibular disorders: study protocol. <i>Journal of Vestibular Research: Equilibrium and Orientation</i> , 2013 , 23, 297-303	2.5	10
93	Assessment of functioning in the acute hospital: operationalisation and reliability testing of ICF categories relevant for physical therapists interventions. <i>Journal of Rehabilitation Medicine</i> , 2011 , 43, 162-73	3.4	10
92	Combined application of the International Classification of Functioning, Disability and Health and the NANDA-International Taxonomy II. <i>Journal of Advanced Nursing</i> , 2010 , 66, 1885-98	3.1	10
91	Identification of ICF categories relevant for nursing in the situation of acute and early post-acute rehabilitation. <i>BMC Nursing</i> , 2008 , 7, 3	3.2	10
90	Malnutrition and related risk factors in older adults from different health-care settings: an study. <i>Public Health Nutrition</i> , 2020 , 23, 446-456	3.3	10
89	DizzyReg: the prospective patient registry of the German Center for Vertigo and Balance Disorders. <i>Journal of Neurology</i> , 2017 , 264, 34-36	5.5	9
88	Vitamin D in Relation to Incident Sarcopenia and Changes in Muscle Parameters Among Older Adults: The KORA-Age Study. <i>Calcified Tissue International</i> , 2019 , 105, 173-182	3.9	9
87	Modern machine-learning can support diagnostic differentiation of central and peripheral acute vestibular disorders. <i>Journal of Neurology</i> , 2020 , 267, 143-152	5.5	9
86	Barriers and facilitators for the management of vertigo: a qualitative study with primary care providers. <i>Implementation Science</i> , 2018 , 13, 25	8.4	9
85	Men benefit more from midlife leisure-time physical activity than women regarding the development of late-life disability--results of the KORA-Age study. <i>Preventive Medicine</i> , 2014 , 62, 8-13	4.3	9
84	Interventions for the prevention and treatment of disability due to acquired joint contractures in older people: a systematic review. <i>Age and Ageing</i> , 2017 , 46, 373-382	3	9
83	Male sex and poverty predict abrupt health decline: Deficit accumulation patterns and trajectories in the KORA-Age cohort study. <i>Preventive Medicine</i> , 2017 , 102, 31-38	4.3	9
82	Atmospheric Pressure and Onset of Episodes of Meniere Disease - A Repeated Measures Study. <i>PLoS ONE</i> , 2016 , 11, e0152714	3.7	9
81	Visual height intolerance and acrophobia: distressing partners for life. <i>Journal of Neurology</i> , 2016 , 263, 1946-53	5.5	9
80	A comparative study of patient-reported functional outcomes in acute rheumatoid arthritis. <i>Journal of Rheumatology</i> , 2007 , 34, 64-9	4.1	9
79	Vertigo and dizziness cause considerable more health care resource use and costs: results from the KORA FF4 study. <i>Journal of Neurology</i> , 2019 , 266, 2120-2128	5.5	8
78	Development of an International Classification of Functioning, Disability and Health (ICF)-based standard set to describe the impact of joint contractures on participation of older individuals in geriatric care settings. <i>Archives of Gerontology and Geriatrics</i> , 2015 , 61, 61-6	4	8
77	Outcome measures in older persons with acquired joint contractures: a systematic review and content analysis using the ICF (International Classification of Functioning, Disability and Health) as a reference. <i>BMC Geriatrics</i> , 2016 , 16, 40	4.1	8

76	Usability of the Video Head Impulse Test: Lessons From the Population-Based Prospective KORA Study. <i>Frontiers in Neurology</i> , 2018 , 9, 659	4.1	8
75	Self-efficacy beliefs are associated with visual height intolerance: a cross-sectional survey. <i>PLoS ONE</i> , 2014 , 9, e116220	3.7	8
74	Brief ICF Core Sets for the acute hospital. <i>Journal of Rehabilitation Medicine</i> , 2011 , 43, 123-30	3.4	8
73	Early-stage impairments and limitations of functioning from the geriatric ICF core set as determinants of independent living in older patients after discharge from post-acute rehabilitation. <i>Acta Dermato-Venereologica</i> , 2007 , 39, 591-7	2.2	8
72	Quality of life in older individuals with joint contractures in geriatric care settings. <i>Quality of Life Research</i> , 2016 , 25, 2269-81	3.7	8
71	Who gets lost and why: A representative cross-sectional survey on sociodemographic and vestibular determinants of wayfinding strategies. <i>PLoS ONE</i> , 2019 , 14, e0204781	3.7	7
70	Being born in the aftermath of World War II increases the risk for health deficit accumulation in older age: results from the KORA-Age study. <i>European Journal of Epidemiology</i> , 2019 , 34, 675-687	12.1	7
69	Mediator Effect of Balance Problems on Association Between Grip Strength and Falls in Older Adults: Results From the KORA-Age Study. <i>Gerontology and Geriatric Medicine</i> , 2018 , 4, 2333721418760122	2.3	7
68	Graphical modeling of binary data using the LASSO: a simulation study. <i>BMC Medical Research Methodology</i> , 2012 , 12, 16	4.7	7
67	Fear of heights and mild visual height intolerance independent of alcohol consumption. <i>Brain and Behavior</i> , 2013 , 3, 596-601	3.4	7
66	Graphical modeling can be used to illustrate associations between variables describing functioning in head and neck cancer patients. <i>Journal of Clinical Epidemiology</i> , 2011 , 64, 885-92	5.7	7
65	Effects of Whole Body Vibration Therapy and Classic Physiotherapy on Postural Stability in People With Back Pain: A Randomized Trial. <i>Clinical Spine Surgery</i> , 2019 , 32, E214-E220	1.8	7
64	Development of a complex intervention to improve participation of nursing home residents with joint contractures: a mixed-method study. <i>BMC Geriatrics</i> , 2018 , 18, 61	4.1	6
63	Perturbed Development of Striatal Dopamine Transporters in Fatty Versus Lean Zucker Rats: a Follow-up Small Animal PET Study. <i>Molecular Imaging and Biology</i> , 2015 , 17, 521-8	3.8	6
62	Psychosocial factors associated with the effects of physiotherapy in the acute hospital. <i>Disability and Rehabilitation</i> , 2011 , 33, 2311-21	2.4	6
61	ICF-Core-Sets im Akutkrankenhaus und in der Frührehabilitation für Patienten mit Erkrankungen des muskuloskeletalen Systems. <i>Physikalische Medizin Rehabilitationsmedizin Kurortmedizin</i> , 2009 , 19, 14-21	0.5	6
60	Operationalisierung von ICF-Kategorien für physiotherapeutische Interventionen im Akutkrankenhaus. <i>Physioscience</i> , 2008 , 4, 7-16	0.3	6
59	Computerized clinical decision system and mobile application with expert support to optimize management of vertigo in primary care: study protocol for a pragmatic cluster-randomized controlled trial. <i>Journal of Neurology</i> , 2020 , 267, 45-50	5.5	6

58	Magnitude and predictors of khat use among patients with tuberculosis in Southwest Ethiopia: A longitudinal study. <i>PLoS ONE</i> , 2020 , 15, e0236154	3.7	6
57	The development of the ICF vestibular environmental scale. <i>Journal of Vestibular Research: Equilibrium and Orientation</i> , 2016 , 26, 297-302	2.5	6
56	The PaArticular Scales - A new outcome measure to quantify the impact of joint contractures on activities and participation in individuals in geriatric care: Development and Rasch analysis. <i>International Journal of Nursing Studies</i> , 2016 , 59, 107-17	5.8	6
55	Sociodemographic characteristics determine download and use of a Corona contact tracing app in Germany-Results of the COSMO surveys. <i>PLoS ONE</i> , 2021 , 16, e0256660	3.7	6
54	Multicenter data banking in management of dizzy patients: first results from the DizzyNet registry project. <i>Journal of Neurology</i> , 2018 , 265, 3-8	5.5	5
53	Exposure to anticholinergic and sedative medications using the Drug Burden Index and its association with vertigo, dizziness and balance problems in older people - Results from the KORA-FF4 Study. <i>Experimental Gerontology</i> , 2019 , 124, 110644	4.5	5
52	Multi-morbidity and disability, findings from the KORA-Age study. <i>BMC Proceedings</i> , 2013 , 7, S10	2.3	5
51	Incremental cost-effectiveness analysis of a multidisciplinary renal education program for patients with chronic renal disease. <i>Disability and Rehabilitation</i> , 2010 , 32, 392-401	2.4	5
50	Identification of Relevant ICF Categories by Patients in Early Post-Acute Rehabilitation Facilities. <i>Physikalische Medizin Rehabilitationsmedizin Kurortmedizin</i> , 2005 , 15, 168-173	0.5	5
49	Developing and piloting a multifactorial intervention to address participation and quality of life in nursing home residents with joint contractures (JointConImprove): study protocol. <i>GMS German Medical Science</i> , 2015 , 13, Doc13	3.2	5
48	Implementation of a complex intervention to improve participation in older people with joint contractures living in nursing homes: a process evaluation of a cluster-randomised pilot trial. <i>BMC Geriatrics</i> , 2020 , 20, 270	4.1	5
