all docs	docs citations	times ranked	citing authors

#	Article	IF	Citations
1	Uniform Strong Law of Large Numbers. Methodology and Computing in Applied Probability, 2021, 23, 461-470.	1.2	2
2	On preserving the limit points of corresponding objects. Journal of Mathematical Analysis and Applications, 2020, 486, 123916.	1.0	0
3	The uniform strong law of large numbers without any assumption on a family of sets. Bulletin of Taras Shevchenko National University of Kyiv Series Physics and Mathematics, 2020, , 39-48.	0.1	0
4	Uniform Strong Law of Large Numbers for Random Signed Measures. Understanding Complex Systems, 2019, , 335-350.	0.6	3
5	Almost Sure Asymptotic Properties of Solutions of a Class of Non-homogeneous Stochastic Differential Equations. Understanding Complex Systems, 2019, , 97-114.	0.6	0
6	Pseudo-Regularly Varying Functions and Generalized Renewal Processes. Probability Theory and Stochastic Modelling, 2018, , .	0.4	11
7	Nondegenerate Groups of Regular Points. Probability Theory and Stochastic Modelling, 2018, , 153-199.	0.4	0
8	Equivalence of Limit Theorems for Sums of Random Variables and Renewal Processes. Probability Theory and Stochastic Modelling, 2018, , 1-25.	0.4	0
9	Properties of Absolutely Continuous Functions. Probability Theory and Stochastic Modelling, 2018, , 99-151.	0.4	0
10	Asymptotic Behavior of Solutions of Stochastic Differential Equations. Probability Theory and Stochastic Modelling, 2018, , 345-393.	0.4	0
11	Generalizations of Regularly Varying Functions. Probability Theory and Stochastic Modelling, 2018, , 53-97.	0.4	0
12	Asymptotics for Renewal Processes Constructed from Multi-indexed Random Walks. Probability Theory and Stochastic Modelling, 2018, , 395-417.	0.4	0
13	Generalized Renewal Processes. Probability Theory and Stochastic Modelling, 2018, , 311-343.	0.4	0
14	Moment conditions in strong laws of large numbers for multiple sums and random measures. Statistics and Probability Letters, 2017, 131, 56-63.	0.7	1
15	Limit Theorems for Multi-Indexed Sums of Random Variables. Probability Theory and Stochastic Modelling, 2014, , .	0.4	24
16	On the central limit theorem along subsequences of sums of i.i.d. random variables. Statistical Papers, 2014, 55, 1035-1045.	1.2	0
17	Asymptotic properties of absolutely continuous functions and strong laws of large numbers for renewal processes. Theory of Probability and Mathematical Statistics, 2014, 87, 1-12.	0.5	5
18	Some Remarks on the Theory of Limit Theorems for Multi-Indexed Sums. Probability Theory and Stochastic Modelling, 2014, , 1-15.	0.4	1

#	Article	IF	Citations
19	Equivalent monotone versions of PRV functions. Journal of Mathematical Analysis and Applications, 2013, 401, 526-533.	1.0	2
20	Limit theorems for record counts and times in the F Î± -scheme. Extremes, 2013, 16, 147-171.	1.0	5
21	The distribution of a functional of the Wiener process and its application to the Brownian sheet. Statistics, 2011, 45, 19-26.	0.6	0
22	On the convergence of positive increasing functions to infinity. Ukrainian Mathematical Journal, 2011, 62, 1507-1518.	0.5	2
23	On random arithmetical functions. I. Lithuanian Mathematical Journal, 2010, 50, 271-283.	0.4	2
24	Rates of convergence in some SLLN under weak dependence conditions. Acta Scientiarum Mathematicarum, 2010, 76, 683-695.	0.4	2
25	Strong Law of Large Numbers for Multiple Sums Whose Indices Belong to a Sector with Function Boundaries. Theory of Probability and Its Applications, 2008, 52, 711-719.	0.3	1
26	On some properties of asymptotic quasi-inverse functions. Theory of Probability and Mathematical Statistics, 2008, 77, 15-30.	0.5	14
27	PRV property and the Ï•-asymptotic behavior of solutions of stochastic differential equations. Lithuanian Mathematical Journal, 2007, 47, 361-378.	0.4	8
28	Title is missing!. Theory of Probability and Mathematical Statistics, 2006, 72, 11-26.	0.5	6
29	On some extensions of Karamataâ€™s theory and their applications. Publications De L'Institut Mathematique, 2006, 80, 59-96.	0.2	10
30	Some properties of asymptotic quasi-inverse functions and their applications I. Theory of Probability and Mathematical Statistics, 2005, 70, 11-29.	0.5	14
31	On the almost sure growth rate of sums of lower negatively dependent nonnegative random variables. Statistics and Probability Letters, 2005, 71, 193-202.	0.7	21
32	Some properties of asymptotic quasi-inverse functions and their applications. II. Theory of Probability and Mathematical Statistics, 2005, 71, 37-52.	0.5	9
33	On factorization representations for AvakumoviÄ‡--Karamata functions with nondegenerate groups of regular points. Analysis Mathematica, 2004, 30, 161-192.	0.5	10
34	On the order of growth of orthogonal random fields. Analysis Mathematica, 2003, 29, 15-28.	0.5	3
35	A NONCLASSICAL LAW OF THE ITERATED LOGARITHM FOR I.I.D. SQUARE INTEGRABLE RANDOM VARIABLES. II. Stochastic Analysis and Applications, 2002, 20, 839-846.	1.5	6
36	Properties of a Subclass of AvakumoviÄ‡ Functions and Their Generalized Inverses. Ukrainian Mathematical Journal, 2002, 54, 179-206.	0.5	21

#	Article	IF	Citations
37	A General Approach to the Strong Law of Large Numbers. Theory of Probability and Its Applications, 2001, 45, 436-449.	0.3	51
38	A NONCLASSICAL LAW OF THE ITERATED LOGARITHM FOR I.I.D. SQUARE INTEGRABLE RANDOM VARIABLES. Stochastic Analysis and Applications, 2001, 19, 627-641.	1.5	13
39	Equivalences in strong limit theorems for renewal counting processes. Statistics and Probability Letters, 1997, 35, 381-394.	0.7	21
40	Almost Sure Convergence of Multiple Series of Independent Random Variables. Theory of Probability and Its Applications, 1996, 40, 52-65.	0.3	2
41	Complete convergence for randomly indexed sums of random variables. Journal of Mathematical Sciences, 1995, 76, 2241-2249.	0.4	2
42	On an analog of Feller's theorem for multiple sums. Mathematical Notes, 1994, 55, 37-42.	0.4	0
43	Convergence of the series of large-deviation probabilities for sums of independent equally distributed random variables. Ukrainian Mathematical Journal, 1993, 45, 845-862.	0.5	4
44	Renewal theorems for random walk with multidimensional time. Ukrainian Mathematical Journal, 1991, 43, 1089-1094.	0.5	1
45	A limit theorem for multiple sums of identically distributed independent random variables. Journal of Soviet Mathematics, 1987, 38, 2321-2326.	0.0	0
46	Estimation of a finite-spectrum Gaussian random field from observations of signals on a lattice in Rd. Cybernetics and Systems Analysis, 1986, 21, 463-470.	0.0	0
47	Strong law of large numbers for multiple sums of independent, identically distributed random variables. Mathematical Notes, 1985, 38, 1006-1014.	0.4	7
48	Rate of convergence of series of random variables. Ukrainian Mathematical Journal, 1984, 35, 264-268.	0.5	11
