

# S Alexandra Burt

## List of Publications by Year in Descending Order

**Source:** <https://exaly.com/author-pdf/257513/s-alexandra-burt-publications-by-year.pdf>

**Version:** 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

183  
papers

#	Paper	IF	Citations
183	Charting brain growth and aging at high spatial precision.. <i>ELife</i> , <b>2022</b> , 11,	8.9	2
182	The impact of neighborhood disadvantage on amygdala reactivity: Pathways through neighborhood social processes.. <i>Developmental Cognitive Neuroscience</i> , <b>2022</b> , 54, 101061	5.5	1
181	A brief child-friendly reward task reliably activates the ventral striatum in two samples of socioeconomically diverse youth.. <i>PLoS ONE</i> , <b>2022</b> , 17, e0263368	3.7	
180	Understanding the effects of neighborhood disadvantage on youth psychopathology.. <i>Psychological Medicine</i> , <b>2022</b> , 1-11	6.9	0
179	Genome-wide Association Meta-analysis of Childhood and Adolescent Internalizing Symptoms.. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , <b>2022</b> ,	7.2	2
178	The Genetic, Environmental, and Cultural Forces Influencing Youth Antisocial Behavior Are Tightly Intertwined.. <i>Annual Review of Clinical Psychology</i> , <b>2022</b> , 18, 155-178	20.5	0
177	Context matters: Neighborhood disadvantage is associated with increased disordered eating and earlier activation of genetic influences in girls. <i>Journal of Abnormal Psychology</i> , <b>2021</b> , 130, 875-885	7	3
176	Neurocognitive abilities associated with antisocial behavior with and without callous-unemotional traits in a community sample. <i>Neuropsychology</i> , <b>2021</b> , 35, 374-387	3.8	3
175	Identifying Patterns of Youth Resilience to Neighborhood Disadvantage. <i>Research in Human Development</i> , <b>2021</b> , 18, 181-196	1.9	0
174	The effects of puberty on associations between mood/personality factors and disordered eating symptoms in girls. <i>International Journal of Eating Disorders</i> , <b>2021</b> , 54, 1619-1631	6.3	0
173	Continuity and Change in the Genetic and Environmental Etiology of Youth Antisocial Behavior. <i>Behavior Genetics</i> , <b>2021</b> , 51, 580-591	3.2	0
172	Associations Between Parental Psychopathic Traits, Parenting, and Adolescent Callous-Unemotional Traits. <i>Research on Child and Adolescent Psychopathology</i> , <b>2021</b> , 49, 1431-1445	4	3
171	The Analytic Identification of Variance Component Models Common to Behavior Genetics. <i>Behavior Genetics</i> , <b>2021</b> , 51, 425-437	3.2	1
170	Understanding the Effects of the COVID-19 Pandemic on Youth Psychopathology: Genotype-Environment Interplay. <i>Biological Psychiatry Global Open Science</i> , <b>2021</b> ,		2
169	Genetic association study of childhood aggression across raters, instruments, and age. <i>Translational Psychiatry</i> , <b>2021</b> , 11, 413	8.6	7
168	Trait negative affect interacts with ovarian hormones to predict risk for emotional eating. <i>Clinical Psychological Science</i> , <b>2021</b> , 9, 114-128	6	2
167	Twin Differences in Harsh Parenting Predict Youth's Antisocial Behavior. <i>Psychological Science</i> , <b>2021</b> , 32, 395-409	7.9	5

166 The Etiology of Resilience to Disadvantage.. *JCPP Advances*, **2021**, 1, e12033

165 A novel in vivo measure of cyberaggression. *Aggressive Behavior*, **2020**, 46, 449-460 2.8

164 Neighborhood poverty predicts altered neural and behavioral response inhibition. *NeuroImage*, **2020**, 209, 116536 7.9 20

163 A multi-method investigation of the personality correlates of digital aggression. *Journal of Research in Personality*, **2020**, 85, 103923 2.8 4

162 An ecological approach to understanding the developing brain: Examples linking poverty, parenting, neighborhoods, and the brain. *American Psychologist*, **2020**, 75, 1245-1259 9.5 18

161 Low emotion differentiation: An affective correlate of binge eating?. *International Journal of Eating Disorders*, **2020**, 53, 412-421 6.3 8

160 Differences in genetic and environmental influences on body weight and shape concerns across pubertal development in females. *Journal of Psychiatric Research*, **2020**, 121, 39-46 5.2 7

159 Can a brief intervention alter genetic and environmental influences on psychological traits? An experimental behavioral genetics approach. *Learning and Motivation*, **2020**, 72, 101683 1.3 2

158 How nonshared environmental factors come to correlate with heredity. *Development and Psychopathology*, **2020**, 1-13 4.3 1

157 Increased rates of eating disorders and their symptoms in women with major depressive disorder and anxiety disorders. *International Journal of Eating Disorders*, **2020**, 53, 1844-1854 6.3 10

156 Discrimination and Ethnic-Racial Socialization Among Youth Adopted From South Korea Into White American Families. *Child Development*, **2020**, 91, e42-e58 4.9 6

155 Assessing callous-unemotional traits: development of a brief, reliable measure in a large and diverse sample of preadolescent youth. *Psychological Medicine*, **2020**, 50, 456-464 6.9 13

154 Child Antisocial Behavior Is more Environmental in Origin in Disadvantaged Neighborhoods: Evidence Across Residents' Perceptions and Geographic Scales in Two Samples. *Journal of Abnormal Child Psychology*, **2020**, 48, 265-276 4 5

153 Do neighborhood social processes moderate the etiology of youth conduct problems?. *Psychological Medicine*, **2020**, 50, 1519-1529 6.9 6

152 Using Multiple Methods to Evaluate Associations Among Externalizing Psychopathology, Personality, and Relationship Quality: A Replication and Extension. *Journal of Personality Disorders*, **2020**, 34, 480-498 2.6 1

151 Associations between ovarian hormones and emotional eating across the menstrual cycle: Do ovulatory shifts in hormones matter?. *International Journal of Eating Disorders*, **2019**, 52, 195-199 6.3 7

150 Effects of Parenting and Community Violence on Aggression-Related Social Goals: a Monozygotic Twin Differences Study. *Journal of Abnormal Child Psychology*, **2019**, 47, 1001-1012 4 6

149 How should we understand the absence of sex differences in the genetic and environmental origins of antisocial behavior?. *Psychological Medicine*, **2019**, 49, 1600-1607 6.9 4

148	Parental Education and Genetics of BMI from Infancy to Old Age: A Pooled Analysis of 29 Twin Cohorts. <i>Obesity</i> , <b>2019</b> , 27, 855-865	8	11
147	Prenatal lead exposure impacts cross-hemispheric and long-range connectivity in the human fetal brain. <i>NeuroImage</i> , <b>2019</b> , 191, 186-192	7.9	28
146	Understanding "What Could Be": A Call for 'Experimental Behavioral Genetics'. <i>Behavior Genetics</i> , <b>2019</b> , 49, 235-243	3.2	7
145	Elucidating factors underlying parent-offspring similarity in eating pathology in pre- and early puberty: Exploring the possibility of passive gene-environment correlation. <i>Journal of Abnormal Psychology</i> , <b>2019</b> , 128, 658-670	7	0
144	The Michigan State University Twin Registry (MSUTR): 15 Years of Twin and Family Research. <i>Twin Research and Human Genetics</i> , <b>2019</b> , 22, 741-745	2.2	17
143	It really does take a village: The role of neighbors in the etiology of nonaggressive rule-breaking behavior. <i>Development and Psychopathology</i> , <b>2019</b> , 31, 713-725	4.3	5
142	Interaction of hormonal and social environments in understanding body image concerns in adolescent girls. <i>Journal of Psychiatric Research</i> , <b>2019</b> , 109, 178-184	5.2	9
141	No sex differences in the origins of covariation between social and physical aggression. <i>Psychological Medicine</i> , <b>2019</b> , 49, 2515-2523	6.9	3
140	Children Sleep and Antisocial Behavior: Differential Association of Sleep with Aggression and Rule-Breaking. <i>Journal of Abnormal Child Psychology</i> , <b>2019</b> , 47, 791-799	4	7
139	The etiology of social aggression: a nuclear twin family study. <i>Psychological Medicine</i> , <b>2019</b> , 49, 162-169	6.9	1
138	Associations between birth size and later height from infancy through adulthood: An individual based pooled analysis of 28 twin cohorts participating in the CODATwins project. <i>Early Human Development</i> , <b>2018</b> , 120, 53-60	2.2	8
137	Illuminating the nomological network of digital aggression: Results from two studies. <i>Aggressive Behavior</i> , <b>2018</b> , 44, 125-135	2.8	5
136	Using person-specific neural networks to characterize heterogeneity in eating disorders: Illustrative links between emotional eating and ovarian hormones. <i>International Journal of Eating Disorders</i> , <b>2018</b> , 51, 730-740	6.3	9
135	Commentary: Childhood conduct problems are a public health crisis and require resources: a commentary on Rivenbark et al. (). <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , <b>2018</b> , 59, 711-713	7.9	13
134	Are there sex differences in the etiology of youth antisocial behavior?. <i>Journal of Abnormal Psychology</i> , <b>2018</b> , 127, 66-78	7	11
133	Estrogen moderates genetic influences on binge eating during puberty: Disruption of normative processes?. <i>Journal of Abnormal Psychology</i> , <b>2018</b> , 127, 458-470	7	22
132	Parent depressive symptomatology moderates the etiology of externalizing behavior in childhood: An examination of gene-environment interaction effects. <i>Developmental Psychology</i> , <b>2018</b> , 54, 1277-1289	3.7	6
131	Parenting Is an Environmental Predictor of Callous-Unemotional Traits and Aggression: A Monozygotic Twin Differences Study. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , <b>2018</b> , 57, 955-963	7.2	43

130	Analysis of a mindset intervention. <i>Journal of Research in Personality</i> , <b>2018</b> , 77, 21-30	2.8	10
129	The significant effects of puberty on the genetic diathesis of binge eating in girls. <i>International Journal of Eating Disorders</i> , <b>2017</b> , 50, 984-989	6.3	21
128	Parental involvement as an etiological moderator of middle childhood oppositional defiant disorder. <i>Journal of Family Psychology</i> , <b>2017</b> , 31, 659-667	2.7	3
127	Association between birthweight and later body mass index: an individual-based pooled analysis of 27 twin cohorts participating in the CODATwins project. <i>International Journal of Epidemiology</i> , <b>2017</b> , 46, 1488-1498	7.8	15
126	Differences in genetic and environmental variation in adult BMI by sex, age, time period, and region: an individual-based pooled analysis of 40 twin cohorts. <i>American Journal of Clinical Nutrition</i> , <b>2017</b> , 106, 457-466	7	69
125	Birth and Adoptive Parent Antisocial Behavior and Parenting: A Study of Evocative Gene-Environment Correlation. <i>Child Development</i> , <b>2017</b> , 88, 505-513	4.9	11
124	Genetic and environmental associations between body dissatisfaction, weight preoccupation, and binge eating: Evidence for a common factor with differential loadings across symptom type. <i>International Journal of Eating Disorders</i> , <b>2017</b> , 50, 157-161	6.3	6
123	Eating disorder-specific risk factors moderate the relationship between negative urgency and binge eating: A behavioral genetic investigation. <i>Journal of Abnormal Psychology</i> , <b>2017</b> , 126, 481-494	7	15
122	Expanding the developmental boundaries of etiologic effects: The role of adrenarche in genetic influences on disordered eating in males. <i>Journal of Abnormal Psychology</i> , <b>2017</b> , 126, 593-606	7	14
121	What drives the association between weight-conscious peer groups and disordered eating? Disentangling genetic and environmental selection from pure socialization effects. <i>Journal of Abnormal Psychology</i> , <b>2016</b> , 125, 356-68	7	11
120	A Further Evaluation of the Triarchic Conceptualization of Psychopathy in College Students. <i>Journal of Psychopathology and Behavioral Assessment</i> , <b>2016</b> , 38, 172-182	2	23
119	The Phenomenology of Non-Aggressive Antisocial Behavior During Childhood. <i>Journal of Abnormal Child Psychology</i> , <b>2016</b> , 44, 651-61	4	6
118	Neighborhood Disadvantage Alters the Origins of Children's Nonaggressive Conduct Problems. <i>Clinical Psychological Science</i> , <b>2016</b> , 4, 511-526	6	33
117	Socialization and selection effects in the association between weight conscious peer groups and thin-ideal internalization: A co-twin control study. <i>Body Image</i> , <b>2016</b> , 17, 1-9	7.4	5
116	The dimensional nature of eating pathology: Evidence from a direct comparison of categorical, dimensional, and hybrid models. <i>Journal of Abnormal Psychology</i> , <b>2016</b> , 125, 715-26	7	32
115	Test Reliability at the Individual Level. <i>Structural Equation Modeling</i> , <b>2016</b> , 23, 532-543	3.7	9
114	Differential Effects of Estrogen and Progesterone on Genetic and Environmental Risk for Emotional Eating in Women. <i>Clinical Psychological Science</i> , <b>2016</b> , 4, 895-908	6	21
113	Genetic and environmental effects on body mass index from infancy to the onset of adulthood: an individual-based pooled analysis of 45 twin cohorts participating in the Collaborative project of Development of Anthropometrical measures in Twins (CODATwins) study. <i>American Journal of Clinical Nutrition</i> , <b>2016</b> , 104, 371-8	7	125

112	Early starting, aggressive, and/or callous-unemotional? Examining the overlap and predictive utility of antisocial behavior subtypes. <i>Journal of Abnormal Psychology</i> , <b>2015</b> , 124, 329-342	7	53
111	The association between aggressive and non-aggressive antisocial problems as measured with the Achenbach System of Empirically Based Assessment: A study of 27,861 parent-adolescent dyads from 25 societies. <i>Personality and Individual Differences</i> , <b>2015</b> , 85, 86-92	3.3	8
110	A constructive replication of the association between the oxytocin receptor genotype and parenting. <i>Journal of Family Psychology</i> , <b>2015</b> , 29, 91-9	2.7	27
109	Age differences in prenatal testosterone's protective effects on disordered eating symptoms: developmental windows of expression?. <i>Behavioral Neuroscience</i> , <b>2015</b> , 129, 18-36	2.1	16
108	Do non-shared environmental influences persist over time? An examination of days and minutes. <i>Behavior Genetics</i> , <b>2015</b> , 45, 24-34	3.2	11
107	Zygosity Differences in Height and Body Mass Index of Twins From Infancy to Old Age: A Study of the CODATwins Project. <i>Twin Research and Human Genetics</i> , <b>2015</b> , 18, 557-70	2.2	20
106	The CODATwins Project: The Cohort Description of Collaborative Project of Development of Anthropometrical Measures in Twins to Study Macro-Environmental Variation in Genetic and Environmental Effects on Anthropometric Traits. <i>Twin Research and Human Genetics</i> , <b>2015</b> , 18, 348-60	2.2	48
105	Examining associations between negative urgency and key components of objective binge episodes. <i>International Journal of Eating Disorders</i> , <b>2015</b> , 48, 527-31	6.3	36
104	Evidence That the Gene-Environment Interactions Underlying Youth Conduct Problems Vary Across Development. <i>Child Development Perspectives</i> , <b>2015</b> , 9, 217-221	5.5	10
103	Parental involvement moderates etiological influences on attention deficit hyperactivity disorder behaviors in child twins. <i>Child Development</i> , <b>2015</b> , 86, 224-40	4.9	11
102	The effects of ovarian hormones and emotional eating on changes in weight preoccupation across the menstrual cycle. <i>International Journal of Eating Disorders</i> , <b>2015</b> , 48, 477-86	6.3	23
101	Toward a Developmentally Sensitive and Genetically Informed Perspective on Popularity <b>2015</b> , 151-169		0
100	Research review: the shared environment as a key source of variability in child and adolescent psychopathology. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , <b>2014</b> , 55, 304-12	7.9	22
99	Commentary: Improving treatment for youth with callous-unemotional traits through the intersection of basic and applied science--reflections on Dadds et al. (2014). <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , <b>2014</b> , 55, 781-3	7.9	23
98	Evaluation of the known behavioral heterogeneity in conduct disorder to improve its assessment and treatment. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , <b>2014</b> , 55, 1300-10	7.9	27
97	The etiology of the association between child antisocial behavior and maternal negativity varies across aggressive and non-aggressive rule-breaking forms of antisocial behavior. <i>Journal of Abnormal Child Psychology</i> , <b>2014</b> , 42, 1299-311	4	14
96	The Next Steps in Our Understanding of Gene-Beer Interplay: A Commentary. <i>Merrill-Palmer Quarterly</i> , <b>2014</b> , 60, 238	1.7	0
95	Sex differences in genetic and environmental influences on percent body fatness and physical activity. <i>Journal of Physical Activity and Health</i> , <b>2014</b> , 11, 1187-93	2.5	1

94	A further validation of the Minnesota Borderline Personality Disorder Scale. <i>Personality Disorders: Theory, Research, and Treatment</i> , <b>2014</b> , 5, 146-153	4.1	8
93	Behavior Genetics and the Within-Person Variability of Daily Interpersonal Styles: The Heritability of Flux, Spin and Pulse. <i>Social Psychological and Personality Science</i> , <b>2014</b> , 6, 300-308	4.3	5
92	Ovarian Hormone Influences on Dysregulated Eating: A Comparison of Associations in Women with versus without Binge Episodes. <i>Clinical Psychological Science</i> , <b>2014</b> , 2, 545-559	6	55
91	Elucidating the etiology of individual differences in parenting: A meta-analysis of behavioral genetic research. <i>Psychological Bulletin</i> , <b>2014</b> , 140, 544-86	19.1	166
90	Do emotional eating urges regulate affect? Concurrent and prospective associations and implications for risk models of binge eating. <i>International Journal of Eating Disorders</i> , <b>2014</b> , 47, 874-7	6.3	38
89	Genetic and environmental influences on thin-ideal internalization across puberty and preadolescent, adolescent, and young adult development. <i>International Journal of Eating Disorders</i> , <b>2014</b> , 47, 773-83	6.3	26
88	Additional Evidence for Meaningful Etiological Distinctions Within the Broader Construct of Antisocial Behavior <b>2014</b> , 99-119		3
87	An examination of the representativeness assumption for twin studies of eating pathology and internalizing symptoms. <i>Behavior Genetics</i> , <b>2013</b> , 43, 427-35	3.2	4
86	Quantifying the Association between Personality Similarity and Marital Adjustment Using Profile Correlations: A Cautionary Tale. <i>Journal of Research in Personality</i> , <b>2013</b> , 47, 97-106	2.8	20
85	Etiological contributions to the covariation between children's perceptions of inter-parental conflict and child behavioral problems. <i>Journal of Abnormal Child Psychology</i> , <b>2013</b> , 41, 239-51	4	10
84	Individual differences in the relationship between ovarian hormones and emotional eating across the menstrual cycle: a role for personality?. <i>Eating Behaviors</i> , <b>2013</b> , 14, 161-6	3	21
83	Exploring the relationship between negative urgency and dysregulated eating: etiologic associations and the role of negative affect. <i>Journal of Abnormal Psychology</i> , <b>2013</b> , 122, 433-44	7	86
82	The interactive effects of estrogen and progesterone on changes in emotional eating across the menstrual cycle. <i>Journal of Abnormal Psychology</i> , <b>2013</b> , 122, 131-7	7	122
81	The emergence of sex differences in risk for disordered eating attitudes during puberty: a role for prenatal testosterone exposure. <i>Journal of Abnormal Psychology</i> , <b>2013</b> , 122, 420-32	7	48
80	Evocative gene-environment correlation in the mother-child relationship: a twin study of interpersonal processes. <i>Development and Psychopathology</i> , <b>2013</b> , 25, 105-18	4.3	44
79	The Michigan State University Twin Registry (MSUTR): an update. <i>Twin Research and Human Genetics</i> , <b>2013</b> , 16, 344-50	2.2	69
78	Delinquent peer affiliation as an etiological moderator of childhood delinquency. <i>Psychological Medicine</i> , <b>2013</b> , 43, 1269-78	6.9	29
77	Do etiological influences on aggression overlap with those on rule breaking? A meta-analysis. <i>Psychological Medicine</i> , <b>2013</b> , 43, 1801-12	6.9	28

76	Maternal warmth and directiveness jointly moderate the etiology of childhood conduct problems. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , <b>2013</b> , 54, 1030-7	7.9	22
75	Ovarian hormones and emotional eating associations across the menstrual cycle: an examination of the potential moderating effects of body mass index and dietary restraint. <i>International Journal of Eating Disorders</i> , <b>2013</b> , 46, 256-63	6.3	22
74	Interpersonal problems associated with multidimensional personality questionnaire traits in women during the transition to adulthood. <i>Assessment</i> , <b>2013</b> , 20, 60-7	3.7	10
73	Etiologic relationships between anxiety and dimensions of maladaptive perfectionism in young adult female twins. <i>Depression and Anxiety</i> , <b>2012</b> , 29, 47-53	8.4	17
72	Differential associations between ovarian hormones and disordered eating symptoms across the menstrual cycle in women. <i>International Journal of Eating Disorders</i> , <b>2012</b> , 45, 333-44	6.3	44
71	Observed externalizing behavior: a developmental comparison of genetic and environmental influences across three samples. <i>Behavior Genetics</i> , <b>2012</b> , 42, 30-9	3.2	12
70	Genetic and environmental influences on thin-ideal internalization. <i>International Journal of Eating Disorders</i> , <b>2012</b> , 45, 942-8	6.3	21
69	Additional evidence against shared environmental contributions to attention-deficit/hyperactivity problems. <i>Behavior Genetics</i> , <b>2012</b> , 42, 711-21	3.2	20
68	Etiological distinctions between aggressive and non-aggressive antisocial behavior: results from a nuclear twin family model. <i>Journal of Abnormal Child Psychology</i> , <b>2012</b> , 40, 1059-71	4	22
67	How do we optimally conceptualize the heterogeneity within antisocial behavior? An argument for aggressive versus non-aggressive behavioral dimensions. <i>Clinical Psychology Review</i> , <b>2012</b> , 32, 263-79	10.8	111
66	Youth appraisals of inter-parental conflict and genetic and environmental contributions to attention-deficit hyperactivity disorder: examination of GxE effects in a twin sample. <i>Journal of Abnormal Child Psychology</i> , <b>2012</b> , 40, 543-54	4	26
65	Should Social Aggression be Considered Antisocial? <i>Journal of Psychopathology and Behavioral Assessment</i> , <b>2012</b> , 34, 153-163	2	40
64	Bulimic behaviors and alcohol use: shared genetic influences. <i>Behavior Genetics</i> , <b>2012</b> , 42, 603-13	3.2	31
63	Twin and family studies are actually more important than ever. <i>Behavioral and Brain Sciences</i> , <b>2012</b> , 35, 361	0.9	6
62	How does the inclusion of twins conceived via fertility treatments influence the results of twin studies?. <i>Twin Research and Human Genetics</i> , <b>2012</b> , 15, 746-52	2.2	9
61	Genetic and environmental influences on personality trait stability and growth during the transition to adulthood: a three-wave longitudinal study. <i>Journal of Personality and Social Psychology</i> , <b>2011</b> , 100, 545-56	6.5	143
60	Confirming the etiology of adolescent acting-out behaviors: an examination of observer-ratings in a sample of adoptive and biological siblings. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , <b>2011</b> , 52, 519-26	7.9	11
59	Age-of-onset or behavioral sub-types? A prospective comparison of two approaches to characterizing the heterogeneity within antisocial behavior. <i>Journal of Abnormal Child Psychology</i> , <b>2011</b> , 39, 633-44	4	44

58	The relationship between parent-child conflict and adolescent antisocial behavior: confirming shared environmental mediation. <i>Journal of Abnormal Child Psychology</i> , <b>2011</b> , 39, 683-94	4	32
57	Genetic and environmental influences on disordered eating and depressive symptoms. <i>International Journal of Eating Disorders</i> , <b>2011</b> , 44, 605-11	6.3	19
56	Dietary restraint moderates genetic risk for binge eating. <i>Journal of Abnormal Psychology</i> , <b>2011</b> , 120, 119-28	7	32
55	Development of the Brief Romantic Relationship Interaction Coding Scheme (BRRICS). <i>Journal of Family Psychology</i> , <b>2011</b> , 25, 759-69	2.7	19
54	The association between parent-child conflict and adolescent conduct problems over time: results from a longitudinal adoption study. <i>Journal of Abnormal Psychology</i> , <b>2011</b> , 120, 46-56	7	69
53	Parental divorce and disordered eating: an investigation of a gene-environment interaction. <i>International Journal of Eating Disorders</i> , <b>2011</b> , 44, 169-77	6.3	10
52	The Importance of the Phenotype in Explorations of Gene-Environment Interplay. <i>National Symposium on Family Issues</i> , <b>2011</b> , 85-94	0.5	1
51	A comparison of two different approaches to characterizing the heterogeneity within antisocial behavior: age-of-onset versus behavioral sub-types. <i>Journal of Personality Disorders</i> , <b>2010</b> , 24, 272-83	2.6	11
50	Externalizing psychopathology and marital adjustment in long-term marriages: results from a large combined sample of married couples. <i>Journal of Abnormal Psychology</i> , <b>2010</b> , 119, 151-62	7	44
