Benjamin B Lahey

List of Publications by Year in Descending Order

Source: https://exaly.com/author-pdf/2579453/benjamin-b-lahey-publications-by-year.pdf

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

19,087 217 70 135 h-index g-index citations papers 20,859 6.77 234 4.9 L-index avg, IF ext. papers ext. citations

#	Paper	IF	Citations
217	Associations of Resting Heart Rate and Intelligence With General and Specific Psychopathology: A Prospective Population Study of 899,398 Swedish Men. <i>Clinical Psychological Science</i> , 2021 , 9, 524-532	6	1
216	Dispositional Negative Emotionality in Childhood and Adolescence Predicts Structural Variation in the Amygdala and Caudal Anterior Cingulate During Early Adulthood: Theoretically and Empirically Based Tests. <i>Research on Child and Adolescent Psychopathology</i> , 2021 , 49, 1275-1288	4	О
215	Three recommendations based on a comparison of the reliability and validity of the predominant models used in research on the empirical structure of psychopathology. <i>Journal of Abnormal Psychology</i> , 2021 , 130, 297-317	7	12
214	The association between latent trauma and brain structure in children. <i>Translational Psychiatry</i> , 2021 , 11, 240	8.6	5
213	The Last War Baby 2021 , 299-323		
212	Association of gray matter volumes with general and specific dimensions of psychopathology in children. <i>Neuropsychopharmacology</i> , 2021 , 46, 1333-1339	8.7	6
211	Hierarchical models of psychopathology: empirical support, implications, and remaining issues. <i>World Psychiatry</i> , 2021 , 20, 57-63	14.4	31
21 0	Evidence and theory for lower rates of depression in larger US urban areas. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2021 , 118,	11.5	6
209	Accounting for Confounding in Observational Studies. <i>Annual Review of Clinical Psychology</i> , 2020 , 16, 25-48	20.5	13
208	White Matter Microstructure and the General Psychopathology Factor in Children. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2020 , 59, 1285-1296	7.2	13
207	Correction to Moore et al. (2020). Journal of Abnormal Psychology, 2020, 129, 759	7	
206	Redefining phenotypes to advance psychiatric genetics: Implications from hierarchical taxonomy of psychopathology. <i>Journal of Abnormal Psychology</i> , 2020 , 129, 143-161	7	47
205	Criterion validity and relationships between alternative hierarchical dimensional models of general and specific psychopathology. <i>Journal of Abnormal Psychology</i> , 2020 , 129, 677-688	7	12
204	Using Genetics to Examine a General Liability to Childhood Psychopathology. <i>Behavior Genetics</i> , 2020 , 50, 213-220	3.2	15
203	Direct and Indirect Associations of Widespread Individual Differences in Brain White Matter Microstructure With Executive Functioning and General and Specific Dimensions of Psychopathology in Children. <i>Biological Psychiatry: Cognitive Neuroscience and Neuroimaging</i> , 2020 ,	3.4	1
202	Sex differences in associations of socioemotional dispositions measured in childhood and adolescence with brain white matter microstructure 12 years later. <i>Personality Neuroscience</i> , 2020 , 3, e5	1.5	1
201	Sluggish Cognitive Tempo and Depressive Symptoms in Children and Adolescents Predict Adulthood Psychopathology. <i>Journal of Abnormal Child Psychology</i> , 2020 , 48, 1591-1601	4	3

(2016-2020)

200	The contribution of common genetic risk variants for ADHD to a general factor of childhood psychopathology. <i>Molecular Psychiatry</i> , 2020 , 25, 1809-1821	15.1	60
199	Socioemotional dispositions of children and adolescents predict general and specific second-order factors of psychopathology in early adulthood: A 12-year prospective study. <i>Journal of Abnormal Psychology</i> , 2019 , 128, 574-584	7	11
198	White matter microstructure correlates of general and specific second-order factors of psychopathology. <i>NeuroImage: Clinical</i> , 2019 , 22, 101705	5.3	9
197	Preconception and prenatal cannabis use and the risk of behavioural and emotional problems in the offspring; a multi-informant prospective longitudinal study. <i>International Journal of Epidemiology</i> , 2019 , 48, 287-296	7.8	30
196	Measuring the hierarchical general factor model of psychopathology in young adults. <i>International Journal of Methods in Psychiatric Research</i> , 2018 , 27,	4.3	37
195	Right Fronto-Subcortical White Matter Microstructure Predicts Cognitive Control Ability on the Go/No-go Task in a Community Sample. <i>Frontiers in Human Neuroscience</i> , 2018 , 12, 127	3.3	6
194	Sex Differences in the Genetic and Environmental Influences on Self-Reported Non-aggressive and Aggressive Conduct Disorder Symptoms in Early and Middle Adolescence. <i>Behavior Genetics</i> , 2018 , 48, 271-282	3.2	7
193	Prospective test of the developmental propensity model of antisocial behavior: from childhood and adolescence into early adulthood. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2018 , 59, 676-683	7.9	9
192	Criterion Validity and Utility of the General Factor of Psychopathology in Childhood: Predictive Associations With Independently Measured Severe Adverse Mental Health Outcomes in Adolescence. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2018 , 57, 372-383	7.2	26
191	Implications of the Hierarchical Structure of Psychopathology for Psychiatric Neuroimaging. <i>Biological Psychiatry: Cognitive Neuroscience and Neuroimaging</i> , 2017 , 2, 310-317	3.4	36
190	Convergent individual differences in visual cortices, but not the amygdala across standard amygdalar fMRI probe tasks. <i>NeuroImage</i> , 2017 , 146, 312-319	7.9	4
189	A hierarchical causal taxonomy of psychopathology across the life span. <i>Psychological Bulletin</i> , 2017 , 143, 142-186	19.1	224
188	ADHD Medication and Substance-Related Problems. American Journal of Psychiatry, 2017, 174, 877-885	11.9	79
187	Prenatal Cannabis and Tobacco Exposure in Relation to Brain Morphology: A Prospective Neuroimaging Study in Young Children. <i>Biological Psychiatry</i> , 2016 , 79, 971-9	7.9	63
186	Neuroticism 2016 ,		4
185	A Genetically Informed Study of the Associations Between Maternal Age at Childbearing and Adverse Perinatal Outcomes. <i>Behavior Genetics</i> , 2016 , 46, 431-56	3.2	1
184	Genetic and Environmental Contributions to Associations between Infant Fussy Temperament and Antisocial Behavior in Childhood and Adolescence. <i>Behavior Genetics</i> , 2016 , 46, 680-692	3.2	12
183	External validity of a hierarchical dimensional model of child and adolescent psychopathology: Tests using confirmatory factor analyses and multivariate behavior genetic analyses. <i>Journal of Abnormal Psychology</i> , 2016 , 125, 1053-1066	7	104

182	Predictors of adolescent outcomes among 4-6-year-old children with attention-deficit/hyperactivity disorder. <i>Journal of Abnormal Psychology</i> , 2016 , 125, 168-181	7	45
181	Single Nucleotide Polymorphism Heritability of a General Psychopathology Factor in Children. Journal of the American Academy of Child and Adolescent Psychiatry, 2016 , 55, 1038-1045.e4	7.2	81
180	Behavior problems and timing of menarche: a developmental longitudinal biometrical analysis using the NLSY-Children data. <i>Behavior Genetics</i> , 2015 , 45, 51-70	3.2	8
179	Sex differences in abnormal white matter development associated with conduct disorder in children. <i>Psychiatry Research - Neuroimaging</i> , 2015 , 233, 269-77	2.9	16
178	Genetics in child and adolescent psychiatry: methodological advances and conceptual issues. <i>European Child and Adolescent Psychiatry</i> , 2015 , 24, 619-34	5.5	7
177	Comorbidity Among Dimensions of Childhood Psychopathology: Converging Evidence from Behavior Genetics. <i>Child Development Perspectives</i> , 2015 , 9, 26-31	5.5	55
176	Criterion validity of the general factor of psychopathology in a prospective study of girls. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2015 , 56, 415-22	7.9	145
175	Association of regional gray matter volumes in the brain with disruptive behavior disorders in male and female children. <i>NeuroImage: Clinical</i> , 2015 , 7, 252-7	5.3	25
174	Prospective association of childhood receptive vocabulary and conduct problems with self-reported adolescent delinquency: tests of mediation and moderation in sibling-comparison analyses. <i>Journal of Abnormal Child Psychology</i> , 2014 , 42, 1341-51	4	6
173	Genetic imaging of the association of oxytocin receptor gene (OXTR) polymorphisms with positive maternal parenting. <i>Frontiers in Behavioral Neuroscience</i> , 2014 , 8, 21	3.5	54
172	Patterns of heterotypic continuity associated with the cross-sectional correlational structure of prevalent mental disorders in adults. <i>JAMA Psychiatry</i> , 2014 , 71, 989-96	14.5	54
171	The role of early childhood ADHD and subsequent CD in the initiation and escalation of adolescent cigarette, alcohol, and marijuana use. <i>Journal of Abnormal Psychology</i> , 2014 , 123, 362-374	7	76
170	What we need to know about callous-unemotional traits: comment on Frick, Ray, Thornton, and Kahn (2014). <i>Psychological Bulletin</i> , 2014 , 140, 58-63	19.1	46
169	Marked reduction in serotonergic activity in a sexually aggressive adolescent male. <i>Journal of Neuropsychiatry and Clinical Neurosciences</i> , 2014 , 26, 262-70	2.7	
168	Testing the Developmental Origins of Health and Disease Hypothesis for Psychopathology Using Family-Based Quasi-Experimental Designs. <i>Child Development Perspectives</i> , 2014 , 8, 151-157	5.5	34
167	Personality dimensions as common and broadband-specific features for internalizing and externalizing disorders. <i>Journal of Abnormal Child Psychology</i> , 2013 , 41, 939-57	4	36
166	Editorial Policy for Candidate Gene Studies. Journal of Abnormal Child Psychology, 2013, 41, 511-514	4	23
165	Operating characteristics of alternative statistical methods for detecting gene-by-measured environment interaction in the presence of gene-environment correlation in twin and sibling studies. <i>Behavior Genetics</i> , 2013 , 43, 71-84	3.2	23

(2010-2013)

164	Effects of multiple maternal relationship transitions on offspring antisocial behavior in childhood and adolescence: a cousin-comparison analysis. <i>Journal of Abnormal Child Psychology</i> , 2013 , 41, 185-98	4	13
163	Early concern and disregard for others as predictors of antisocial behavior. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2013 , 54, 157-66	7.9	70
162	Common genetic influences on negative emotionality and a general psychopathology factor in childhood and adolescence. <i>Journal of Abnormal Psychology</i> , 2013 , 122, 1142-53	7	248
161	Does low birth weight share common genetic or environmental risk with childhood disruptive disorders?. <i>Journal of Abnormal Psychology</i> , 2013 , 122, 842-53	7	16
160	Critical need for family-based, quasi-experimental designs in integrating genetic and social science research. <i>American Journal of Public Health</i> , 2013 , 103 Suppl 1, S46-55	5.1	217
159	Preliminary genetic imaging study of the association between estrogen receptor-ligene polymorphisms and harsh human maternal parenting. <i>Neuroscience Letters</i> , 2012 , 525, 17-22	3.3	13
158	Using confirmatory factor analysis to measure contemporaneous activation of defined neuronal networks in functional magnetic resonance imaging. <i>NeuroImage</i> , 2012 , 60, 1982-91	7.9	19
157	Annual research review: phenotypic and causal structure of conduct disorder in the broader context of prevalent forms of psychopathology. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2012 , 53, 536-57	7.9	63
156	Is there a general factor of prevalent psychopathology during adulthood?. <i>Journal of Abnormal Psychology</i> , 2012 , 121, 971-7	7	373
155	Validity of DSM-IV attention deficit/hyperactivity disorder symptom dimensions and subtypes. Journal of Abnormal Psychology, 2012 , 121, 991-1010	7	548
154	A quasi-experimental analysis of the influence of neighborhood disadvantage on child and adolescent conduct problems. <i>Journal of Abnormal Psychology</i> , 2012 , 121, 95-108	7	43
153	Genome-wide association study of personality traits in bipolar patients. <i>Psychiatric Genetics</i> , 2011 , 21, 190-4	2.9	36
152	Shared genetic influences on negative emotionality and major depression/conduct disorder comorbidity. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2011 , 50, 818-27	7.2	44
151	Higher-order genetic and environmental structure of prevalent forms of child and adolescent psychopathology. <i>Archives of General Psychiatry</i> , 2011 , 68, 181-9		223
150	Child and adolescent conduct disorder substantially shares genetic influences with three socioemotional dispositions. <i>Journal of Abnormal Psychology</i> , 2011 , 120, 57-70	7	45
149	Interactions between early parenting and a polymorphism of the child's dopamine transporter gene in predicting future child conduct disorder symptoms. <i>Journal of Abnormal Psychology</i> , 2011 , 120, 33-45	7	50
148	Biosocial Influences on the Family: A Decade Review. <i>Journal of Marriage and Family</i> , 2010 , 72, 762-782	4.5	42
147	Very early predictors of adolescent depression and suicide attempts in children with attention-deficit/hyperactivity disorder. <i>Archives of General Psychiatry</i> , 2010 , 67, 1044-51		248

146	Psychometrics of a self-report version of the Child and Adolescent Dispositions Scale. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2010 , 39, 351-61	5.4	26
145	All in the Family: Comparing Siblings to Test Causal Hypotheses Regarding Environmental Influences on Behavior. <i>Current Directions in Psychological Science</i> , 2010 , 19, 319-323	6.5	155
144	Predictive validity of a continuous alternative to nominal subtypes of attention-deficit/hyperactivity disorder for DSM-V. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2010 , 39, 761-75	5.4	101
143	Predictive validity of childhood oppositional defiant disorder and conduct disorder: implications for the DSM-V. <i>Journal of Abnormal Psychology</i> , 2010 , 119, 739-51	7	117
142	Public health significance of neuroticism. <i>American Psychologist</i> , 2009 , 64, 241-56	9.5	1072
141	Are oppositional-defiant and hyperactive-inattentive symptoms developmental precursors to conduct problems in late childhood?: genetic and environmental links. <i>Journal of Abnormal Child Psychology</i> , 2009 , 37, 45-58	4	29
140	A quasi-experimental analysis of the association between family income and offspring conduct problems. <i>Journal of Abnormal Child Psychology</i> , 2009 , 37, 415-29	4	35
139	Associations between father absence and age of first sexual intercourse. <i>Child Development</i> , 2009 , 80, 1463-80	4.9	115
138	Using epidemiologic methods to test hypotheses regarding causal influences on child and adolescent mental disorders. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2009 , 50, 53-62	7.9	35
137	Population density and youth antisocial behavior. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2009 , 50, 999-1008	7.9	18
136	Maternal age at childbirth and offspring disruptive behaviors: testing the causal hypothesis. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2009 , 50, 1018-28	7.9	51
135	Few girls with childhood attention-deficit/hyperactivity disorder show positive adjustment during adolescence. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2009 , 38, 132-43	5.4	73
134	Atypical empathic responses in adolescents with aggressive conduct disorder: a functional MRI investigation. <i>Biological Psychology</i> , 2009 , 80, 203-11	3.2	207
133	Etiology and measurement of relational aggression: A multi-informant behavior genetic investigation. <i>Journal of Abnormal Psychology</i> , 2009 , 118, 722-33	7	39
132	Developmental structure of genetic influences on antisocial behavior across childhood and adolescence. <i>Journal of Abnormal Psychology</i> , 2009 , 118, 711-21	7	22
131	Should relational aggression be included in DSM-V?. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2008 , 47, 86-93	7.2	56
130	Smoking during pregnancy and offspring externalizing problems: an exploration of genetic and environmental confounds. <i>Development and Psychopathology</i> , 2008 , 20, 139-64	4.3	220
129	Psychometric characteristics of a measure of emotional dispositions developed to test a developmental propensity model of conduct disorder. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2008 , 37, 794-807	5.4	73

(2005-2008)

128	Testing structural models of DSM-IV symptoms of common forms of child and adolescent psychopathology. <i>Journal of Abnormal Child Psychology</i> , 2008 , 36, 187-206	4	219
127	Few preschool boys and girls with ADHD are well-adjusted during adolescence. <i>Journal of Abnormal Child Psychology</i> , 2008 , 36, 373-83	4	142
126	Academic achievement over 8 years among children who met modified criteria for attention-deficit/hyperactivity disorder at 4-6 years of age. <i>Journal of Abnormal Child Psychology</i> , 2008 , 36, 399-410	4	216
125	Is parental knowledge of their adolescent offspring's whereabouts and peer associations spuriously associated with offspring delinquency?. <i>Journal of Abnormal Child Psychology</i> , 2008 , 36, 807-23	4	98
124	Temperament and parenting during the first year of life predict future child conduct problems. <i>Journal of Abnormal Child Psychology</i> , 2008 , 36, 1139-58	4	97
123	Specification, testing, and interpretation of gene-by-measured-environment interaction models in the presence of gene-environment correlation. <i>Behavior Genetics</i> , 2008 , 38, 301-15	3.2	73
122	Are there sex differences in the predictive validity of DSM-IV ADHD among younger children?. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2007 , 36, 113-26	5.4	39
121	Maternal depression and early positive parenting predict future conduct problems in young children with attention-deficit/hyperactivity disorder. <i>Developmental Psychology</i> , 2007 , 43, 70-82	3.7	242
12 0	Causal inferences regarding prenatal alcohol exposure and childhood externalizing problems. <i>Archives of General Psychiatry</i> , 2007 , 64, 1296-304		105
119	Sex differences in the causes of self-reported adolescent delinquency. <i>Journal of Abnormal Psychology</i> , 2007 , 116, 236-48	7	44
118	Testing the Model Minority Stereotype: Youth Behaviors across Racial and Ethnic Groups. <i>Social Service Review</i> , 2006 , 80, 419-452	1.1	49
117	A practical measure of impairment: psychometric properties of the impairment rating scale in samples of children with attention deficit hyperactivity disorder and two school-based samples. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2006 , 35, 369-85	5.4	482
116	Predictive validity of ICD-10 hyperkinetic disorder relative to DSM-IV attention-deficit/hyperactivity disorder among younger children. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2006 , 47, 472-9	7.9	44
115	Testing descriptive hypotheses regarding sex differences in the development of conduct problems and delinquency. <i>Journal of Abnormal Child Psychology</i> , 2006 , 34, 737-55	4	99
114	Mood and hormone responses to psychological challenge in adolescent males with conduct problems. <i>Biological Psychiatry</i> , 2005 , 57, 1109-16	7.9	67
113	Predicting future antisocial personality disorder in males from a clinical assessment in childhood. Journal of Consulting and Clinical Psychology, 2005 , 73, 389-99	6.5	156
112	Is depression best viewed as a continuum or discrete category? A taxometric analysis of childhood and adolescent depression in a population-based sample. <i>Journal of Abnormal Psychology</i> , 2005 , 114, 96-110	7	271
111	Developmental transitions among affective and behavioral disorders in adolescent boys. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2005 , 46, 1200-10	7.9	265
111		7.9	26

110	Instability of the DSM-IV Subtypes of ADHD from preschool through elementary school. <i>Archives of General Psychiatry</i> , 2005 , 62, 896-902		361
109	Three-year predictive validity of DSM-IV attention deficit hyperactivity disorder in children diagnosed at 4-6 years of age. <i>American Journal of Psychiatry</i> , 2004 , 161, 2014-20	11.9	257
108	Commentary: role of temperament in developmental models of psychopathology. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2004 , 33, 88-93	5.4	43
107	ANTISOCIAL BEHAVIOR AND YOUTH GANG MEMBERSHIP: SELECTION AND SOCIALIZATION. <i>Criminology</i> , 2004 , 42, 55-88	4.1	179
106	The structure of child and adolescent psychopathology: generating new hypotheses. <i>Journal of Abnormal Psychology</i> , 2004 , 113, 358-85	7	200
105	Risk factors for adult antisocial personality 2003 , 79-108		13
104	Family and neighborhood income: additive and multiplicative associations with youths well-being. <i>Social Science Research</i> , 2003 , 32, 191-219	2.1	13
103	What are adolescent antecedents to antisocial personality disorder?. <i>Criminal Behaviour and Mental Health</i> , 2002 , 12, 24-36	1.4	117
102	A question for DSM-V: which better predicts persistent conduct disorderdelinquent acts or conduct symptoms?. <i>Criminal Behaviour and Mental Health</i> , 2002 , 12, 37-52	1.4	19
101	Adolescent outcomes of childhood conduct disorder among clinic-referred boys: predictors of improvement. <i>Journal of Abnormal Child Psychology</i> , 2002 , 30, 333-48	4	50
100	Sex differences in young children who meet criteria for attention deficit hyperactivity disorder. Journal of Clinical Child and Adolescent Psychology, 2002 , 31, 453-64	5.4	47
99	Waxing and waning in concert: dynamic comorbidity of conduct disorder with other disruptive and emotional problems over 7 years among clinic-referred boys. <i>Journal of Abnormal Psychology</i> , 2002 , 111, 556-67	7	67
98	Prevalence and correlates of antisocial behaviors among three ethnic groups. <i>Journal of Abnormal Child Psychology</i> , 2001 , 29, 465-78	4	105
97	Should the combined and predominantly inattentive types of ADHD be considered distinct and unrelated disorders? Not now, at least <i>Clinical Psychology: Science and Practice</i> , 2001 , 8, 494-497	3.7	40
96	Age and gender differences in oppositional behavior and conduct problems: A cross-sectional household study of middle childhood and adolescence <i>Journal of Abnormal Psychology</i> , 2000 , 109, 488	3-503	215
95	Test R etest Reliability of Dominic Anxiety and Depression Items Among Young Children. <i>Journal of Psychopathology and Behavioral Assessment</i> , 2000 , 22, 257-270	2	9
94	Findings on disruptive behavior disorders from the first decade of the Developmental Trends Study. <i>Clinical Child and Family Psychology Review</i> , 2000 , 3, 37-60	6.9	138
93	Childhood obsessive-compulsive disorder in the NIMH MECA study: parent versus child identification of cases. Methods for the Epidemiology of Child and Adolescent Mental Disorders.	10.9	128

(1995-2000)

92	Maternal Age at First Birth and Boys' Risk for Conduct Disorder. <i>Journal of Research on Adolescence</i> , 2000 , 10, 417-441	3.2	36	
91	Are Attention-Deficit/Hyperactivity Disorder and Oppositional Defiant Disorder Developmental Precursors to Conduct Disorder? 2000 , 431-446		60	
90	Annotation: The Development of Antisocial Behavior: An Integrative Causal Model. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 1999 , 40, 669-682	7.9	237	
89	Utility of behavior ratings by examiners during assessments of preschool children with attention-deficit/hyperactivity disorder. <i>Journal of Abnormal Child Psychology</i> , 1999 , 27, 463-72	4	34	
88	Relation of age of onset to the type and severity of child and adolescent conduct problems. <i>Journal of Abnormal Child Psychology</i> , 1999 , 27, 247-60	4	54	
87	Boys who join gangs: a prospective study of predictors of first gang entry. <i>Journal of Abnormal Child Psychology</i> , 1999 , 27, 261-76	4	110	
86	Parent and child contributions to diagnosis of mental disorder: are both informants always necessary?. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 1999 , 38, 1569-79	7.2	459	
85	Association of parental psychopathology to the comorbid disorders of boys with attention deficit-hyperactivity disorder. <i>Journal of Consulting and Clinical Psychology</i> , 1999 , 67, 881-893	6.5	41	
84	Developmental Epidemiology of the Disruptive Behavior Disorders 1999 , 23-48		92	
83	Validity of DSM-IV subtypes of conduct disorder based on age of onset. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 1998 , 37, 435-42	7.2	168	
82	Validity of DSM-IV attention-deficit/hyperactivity disorder for younger children. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 1998 , 37, 695-702	7.2	343	
81	Validity of the Age-of-Onset Criterion for ADHD: A Report From the DSM-IV Field Trials. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 1997 , 36, 1211-1221	7.2	303	
80	Psychiatric disorders associated with substance use among children and adolescents: findings from the Methods for the Epidemiology of Child and Adolescent Mental Disorders (MECA) Study. <i>Journal of Abnormal Child Psychology</i> , 1997 , 25, 121-32	4	216
