#	Article	IF	CITATIONS
1	Exposure to models' positive facial expressions whilst eating a raw vegetable increases children's acceptance and consumption of the modelled vegetable. Appetite, 2022, 168, 105779.	1.8	8
2	Preschool-Aged Children's Food Approach Tendencies Interact with Food Parenting Practices and Maternal Emotional Eating to Predict Children's Emotional Eating in a Cross-Sectional Analysis. Journal of the Academy of Nutrition and Dietetics, 2022, 122, 1465-1473.	0.4	4
3	Influences on the dietary intakes of preschool children: a systematic scoping review. International Journal of Behavioral Nutrition and Physical Activity, 2022, 19, 20.	2.0	14
4	Predicting preschool children's emotional eating: The role of parents' emotional eating, feeding practices and child temperament. Maternal and Child Nutrition, 2022, 18, e13341.	1.4	8
5	Creating video stimuli for the modelling of eating behaviour. Appetite, 2021, 157, 104908.	1.8	O
6	An infantâ€led approach to complementary feeding is positively associated with language development. Maternal and Child Nutrition, 2021, 17, e13206.	1.4	9
7	Interactive effects of impulsivity and dietary restraint over snack intake in children. Appetite, 2020, 146, 104496.	1.8	7
8	Children overcoming picky eating (COPE) – A cluster randomised controlled trial. Appetite, 2020, 154, 104791.	1.8	6
9	The relationship between sensory sensitivity, food fussiness and food preferences in children with neurodevelopmental disorders. Appetite, 2020, 150, 104643.	1.8	46
10	Eating behaviour, behavioural problems and sensory profiles of children with avoidant/restrictive food intake disorder (ARFID), autistic spectrum disorders or picky eating: Same or different?. European Psychiatry, 2019, 61, 56-62.	0.1	74
11	Cultural adaptation of a children's weight management programme: Child weigHt mANaGement for Ethnically diverse communities (CHANGE) study. BMC Public Health, 2019, 19, 848.	1.2	7
12	The role of sensory sensitivity in predicting food selectivity and food preferences in children with Tourette syndrome. Appetite, 2019, 135, 131-136.	1.8	11
13	Relationships between observations and parental reports of 3–5 year old children's emotional eating using the Children's Eating Behaviour Questionnaire. Appetite, 2019, 141, 104323.	1.8	17
14	Associations between Otitis media, taste sensitivity and adiposity: Two studies across childhood. Physiology and Behavior, 2019, 208, 112570.	1.0	9
15	Infant temperament, maternal feeding behaviours and the timing of solid food introduction. Maternal and Child Nutrition, 2019, 15, e12771.	1.4	13
16	Multiple measures of impulsivity, eating behaviours and adiposity in 7-11-year-olds. Appetite, 2019, 133, 217-222.	1.8	6
17	Cultural adaptation of an existing children's weight management programme: the CHANGE intervention and feasibility RCT. Health Technology Assessment, 2019, 23, 1-166.	1.3	6
18	The Montreal Children's Hospital Feeding Scale: Relationships with parental report of child eating behaviours and observed feeding interactions. Appetite, 2018, 125, 201-209.	1.8	20

#	Article	IF	Citations
19	Effects of maternal depression in the Still-Face Paradigm: A meta-analysis. , 2018, 50, 154-164.		13
20	A cluster-randomised feasibility trial of a children's weight management programme: the Child weigHt mANaGement for Ethnically diverse communities (CHANGE) study. Pilot and Feasibility Studies, 2018, 4, 175.	0.5	4
21	Effects of Modeling on Children's Eating Behavior. , 2018, , 53-72.		3
22	Parental monitoring may protect impulsive children from overeating. Pediatric Obesity, 2017, 12, 414-421.	1.4	11
23	Past exposure to fruit and vegetable variety moderates the link between fungiform papillae density and current variety of FV consumed by children. Physiology and Behavior, 2017, 177, 107-112.	1.0	5
24	Microstructural abnormalities in white and gray matter in obese adolescents with and without type 2 diabetes. NeuroImage: Clinical, 2017, 16, 43-51.	1.4	60
25	Breastfeeding duration and its relation to weight gain, eating behaviours and positive maternal feeding practices in infancy. Appetite, 2017, 108, 399-406.	1.8	43
26	Effects of lay support for pregnant women with social risk factors on infant development and maternal psychological health at 12 months postpartum. PLoS ONE, 2017, 12, e0182544.	1.1	10
27	Relationship between Parental Feeding Practices and Neural Responses to Food Cues in Adolescents. PLoS ONE, 2016, 11, e0157037.	1.1	9
28	Perinatal trauma with and without loss experiences. Journal of Reproductive and Infant Psychology, 2016, 34, 413-425.	0.9	4
29	Lay support for pregnant women with social risk: a randomised controlled trial. BMJ Open, 2016, 6, e009203.	0.8	29
30	Reaching consensus on a â€~vegetables first' approach to complementary feeding. Nutrition Bulletin, 2016, 41, 270-276.	0.8	27
31	Parental modelling and prompting effects on acceptance of a novel fruit in 2–4-year-old children are dependent on children's food responsiveness. British Journal of Nutrition, 2016, 115, 554-564.	1.2	51
32	Cortisol metabolism, postnatal depression and weight changes in the first 12 months postpartum. Clinical Endocrinology, 2016, 85, 881-890.	1.2	24
33	Cultural adaptation of a children's weight management programme for Bangladeshi and Pakistani families in the UK: a cluster-randomised feasibility study protocol. Pilot and Feasibility Studies, 2016, 2, 48.	0.5	3
34	Mothers' accounts of their stillbirth experiences and of their subsequent relationships with their living infant: an interpretative phenomenological analysis. BMC Pregnancy and Childbirth, 2015, 15, 263.	0.9	23
35	Examining evidence for behavioural mimicry of parental eating by adolescent females. An observational study. Appetite, 2015, 89, 56-61.	1.8	30
36	Teaching our children when to eat: how parental feeding practices inform the development of emotional eatingâ€"a longitudinal experimental design. American Journal of Clinical Nutrition, 2015, 101, 908-913.	2.2	106

#	Article	IF	Citations
37	Maternal mind-mindedness during infancy, general parenting sensitivity and observed child feeding behavior: a longitudinal study. Attachment and Human Development, 2014, 16, 230-241.	1.2	43
38	Diminished $11\hat{1}^2$ -Hydroxysteroid Dehydrogenase Type 2 Activity Is Associated With Decreased Weight and Weight Gain Across the First Year of Life. Journal of Clinical Endocrinology and Metabolism, 2014, 99, E821-E831.	1.8	22
39	Rated and measured impulsivity in children is associated with diminished cardiac reactions to acute psychological stress. Biological Psychology, 2014, 102, 68-72.	1.1	15
40	Effects of sucrose detection threshold and weight status on intake of fruit and vegetables in children. Appetite, 2014, 83, 309-316.	1.8	8
41	Measuring hunger and satiety in primary school children. Validation of a new picture rating scale. Appetite, 2014, 78, 40-48.	1.8	49
42	Intrinsic and extrinsic influences on children's acceptance of new foods. Physiology and Behavior, 2013, 121, 89-95.	1.0	93
43	The influence of recent tasting experience on expected liking for foods. Food Quality and Preference, 2013, 27, 101-106.	2.3	21
44	Authors' Response. Journal of the Academy of Nutrition and Dietetics, 2013, 113, 509-510.	0.4	0
45	Beliefs about exercise: Relationship to eating psychopathology and core beliefs among young female exercisers. Eating Behaviors, 2013, 14, 79-82.	1.1	4
46	Maternal symptoms of depression are related to observations of controlling feeding practices in mothers of young children Journal of Family Psychology, 2013, 27, 159-164.	1.0	45
47	Childhood Abuse and Eating Psychopathology: The Mediating Role of Core Beliefs. Journal of Aggression, Maltreatment and Trauma, 2013, 22, 248-261.	0.9	18
48	Social influences on eating: implications for nutritional interventions. Nutrition Research Reviews, 2013, 26, 166-176.	2.1	94
49	Cultural differences in parental feeding practices and children's eating behaviours and their relationships with child BMI: a comparison of Black Afro-Caribbean, White British and White German samples. European Journal of Clinical Nutrition, 2013, 67, 180-184.	1.3	57
50	Changing memory of food enjoyment to increase food liking, choice and intake. British Journal of Nutrition, 2012, 108, 1505-1510.	1.2	44
51	Predicting Successful Introduction of Novel Fruit to Preschool Children. Journal of the Academy of Nutrition and Dietetics, 2012, 112, 1959-1967.	0.4	36
52	Stability and continuity of parentally reported child eating behaviours and feeding practices from 2 to 5 years of age. Appetite, 2012, 58, 151-156.	1.8	53
53	Predictors of Paternal and Maternal Controlling Feeding Practices with 2- to 5-year-old Children. Journal of Nutrition Education and Behavior, 2012, 44, 390-397.	0.3	108
54	Attachment anxiety and friendship group identification under attachment threat: The moderating role of priming support network expectations. Personality and Individual Differences, 2012, 53, 562-567.	1.6	4

#	Article	IF	Citations
55	Perception of control during episodes of eating: Relationships with quality of life and eating psychopathology. International Journal of Eating Disorders, 2012, 45, 115-119.	2.1	26
56	OCD in the Perinatal Period: Is Postpartum OCD (ppOCD) a Distinct Subtype? A Review of the Literature. Behavioural and Cognitive Psychotherapy, 2011, 39, 285-310.	0.9	53
57	Relationships between temperament and eating behaviours in young children. Appetite, 2011, 56, 689-692.	1.8	118
58	Peak and end effects on remembered enjoyment of eating in low and high restrained eaters. Appetite, 2011, 57, 207-212.	1.8	27
59	Relationships between parenting style, feeding style and feeding practices and fruit and vegetable consumption in early childhood. Appetite, 2011, 57, 826-831.	1.8	265
60	Eating disorders and quality of life: A review of the literature. Clinical Psychology Review, 2011, 31, 113-121.	6.0	203
61	Parental eating disorder symptoms and observations of mealtime interactions with children. Journal of Psychosomatic Research, 2011, 70, 368-371.	1.2	55
62	The role of parenting in the relationship between childhood eating problems and broader behaviour problems. Child: Care, Health and Development, 2011, 37, 642-648.	0.8	23
63	Does child weight influence how mothers report their feeding practices?. Pediatric Obesity, 2011, 6, 306-313.	3.2	44
64	Recall of Vegetable Eating Affects Future Predicted Enjoyment and Choice of Vegetables in British University Undergraduate Students. Journal of the American Dietetic Association, 2011, 111, 1543-1548.	1.3	40
65	The role of parents' romantic relationship warmth and hostility in child feeding practices and children's eating behaviours. Maternal and Child Nutrition, 2010, 6, 266-274.	1.4	11
66	Inducing preschool children's emotional eating: relations with parental feeding practices. American Journal of Clinical Nutrition, 2010, 92, 359-365.	2.2	171
67	Eating disorder symptoms and parenting styles. Appetite, 2010, 54, 221-224.	1.8	31
68	Do obsessive compulsive symptoms mediate the relationship between maternal eating psychopathology and restrictive feeding practices?. International Journal of Eating Disorders, 2009, 42, 76-80.	2.1	9
69	Interpersonal attachment predicts identification with groups. Journal of Experimental Social Psychology, 2009, 45, 115-122.	1.3	18
70	Fruit and vegetable consumption in children and their mothers. Moderating effects of child sensory sensitivity. Appetite, 2009, 52, 410-415.	1.8	161
71	Controlling Feeding Practices: Cause or Consequence of Early Child Weight?. Pediatrics, 2008, 121, e164-e169.	1.0	178
72	Are parenting style and controlling feeding practices related?. Appetite, 2008, 50, 477-485.	1.8	156

#	Article	IF	Citations
73	Controlling feeding practices and psychopathology in a non-clinical sample of mothers and fathers. Eating Behaviors, 2008, 9, 484-492.	1.1	54
74	Pilot of "Families for Health": community-based family intervention for obesity. Archives of Disease in Childhood, 2008, 93, 921-928.	1.0	76
75	Maternal mental health and child feeding problems in a non-clinical group. Eating Behaviors, 2007, 8, 311-318.	1.1	51
76	The development of maternal selfâ€esteem. Infant Mental Health Journal, 2007, 28, 517-535.	0.7	18
77	Predictors of maternal control of feeding at $1$ and $2$ years of age. International Journal of Obesity, $2007, 31, 1520-1526$ .	1.6	106
78	Stability and Continuity of Women's Core Beliefs and Psychopathological Symptoms from Pregnancy to OneÂYear Postpartum. Cognitive Therapy and Research, 2007, 31, 589-602.	1.2	5
79	Breast-feeding, maternal feeding practices and mealtime negativity at one year. Appetite, 2006, 46, 49-56.	1.8	52
80	Maternal and paternal controlling feeding practices with male and female children. Appetite, 2006, 47, 212-219.	1.8	192
81	Different core beliefs predict paternal and maternal attachment representations in young women. Clinical Psychology and Psychotherapy, 2006, 13, 163-171.	1.4	17
82	Maternal cognitions, psychopathologic symptoms, and infant temperament as predictors of early infant feeding problems: A longitudinal study. International Journal of Eating Disorders, 2006, 39, 128-134.	2.1	76
83	The mediating role of eating psychopathology in the relationship between unhealthy core beliefs and feeding difficulties in a nonclinical group. International Journal of Eating Disorders, 2006, 39, 763-771.	2.1	9
84	Does Maternal Control During Feeding Moderate Early Infant Weight Gain?. Pediatrics, 2006, 118, e293-e298.	1.0	113
85	Is Maternal Psychopathology Related to Obesigenic Feeding Practices at 1 Year?. Obesity, 2005, 13, 1999-2005.	4.0	82
86	Maternal core beliefs and children's feeding problems. International Journal of Eating Disorders, 2005, 37, 127-134.	2.1	35
87	Tube Feeding in Infancy: Implications for the Developmentof Normal Eating and Drinking Skills. Dysphagia, 2005, 20, 46-61.	1.0	137
88	Children of mothers with mental ilness: attachment, emotional and behavioural problems. Early Child Development and Care, 2004, 174, 639-650.	0.7	22
89	Is cognitive behavior therapy developmentally appropriate for young children? A critical review of the evidence. Clinical Psychology Review, 2004, 24, 399-420.	6.0	148
90	The relationship between parental eating problems and children's feeding behavior: A selective review of the literature. Eating Behaviors, 2004, 5, 103-115.	1.1	43
